APEX MARITIME CO., INC.
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

Note 1 – Description of Plan

The following description of the Apex Maritime Co., Inc. 401(k) Profit Sharing Plan (the 'Plan') provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering covers all employees of the Company who are 21 or older and have completed one year and 1,000 hours of services. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan trustees oversees governance of the Plan.

b. Participant Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to male catch-up contributions. An annual participant's contribution is subject to statutory limit. For the year ended December 31, 2018, the maximum amount are $18,500 and $6,000 for regular contributions and catch-up contributions, respectively. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

c. Company's Contributions

Each plan year, the Company makes matching contributions to all eligible participants at a certain percentage of the participant's elective deferrals at the end of the Plan year. Any participant who makes elective deferral contributions will be eligible to receive any employer matching contribution that is made. The Employer's Matching Contribution will be an amount equal to 75% of first 10% of the participant's contribution as Elective Deferral Contribution. For the year ended December 31, 2018, the Company made matching contributions amounted to $511,351.

In addition, the company may also make discretionary profit sharing contribution to the Plan. For the year ended December 31, 2018, the Company did not make any profit sharing contributions.

d. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching and profit sharing contribution and (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant compensation and earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan (continued)

e. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution of their accounts is based on years of continuous services in accordance with the following:

Years of service	Vested Percentages
Immediately upon participation	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

However, the Company's matching and profit sharing contributions will become 100% vested if a participant is actively employed upon his attainment of normal retirement age, disability, death or upon death while on a leave of absence to perform military service.

f. Forfeited Accounts

Forfeitures, if any, will be allocated to Participants in accordance with the applicable formula elected by the Company. At December 31, 2018, there was no forfeited nonvested accounts.

g. Investment Options

Participants may direct the investment of their contributions into various investment options offered by the Plan, and make changes on their investment options and allocations at any time.

h. Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 to 50% of their vested account balance. The maximum borrowing amount is further reduced by the excess, if any, of the highest outstanding balance of loans during the prior 12-months ending on the day before the loan is executed, over the outstanding balance of loans from the Plan on the date the loan is executed. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator.

Note 1 – Description of Plan (continued)

h. Notes Receivable from Participants (continued)

Repayment of a loan must be made at least quarterly, on a quarterly, on an after-tax basis, in level payments of principal and interest. The maximum repayment period is 5 years. If the loan is taken for the purpose of purchasing a primary residence, the repayment period will be more than 5 years.

i. Payment of Benefits

Upon the termination of employment or retirement, a participant is entitled to a distribution of his vested account balance. A participant may elect to receive (a) a single lump sum payment or (b) at installment payments over a period not to exceed his expected future lifetime, or the joint expected future lifetime of him and his spouse.

If the value of the vested account is less than $5,000 when the participant terminates his/her employment with the Company, the participant will receive a distribution of the entire vested portion of the account balance and the non-vested portion will be forfeited.

The Plan allows for hardship or in-service withdrawals but is subject to the approval of the Plan administrator.

Note 2 – Summary of Significant Accounting Policies

a. Basis of Presentation

The accompanying financial statements of the Plan are prepared and presented in accordance with U.S. generally accepted accounting principles.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts

b. Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America ("US GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (continued)

c. Recent Accounting Pronouncements

In February 2017, the FASB issued the new accounting guidance ASU No. 2017-06, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (a consensus of the Emerging Issues Task Force), to improve the usefulness of the information reported to users of employee benefit plan financial statements and to provide clarity to preparers and auditors. ASU No. 2017-09 relates primarily to the reporting by a plan for its interest in a master trust. The amendments clarify presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the plan's interest in the master trust. The amendments also eliminate a redundancy relating to 401 (h) account disclosures. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. An entity should apply the amendments in this ASU retrospectively to each period for which financial statements are presented. The Plan has adopted this guidance in year 2018.

d. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

e. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Note 2 – Summary of Significant Accounting Policies (continued)

f. Excess Contributions Payable

Each year, when the participant contributions exceed the amount allowed by the IRS, the excess is recorded as payable with a corresponding reduction of contributions. This excess amount is to be distributed to the participants by the due date as prescribed by the IRS. At December 31, 2018 and 2017, there were no excess contributions payable.

g. Payment of Benefits

Benefits are recorded when paid.

h. Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation or depreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

i. Date of Management's Review of Subsequent Events

The Plan management has evaluated subsequent events through October 4, 2019, the date at which the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Note 3 – Fair Value Measurements (continued)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Money market and mutual fund. Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund. A stable value fund that is composed primarily of fully benefit-responsive investment contracts, which are issued by insurance companies and other financial institutions, fixed income securities, and money market funds and valued at the net asset value of units of the underlying investments. The net asset value is used as practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner. The plan has concluded that the NAVs reported by investment companies approximate the fair value of the investments. There are currently no redemption restrictions or unfunded commitments on those investments.

Note 3 – Fair Value Measurements (continued)

The following table lists the fair value of investment assets at December 31, 2018:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 7,124	$0	$0	$ 7,124
Mutual funds	13,718,340	0	0	13,718,340
Total investments at fair value	$ 13,725,464	$0	$0	$ 13,725,464
Investments measured at net asset value				1,740,143
Investments at fair value				$ 15,465,607

The following table lists the fair value of investment assets at December 31, 2017:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 4	$0	$0	$ 4
Mutual funds	13,218,596	0	0	13,218,596
Total investments at fair value	$ 13,218,600	$0	$0	$ 13,218,600
Investments measured at net asset value				1,645,124
Investments at fair value				$ 14,863,724

Note 4 – Related-Party Transactions and Party in Interest Transactions

Certain plan investments are shares of money market fund and mutual funds managed by Merrill Lynch, an affiliate of Bank of America, N.A. that is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. In addition, notes receivable from participant loans also qualify as party-in-interest transactions.

All these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 6 – Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan was amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 7 – Information Prepared and Certified by Trustees

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the trustees:

	2018	2017
Statement of net assets available for benefits:

Note 8 - Risks and uncertainties

The Plan provides various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the financial statements.
