The Plan is subject ERISA.

Change in Custodians and plan restatement - On November 1, 2017, the Company changed custodians and transferred all assets from John Hancock Life Insurance Company of New York to Hand Benefits & Trust Company (see Note 3). In addition, effective January 1, 2018, the Company adopted Benefit Plans Administrative Services LLC Volume Submitter Profit Sharing Plan with Coda 401(k) Plan Adoption Agreement and Basic Plan Document. Furthermore, effective January 1, 2018, the Plan requires that the Company make Safe Harbor non-discretionary matching contributions; see contributions below.

Contributions - Participants are allowed to contribute up to 100% of compensation, as defined by the Plan and subject to Internal Revenue Code limitations. Participants may also rollover amounts from other qualified plans. Participants direct their contributions into various investment options offered by the Plan. As discussed above, effective January 1, 2018, the Plan requires the Company to make Safe Harbor matching contributions. The Safe Harbor match is calculated as 100% of the participant's elective deferrals that do not exceed 3% of compensation, plus 50% of the participant's elective deferrals that exceed 3% of compensation but do not exceed 5% of the participant's compensation. Prior to 2018, the Company may make discretionary matching contributions. The Company's Safe Harbor matching contributions amounted to $110,718, of which the Company paid $98,650 of these contributions and used forfeited accounts for the remainder, as explained below, for the year ended December 31, 2018. The Company's discretionary matching contributions amounted to $58,165 for the year ended December 31, 2017. The Company may also make discretionary profit sharing contributions as determined by the Board of Directors of the Company. There were no discretionary profit sharing contributions for the years ended December 31, 2018 and 2017.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, the Company's matching contributions and plan earnings. Allocations are based on participant compensation or account balances, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants can access their account information via Hand Benefits & Trust Company's website, where they have the ability to change their elective deferrals and investment options as well as apply for participant notes receivable and request distributions.

Vesting - Participants are always 100% vested in their elective salary deferral and the Company's Safe Harbor matching contributions plus actual earnings thereon. Vesting in any of the Company's discretionary contributions portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant vests at a rate of 20% after two years of service and 20% each year thereafter with full vesting upon completion of six years of service.

Forfeitures - Forfeited non-vested accounts totaled $10 and $9,984 at December 31, 2018 and 2017, respectively. These accounts can be used to reduce future employer contributions to the Plan. The Company used forfeited accounts of $12,068 to reduce company matching contributions for the year ended December 31, 2018. The Company did not use any forfeited accounts to reduce company matching contributions for the year ended December 31, 2017.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These notes will bear interest at the highest prime rate published in the "Money Rates" section of The Wall Street Journal on the last business day of the calendar month prior to the commencement of the billing cycle in which a loan was initiated. Interest rates ranged from 5.25% to 6.25%. The notes are collateralized by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions. The notes receivable and interest thereon shall be repaid over a period not to exceed five years, unless the note is used to acquire a personal residence. The plan administrator will consider a note in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment. Any notes that are in default as defined by the plan document are reported as either deemed distributions or benefit payments (see Note 2).

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not continued to make payments on the outstanding notes as required under the notes receivable from participants program. There were no deemed distributions for the year ended December 31, 2018. Deemed distributions were $8,516 for the year ended December 31, 2017.

Payment of benefits - Upon termination of service, a participant may elect to receive a lump sum amount equal to the vested value of their account.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment securities in any combination of mutual funds and common collective trusts. Investment securities are exposed to various risks, such as interest rate, market and credit. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment valuation and income recognition - Investments held by the Plan are stated at fair value (see Note 4) with the exception of common collective trust funds, which are valued at the net asset value as a practical expedient as reported by the sponsor of the fund; see below. All investment values have been determined and certified by Hand Benefits & Trust Company, the Custodian of the Plan (see Note 3). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

The common collective trust funds of Goldman Sacs Stable Value Fund are funds that are made up of various benefit responsive investment funds ("Stable Value Contracts"). The common collective trust funds of ClearBridge Large Cap Growth Fund are funds that are made up of various benefit responsive investment funds ("Large Cap Growth Fund"). The common collective trust funds of HB&T BlackRock Equity Index Funds are funds that are made up of various benefit responsive investment funds ("Blackrock Equity Index Fund"). Common collective trust funds are valued at net asset value (NAV) per share, which serves as a practical expedient to estimate its fair value. The NAV of each common collective trust fund is not publicly quoted in the active markets and is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of any collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no redemption restrictions or unfunded commitments as of December 31, 2018. Investments measured at NAV per share used as a practical expedient are not required to be classified in the fair value hierarchy.

Economic dependency and concentration of credit risk - Approximately 66% of the Plan's investments are invested in BlackRock Lifepath Index mutual funds and approximately 12% is invested in American Funds as of December 31, 2018. Approximately 74% of the Plan's investments were invested with The Vanguard Group as of December 31, 2017. Accordingly, the Plan is dependent upon the financial condition of these entities.

Administrative costs - Administrative costs, including legal and accounting costs, are the obligation of the Plan; however, the Company has paid or reimbursed the Plan for such expenses. Costs of maintaining participant accounts and managing the investments are paid directly out of plan assets (see Note 6). Due to the change in service providers and in an effort to enhance the transparency and visibility of administrative fees incurred by the Plan, the Hand Benefits & Trust Company's method of charging fees to the Plan is by investing the funds in investment options in share classes without "revenue sharing" among various service providers. As a result, any administrative fees, with the exception of those fees paid to fund managers and/or investment custodians, are now presented within administrative expenses in the accompanying statements of changes in net assets available for benefits. Prior to this change, certain administrative costs of the Plan were netted in net appreciation (depreciation) in investments (see Note 6).

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed ninety days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable becomes material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance.

Payment of benefits - Benefits are recorded as paid.

Excess contributions payable - Excess contributions payable represent excess employee salary deferral contributions and excess employer matching contributions owed to certain participants in order to satisfy the relevant nondiscrimination provisions of the Plan. The excess contributions ("Corrective distributions") are recorded in the financial statements when received and reported on Form 5500 when paid. There were no excess contributions payable for the year ended December 31, 2018. There were $15,891 of excess contributions payable for the year ended December 31, 2017. Corrective distributions are returned to the effected participants subsequent to year end, net of any investment earnings thereon (see Note 7).

Subsequent events - Management has evaluated subsequent events through September 14, 2019, the date which the financial statements were available for issue.

Note 3 - Information certified by the Plan's Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations and Disclosure under ERISA. Accordingly, Hand Benefits & Trust Company, the Plan's Custodian as of December 31, 2018 and 2017, and for the period November 1, 2017 through December 31, 2018, and John Hancock Life Insurance Company of New York, the Plan's Custodian as of October 31, 2017, and for the period January 1, 2017 through October 31, 2017, have certified that the investments and investment income included in the accompanying financial statements as of and for the years ended December 31, 2018 and 2017, and supplemental schedule as of December 31, 2018, are complete and accurate. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Fair value measurements

The Financial Accounting Standards Board has published authoritative guidance on fair value measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies - The investment portfolios consist of mutual funds, which are valued at the closing price reported on the active market on which the individual security is traded (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no changes in valuation methodologies for the years ended December 31, 2018 and 2017.

The following tables set forth by Level, within the fair value hierarchy, the Plan's assets at fair value as of:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 2,460,925	$ -	$ -	$ 2,460,925

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 2,701,123	$ -	$ -	$ 2,701,123

Note 5 - Tax status

Effective January 1, 2018, the Company adopted Benefit Plans Administrative Services LLC Volume Submitter Profit Sharing Plan with Coda 401(k) Plan Adoption Agreement and Basic Plan Document. The Internal Revenue Service has ruled that this prototype is designed in accordance with applicable sections of the Internal Revenue Code. The management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as tax-exempt.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the years ended December 31, 2018 or 2017. The Plan is no longer subject to regulatory examinations by tax authorities for the closed tax years before 2015.

Note 6 - Party-in-interest transactions

John Hancock Life Insurance Company of New York provided investment custodial services, and PKY Associates provided third party administrative services, for the period January 1, 2017 through October 31, 2017. Hand Benefits & Trust Company, a Benefit Plans Administrative Services (BPAS) company, provided investment custodial services and provided third party administrative services as of December 31, 2018 and 2017, and for the period November 1, 2017 through December 31, 2018. These transactions qualify as party-in-interest transactions. Custodial service fees paid to John Hancock Life Insurance Company by the Plan were $6,603 for the year ended December 31, 2017. The Plan paid $1,620 of third party administrative fees to PKY Associates for the year ended December 31, 2017. Administrative fees paid to Hand Benefit and Trust Company by the Plan was $19,570 and $4,562 for the years ended December 31, 2018 and 2017, respectively. In addition, advisory fees of $12,200 were paid to Genesee Capital advisors for the year ended December 31, 2018.

Note 7 - Reconciliation of the financial statements to Form 5500

Corrective distributions are recorded in the financial statements in the plan year that the excess contributions are received. The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

Net assets available for benefits per Form 5500, Schedule H, Part I, Line 1l	$ 2,896,531	$ 2,946,374

The following is a reconciliation of corrective distributions per the financial statements to Form 5500:

	Year ended December 31,
