Dutchland, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2018 and 2017

NOTE A - DESCRIPTION OF PLAN

The following brief description of the Dutchland, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. The Plan was established July 1, 1997 and amended and restated thereafter. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility Requirements

The Plan is a defined contribution plan covering substantially all full-time employees of Dutchland, Inc. (the Company) who are at least 21 years old and have completed 90 days of service for employee deferrals and one year for employer contributions. An employee (other than an excluded employee) becomes a participant in the Plan on the first day of the calendar month coinciding with or next following the date the age and service requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Management of the Company is responsible for oversight of the Plan. The retirement committee determines the appropriateness of the Plan's investment offerings and monitors investments.

Plan Amendments

Effective April 1, 2017, the Plan sponsor amended the Plan such that all participants who become eligible on, or after, such date will be automatically enrolled in the Plan at a two percent deferral rate, and their contributions invested in a designated fund, unless another election is made by the participant.

Contributions

Each year, participants may contribute up to 100 percent of annual pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Under current provisions of the Plan, the Company may make a matching contribution to all qualifying participants. The amount of the match is equal to 25 percent of all employee contributions up to the first five percent of eligible compensation. The matching Company contribution is invested as directed by the participant. The Company's Board of Directors determines the matching contribution each year. Matching contributions made by the Company amounted to \$50,292 and \$48,300 for the years ended December 31, 2018 and 2017, respectively. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The Company elected not to make a discretionary profit sharing contribution for 2018 or 2017.

Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if applicable, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings on the contributions. Vesting in the Company's contribution portion of their accounts is based on years of continuous service following a six-year vesting schedule as follows:

Years of Service

Less Than One Year	0%
One Year.....	10%
Two Years	20%
Three Years	40%
Four Years	60%
Five Years.....	80%
Six Years	100%

For purposes of vesting, each year of service must include at least 1,000 hours of service. A participant becomes fully-vested automatically regardless of the vesting schedule, upon disability, upon death, and upon attainment of the Early Retirement Date (age 59½ and five years of service), or upon termination of the Plan.

Payment of Benefits

On termination of service, participants may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The portion of the participant's account to which they are not vested is a "forfeiture" and allocated in accordance with plan provisions.

Hardship withdrawals are allowed from employee elective deferrals and vested employer contributions in the event of financial hardship at the discretion of the Plan Administrator. A participant who receives a distribution of elective deferrals is prohibited from making elective deferrals under this Plan and all plans of the Company for six months after receipt of the distribution.

In-service withdrawals of a participant's elective deferrals and vested employer contributions are permitted after the participant has obtained age 59½. Rollover contributions are available for in-service withdrawals at any time.

Forfeited Accounts

At both December 31, 2018 and 2017, forfeited non-vested accounts totaled \$-0-. These accounts will be used to restore participant's forfeitures, if applicable, then to reduce Plan expenses or employer contributions. In 2018 and 2017, the Company's matching contributions to the Plan were reduced by \$2,694 and \$246, respectively, from forfeited non-vested accounts.

Pending Distributions

There were no pending distributions as of December 31, 2018 or 2017.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Contributions from employees are recorded in the period in which the Company makes the authorized payroll deductions from Plan participants.

Investments held by a defined contribution plan are required to be reported at fair value, except for the fully benefit-responsive investment contract. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to the fully benefit-responsive investment contract because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except as noted above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan trustees determine the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Employer Contributions

Employer contributions to the Plan are recognized in the period for which the Plan sponsor has made a formal commitment to fund such amounts for the period. If applicable, contributions receivable includes legal or contractual requirements for the employer to make contributions applicable to past periods.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Transactional fees and charges, which are attributable to a specific participant's account, are deducted directly from that account. Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments.

NOTE C - FAIR VALUE MEASUREMENT

All of the Plan's investments recorded at fair value of \$4,136,394 and \$4,292,008 at December 31, 2018 and 2017, respectively, are pooled separate accounts. The pooled separate accounts are valued, as a practical expedient, based on American United Life Insurance Company's (AUL) Plan's net asset value (NAV) of units held by the Plan at year end. The calculated NAV is directly related to the net asset value of the underlying investments adjusted for dividends or distributions received by AUL and the daily equivalent of any fees charged. The investments held by each pooled separate account are traded on an active market.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017.

NOTE D - FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value; which was \$183,165 and \$190,067 at December 31, 2018 and 2017, respectively. Contract value is the relevant measure for the fully benefit-responsive investments contract because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses.

The Plan owns only the contract itself and does not own the underlying assets of the investment contract. The traditional investment contract is designed to accrue interest based on crediting rates established by the contract issuer.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be for less than 1.00%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

Notes to Financial Statements

Years Ended December 31, 2018 and 2017

NOTE D - FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT (Continued)

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contract
3. Plan termination or merger
4. Bankruptcy of the Company or other Company events that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the Plan agreements without the consent of the issuer

NOTE E - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan as related party transactions.

The pooled separate accounts and guaranteed investment contract are managed by American United Life Insurance Company, the custodian of the Plan. Transactions with the pooled separate accounts and common collective trust qualify as party-in-interest transactions.

Administrative maintenance charges are paid to the trustee based on the closing market value of the plan assets in the Plan's trust. Audit fees are paid to the Plan auditor based on an amount agreed to by management of the Plan. These are considered related party and party-in-interest transactions under ERISA.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE G - TAX STATUS

The Plan is operating under an adoption agreement of the Defined Contribution Prototype Plan and Trust prepared by American United Life Insurance Company (AUL). The Internal Revenue Service has determined by a letter dated March 31, 2014 that the AUL prototype plan document was designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since the determination letter was issued, the Plan administrator and the Plan's advisors believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and that the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - INFORMATION CERTIFIED TO BY CUSTODIAN

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA for 2018 and 2017. Accordingly, American United Life Insurance Company, the custodian of the Plan, has certified the completeness and accuracy of all investments reported in the accompanying statement of net assets available for benefits as of December 31, 2018 and 2017, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at Year End) as of December 31, 2018, and the related investment activity reported on the statement of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.

NOTE J - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 4, 2019, the date the financial statements were available to be issued, and noted no material subsequent events that require recognition or additional disclosure in these financial statements.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
