The LHUSPP Plan covers substantially all United States salaried, union, and nonunion hourly employees of Holcim (US) Inc.; hourly employees included in the collective bargaining agreement between Holcim (US) Inc. as successor to St. Lawrence Cement Co., LLC and the Local 2-00033 of the Paper, Allied Industrial Chemical and Energy Workers International (PACE) District Counsel No. 1; and hourly employees included in the collective bargaining agreement between Holcim (US) Inc. as successor to St. Lawrence Cement Co., LLC and the Cement, Lime, Gypsum, and Allied Division of the International Brotherhood of Boilermakers Local Lodge D 50, Catskill, New York. Note 1 - Plan Description (Continued)

The Presque Isle Plan was established by the Company on January 1, 2002. Effective January 1, 2015, the plan was frozen to prohibit new entrants hired on or after the effective date. The Presque Isle Plan provides for pension and disability benefits to certain hourly compensated employees who meet specified service requirements of certain aggregates facilities located in Presque Isle, Michigan. Effective April 8, 2018, the Presque Isle Plan was frozen to stop the accrual of benefits.

The Aggregates and Concrete Plan was established by the Company on June 1, 1952. The Aggregates and Concrete Plan provides for pension and disability benefits to certain hourly compensated employees covered by various collective bargaining agreements. The accrual of benefits was frozen for participants at various dates depending on location, with all accruals of benefits being frozen by October 1, 2017.

Eligibility and Vesting

Eligibility and vesting differs between the Plans and various supplements. Participants should refer to the plan agreement for the specific eligibility and vesting requirements.

Pension Benefits

The normal monthly retirement benefit is calculated as set forth in the applicable attachments to the Plans. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plans.

Payment of Benefits

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested value of the participant's accumulated plan benefits if less than \$5,000 or in various installment annuities.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA for the years ended December 31, 2018 and 2017.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company, The Northern Trust Company, and Aetna Life Insurance Company, the trustees and custodian of the Plans; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The Plans prepare their financial statements on the modified cash basis of accounting. Revenue is recorded when received, rather than when earned; expenses are recorded when paid, rather than when the obligation is incurred; and investments are recognized at fair value. Accordingly, the financial statements are not intended to be in conformity with accounting principles generally accepted in the United States of America.

Memorandum-Only Totals (Unaudited)

The memorandum-only total column in the statements of net assets available for benefits represents solely a total of the individual plans. This column is unaudited and is provided for information only.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment in Master Trust

The Plans' investments are held in the Lafarge North America Inc. Master Retirement Trust, herein referred to as the "Master Trust," which was established for the investment of assets of the Plans. During the years ended December 31, 2018 and 2017, assets in the Master Trust were held by The Northern Trust Company (the "Trustee"). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

The fair value of the Plans' interest in the Master Trust is based on the beginning of the year value of the Plans' interest plus actual contributions and allocated investment income, less actual distributions and administrative expenses, as well as certain allocated administrative expenses. See Note 5 for additional information.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plans at December 31, 2017 are summarized as follows:

Actuarial cost method	Standard unit credit cost method
Retirement age	Various rates of retirement are assumed beginning at age 55. All participants are assumed to retire by age 65.
Assumed rate of return	5.75 percent per annum for LHUSPP, 6.00 percent per annum for all other plans
Mortality basis	RP-2014 Mortality Table (male and female, healthy and disabled, employee and annuitant) projected from base year 2006 with MP-2018, and with collar adjustments (blue collar except for former LNARP and former BCIPP benefits, which reflect 2/3 white collar and 1/3 blue collar)

The foregoing actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Annuity Purchase

In September 2017, the LHUSPP Plan purchased an annuity contract for \$38,956,499 through The Prudential Insurance Company of America (Prudential) to settle the benefit obligations of certain participants currently receiving benefits. Under the agreement, Prudential assumed the obligation to pay future pension benefits for the covered participants starting December 1, 2017. This contract purchase price is reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017. In March 2018, the LHUSPP Plan received a refund of \$798,371 from Prudential related to the annuity contract purchase.

Additionally, in March 2018, the LHUSPP Plan received a refund of \$360,981 from Prudential related to the annuity contract purchased by the LNARP Plan in 2017, prior to the LNARP Plan's merger into the LHUSPP Plan. The refunds have been included in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2018.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plans and the Plans' accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 27, 2019, which is the date the financial statements were available to be issued.

New Accounting Pronouncement

During 2018, the Plans adopted Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. As a result of the adoption of ASU No. 2017-06, additional disclosures related to the Plans' interest in the underlying investments of the Master Trust have been made within the statements of net assets available for benefits. This standard was adopted retrospectively and had no impact on the Plans' net assets or changes in net assets.

Note 3 - Unaudited Information

The Northern Trust Company holds the Master Trust investments and executes all related investment transactions. The Master Trust investment balances and related income and losses included in the accompanying financial statements, including Master Trust information, are based solely on information certified by the Trustee.

Fidelity Management Trust Company holds the assets of the LHUSPP Plan that are outside of the Master Trust, other than the unallocated contract, and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements, supplemental schedule of assets held at end of year, and supplemental schedule of reportable transactions, other than the Master Trust investments and the unallocated contract, are based solely on information certified by Fidelity Management Trust Company.

The LHUSPP Plan's investments in the unallocated contract totaling \$105,464 and \$113,357 at December 31, 2018 and 2017, respectively, and related investment income of \$5,875 and \$6,153 for the years ended December 31, 2018 and 2017, respectively, were not certified by Fidelity Management Trust Company or The Northern Trust Company.

Note 4 - Plan Merger

On December 31, 2017, the LNARP Plan merged and combined with the LHUSPP Plan. Accordingly, assets of \$407,942,410 were transferred to the LHUSPP Plan on December 31, 2017. The asset transfer is reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017. Additionally, accumulated plan benefits of \$512,367,332 were transferred to the LHUSPP Plan and are reflected in the statement of changes in accumulated plan benefits.

Note 5 - Investments

With the exception of certain of the LHUSPP Plan investments, the Plans' investments are in the Master Trust, which was established for the investment of assets of the Plans and one other of the Company's sponsored benefit plans. The LHUSPP Plan has investments in the Master Trust and outside of the Master Trust. Each participating benefit plan has an undivided interest in the Master Trust. The fair value of the Plans' interest in the Master Trust represents each plan's allocated portion. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

At December 31, 2018 and 2017, the Plans' respective interests in the Master Trust were as follows:

	2018	2017
LHUSPP	69.7 %	70.8 %
Steelworkers	8.8	8.5
Cement	3.1	3.0
Cement-Boilermakers	7.3	7.1
Multi-Plant	3.8	3.6
Presque Isle	4.5	4.2
Aggregates and Concrete	2.8	2.8

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plans have the ability to access.

Holcim Participations (US) Inc. Defined Benefit Plans

Notes to Modified Cash Basis Financial Statements

December 31, 2018 and 2017

Note 5 - Investments (Continued)

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plans' assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

Common Collective Trust Fund

The common collective trust funds are valued at net asset value per share (NAV) or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Unallocated Contract

The unallocated contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Because the investment is valued at contract value as opposed to fair value, it has been excluded from the fair value disclosures below.

The following tables present information about the Master Trust investments at December 31, 2018 and 2017. The Plans' interest in the net assets of the Master Trust are presented in the accompanying financial statements.

Note 6 - Tax Status

The Plans have each received a determination letter from the Internal Revenue Service indicating that the Plans, as designed, are qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC) with the exception of the Steelworkers Plan. The Steelworkers Plan does not have a determination letter; however, the seven supplements that make up the plan (Great Lakes, Grove, Marblehead Stone, Newcem, Oswego, Ravena, and Whitehall) have all received determination letters. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 7 - Plan Termination

Although it has expressed no interest to do so, the Company has the right under each plan to terminate any of the Plans subject to the provisions set forth in ERISA. Should any of the Plans terminate at some future time, the plan's net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 8 - Nonexempt Transactions

During 2017, the LafargeHolcim US Pension Plan made an inadvertent loan to the Company. As a result, the schedule of nonexempt transactions has been included in the financial statements. There were no changes to the statements of net assets available for benefits and changes in net assets available for benefits. The inadvertent loan was repaid in 2018 and the Company paid lost earnings in 2019.

Note 9 - Subsequent Events

In 2019, the LHUSPP Plan transferred the assets held by Fidelity Management Trust Company outside the Master Trust to the Master Trust.

Benefits not Valued

The lump sum option for Grove participants hired prior to January 1, 2003 is not explicitly valued for the terminated participants with deferred vested benefits. Rather, such participants' benefits are valued using the benefit choice assumptions described above.

The maximum benefit level applicable to the Newcem participants is not valued because this is not expected to affect many future retirees.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, line 25—Change in Method

Since the prior valuation, both the enrolled actuary and the business organization providing actuarial services to the plan have changed. The new method is substantially the same as the method used by the prior enrolled actuary and is consistent with the description of the method contained in the prior Schedule SB. The funding target and target normal cost (without regard to any adjustments for employee contributions and plan-related expenses), as determined by the new enrolled actuary as of the valuation date for the prior plan year (using the actuarial assumptions of the prior enrolled actuary and using the data elements and valuation software of the new enrolled actuary), are both within 3% of those values as determined for that prior plan year by the prior enrolled actuary. Additionally, the actuarial value of plan assets, as determined by the new enrolled actuary as of the valuation date for the prior plan year (using the actuarial assumptions of the prior enrolled actuary), is within 2% of the value for that prior plan year as determined by the prior enrolled actuary. Therefore, the plan qualifies for automatic approval under Rev Proc 2017-56 for the change in funding method for a takeover plan.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the payment form elections percentage.
- A change in the withdrawal and retirement rates.

These changes were made to better reflect the anticipated plan experience. These assumption changes did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Section 430(h)(5), as such approval of the Commissioner is not required.
