Note 1 - Plan Description

The following description of East West Resorts, LLC 401(k) Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1990, which has been most recently amended effective April 15, 2019. Effective April 26, 2018, the Plan transferred all assets from State Street Bank and Trust Company (State Street) to Fidelity Management Trust Company (Fidelity) (the "Trustees").

The Plan is available to employees of East West Resorts, LLC (the "Company") who are 18 years or older and have completed two consecutive months of service. The Plan is not available to union employees, nonresident alien employees, leased employees, or employees under written visa agreements. The entry date for eligible participants is the first day of the month following obtaining eligibility. In order to receive a year of credited service for vesting purposes, employees must complete at least 1,000 hours of service within a plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make contributions of their annual eligible compensation, designated as pretax or after-tax Roth 401(k) contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. A participant's pretax and Roth 401(k) contributions cannot exceed the maximum amounts allowed by law. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. Eligible participants are automatically enrolled to participate in the Plan at a deferral rate equal to 6 percent of eligible annual compensation, as specified in the plan document, unless they elect not to participate or have specified a different deferral percentage. Participants may change their elective deferral contributions at any time.

The Company may make a discretionary matching contribution in an amount to be determined by the employer, as well as a discretionary secondary match. Matching contributions are funded on a pay-period basis and are trued up based on participants' annual eligible compensation and deferral elections. Secondary contributions are funded on an annual basis. For the year ended December 31, 2018, the Company contributed a discretionary matching contribution of 25 percent of up to 6 percent of participants' eligible compensation to the Plan, totaling $451,664, net of forfeitures applied. No discretionary secondary match was accrued or paid.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately 100 percent vested in their voluntary contributions, rollover contributions, any income or loss thereon, and any qualified matching contributions.

Note 1 - Plan Description (Continued)

The Company's discretionary contributions, including forfeitures and the earnings or losses thereon, vest according to the following schedule:

Years of Service	Vesting Percentage
Less than 1	- %
1	40
2	70
3 or more	100

A participant's account becomes 100 percent vested upon death, attaining normal retirement age (the age of 60) while an employee, retirement due to disability, or termination of the Plan.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. Participants may have a maximum of two notes outstanding at any given time. The notes are secured by the balances in the participants' accounts and bear interest at rates that range from 4.25 to 6.25 percent, which are commensurate with local prevailing rates, as determined quarterly by the plan administrator at note origination, and mature at various dates through October 2029. Notes have a maximum term of five years, unless such note is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 15 years from the date of the note origination. Principal and interest are paid ratably through payroll deductions. Upon termination of a participant from employment, the participant's note shall continue to be payable in accordance with the provisions of the participant's note or be due in full. Notes receivables in the amount of $51,351 were deemed a distribution in the current year.

Benefit Payments

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, payment in the amount equal to the participant's vested account balance.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan into an individual retirement account. The Internal Revenue Service (IRS) has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. If the Plan is terminated for any reason, all participants become 100 percent vested, and the plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity and State Street or their affiliates. Fidelity and State Street are the Trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

The Plan provides for participant notes receivable, which are party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

At December 31, 2018 and 2017, five investments accounted for 60 and 73 percent of total investments at fair value, respectively. A significant change in the market value of these investments would significantly affect the net assets available for benefits and related investment income of the Plan.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2019, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2018, the Plan changed its custodian from State Street to Fidelity. Fidelity held the Plan's investments and participant notes receivable and executed all related transactions from April 26, 2018 to December 31, 2018. State Street held the Plans investments at December 31, 2017 and executed all related transactions from January 1, 2018 to April 26, 2018. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustees.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service. The Plan was a volume submitter plan with Transamerica Retirement Solutions (Transamerica) during the year ended December 31, 2017 and from January 1, 2018 through April 26, 2018. From April 26, 2018 through December 31, 2018, the Plan was a volume submitter plan with Fidelity. Both volume submitter plans have received favorable notification letters from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management’s own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Note 5 - Fair Value Measurements (Continued)

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

Common Collective Trust Fund

The common collective trust fund is valued at net asset value per share (NAV) (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets. There are no redemption restrictions or unfunded commitments on this investment.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2018 and 2017:

Total investments				$ 19,269,545

Note 6 - Subsequent Events

Effective April 15, 2019, the Company amended the Plan to remove the continuing eligibility requirement that employees be employed by the Company on the last day of the contribution period to be eligible to receive matching employer contributions. Additionally, an autoenrollment provision was adopted. This effects all newly eligible employees on their plan entry date and active participants who have no deferral election or have a zero election on file beginning January 1, 2019 to be enrolled at an initial 6 percent.

Risks, Uncertainties, and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

At December 31, 2018 and 2017, five investments accounted for 60 and 73 percent of total investments at fair value, respectively. A significant change in the market value of these investments would significantly affect the net assets available for benefits and related investment income of the Plan.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2019, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2018, the Plan changed its custodian from State Street to Fidelity. Fidelity held the Plan's investments and participant notes receivable and executed all related transactions from April 26, 2018 to December 31, 2018. State Street held the Plans investments at December 31, 2017 and executed all related transactions from January 1, 2018 to April 26, 2018. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustees.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service. The Plan was a volume submitter plan with Transamerica Retirement Solutions (Transamerica) during the year ended December 31, 2017 and from January 1, 2018 through April 26, 2018. From April 26, 2018 through December 31, 2018, the Plan was a volume submitter plan with Fidelity. Both volume submitter plans have received favorable notification letters from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management’s own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Note 5 - Fair Value Measurements (Continued)

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

Common Collective Trust Fund

The common collective trust fund is valued at net asset value per share (NAV) (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets. There are no redemption restrictions or unfunded commitments on this investment.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2018 and 2017:

Note 6 - Subsequent Events

Effective April 15, 2019, the Company amended the Plan to remove the continuing eligibility requirement that employees be employed by the Company on the last day of the contribution period to be eligible to receive matching employer contributions. Additionally, an autoenrollment provision was adopted. This effects all newly eligible employees on their plan entry date and active participants who have no deferral election or have a zero election on file beginning January 1, 2019 to be enrolled at an initial 6 percent.
