Note 1. Description of the Plan

The following description of the NetShape Technologies, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by NetShape Technologies, Inc. (Company) for the benefit of eligible employees following the completion of three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Fidelity Management Trust Company (Fidelity) is the trustee of the Plan and serves as plan custodian. On December 31, 2018, the Plan merged with Metal Powder Products 401(k) Plan.

Contributions: The Plan permits eligible employees, through a salary deferral election, to have the Company make annual contributions of up to 75% of eligible compensation. Employee rollover, catch-up and Roth contributions are also permitted. Company matching and nonelective contributions are discretionary as determined by the Company's board of directors. The Company made discretionary matching contributions of 50% of employees' salary deferrals on the first 4% of employees' compensation during the Plan years ended December 31, 2018 and 2017. No discretionary nonelective contributions were made to the Plan in 2018. Contributions are subject to certain limitations.

Participant investment account options: Participants have the option of directing their contributions into any of the various investment options offered by the Plan and may change the allocation daily. The plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer 3% of eligible compensation unless the participant made an affirmative election otherwise.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. Administrative expenses are charged to specific participants' accounts, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary and Company matching contributions, plus earnings thereon. Participants are fully vested in the Company's nonelective contributions, plus earnings thereon, after three years of service.

Notes receivable from participants: The Plan does not allow loan distributions. Certain notes receivable from participants were transferred into the Plan during 2015 due to a plan merger. Notes receivable from participants are reported at their unpaid-principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions. Principal and interest is paid ratably through payroll deductions. The remaining balances of the transferred notes receivable from participants at December 31, 2018 and 2017, were \$0 and \$1,043, respectively.

Payment of benefits: Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the vested value of his or her account.

Forfeited accounts: Forfeitures of the employer's nonelective contributions will be used for the payment of plan expenses or to reduce future nonelective employer matching contributions. At December 31, 2018 and 2017, forfeited non-vested accounts were zero.

Note 2. Summary of Significant Accounting Policies

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the quoted market prices of shares held by the Plan at year-end. The Plan's interest in the collective trust is valued at the net asset value (NAV) of the collective trust. The NAV is used as a practical expedient to estimate fair value of the collective trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3. Information Certified by Fidelity Management Trust Company (Fidelity)

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Fidelity, and furnished to the Plan Administrator. The Plan administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information, except for comparing such information to which it appears throughout the financial statements and supplemental schedule related to the following assets.

Fidelity certified the following investment balances as of December 31, 2018 and 2017:

	2018	2017
Investments, at fair value	\$ -	\$ 16,777,611

Fidelity also certified as to the completeness and accuracy of \$ 2,126,858 of net depreciation in fair value of investments and \$979,612 of interest and dividends related to the aforementioned investments for the year ended December 31, 2018.

Note 4. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Note 4. Related-Party and Party-in-Interest Transactions (Continued)

Certain plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan paid \$15,913 and \$14,084 of record keeping fees to the trustee during the year ended December 31, 2018 and 2017, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 5. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring measurements: The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2017:

	2017			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 16,466,197	\$ -	\$ -	\$ 16,466,197
Total assets at fair value hierarchy	\$ 16,466,197	\$ -	\$ -	16,466,197
Investments measured at net asset value ^(a)				311,414
Total investments at fair value				<u>\$ 16,777,611</u>

^(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5. Disclosures About Fair Value of Plan Assets and Liabilities (Continued)

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2018 and 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Shares of mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments measured using the net asset value per share practical expedient: The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	2017			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust	\$ 311,414	N/A	Daily	None

Note 6. Plan Merger

On February 15, 2018, the Plan's Sponsor, NetShape Technologies Inc., was acquired by MPP Holdings LLC. On December 31, 2018, the NetShape Technologies 401(k) plan was merged into the Metal Powder Products 401(k) Plan. As a result, all net assets of the Plan, which approximated \$14,900,000, were transferred to the control of Metal Powder Products plan at December 31, 2018. The merger does not impact participant benefits as the benefit provisions were incorporated in the Metal Powder Products 401(k) Plan.

Note 7. Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a volume submitter defined contribution plan document sponsored by Fidelity. This volume submitter plan document has been filed with the appropriate agency. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is exempt from taxation at the financial statement date.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2018, there are no uncertain positions taken by or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routing audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
