INSITE SECURITY, INC. 401(k) PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

NOTE 1- DESCRIPTION OF THE PLAN:

General. Insite Security, Inc. (the "Company") adopted the Plan on January 1, 2009 as a prototype non--standardized 401(k) profit sharing plan. The Plan is a defined contribution plan covering all employees immediately of the Company who are twenty-one years of age or older. The Company's management serves as sponsor and the Plan's custodian is Mid-Atlantic Trust Company ("the Custodian"). The Custodian has certified the accuracy of the investment transactions, recognition of income , expenses and assets held at December 31, 2018. Paychex acts as the Plan's third party administrator (the "TPA). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions. Each pay period, participants may contribute a portion of their compensation to the Plan ranging from 0% to 92% in 1% increments, but participants cannot exceed the maximum limits set by the Internal Revenue Service ($18,500 for participants under 50 years of age, up to $24,500 for participants older than 50 years of age). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a series of varied risk mutual funds as investment options for participants. The Company is allowed to make additional discretionary contributions. In 2018, the Company contributed $86,325 to the Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contribution, if any, and (b) Plan earnings, and charged with an allocation of administrative expenses paid by the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions in addition to actual earnings thereon. Vesting in Company matching contributions in addition to actual earnings thereon is based on years of service. A participant is 100% vested when they attain normal retirement age. Prior to normal retirement age, a participant's interest in the contributions of the employer becomes vested 20% after two years of service, increasing 20% each succeeding year until fully vested after six years of service.

Payment of Benefits. Upon death, disability, retirement, or termination of service, a participant may receive a distribution in an amount equal to the vested value of his or her account.

Investment Options. Upon enrollment in the Plan, a participant directs the investment of his or her contributions and Company contributions into various mutual funds.

Administrative Expenses. Administrative expenses, except for certain custodial expenses of the Plan are paid by the Company or paid by forfeiture credits.

Forfeited Accounts. Forfeitures of employer contributions may occur if a participant terminates employment prior to the full vesting period. Forfeitures are (a) used to reduce employer contributions or (b) to pay reasonable Plan administrative expenses. Forfeitures are to be applied in the year after they occur. At December 31, 2018 total forfeited amounts from non-vested accounts were approximately $5,800.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting:
The financial statements of the plan are prepared in accordance with accounting principles generally accepted in the United States of America on the accrual basis of accounting. Benefits are recorded on a when paid. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates:
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that could affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition:
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Standards:

The Plan adopted ASU 2015-12. *Plan Accounting: Defined Benefit Pension Plans (Topic 960). Defined Contribution Pension Plans (Topic 962). Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts. (Part II) Plan Investment Disclosures. (Part III) Measurement Date Practical Expedient.* In accordance with the standard the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures was eliminated. Contract value is the only required measure for fully benefit-responsive investment contracts. The requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type was also eliminated. The Plan will continue to disaggregate investments that are measured using fair value by general type: however, the Plan is no longer required to disaggregate investments by nature, characteristics, and risks. The relevant sections of the standard were applied retrospectively.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Payment of Benefits:
Benefit payments are recorded when paid.

Risks and Uncertainties:

The Plan provides for various investment options in common and collective trust funds which invest in stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and statement of changes in net assets available for benefits.

Income Taxes:

The Plan is a Prototype Non-Standardized Profit-Sharing Plan with CODA qualified plan as described in Section 401 of the Internal Revenue Code and is therefore exempt from federal and state income taxes. Income generated by activities that would be considered unrelated to the Plan's purpose would be subject to tax which, if incurred, would be recognized as a current expense. No such tax has been recognized as of December 31, 2018.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by jurisdictions.

Fair Value Measurements:

Generally accepted accounting principles provide a framework for measuring fair value. That framework provided a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities [Level 1 measurements], and the lowest priority to unobservable inputs [Level 3 measurements].

Assets and liabilities that are required to be recorded at fair value in the statement of net assets available for benefits are categorized based on the inputs to valuation techniques as follows:

Level 1. These are assets and liabilities where values are based on unadjusted quoted prices for identical assets and liabilities in an active market, the Plan has the ability to access.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Level 2. These are assets and liabilities where values are based on the following inputs:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs which are derived principally from or corroborated by observable market data by correlation or other means.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Changes in valuation techniques may result in transfers in or out of an investment's assigned level within the hierarchy. Transfers between fair value hierarchy levels are recognized at the end of the period. The aggregate values by input level, as of period end, for the Plan's investments in securities and other financial instruments are included within Note 3.

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017 except as noted above in connection with the application of the new accounting standards.

Common/Collective Trust Funds and the Short-Term Investment Fund are valued at the net asset value (NAV) of units held by the Plan at year end. Management believes that the funds will be sold at amounts that do not differ materially from the NAV of shares haled. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 – FAIR VALUE DISCLOSURE:

The plan's assets recorded at fair value have been categorized based upon the following:

Assets Measured at Fair Value on a Recurring Basis as of December 31, 2018

Description	Total
Investments measured at NAV, practical expedient	$ 1,613,543
	$ 1,613,543

Assets Measured at Fair Value on a Recurring Basis as of December 31, 2017

Description	Total
Investments measured at NAV, practical expedient	$ 1,470,467
	$ 1,470,467

Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits. See Note 2 for a discussion of the Plan's accounting policies.

The following table summarizes investment for which fair value is measured using the net asset value per share practical expedient:

Investments Measured New Asset Value, Practical Expedient as of December 31, 2018

Description	Total	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common/collective Trust funds	$ 0	Daily	0-5 Days
Short-term investment fund	$ 1,613,543	Daily	0-5 Days
	$ 1,613,543		

Investment Measured at New Asset Value, Practical Expedient as of December 31, 2017

Description	Total	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common/collective Trust funds	$ 0	Daily	0-5 Days
Short-term investment fund	$ 1,470,467	Daily	0-5 Days
	$ 1,470,467		

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS:

The TPA receives fees for various administrative services provided during the year. Fees paid using Plan assets during the year ended December 31, 2018 for these services totaled $1,257.

NOTE 5 - PLAN TERMINATION:

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 - NET ASSETS AVAILABLE FOR BENEFITS:

Beneft payments to participants are recorded when paid. Of the $1,638,332 net assets available for benefits as of December 31, 2018, there were no amounts allocated to participants who have elected to withdraw from the plan.

NOTE 8 - SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through October 3, 2019, the date which the financial statements were available to be issued. No significant subsequent events have been identified by management.
