Independent Auditor's Report

To the Plan Administrator
Ryder System, Inc. Retirement Plan
Miami, Florida

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Ryder System, Inc. Retirement Plan (the Plan), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of New York, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2018 and 2017, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month September
- Interest rate basis 3-segment rates

Interest rates:

3-Segment Rates	Reflecting Stabilization	Not Reflecting Stabilization
First segment rate	3.92%	1.75%
Second segment rate	5.52%	3.76%
Third segment rate	6.29%	4.66%
Effective interest rate	5.66%	4.01%

Prior plan year PPA effective interest rate reflecting stabilized segment rate corridors was 5.86% and was 4.05% not reflecting interest rate stabilization.

Assumed Cost of Living Adjustments

M & G Retirees: 3.00%.

Administrative Expenses

The amount included this year for administrative expenses is \$11,400,000 (based on the expected administrative expenses to be paid from the plan during 2018).

Compensation Increases

For purposes of determining the target normal cost and the maximum deductible contribution, compensation is assumed to increase by 3.00% per annum.

Future Increases in Social Security

Not applicable.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

Mortality

- For non-disabled participants: Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2033 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2025 using Scale AA).

Ryder has determined that reflecting the updated mortality tables provided in §1.430(h)(3)-1(a) for the 2018 plan year would result in an adverse business impact that is greater than de minimis, and will not reflect the updated tables until the 2019 plan year as permitted by §1.430(h)(3)-1(f)(2).

- For disabled participants: Mortality in accordance with Revenue Ruling 96-7; no mortality improvements beyond the valuation date are reflected.

Retirement

The rates at which participants are assumed to retire by age are shown below:

Age	Rate of Retirement
55-59	6%
60	10%
61	15%
62-64	20%
65-68	30%
69	20%

55	0.845%
60	1.204%

Assumed Age of Benefit Commencement for Terminated Vested Participants Eligible for Early Retirement

Age 60

Termination Rates (not due to disability, retirement or mortality)

The rates at which participants are assumed to leave the company by age are shown below:

Age	Grandfathered - Termination Rates	Non-Grandfathered - Termination Rates
20 – 24	10.0%	30.0%
25 – 29	10.0%	11.0%
30 – 34	8.0%	11.0%
35 – 39	4.0%	9.0%
40 – 44	4.0%	7.5%
45 – 49	4.0%	7.5%
50 – 54	4.0%	7.5%
55 – 59	4.0%	10.0%
60 - 64	4.0%	18.0%
65 and older	0.0%	0.0%

Form of Payment

For valuation purposes, 50% of participants who terminate or retire are assumed to elect the normal form of payment for a single participant, which is a single life annuity and 50% are assumed to elect an actuarially-reduced joint and 50% survivor annuity.

Benefit commencement date:

- | | |
|-------------------------------|---|
| ■ Preretirement death benefit | Participant's earliest retirement date allowed under the plan |
| ■ Deferred vested benefit | The later of age 65 or termination of employment |
| ■ Disability benefit | Upon disablement |
| ■ Retirement benefit | Upon termination of employment |

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 60% of eligible participants are assumed to be married. Husbands are assumed to be three years older than wives.

New or Rehired Employees

It was assumed that there will be no new or rehired employees.

Valuation Compensation

For participants not eligible for a management bonus or a commission, compensation assumed on the valuation date is the greater of (1) the prior year's pension eligible pay increased by one-half year's assumed compensation increase and (2) the current rate of pay.

For participants eligible for a management bonus, compensation assumed on the valuation date is the current rate of pay plus target bonus for the year multiplied by the fraction of the prior year's total pay that was not paid as deferred compensation.

For commissioned participants, compensation assumed on the valuation date is the greater of (1) the current rate of pay and (2) the average of the two most recent years of pension eligible pay increased by one-half year's assumed compensation increase.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2018 is used to determine the maximum deductible contribution for the tax year ending December 31, 2018.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.40% for 2017 and 5.85% for 2016 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	The benefits applicable to participants involved in the Aviall spin-off who were not vested as of the spin-off date (12/7/1993) are considered immaterial.

Data Sources

Employee data and inactive participant data, as of the valuation date, were supplied electronically by Fidelity. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Assumed return for asset smoothing	The assumed return of 5.40% used for asset smoothing is the expected return on assets assumption chosen by Ryder for the 2018 fiscal year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.
Compensation increase	Ryder System, Inc. selected a compensation increase assumption of 3.00%. This was updated at December 31, 2013 from 4.00%. The 3.00% assumption is validated each year by Ryder.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.
Termination	These rates are based on a 5-year experience study, for the period January 1, 2010 through January 1, 2015, completed in November 2015.
Disability	There is not sufficient disability incidence experience to perform a study at this time. Annual consideration is given of whether any conditions have changed that would be expected to produce different results in the future. Ryder has elected a standard table which they believe is appropriate for their population.

SCHEDULE SB ATTACHMENTS

Retirement

The retirement rates are based on a 5-year experience study, for the period January 1, 2010 through January 1 2015, completed in November 2015. The assumed age of benefit commencement was also reviewed in this recent experience and age 60 was found to still be valid.

Marriage

The marriage assumption was reviewed in January 2016. Our analysis showed 66% of participants are married based on data collected from Ryder in January 2016 which may or may not reflect updates to marital status that have occurred after hire date. Based on this data, a 60% marriage assumption continues to be reasonable. Annual consideration is given of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes, including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

Change in methods since prior valuation

None.

Schedule SB, Part V Summary of Plan Provisions

Effective Date and Most Recent Amendment

The plan was originally effective January 1, 1960. The plan was amended and restated as of January 1, 2007. The restatement included amendments effective through 2009. The most recent amendment to the plan was effective January 1, 2017 (actuarial equivalence mortality assumption update).

Plan Year

The twelve-month period ending December 31.

General Note

The plan was amended as of January 1, 2008 to reflect the freezing of the January 1, 2008 accrued benefits for all non-grandfathered participants. Only union eligible participants will be permitted to enter the plan after January 1, 2008.

Plan provisions outlined in this report pertain to all participants except those participants in the Ryder Automotive Operations, Inc. (RAOI) Pension Plan at the time of its merger into the RSI Retirement Plan on July 1, 1997. Former RAOI Pension Plan participants have a frozen plan benefit as of September 30, 1997 (date of sale to Allied) and are covered by the benefit provisions of the RAOI Pension Plan at the time of the merger.

Coverage and Participation

Earlier of the January 1st or July 1st on or after attainment of age 21 and completion of (1) year of service (in which the eligible employee works and/or receives pay for at least 1,000 hours). Employees covered by collectively bargained pension plans, employees of non-participating affiliates, leased employees, non-resident aliens, consultants, certain employees covered by another retirement plan, and independent contractors or employees who elect to receive higher pay in lieu of employee benefits are excluded.

Non-union employees who have not satisfied the above participation requirements on or before January 1, 2008 are excluded from the plan.

SCHEDULE SB ATTACHMENTS

Grandfathered Participant

Plan participants as of January 1, 2008 who attain the "rule of 65" (age plus service on January 1, 2008 is greater than or equal to 65) or who have attained 20 years of service. This group was permitted to make a one-time election to remain in the retirement plan and receive continued accruals or opt out and earn benefits under an alternate plan.

Credited Service (Vesting Service)

One year of Credited Service (for vesting purposes) is earned for each calendar year in which an employee earns 1,000 or more hours of service.

Pension Accrual Years

Period of time measured in years and months for which a participant actually receives annual benefit accruals in the RSI Retirement Plan.

Continuous Service

Period of an employee's continuous uninterrupted employment with RSI or predecessor business of RSI, as applicable.

Compensation

Total compensation in a calendar year including bonuses, overtime pay, and compensation deferred under salary reduction agreements or cash or deferred arrangements relating to the employer's qualified plans. All forms of imputed income, dividends paid on restricted stock rights, and all types of company perquisites are excluded. Compensation does not exceed the IRC Section 401(a)(17) annual limits.

Normal Retirement Benefit

Normal Retirement Age: 65

Benefit Formula:

Annual benefit is the greater of \$1,800 and the sum of 1, 2, and 3, where:

1. is the sum of the participant's annual benefit accruals from date of participation through December 31, 1980, and

SCHEDULE SB ATTACHMENTS

2. is the sum of the participant's annual benefit accruals from January 1, 1981 until December 31, 1988, where an annual benefit accrual is:
 - i. for employees becoming participants after January 1, 1977, 1% of the first \$10,800 of Compensation plus 2% of the portion of Compensation which exceeds \$10,800, or
 - ii. for employees who became participants on or before January 1, 1977, the greater of (i) above or 0.75% of the first \$4,800 of Compensation plus 1.50% of the portion of Compensation which exceeds \$4,800, and
3. is the sum of the participant's annual benefit accruals from January 1, 1989 through December 31, 2007, unless the participant is a Grandfathered Participant. Grandfathered Participants will receive annual benefit accruals until termination of employment. An annual benefit accrual is 1.45% of the first \$15,600 of Compensation plus 1.85% of the portion of Compensation which exceeds \$15,600.

Ad hoc benefit improvements have been made for active employees and retired pensioners, most recently as of January 1, 1991, January 1, 1995 and January 1, 2000.

Under the terms of the benefit improvement effective January 1, 2000, the minimum benefit accrual for active employee participants as of January 1, 1999 who became participants on or prior to January 1, 1994 and who had at least 5 Pension Accrual Years as of December 31, 1998 was determined by the formula $(a + b) \times c$, where:

- a. is 1.3% of 5-year average Compensation as of December 31, 1998 up to \$33,000
- b. is 1.7% of 5-year average Compensation as of December 31, 1998 in excess of \$33,000, and
- c. is Pension Accrual Years through December 31, 1998.

Effective January 1, 2000 most retired pensioners received a pension escalator adjustment of 1.5% per year of retirement, to a maximum of 6%. Pensioners who retired after January 1, 1995 were eligible for a formula adjustment if it resulted in a higher benefit than the pension escalator adjustment.

Effective January 1, 1997, a Voluntary Retirement Program was implemented that provided enhanced benefits (3 additional years of accruals and 3 years of age) for eligible plan participants (age 52 and 7 years of Continuous Service) who elected the program. The program also provided a supplemental monthly benefit of \$500 payable until age 62.

Normal Form of Benefit: Single life annuity. Automatic payment form for married participants is an actuarially equivalent joint and 50% survivor annuity.

Late Retirement

Eligibility: Retirement after age 65.

Independent Auditor's Report

To the Plan Administrator
Ryder System, Inc. Retirement Plan
Miami, Florida

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Ryder System, Inc. Retirement Plan (the Plan), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of New York, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2018 and 2017, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Ryder System, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and amendments for a more complete description of the Plan.

General

The Plan is a defined-benefit pension plan which provides employees of Ryder System, Inc. (the "Company") and participating subsidiaries with retirement benefits based generally upon service rendered and earnings.

Effective December 31, 2007, the Plan was frozen for participants who did not meet certain grandfathering criteria. As a result, these employees ceased accruing further benefits under the Plan after December 31, 2007. All retirement benefits earned as of December 31, 2007 are fully preserved and will be paid in accordance with the Plan and legal requirements. Eligibility criteria for grandfathered employees are based on a minimum of 65 points (the sum of the participants' age and years of service as of December 31, 2007). In addition, participants that have at least 20 years of credited service as of December 31, 2007 will also be grandfathered regardless of their age. Employees hired after January 1, 2007 are not eligible to participate in the Plan. Prior to January 1, 2007, all eligible employees were automatically members of the Plan if they had completed one year of credited service (1,000 hour minimum level of service) and were at least twenty-one years old.

The Ryder System, Inc. Retirement Committee administers the Plan. The Plan's trustee is Bank of New York Mellon, N.A. (the "Trustee"). The Plan's recordkeeper is Fidelity Investments Institutional Operations Company.

Benefits

Upon normal retirement at age 65, a participant, or in certain cases the participant's beneficiary, is entitled to monthly benefit payments. Each year's benefit is equal to the aggregate of annual accruals which for any particular year are based upon a percentage of the member's earnings for that year subject to certain limitations. The Plan provides provisions for early retirement, delayed retirement, termination, disability, and death benefits. Participants become fully vested upon completing five years of credited service.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's interest in the Ryder System, Inc. Master Trust (the "Master Trust") is stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of how the underlying investments held in the Master Trust are valued. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions to the Plan are determined by the Plan's actuary and recorded on an annual basis when due, as needed.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

On November 15, 2017, Management executed a \$71 million annuity contract with Banner Life Insurance Company. This annuity contract included 3,516 retirees with monthly benefit payments of \$240 or less per month.

The PBO liability associated with this group of retirees was \$67 million.

Administrative Expenses

Plan administrative expenses, consisting primarily of actuarial fees, Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) premiums and third-party administration fees, are paid from plan assets. See Note 9, "Related Party and Party-in-Interest Transactions," for information on certain administrative costs reimbursed to the Company by the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments and lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of deceased participants, and (c) active participants or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Notes to Financial Statements
December 31, 2018 and 2017

The significant actuarial assumptions used in the valuations as of December 31, were as follows:

	<u>2018</u>	<u>2017</u>
Investment return	5.40%	5.40%
Average retirement age	62	62
Mortality – healthy lives	RP-2014 employee and annuitant mortality tables with MP-2014 backed out to 2006, and then projected forward from 2006 using generational projection Scale MP-2018.	RP-2014 employee and annuitant mortality tables with MP-2014 backed out to 2006, with rates increased by 8%, and then projected forward from 2006 using generational projection Scale MP-2017.
Mortality – disabled lives	RP-2014 disabled mortality tables with MP-2014 backed out to 2006, and then projected forward from 2006 using generational projection Scale MP-2018.	RP-2014 disabled mortality tables with MP-2014 backed out to 2006, with rates increased by 8%, and then projected forward from 2006 using generational projection Scale MP-2017.
Employee turnover rate	Based on the Company's experience.	Based on the Company's experience.

The change in the mortality table for 2018 increased the accumulated plan benefits by approximately \$24 million. This change impacts all plan participants.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

Risk and Uncertainties

The Plan's invested assets ultimately consist of equities, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the interest in the Master Trust and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recently Issued Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting, which will require an employee benefit plan to report an interest in a master trust and the change in the value of that interest as separate line items on the statement of net assets available for benefits and the statement of changes in net assets available for benefits, respectively. In addition, a plan will have to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. Investments measured at fair value will have to be presented by general type of investment. The standard, which will be applied retrospectively, is effective for fiscal years beginning after December 15, 2018, with early adoption is permitted. We are currently evaluating the impact of the adoption of this standard on our statements of net assets available for plan benefits and statements of changes in net assets available for plan benefits.

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework- Changes to the Disclosure Requirements for Fair Value Measurement which amends ASC 820 to add, remove, and modify fair value measurement disclosure requirements. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. The manner of adoption varies, with certain provisions applied on retrospectively, while others applied prospectively. We are currently evaluating the impact of the adoption of this standard on our financial statements of net assets available for plan benefits and statements of changes in net assets available for plan benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued.

3. Funding Policy

The Company has agreed to make contributions to the Plan sufficient to provide the Plan with assets with which to pay benefits to Plan participants. The Company has met the minimum funding requirements under the Pension Protection Act of 2006 ("PPA"). Contributions are determined using the traditional unit credit cost method, which is in accordance with PPA rules and regulations.

Retirement Plan
Notes to Financial Statements
December 31, 2018 and 2017

4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would have been payable under the Plan provisions in effect at any time during the five years preceding the termination.
- c. Other vested benefits insured by the PBGC up to the applicable limitation (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2018 and 2017, the PBGC statutory ceiling is \$5,420 per month and \$5,369 per month, respectively. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than in a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

6. Interest in Master Trust

The Plan's investments are in a Master Trust, which was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on average yearly balances in the proportion to the Plan's relative value within the Master Trust. At both December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was approximately 99.98%.

The total net assets of the Master Trust are as follows at December 31:

	<u>2018</u>	<u>2017</u>
Investments at fair value:		
Common/Collective Trust	\$ 1,046,162,300	\$ 1,196,072,283

7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets
- b. Quoted prices for identical or similar assets or liabilities in inactive markets
- c. Inputs other than quoted prices that are observable for the asset or liability
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the assets or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Ryder System, Inc.
Retirement Plan
Notes to Financial Statements
December 31, 2018 and 2017

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies as of December 31, 2018 and 2017.

Common Collective Trust: These include index common collective trusts that track U.S. and foreign indices. The common collective trusts were valued at the unit prices established by the funds' sponsors based on the fair value of the assets underlying the funds. Since the units of the funds are not actively traded, the fair value measurements have been classified within Level 2 of the fair value hierarchy.

Equity securities: These investments include common and preferred stocks. Fair values for the common and preferred stocks are based on quoted prices in active markets and are therefore classified within Level 1 of the fair value hierarchy.

Corporate bonds: These investments include investment grade bonds of U.S. and foreign issuers from diverse industries and other fixed income investments (primarily mortgage-backed securities). These investments were valued using third-party pricing services. These sources determine prices utilizing market income models which factor in, where applicable, transactions of similar assets in active markets, transactions of identical assets in infrequent markets, interest rates, bond or credit default swap spreads and volatility. Since these investments are not actively traded, the fair value measurements have been classified within Level 2 of the fair value hierarchy.

Private equity and hedge funds: These investments represent limited partnership interests in private equity and hedge funds. The partnership interests are valued by the general partners based on the underlying assets in each fund. These investments are measured at net asset value as the practical expedient.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. Federal Income Tax Status

The Plan has obtained a favorable tax determination letter, dated May 15, 2017, from the Internal Revenue Service indicating that it meets all of the requirements of a qualified pension plan. Since this date there have been amendments to the Plan, but the Plan sponsor believes that the Plan continues to qualify and operate in accordance with applicable provisions of the Internal Revenue Code.

Generally accepted accounting principles in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. As of October 8, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions generally for up to three years.

9. Related Party and Party-in-Interest Transactions

The Plan has an interest in the Master Trust, which holds shares of commingled funds managed by Mellon Capital Management, which is affiliated with the Plan's Trustee. The Master Trust has recorded net realized (losses) gains on sales and net unrealized (depreciation) appreciation in value of these securities. Accordingly, these transactions qualify as party-in-interest. Fees incurred by the Plan to Mellon Capital Management for investment management amounted to \$149,546 and \$136,421 for the year ended December 31, 2018 and 2017, respectively.

The Plan reimburses the Company for certain administrative costs. The Plan records these administrative costs as expenses. Accordingly, these transactions qualify as a party-in-interest. Fees incurred by the Plan to the Company amounted to approximately \$220,398 and \$213,021 in 2018 and 2017, respectively.

10. Department of Labor Audit

The Department of Labor (the "DOL") selected the Ryder System, Inc. Retirement Plan for an investigation pursuant to ERISA Section 504. The investigation commenced in April 2018, and covers years 2015 through the present. The audit is presently ongoing.
