Notes to Financial Statements

1. Description of the Plan

The following brief description of the Multisorb Technologies, Inc. 401(k) and Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan was adopted by Multisorb Technologies, Inc. (the Company) effective August 1, 1981. The Plan is a deferred compensation plan under Section 401(k) of the Internal Revenue Code (IRC) to provide deferred tax benefits, savings, and Company discretionary contributions to eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Merger

Effective January 1, 2019, the Plan was merged into the Filtration Group 401(k) Retirement Savings Plan. On December 31, 2018 the investments were liquidated (sold) and converted to non-interest-bearing cash and transferred to and received by the Filtration Group 401(k) Retirement Savings Plan on January 2, 2019.

Eligibility

All employees of the Company, except those covered by a collective bargaining agreement, who have attained age 18 and completed two months of service are eligible for participation in the Plan. Enrollment in the Plan occurs on the first day of the following month upon meeting the requirements to be eligible.

Contributions

Participants could elect to defer a specified percentage of compensation, up to 90% of eligible compensation, subject to IRC limitations. In addition, eligible participants were permitted to make catch-up contributions. Participants also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants directed the investment of their contributions into various investment options offered by the Plan. Eligible employees were automatically enrolled with a 3% salary deferral unless they voluntarily elected not to participate in the Plan. Participants may also have elected a deferral percentage other than 3%.

Upon the completion of 6 months of service, the Company matches 100% of the first 3% of the employee's elective deferral, and 50% of the next 2% of the employee's elective deferral. In addition, the Company could make discretionary contributions to the Plan. There were no discretionary contributions for the year ended December 31, 2018.

Participant Accounts

Each participants account was credited with the participants salary reduction contributions, rollover contributions, and an allocation of the Company's contributions and plan earnings or losses (net of administrative expenses). Allocations were based on participant earnings, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Multisorb Technologies, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at age 65. In service distributions are allowed from a portion of a participant's account, upon reaching the age of 59½. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants experiencing financial hardship may withdraw a portion of their vested account balance, as defined in the Plan document

Vesting

Participant elective deferral contributions and the Company's matching contributions are 100% vested upon contribution. A year of vesting service is defined as 1,000 hours in a given year. Participants become vested in the Company discretionary contributions, as defined by the Plan, according to the following vesting schedule:

Vesting Service	Vesting
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Forfeitures

Participants who leave the Company with less than six years of service forfeit the non-vested portion of the Company's discretionary contributions. Forfeitures may first be applied to offset administrative expenses and then allocated to each participant. Forfeitures of \$24,775 were used to offset Plan administrative expenses for the year ended December 31, 2018. Forfeitures available for future use amounted to approximately \$0 and \$17,741 at December 31, 2018 and 2017, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. The Plan follows accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets accounting principles generally accepted in the United States of America (GAAP).

Accounting Estimates

The preparation of financial statements in conformity with GAAP require the Plan's management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Multisorb Technologies, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income (Loss) Recognition

The investments of the Plan as of December 31, 2017 were reported at fair value, including the stable value fund held in the common collective trust, which held indirect investments in fully benefit-responsive investment contracts.

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 4 for discussion of the fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest is recorded when earned and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain administrative expenses of the Plan are paid by the Plan as provided in the Plan agreement. Certain other administrative expenses of the Plan are paid by the Company. Investment fees are paid by the Plan in the form of reductions of net investment income (loss) earned by Plan participants.

Subsequent Events

As permitted by the Plan document, the Company made the decision to merge the Plan into the Filtration Group 401(k) Retirement Savings Plan, effective January 1, 2019.

Management has evaluated subsequent events through October 10, 2019, the date these financial statements were available to be issued.

3. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity), certified that the financial information included in the financial statements as of December 31, 2018 and 2017, and for the year ended December 31, 2018 provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income (loss) included in the accompanying financial statements as of December 31, 2018 and 2017, and for the year ended December 31, 2018 are covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Multisorb Technologies, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements).

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2017. There were no investment assets held on December 31, 2018.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds were required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Common Collective Trusts - Valued at the net asset value using NAV as the practical expedient based on the last reported sales price of the underlying investments held. The Plan's interest in the collective trust fund was based on information reported using the audited financial statements of the collective trust fund at year-end. The investment income (loss) was allocated to participants based on their proportionate share of the net assets of the funds.

The methods described above may have produced a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017.

<i>December 31, 2017</i>	Level 1		Level 2		Level 3		Total
Mutual funds	\$	35,483,010	\$	-	\$	-	\$ 35,483,010
	\$	35,483,010	\$	-	\$	-	35,483,010
Common collective trust measured at NAV*							1,724,422
Total investments at fair value	\$						\$ 37,207,432

Multisorb Technologies, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

4. Fair Value Measurements (cont.)

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

Fair value of investments in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair value at December 31, 2017	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust	\$ 1,724,422	None	Daily	N/A

5. Tax Status

The Plan was based on the Fidelity Volume Submitter Profit Sharing Plan with CODA (Volume Submitter Plan) which received an opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) stating that the Volume Submitter Plan is in compliance with the applicable requirements of the IRC. Although the Plan had been amended since the date of the opinion letter, the Plan administrator believed that the Plan was designed and being operated in compliance with the applicable requirements of the IRC and therefore believed that the Plan was qualified, and the related trust was tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits far any tax periods in progress.

6. Party-In-Interest Transactions

Fidelity and related companies perform services, sells products and maintains certain investments of the Plan for which fees are charged to the Plan. Such transactions, while considered party-in-interest transactions under ERISA, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions.

7. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their discretionary Company funds.

8. Risks and Uncertainties

The Plan's investments included funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Multisorb Technologies, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

9. Delinquent Participant Contributions

During 2018, employee withholdings of \$12,470 were not remitted within the appropriate time period by the Company. The Company remitted the delinquent contributions and lost earnings to the applicable participants in the Filtration Group 401(k) Retirement Savings Plan in 2019. These transactions constituted prohibited transactions as defined by ERISA.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500.

<i>December 31,</i>	2018	2017
