SOUTHWEST OHIO ENT SPECIALISTS, INC. 401(k) RETIREMENT PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017

1. DESCRIPTION OF PLAN

The following description of Southwest Ohio ENT Specialists, Inc. 401(k) Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by Southwest Ohio ENT Specialists, Inc. (the Company or Plan Sponsor), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan trustees oversee the governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's trustees. An eligible employee is any person employed by the Company meeting the minimum requirements of 18 years of age and one year of service in which the employee has worked 1,000 hours or more. The Plan was amended effective January 1, 2017 to include an Eligible Automatic Contribution Arrangement.

Contributions – Each year, participants may contribute to the Plan up to 100% of pretax compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants. The Sponsor will withhold an automatic deferral percentage of 6% of eligible compensation each payroll period unless a participant makes an affirmative salary deferral election. The Company is required to make a qualified nonelective contribution of 3% of pretax compensation for all participants. The Company may, but is not required to, make discretionary matching contributions and discretionary profit sharing contributions to the Plan in an amount determined annually by the Board of Directors. Company qualified nonelective contributions were \$231,227 in 2018 and \$232,428 in 2017. Discretionary profit sharing contributions were \$362,806 and \$400,327 in 2018 and 2017, respectively. The Company did not make any discretionary match contributions in 2018 or 2017. Contributions are subject to certain statutory limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's qualified nonelective contributions, (b) the Sponsor's discretionary profit sharing contributions, and (c) Plan earnings (losses), and charged with any administrative expenses paid by the Plan. Allocations are based on participant's compensation, earnings or account balances, as provided in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and Company qualified nonelective contributions plus earnings thereon. Participants' vested interests in all other Company contributions plus earnings thereon increase from 20% after the first year of service to 100% after the fifth year.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as transfers between an investment fund and the loan fund. Loans must be repaid within five years except loans used for the purchase of a principal residence must be repaid within 30 years. Each loan is secured by the vested account balance in the participant's account and bears a rate of interest commensurate with the local prevailing rates as set by the plan administrator. Interest rates range from 4.25% to 6.25% at December 31, 2018. Principal and interest is paid ratably through biweekly automatic payroll deductions.

Payment of Benefits – Upon termination of employment, participants receive vested interests either in a lump-sum amount or over a period of time not to extend beyond the participant's life expectancy (or the life expectancy of the participant and his designated beneficiary). There were no benefits payable to terminated participants at December 31, 2018 and 2017.

Forfeiture Accounts – Forfeitures may first be used to reduce the amount of any legally permitted expenses incurred in connection with the administration of the Plan which are not otherwise paid by the Sponsor. Forfeitures are then used to reduce the Sponsor's future matching contributions. Forfeited nonvested accounts at December 31, 2018 and 2017 are \$0. Employer contributions were reduced by \$3,893 in 2018 and \$2,441 in 2017 from forfeited nonvested accounts.

Tax Status – The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years 2015 and later remain open and subject to examination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

The Plan has evaluated subsequent events through October 7, 2019, the date the financial statements were approved and authorized by the plan administrator.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participant account balances and the amounts reported in the statement of net assets available for benefits.

Investment Contracts – Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

ASU 2015-12 clarifies that the measurement and presentation requirements of a fully benefit-responsive investment contract apply only to direct investments. The Plan has an indirect investment in a guaranteed investment contract for the Principal Stable Value Fund, which is a collective investment trust held by Union Bond & Trust Company, as trustee, at December 31, 2018 and 2017. Therefore the statements of net assets available for benefits presents the fair value of the investment contracts.

Investment Valuation and Income Recognition – Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Excess contributions – Contributions made by certain active participants during a plan year are returned to them in order to satisfy the relevant nondiscrimination provisions of the Plan. There were no excess deferral contributions payable at December 31, 2018 and 2017.

Payment of Benefits – Benefits are recorded when paid.

Expenses of the Plan – Certain expenses of maintaining the Plan are paid by the Sponsor and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments. Fees for the administration of notes receivable from participants and benefits paid to participants are included in administrative expenses and are charged directly to the participant's account.

Reclassifications – Certain amounts in the 2017 financial statements have been reclassified for comparative purposes to conform to 2018 presentation.

3. INVESTMENTS

The following information included in the Plan's financial statements and supplemental schedule as of and for the years ended December 31, 2018 and 2017 was obtained from data prepared by Principal Trust Company, the trustee of the Plan. The plan administrator has obtained certification from the trustee that such information is complete and accurate. The following represents the fair values of the investments in the separate identifiable funds administered by the trustee:

	2018	2017
Investments, at fair value	\$ 17,008,232	\$ 18,301,809
Interest and dividends	45,567	24,260
Net appreciation (depreciation) in fair value of investments	(856,116)	2,734,272

4. FAIR VALUE MEASUREMENTS

The Plan's measurement of fair value for assets and liabilities is based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

- Level 1: observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in active markets that are observable either directly or indirectly
- Level 3: unobservable inputs in which there is little or no market data, which requires the Plan to develop its own assumptions

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled separate accounts: Most of the pooled separate accounts invest in mutual funds or stocks having observable level 1 quoted prices. While the underlying asset values are quoted prices, the net asset value (NAV) of a separate account is not publicly quoted. The pooled separate account real estate fund invests mainly in commercial real estate and mortgage loans with unobservable level 3 pricing inputs. The fair value of the underlying investments is estimated using discounted cash flow valuation methods and independent appraisals.

Registered investment companies: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks within brokerage account: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/Collective trust: Guaranteed investment contract is valued based on the net asset value at which the plan transacts with the fund.

For those assets with fair value measured using Level 3 inputs, the plan administrator and trustee determine the fair value measurement policies and procedure. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total

*In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
