NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 1: Description of the Plan

The following description of the No Ordinary Moments, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was adopted by No Ordinary Moments, Inc. (the "Company"), effective January 1, 1999, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986 ("IRC"), as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed one year of service and are age 21 or older.

Contributions

Participants may elect to contribute up to 100 percent of their pretax annual compensation not to exceed the maximum deferral limitation, as defined in the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company provides for a safe harbor matching contribution equal to 100 percent of each participant's deferrals up to 3 percent of the participant's compensation, plus 50 percent of the participant's deferrals that exceed 3 percent of the participant's compensation but does not exceed 5 percent. Additional amounts, including a profit-sharing contribution, may also be contributed at the option of the Company. Employer safe harbor matching contributions for the year ended December 31, 2018, totaled $77,246. There were no profit-sharing contributions made during the year ended December 31, 2018.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon, as well as in the Company's safe harbor matching contribution. Vesting in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Note 1: Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount must be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's nonforfeitable interest under the Plan or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions. The notes are secured by the vested balance in the participant's account, and a participant can have a maximum of one outstanding loan at any time.

Benefit Payments

Upon termination of service due to death, disability, retirement, or for other reasons, a participant will receive a lump-sum distribution equal to the vested portion of his or her account, as defined in the Plan document. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59½, participants are allowed to withdraw certain funds from the Plan.

Forfeitures

Forfeitures of the employee's nonvested portion of the Company's discretionary contributions are either used to reduce administrative expenses of the Plan or applied to reduce future employer's contributions. There were no forfeited nonvested accounts at December 31, 2018 and 2017.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to the administration of notes receivable from participants or distributions, which are deducted from the applicable participant's account.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair value of investments.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with ("US GAAP")

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value at December 31, 2018 and 2017. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net depreciation in fair value of investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent notes receivable are reclassified as deemed distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The process of preparing financial statements in accordance with US GAAP requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Prepared and Certified by Capital Bank and Trust Company

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants at December 31, 2018 and 2017, and net depreciation in fair value of investments and interest and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Capital Bank and Trust Company, the trustee of the Plan.

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 6: Tax Status

The Plan is based on the Prototype Non-Standardized Profit Sharing Plan with CODA, which received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype plan was designed in accordance with the provisions of the IRC. The Plan has subsequently been amended and has not yet filed for its own determination letter from the IRS. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and it has concluded that as of December 31, 2018, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 7: Party-in-Interest Transactions

The investments in mutual funds are managed by American Funds. American Funds is an affiliate of the trustee, Capital Bank and Trust Company; therefore, these investments qualify as party-in-interest transactions. Notes receivable from participants represent loans to employees and therefore also qualify as party-in-interest transactions. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 8: Withdrawn Participants

At December 31, 2018 and 2017, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 9: Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 9: Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money Market Fund: Valued at its historical cost plus any accrued interest, which approximates fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value measured on a recurring basis as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Money market fund	$ 39,341	$ -	$ -	$ 39,341
