Independent Auditors' Report

Board of Trustees and Plan Management
IBEW Local 683 Pension Fund Pension Plan
Columbus, Ohio

We have audited the accompanying financial statements of IBEW Local 683 Pension Fund Pension Plan, which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years ended December 31, 2018 and 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of IBEW Local 683 Pension Fund Pension Plan as of December 31, 2018 and 2017, and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employees Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. These supplemental schedules have been subjected to the auditing procedures applied in the audit of the financial statements, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

IBEW Local 683 Pension Fund Pension Plan

Notes to Financial Statements
For the Years Ended December 31, 2018 and 2017

Note A - Description of Plan

The following brief description of the IBEW Local 683 Pension Fund Pension Plan ("Plan") is for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a multi-employer defined benefit pension plan established pursuant to a collective bargaining agreement between the International Brotherhood of Electrical Workers 683 and 1105 ("Locals") representing the employees, and the Columbus Division of the Central Ohio Chapter, National Electrical Contractors Association ("Association"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Normal Retirement Age

Normal retirement age is age 62 and requires 5 years of vesting service.

Funding Policy

The Plan is funded by payments from employers of the Association that employ members of the Locals. The rates paid are the result of Collective Bargaining Agreements between the Association and the Locals. The payments into the Plan have exceeded the minimum funding requirements of ERISA through December 31, 2018.

Although they have not expressed any intention of doing so, the Association and the Locals have the right under the Plan to discontinue contributions to the Plan at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Members with 5 or more years of service are entitled to monthly pension benefits beginning at normal retirement age. The Plan permits early retirement with reduced benefits at age 55 with 5 years of vesting service. Members may elect to receive their pension benefits in the form of a joint and survivor annuity. If members terminate before rendering 5 years of service, they forfeit the right to receive Plan benefits.

Death Benefits

A surviving spouse of a vested participant who dies before retirement will be entitled to receive a Qualified Pre-Retirement and Survivor Annuity, or a Pre-Retirement Death Benefit as defined in the Plan document.

If a vested member is not married and dies before retirement, their beneficiary shall be eligible to receive a monthly income in an amount equal to 70% of the Accrued Benefit as of the date of death for 60 months.

If a vested member dies after pension payments have begun, benefits will be paid in accordance with the form of benefit distribution applicable to the member as defined in the Plan document.

Disability Benefits

Active members must have 5 years of service, must be disabled for a continuous period of not less than 12 months and submit proof of a Social Security Disability Award. If the member is unable to provide proof of a Social Security Disability award and meets all other requirements, years of service becomes 10. Members who meet these eligibility requirements will receive a monthly benefit (payable in the Normal Form of Benefit payments) equal to the member's full Accrued Benefit as of the date determined to be totally and permanently disabled.

For the Years Ended December 31, 2018 and 2017

Note A - Description of Plan (continued)

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former members or their beneficiaries have been receiving for at least three years, or that members eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations.
3. All other vested benefits not insured by the PBGC.
4. All nonvested benefits.

Participants should refer to the Plan agreement for more complete information concerning vesting, benefits, and other provisions. The PBGC's benefit guarantee is contained in the Plan booklet which includes the Summary Plan Description and the Plan Document. Copies of the Plan booklet are available at the Fund Office.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year.

Employer Contributions Receivable

Contributions receivable represent employer contributions related to employee's hours worked on or prior to December 31. The balance is based on actual collections subsequent to year end.

IBEW Local 683 Pension Fund Pension Plan

Notes to Financial Statements
For the Years Ended December 31, 2018 and 2017

Note B - Summary of Significant Accounting Policies (continued)

Reciprocity Agreements

The Plan has signed reciprocity agreements with other IBEW Locals and amounts due from or due to other IBEW Locals are recorded as accounts receivable or accounts payable.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid by the Plan, as provided by the plan document. Certain expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in the net appreciation (depreciation) of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Reclassifications

Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with this year's presentation.

Subsequent Events

Subsequent events have been evaluated through September 30, 2019, which is the date the financial statements were available to be issued.

Note C - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions for the service members have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated members or their beneficiaries, (b) beneficiaries of members who have died, and (c) present members or their beneficiaries.

Benefits under the Plan are accumulated based on employer contributions made on behalf of a member and anticipated years of credited service. The accumulated plan benefits for active members are based on data for the year ending on the date of which the benefit information is presented (the valuation date). Benefits payable under all circumstances, including retirement, death, and disability, are included to the extent they are deemed attributable to member service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The plan's actuaries determined the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the possibility of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The most recent actuarial valuations were prepared by Cuni, Rust & Strenk Actuarial. The significant actuarial assumptions used in the valuations as of December 31, 2018 and 2017 were (a) life expectancy of participants (non-disabled - RP-2014 Mortality Table with Blue Collar Adjustment), (disabled - RP-2014 Disabled Retiree Mortality Table), (b) retirement age assumptions (assumed average retirement age was 60), and (c) investment return. The interest rates used to discount the obligation for each year ended December 31, 2018 and 2017 were 7.25%.

Notes to Financial Statements
For the Years Ended December 31, 2018 and 2017

Note C - Actuarial Present Value of Accumulated Plan Benefits (continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2019 and 2018. Had the valuations been performed as of December 31, there would be no material differences.

Note D - Investments and Fair Value Measurements

The following methods and assumptions were used to measure the fair value of each class of financial instruments listed below. For short-term cash investments, the cost approximates the fair value because of the short maturity of investments. Generally, the government and government agencies obligations, corporate bonds, and mutual funds fair values are estimated using quoted market prices. Investments in common and collective trusts and private real estate investment trusts are generally carried at their fair market value using net asset value per unit as reported by the investee.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are delivered principally from or corroborated by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to maximize the use of observable inputs and minimize the use of unobservable measurements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Note D - Investments and Fair Value Measurements (continued)

Money market funds: Valued at the closing price reported on an actively traded exchange and are reported as level 1.

U.S. government agencies obligations: Valued at the closing price reported on an actively traded exchange and are reported as level 1.

U.S. government obligations: Valued using pricing models maximizing the use of observable inputs for similar securities and are reported as level 2.

Corporate bonds: Valued using the pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings and are reported as level 2.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are therefore reported as level 1.

Fixed income securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings and are reported as level 2.

Asset-backed securities: Valued daily using pricing the models related to contractual cash flows or appraised values depending on the type and are reported as level 2.

The preceding method described may produce fair value calculations that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

- a) Common collective trust: the fund's objective is to as nearly as practical replicate the performance of the Standard and Poor's 500 Index, by purchase and resale of those equities which compose the S&P 500 Index. The valuation of the Fund is performed as of the close of business on each day on which the New York Stock Exchange is open for business. Units are issued and redeemed daily at net asset value per unit. Notice of intention with respect to admissions and withdrawals must be given before 3:00 PM eastern time of the valuation date. Settlement occurs on the next business day after the valuation date. There is no lockup period or other restrictions on withdrawals.
- b) Common collective trust: the trust's primary investment objectives are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates consistent with seeking to maintain required liquidity. The trust holds primarily synthetic guaranteed investment contracts. The net unit values of the classes of the Trust are determined as the close of each business day. Participant units are issued and redeemed only at the end of each day and at the net unit value at contract value, provided that the redeeming participant plans comply with the required two-year notice provision. When the market value of units is less than their contract value, participant plans may also elect to withdraw units at their market value upon 10 days' notice.

- c) Common collective trust: this represents a single investment in the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO) Housing Investment Trust (HIT) which invests in a portfolio composed primarily of mortgage backed securities, with higher yield, higher credit quality and similar interest rate risks as the Barclays Capital Aggregate Bond Index. Redemptions are permitted monthly with a 15-day notice period.
- d) Valuation of private REITS: The Plan may invest a portion of its assets in Private Real Estate Investment Trusts ("Private REITS"). The Private REITs measure their investment assets at fair value and report a NAV per share on a calendar quarter basis. In accordance with Accounting Standards Codification ("ASC") 820, the Fund has elected to apply the practical expedient and to value its investments in Private REITs at their respective NAVs at each quarter. For non-calendar quarter-end days, the Pricing Committee estimates the fair value of each Private REIT by adjusting the most recent NAV for each REIT by the change in a proprietary benchmark that the Pricing Committee has deemed to be representative of the entire Private REIT market. In the event that a price is not provided by the Private REIT, the fair valuation procedures will be followed. As of December 31, 2018, all of the Plan's investments in Private REITs were valued at the respective NAVs of the Private REITs.
- e) The INDURE REIT LLC investments solely in the INDURE Build to Core Fund, LLC which is a fund that is valued based on NAV. During the first two years following initial investment, redemption is limited to a maximum of 20% of investment balance. Follow the two-year period, redemptions are permitted daily with a one-day notice period.

Note E - Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated September 2, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note F - Concentrations

Employer Contributions

During the year ended December 31, 2018, two employers represented 57% of total employer contributions to the Plan. During the year ended December 31, 2017, two employers represented 58% of total employer contributions to the Plan.

Credit Risk

The Plan maintains its cash in bank deposit accounts at financial institutions. The balances, at times, may exceed current federally insured limits through the Federal Deposit Insurance Corporation of \$250,000, per institution.

Note G - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note H- Related Party and Party in Interest Transactions

The Plan is administered by IBEW Local 683 Fringe Benefit Fund, Inc. IBEW Local 683 Fringe Benefit Fund, Inc. is a non-profit corporation organized by the Board of Trustees of the IBEW Local 683 Profit Sharing Annuity Plan, Pension Plan, Educational Plan and Health and Welfare Plan. Administration fees for 2018 and 2017 were \$101,640. As described in note B "Administrative Expenses", the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name: I.B.E.W. Local 683 Pension Fund Pension Plan

EIN: 34-1442087

PN: 001

Rationale for Selection of Significant Actuarial Assumptions:

1. Interest Rate: Based on the Plan's target asset allocation, reflecting asset class future return expectations as determined by the Plan's investment consultant and publically available inflation expectations, anticipated risk premiums, and associated long-term capital market assumptions.
2. Mortality Rates: RP-2014 table used as base rates. Blue Collar adjustment used to reflect expected workforce mortality experience. RP-2014 Disabled Retiree table used to reflect expected disabled mortality experience. Both RP-2014 tables are adjusted to base year 2006 to reflect the mortality experience used to develop the RP-2014 table and for expected generational mortality improvement. Other adjustments are based on the Plan's most recent experience study, Society of Actuaries mortality studies, and expected generational mortality improvement from 2006 base year using Scale MP-2017.
3. Retirement Rates: Based on the Plan's most recent experience study.
4. Hours Worked: Based on prior year hours worked and adjusted for anticipated changes in future hours worked.
5. Termination/Disability Rates: Based on the Plan's most recent experience study.
6. Payment Form Election: Based on the Plan's most recent experience study.

Plan Name: I.B.E.W. Local 683 Pension Fund Pension Plan

EIN: 34-1442087

PN: 001

Rationale for Selection of Significant Actuarial Assumptions:

1. Interest Rate: Based on the Plan's target asset allocation, reflecting asset class future return expectations as determined by the Plan's investment consultant and publically available inflation expectations, anticipated risk premiums, and associated long-term capital market assumptions.
2. Mortality Rates: RP-2014 table used as base rates. Blue Collar adjustment used to reflect expected workforce mortality experience. RP-2014 Disabled Retiree table used to reflect expected disabled mortality experience. Both RP-2014 tables are adjusted to base year 2006 to reflect the mortality experience used to develop the RP-2014 table and for expected generational mortality improvement. Other adjustments are based on the Plan's most recent experience study, Society of Actuaries mortality studies, and expected generational mortality improvement from 2006 base year using Scale MP-2017.
3. Retirement Rates: Based on the Plan's most recent experience study.
4. Hours Worked: Based on prior years worked and adjusted for anticipated changes in future hours worked.
5. Termination/Disability Rates: Based on the Plan's most recent experience study.
6. Payment Form Election: Based on the Plan's most recent experience study.
