401(K) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2018 and 2017

NOTE 1 – PLAN DESCRIPTION

The following description of the EDAC Technologies Corporation 401(K) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established by EDAC Technologies Corporation (“Company”/ “Employer”) under the provisions of Section 401(a) of the Internal Revenue Code (“IRC”) covering all employees of the Company who elect to participate and have completed three months of service and obtained the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Effective January 18, 2018, the Plan merged with the Flanagan Industries 401(k) Plan with the Plan being the surviving plan.

Contributions

Each year, participants may contribute up to 60 percent of pretax annual compensation, as allowed in the Plan and IRC. Current tax law limits each employee’s annual pretax deferral to \$18,500, plus an additional \$6,000 for participants over 50 years old for 2018. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby, all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated fund until changed by the participant. The Company may make a discretionary contribution at the option of the Company’s board of directors. Effective May 10, 2015, the Company’s board of directors elected to contribute 50 percent of the first 4 percent deferred by an employee. Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, as well as allocations of the Company’s discretionary contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s discretionary contribution portion of their accounts is based on years of continuous service. After one year of service, as defined, a participant is 33 percent vested. After two years of service, as defined, a participant is 67 percent vested. A participant is fully vested in Company’s discretionary contributions after three years of credited service.

NOTE 1 – PLAN DESCRIPTION (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Loans are repaid over a period not to exceed five years, except when the proceeds are used for the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions or by lump sum payments without a prepayment penalty.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant can elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. On termination, participants with vested account balances totaling less than \$1,000 are automatically distributed in accordance with the terms of the Plan.

Forfeitures

Forfeited accounts are non-vested Company discretionary contributions forfeited by employees who terminate their employment or withdraw from the Plan. These accounts will be used to reduce future employer contributions or pay Plan expenses. At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$37,712 and \$42,718, respectively. During 2018, Employer contributions and Plan expenses were reduced by \$43,459 and \$19,410, respectively, from forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the stable value fund which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company determines the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefits Paid to Participants

Benefits paid to participants are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events

The Plan has monitored and evaluated any subsequent events for footnote disclosures or adjustments required in its financial statements for the year ended December 31, 2018 through September 26, 2019, the date on which financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques and used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability;

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 3 – FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value, therefore categorization in the fair value hierarchy is not required. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31,:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies (mutual funds)	\$ 30,139,667	\$ -	\$ -	\$ 30,139,667

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies (mutual funds)	\$ 25,047,388	\$ -	\$ -	\$ 25,047,388
Total investments in the fair value hierarchy	25,047,388			25,047,388
Investments measured at NAV				3,084,123
Total investments, at fair value	\$ 25,047,388	\$ -	\$ -	\$ 28,131,511

Fair Value of Investment Entities that Use Net Asset Value:

The following table present investments measured at fair valued based on NAV per share as a practical expedient as of December 31, 2018 and 2017:

Instrument	Fair Value, December 31,		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2018	2017			
Common collective trust	\$ -	\$ 3,084,123	None	Immediate	None

NOTE 4 – BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan offers a stable value investment, which carries a benefit-responsiveness feature that allows Plan participants to make exchanges or request benefit payments at contract value. New York Life maintains the contributions to the investment in a fixed income portfolio within New York Life's general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value investment issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. New York Life credited the stable value account with 2.35% for the period from January 1, 2018 to June 30, 2018 and 2.90% from July 1, 2018 to December 31, 2018, annualized.

Because the stable value fund has a benefit-responsiveness feature, contract value is the relevant measurement attributable for that portion of the net assets available for benefits. Contract value, as reported to the Plan by New York Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including partial or complete Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 5 – CERTIFIED INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including total investments and notes receivable from participants held at December 31, 2018 and 2017, and net depreciation in investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by John Hancock Management Trust Company ("John Hancock"), the trustee.

NOTE 6 – RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by John Hancock. John Hancock is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan provides for participant loans and, therefore these transactions qualify as party-in-interest transactions as defined by ERISA.

NOTE 7 – PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer discretionary contributions and earnings, thereon.

NOTE 8 – TAX STATUS

The Plan is a John Hancock prototype plan. The IRS has determined and informed John Hancock, by a letter dated May 18, 2015, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 – TRANSFER AND PLAN MERGER

On January 18, 2018, the Board of Directors of the Employer voted to merge the Flanagan Industries 401(k) Plan into the EDAC Technologies Corporation 401(K) Retirement Plan, with the EDAC Technologies Corporation 401(K) Retirement Plan being the surviving plan. On January 23, 2018, the assets from the merged plan were transferred into the Plan.
