Note 1. Description of Plan

The following description of the VEC, Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan that covers all employees of VEC, Inc. and Subsidiaries (the Company or Plan Sponsor) except for employees that are covered by a collective bargaining agreement or that are non-resident aliens. All eligible employees of the Company are eligible to become participants in the elective deferral portion of the Plan on his or her first day of employment with the Company. Employees were eligible for the Company's discretionary matching and/or profit-sharing contributions on the first day of the payroll after completing one year of service and reaching age 21. Effective March 1, 2016, the discretionary matching and profit-sharing contribution portions were removed from the Plan. Effective December 1, 2016, a new discretionary contribution component was added to the Plan. Employees that are employed on the last day of the Plan year are eligible for the Company's discretionary contribution portion of the Plan as long as they have reached 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may contribute up to the maximum amount of pretax annual compensation as defined by the Plan and allowable under the Internal Revenue Code (IRC). Upon meeting the eligibility requirements, participants are automatically enrolled to contribute 5% of eligible compensation. Unless otherwise elected, the automatic deferral rate increases by 1% up to a maximum deferral of 10%. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, as allowable by the IRC. Participants may also contribute amounts representing distributions from a qualified retirement plan of another employer if transferred before meeting the Plan's eligibility requirements.

The Company may elect to contribute to the Plan in the form of discretionary contribution. The discretionary contribution is determined annually by the Company's Board of Directors and is credited to the participants' separate accounts, if applicable. The Company will make discretionary contributions totaling $195,270, net of forfeitures to be applied of $5,601, related to the 2018 Plan year.

Participant accounts: A separate account is maintained for each participant consisting of (a) participant's share of the Company's contributions, (b) the participant's voluntary contributions and (c) investment earnings as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. All other amounts credited to participants' separate accounts are vested according to the vesting schedule set forth below.

Years of service	Vested Percent
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance with $1,000 being the minimum. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service, death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or periodic distributions in accordance with the Plan document. A participant may also make an in-service withdrawal upon attainment of age 59½.

Forfeited accounts: At December 31, 2018 and 2017, forfeited nonvested accounts totaled $8,512 and $2,627, respectively. Forfeited amounts can be used to restore participants' forfeitures, offset administrative expenses, or reduce future employer contributions.

Administrative expenses: Expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except fully benefit responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results may differ from those estimates.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participant contributions are recognized when they are withheld from the participant's earnings. Company discretionary contributions approved by the Company's board of directors are recognized in the year of service. In the event that discretionary contributions have been approved but not yet funded as of year-end, the contributions are reflected as a receivable on the statements of net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2018 and 2017, approximately 13% and 13%, respectively, of the Plan's investments are held in the Invesco Diversified Dividend Fund and approximately 12% and 10%, respectively, of the Plan's investments are held in the Vanguard U.S. Growth Admiral Fund. As such, these are considered concentrations of credit risk.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 2, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Principal Trust Company

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2018	2017
Investments, at fair value:		
Registered investment companies	$ 4,774,144	$ 4,952,964
Common/collective trust funds	1,498,928	1,994,340
Pooled separate accounts	98,131	45,681
	$ 6,371,203	$ 6,992,985
Notes receivable from participants	$ 79,608	$ 68,583

The trustees also certified to the completeness and accuracy of the following for the year ended December 31, 2018:

Net depreciation in fair value of investments	$ (497,059)
Interest and dividends	$ 107,026
Interest income on notes receivable from participants	$ 7,221

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 4. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: Shares of registered investment companies are valued at quoted market prices which represent the NAV of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or information reported to the reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 4,774,144	$ -	$ -	$ 4,774,144
Total assets in the fair value hierarchy	$ 4,774,144	$ -	$ -	4,774,144
Investments measured at net asset value [(a)]				1,597,059
Investments at fair value				$ 6,371,203

	2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 4,952,964	$ -	$ -	$ 4,952,964
Total assets in the fair value hierarchy	$ 4,952,964	$ -	$ -	4,952,964
Investments measured at net asset value [(a)]				2,040,021
Investments at fair value				$ 6,992,985

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Transfers Between Levels

For the years ended December 31, 2018 and 2017, there were no transfers in or out of Level 1, 2, or 3.
