1. DESCRIPTION OF PLAN

The following description of the Boening Bros. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Internal Revenue Service Code Section ("Code Section") 401(k) effective January 1, 1987. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA).

The Plan covers substantially all eligible employees of Boening Bros. Inc. and Oak Beverages, Inc. (collectively the “Company”) who have one year of experience and are over 21 years old. Eligible employees include all employees except those that are represented by a bargaining unit that has bargained with the Company in good faith on the subject of retirement benefits, a nonresident alien with no U.S. income or all such income is exempt from U.S. income tax, or considered an independent contractor. The effective date of participation is the first day of the plan year coinciding with or next following when eligibility requirements are met.

Contributions

The Plan allows pre-tax Salary Deferrals. Participants who have attained age of 50 before the end of the Plan year are eligible to make catch-up contributions. Rollover contributions are subject to the terms of the Plan and are fully vested and non-forfeitable. The Company may make matching discretionary Employer Contributions on behalf of each of its eligible participants. For the year December 31, 2018 the Company contributed $43,460 to the Plan. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant’s contribution, an allocation of the Company's contribution, if any, and Plan earnings. Participant accounts may be charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their balances into various investment options offered by the Plan.

Vesting

Participants are vested immediately in their contributions and the employer contribution, plus actual earnings thereon.

Notes Receivable from Participants

The Plan does not allow for notes receivable from participants.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or in installment payments over a period of time. Participants shall be entitled to receive in-service withdrawals upon attainment of age 59½ or as a hardship distributions, as defined in the plan agreement.

Forfeitures

At December 31, 2018 and 2017, forfeited non-vested accounts were $0. Forfeitures, if any, are allocated to pay employer contributions, pay administration fees, and to restore participant accounts. For the year ended December 31, 2018, no forfeitures were allocated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement. The ASU modifies public and nonpublic entity fair value disclosure requirements. For nonpublic entities, the new standard removes or modifies certain disclosure requirements, including; (1) removes the requirement to disclose transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for timing of transfers, the valuation processes for Level 3 fair value measurements, and changes in unrealized gains and losses included in income for recurring level 3 investments, and (2) modifies disclosure of timing of liquidation of investee funds, measurement uncertainty and the Level 3 rollforward. The ASU is

effective for fiscal years beginning on or after December 15, 2019, with early adoption permitted. The Plan is evaluating the impact of the new standard on these financial statements.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding deduction to contributions. At December 31, 2018 and 2017, excess contributions payable were $1,372 and $0. For the amount at December 31, 2018, $1,336 was remitted back to participants prior to March 15 of the subsequent year. As of the financial statement date, the remaining amount has not been refunded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net change in fair value of investments.

3. INFORMATION PREPARED AND CERTIFIED BY INSURANCE COMPANY

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the Plan's insurance company.

	2018	2017
At December 31,		
Investments, at fair value	$ 7,596,430	$ 8,157,447
For the year ended December 31, 2018:		
Net change in fair value of investments	$ (497,851)	

The Plan holds life insurance contracts that are not certified by the Plan's insurance company valued at $29,590 and $28,205 at December 31, 2018 and 2017, respectively. For the year ended December 31, 2018, $1,385 of unrealized gain recorded on these contracts is included in net change in fair value of investments on the Statement of Changes in Net Assets Available for Benefits.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled Separate Account
Pooled Separate Accounts are not publicly quoted and are priced at net asset value. ASC 820 allows NAV per share to serve as a practical expedient to estimate fair value.

Guaranteed Interest Accounts
The Guaranteed Interest Accounts adjust the book value with a market value adjustment that considers the number of complete months remaining until maturity, the composite rate of interest being earned by each account and current rate. All amounts are observable, allowing the investment to be classified in level 2 of the fair value hierarchy.

Life Insurance Contracts
Life insurance contracts are not actively traded and are priced at cash surrender value. Cash surrender value is calculated as the total cash value less any surrender charges.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Life Insurance Contracts	$ -	$ -	$ 29,590	$ 29,590
Guaranteed Interest Accounts	-	149,165	-	149,165
Total assets in the fair value hierarchy	-	149,165	29,590	178,755
Investments measured at net asset value[(a)]	-	-	-	7,447,265
Investments at fair value	$ -	$ 149,165	$ 29,590	$ 7,626,020

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Life Insurance Contracts	$ -	$ -	$ 28,205	$ 28,205
Guaranteed Interest Accounts	-	149,296	-	149,296
Total assets in the fair value hierarchy	-	149,296	28,205	177,501
Investments measured at net asset value[(a)]	-	-	-	8,008,151
Investments at fair value	$ -	$ 149,296	$ 28,205	$ 8,185,652

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Gains and losses included in the statement of changes in net assets available for benefits for the year ended December 31, 2018, are reported in net change in fair value of investments.

The Plans policy is to recognize transfers between Level 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. (a) Equity Funds: Equity funds invest in stocks. The objective of an equity fund is growth through capital gains and dividends. Stock funds may have a specific style, for example, value or growth, and include investments in different sized companies and geographic regions.

(b) Lifecycle Funds: Lifecycle funds invest in a variety of different types of equities and fixed income securities, to achieve their stated investment objective. The objective of an asset allocation fund can vary and includes, but is not limited to, target date funds and investment styles. Target date funds automatically rebalance its investments to create a portfolio for a certain retirement date. Investment styles can vary in risk and include investments in different sized companies and geographic regions, with different weights on equity and debt.

(c) Asset Allocation Funds: Asset allocation funds invest in a combination of stocks and bonds seeking both growth of principal and current income. Some funds are more aggressive or conservative by allocation between equities and fixed income.

(d) Money Market Funds: An investment whose objective is to earn interest for shareholders while maintaining a net asset value of $1 per share. A money market fund's portfolio is generally comprised of short-term (less than one year) securities representing high-quality, liquid debt and monetary instruments.

(e) Bond Funds: Bond funds invest in fixed income securities. The objective of bond funds is generally to receive interest payments or capital growth. Fixed income funds generally invest in sovereign, corporate, or municipal debt. In addition, the bond funds may invest in fixed income securities of different durations. Debt rates of return are based upon economic conditions and the credit worthiness of the debtor, amongst other factors.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. TAX STATUS

The Plan has adopted a volume submitter profit sharing plan with CODA and is relying on an advisory letter received by Fair Fitzgerald and Hershaft PC dated March 31, 2014 stating that the Internal Revenue Service has determined that the volume submitted plan adopted by the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and, therefore, believe the Plan is qualified, and the related grouping annuity contract is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

John Hancock Life Insurance Company of New York is the insurance company and recordkeeper of the Plan and therefore certain transactions qualify as party-in-interest transactions. of New York indirectly from the Plan during the year ended December 31, 2018.
