Solid Business Solutions 401(k) Plan
Notes to Financial Statements
December 31, 2018 and 2017

Note 1 – Plan Description

The following description of Solid Business Solutions 401(k) Plan (the Plan) provides only general information. Reference should be made to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution 401(k) plan established effective January 1st, 2015, and amended on September 1st, 2016, January 1st, 2018 and April 15th, 2018. It is a multiple employer plan with 15 participating employers as of December 31, 2018. The Plan Administrator maintains all necessary employment records and determines participant eligibility. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA), as amended, and Section 401(k) of the Internal Revenue Code ("IRC"). The trustee of the Plan is Reliance Trust Company.

(b) Eligibility

The Plan allows each participating employer to choose one of the following eligibility options for participants who have reached twenty-one years of age:

- Immediate
- One year of service
- Any number of months of service not exceeding twelve

(c) Contributions

Participants may contribute up to 100 percent of their pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions representing distributions from other qualified plans. Participating employers may elect to make 401(k) safe harbor, discretionary matching and discretionary profit sharing contributions in accordance with the provisions of the Plan agreement. Participating employer contributions are invested pursuant to the participant's investment elections. Contributions are subject to certain IRC limitations.

(d) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (1) the participating employer's contribution (if applicable), (2) Plan earnings, and (3) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are immediately or 6-year graded vested in their contributions, 401(k) safe harbor contributions and related earnings thereon.

(f) Investment options

Participants direct the investment of all contributions into various investment options offered by the Plan. Investment elections may be changed at any time.

Solid Business Solutions 401(k) Plan
Notes to Financial Statements
December 31, 2018 and 2017

(g) Notes Receivable from Participants

The Plan allows participants to borrow up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans must be repaid within five years, except for loans used to purchase the participant's principal residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid through payroll deductions.

(h) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

(i) Plan Termination

The employer may terminate this Plan at any time by delivering to the Trustee and Plan Administrator written notice of such termination. In the event of Plan termination, participants will become fully vested in their accounts.

(j) Plan Amendments

The Plan was amended on September 1st, 2016 to modify certain definitions, and in January and April 2018 to modify certain participating employers. There were no significant changes to the operation of the Plan due to the amendment.

Note 2 – Significant Accounting Policies

(a) Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared on the accrual method of accounting based on accounting principles generally accepted in the United States of America, which requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(b) Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the year. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the year or the cost of the investment if purchased during the year.

Solid Business Solutions 401(k) Plan
Notes to Financial Statements
December 31, 2018 and 2017

Note 2 – Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

(c) Contributions

Contributions to the Plan from employees and from the participating employers, as defined in the plan, are recorded on an accrual basis.

(d) Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

(f) Administrative Expenses

The Plan's administrative expenses are primarily paid by the plan sponsor and participating employers, and are excluded from these financial statements. Fees for the administration of notes receivable from participants and processing of benefit payments are charged directly to the participant's account and are included in administrative expenses. Administrative expenses also include fees for professional services provided to the plan. Investment related expenses are included in net appreciation of fair value of investments.

(g) Subsequent Events

The Plan evaluated subsequent events through October 4, 2019, the date these financials were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobserved inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820-10 are described below:

Solid Business Solutions 401(k) Plan
Notes to Financial Statements
December 31, 2018 and 2017

Note 3 – Fair Value Measurements (continued)

Level 1 Fair Value Measurements

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. When available, the Plan measures fair value using Level 1 inputs because they generally provided the most reliable evidence of fair value.

The fair value of money market and mutual funds is based on quoted net asset values of the shares held by the Plan at year end. The fair value of common stock is based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

Level 2 inputs consist of quoted prices for similar assets in active and inactive markets and other observable corroborated market data. Level 2 inputs were only used when level 1 inputs were not available. This includes, but is not limited to, quoted prices for similar assets or liabilities in markets that are not active.

Level 3 Fair Value Measurements

Level 3 assets have the lowest priority. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. The Level 3 fair value measurement is based on other unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest accounts: Guaranteed interest accounts is valued using a market value formula approach. The estimated fair value of the GIA is determined to be the calculated market value of the GIA. The market value is calculated using the following unobservable inputs: (i) the assumed interest rate obtainable by MassMutual on new investments where a proxy is a blend of multiple indices as described in the Market Value formula under the Contract (ii) the experience rate for the Contract, which is the weighted average of the investment year interest rates for pension account funds. The weighting reflects the distribution of Contract funds to the various investment years in which the contract has been in effect. A description of the sensitivity of the estimated fair value to changes in significant unobservable inputs for assets measured at fair value on a recurring basis within Level 3 of the fair value hierarchy is as follows:

- GIA – Significant increases (decreases) in the assumed interest rate will result in (decrease) increases to valuations
- GIA – Significant increases (decreases) in the experience rate will result in increases (decreases) to valuations

Note 5 – Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain plan investments and guaranteed interest accounts managed by Reliance Trust Company. Reliance Trust Company also provides certain record keeping and accounting services for the Plan. Therefore, these investments and all transactions with them qualify as party-in-interest transactions.

Note 7 – Tax Status

The Internal Revenue Service has determined and informed Plan management by a letter dated May 11, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Management believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has concluded that as of December 31, 2018 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 8 – Risks and Uncertainties

The Plan provides for various investment options whose underlying investment securities include stocks, bonds and fixed income securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.
