Employees of the Company are eligible to participate in the Plan upon completion of one month of service, as defined. Employees are eligible to participate in the Plan beginning the first of the month coinciding with or next following the date the eligibility requirements are met. Participants must be employed on December 31 to be eligible for employer profit sharing contributions unless the participant terminates due to death, disability, or retirement. Union employees, non-resident aliens and contract-based employees are not eligible to participate in the Plan.

Contributions

Participants classified as physicians, administrators hired before July 15, 2005, and the chief executive officer ("Class 1 and 1A Employees") are allowed to make elective pre-tax or Roth contributions to the Plan up to the lesser of (a) 7% of their annual eligible Plan compensation, as defined, or (b) 5% of the Code 401(a)(17) compensation limit. All other participants ("Class 2 Employees") are allowed to make elective pre-tax or Roth contributions to the Plan up to 100% of their annual eligible Plan compensation, as defined, and subject to limitation under the Internal Revenue Code ("IRC"). Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified retirement plans or individual retirement accounts.

The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of annual eligible Plan compensation and their contributions are invested in default funds, unless changed by the participant. The Plan also includes an automatic increase provision whereby the deferral rate for all covered employees will increase annually up to a maximum percentage of compensation, as defined.

1. Description of the Plan (continued)

The Company makes discretionary profit sharing contributions to the Plan of amounts determined and authorized by the Plan and the Company's Board of Directors up to the maximum amounts permitted by the IRC. For the year ended December 31, 2018, the Company's discretionary profit sharing contributions were equal to 15% of Class 1 and 1A Employees' eligible compensation and 7.5% of Class 2 Employees' eligible compensation. For Class 2 Employees, the Company makes discretionary matching contributions to the Plan of amounts determined and authorized by the Plan and the Company's Board of Directors. In 2018, the matching contributions were equal to 25% of a participant's elective deferrals that do not exceed 3% of the participant's compensation. Class 1 Employees are excluded from matching contributions

Participant Accounts

Participants direct the investment of their accounts among various investment options offered by the Plan. Participants may change their investment options daily.

Each participant's account is credited with (a) participant's contributions, (b) an allocation of employer contributions and (c) an allocation of investment earnings, and is charged with (a) withdrawals, (b) an allocation of investment losses and (c) certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in the Company's matching contributions and in their contributions, including rollover contributions, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions plus actual earnings thereon is based on years of credited service, as defined. A participant is 100% vested upon death, disability, or retirement. Company discretionary profit sharing contributions are subject to the following vesting schedule:

Years of Service	Vested Benefits
Less than 2 years	0 %
2 years or more	100 %

1. Description of the Plan (continued)

Forfeitures

Non-vested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Company. A forfeiture occurs in the Plan year in which the participant either receives a distribution of their vested account or has five consecutive one-year breaks in service, as defined by the Plan. Forfeitures are retained in the Plan and used either to pay Plan administrative expenses or to reduce future employer contributions. The forfeited unvested account balance totaled $68,850 and $41,145 at December 31, 2018 and 2017, respectively. For the year ended December 31, 2018, forfeitures totaling $30,123 were utilized to reduce the Plan's 2018 employer contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum of i) $50,000 reduced by the highest outstanding note receivable balance over the prior twelve months less the outstanding balance on the date a new note receivable is made or ii) 50% of their vested account balance, whichever is less. Notes receivable from participants are secured by the vested balance in the participant's account and bear interest at rates established by the Plan Administrator. Participants may have three notes receivable outstanding at a time. Principal and interest are paid ratably through payroll deductions over a period generally not to exceed five years, unless the funds are used for purchase of a principal residence in which case repayment terms may be extended.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or termination of employment, a participant is entitled to receive an amount equal to the vested interest in his or her account, payable in lump-sum form or installments. In general, if a participant's vested account balance, as defined by the Plan, is greater than $5,000 and employment is terminated other than due to retirement or death, the account may not be distributed before normal retirement without the participant's consent. Participants' account balances that are less than $5,000, but in excess of $1,000 (the involuntary cash-out amount) will be paid as a direct rollover to an individual retirement account. However, regardless of participant election as to the payment, the Plan may, upon termination of service of a participant for any reason, pay the benefits owed in a lump sum if the account balance is less than the involuntary cash-out amount. Distributions are subject to the applicable provisions of the Plan agreement.

1. Description of the Plan (continued)

In-service withdrawals of all or a portion of a participant's vested account balance may be withdrawn by a participant after reaching age 59 ½. In-service withdrawals of a participant's discretionary profit sharing and matching account balance may be withdrawn by a participant after reaching age 55. In-service withdrawals of all or a portion of a participant's rollover account balance may be withdrawn at any time.

Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with the provisions specified in the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service ("IRS") and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Distributions from the Plan will normally be subject to income taxes and in certain circumstances may also be subject to IRS penalties, unless the distribution is transferred to another qualified plan or individual retirement account.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements and supplemental schedule.

2. Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and expenses charged to the Plan for investments in mutual fund accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. For participant loans that become delinquent, are not cured and result in default, the amount of the unpaid loan principle and interest due to the Plan will be treated as a deemed distribution. Deemed distributions are reported as a taxable distribution and remain part of the participant's account balance until a distributable event occurs (i.e. as termination of employment).

Payment of Benefits

Benefits to participants are recorded by the Plan when actual payment is made.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payment transactions are charged directly to the participant's account and are included in administrative expenses.

2. Significant Accounting Policies (continued)

Subsequent Events

The Plan evaluated events occurring between the end of the most recent fiscal year and through the report date, August 22, 2019, the date the financial statements and supplemental schedule were available to be issued. No events have occurred through that date that would impact the financial statements.

3. Fair Value Measurements

The guidance for fair value measurement establishes the authoritative definition of fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs developed using the Plan's estimates and assumptions which reflect those that market participants would use.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Money market account*: Valued as cash equivalents, which approximates fair value.
- *Self-directed brokerage account (Personal Choice Retirement Account):* These accounts may include mutual funds, common stock and exchange-traded funds all of which are valued based on quoted prices in active markets in which the securities are traded.
- *Life Insurance Contract (Transamerica Life Insurance Company):* Stated at cash surrender value, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 127,480,007**	**$ –**	**$ –**	**$ 127,480,007**

Self-directed brokerage account	**24,603,005**	**–**	**–**	**24,603,005**

	December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$129,944,893	$ –	$ –	$ 129,944,893
Money market account	4,799,976	–	–	4,799,976
Self-directed brokerage account	25,230,649	–	–	25,230,649
Life insurance contract	–	103,839	–	103,839
Total	$159,975,518	$ 103,839	$ –	$ 160,079,357

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

3. Fair Value Measurements (continued)

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no significant transfers in or out of Levels 1, 2 or 3.

4. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Total investment income (loss) and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2018.

5. Life Insurance Contract

Plan assets include a life insurance contract issued by Transamerica Life Insurance Company. This contract is owned by the Austin Radiological Association P.A. 401(k) Profit Sharing Plan & Trust for the benefit of the participant insured and may be distributed or surrendered at the participant's direction. Premiums are paid out of the cash surrender value of the specific insured's insurance policy. Upon distribution of the participant's total vested account balance, the policy must also be distributed to the participant or surrendered. This contract is included at cash surrender value within Plan assets in the accompanying financial statements. During the year ended December 31, 2018, the policy was distributed to the participant.

6. Related-Party and Party-in-Interest Transactions

Plan assets include investment in funds managed by Charles Schwab Bank and notes receivable from participants. Charles Schwab Bank serves as the Plan's trustee and as such, these transactions qualify as party-in-interest transactions under ERISA. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

8. Income Tax Status

The Plan adopted a prototype basic plan document which received an opinion letter from the IRS on June 19, 2014, which stated that the prototype basic plan document is designed in accordance with the applicable sections of the IRC. In accordance with Revenue Procedures 2019-4 and 2015-36, the Company has determined that it is eligible to and has chosen to rely on the current IRS opinion letter. The Plan has adopted other required and discretionary amendments. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, and for the year ended December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.
