Note 1 – Description of Plan

Biotest Pharmaceuticals Savings and Retirement Plan (the "Plan") was established on December 4, 2007. The Plan is a defined contribution plan covering all eligible employees of Biotest Pharmaceuticals Corporation (the "Plan Sponsor" or the "Company") and is maintained for the exclusive benefit of its employees and beneficiaries. The terms of the Plan permit employees to make elective contributions to the Plan out of their compensation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

On June 6, 2017, the Plan Sponsor sold its U.S. therapy business to ADMA Biologics of Ramsey, N.J. This transaction resulted on approximately 180 participants withdrawing their plan assets.

On August 1, 2018, the Plan Sponsor was acquired by a wholly owned subsidiary of Grifols, S.A. On December 31, 2018, Grifols S.A. was acquired by Scranton Enterprises B.V. As of December 31, 2018, the transactions have not had an impact on the Plan Assets.

The following is a brief description of the Plan and is provided for general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Restatements

Effective January 1, 2017, the Plan was amended to modify the Plan's eligibility requirements for full-time employees from 90 to 30 days of service.

Effective April 1, 2017, the Plan was amended to allow for participant loans to not become due or payable in full upon the participant's termination of employment.

Plan Administration

The Plan is collectively administered by MassMutual Retirement Services ("MMRS") and the Plan Sponsor. Reliance Trust Company ("Reliance") and Massachusetts Mutual Life Insurance Company ("MassMutual") have been appointed Joint Custodians of the Plan's assets. Wells Fargo is the Plan's investment advisor. Effective March 25, 2019, the Plan switched to First Republic Investment Management as its investment advisor.

Under the terms of the agreement, the Custodians hold and invest the funds of the Plan subject to the direction of the 401(k) plan participants. Upon enrollment in the Plan, participants can allocate participant and Company contributions in any of the investment options offered by the Plan. Participants may change their investment options at any time.

Eligibility

Effective January 1, 2017, full-time exempt and non-exempt employees are eligible to participate in the Plan after 30 days of service. Prior to January 1, 2017, these employees were eligible to participate in the Plan after 90 days of service. Part-time employees are eligible to participate in the Plan after 1,000 hours of service.

Note 1 – Description of Plan, continued

Contributions

A participant may defer up to 100% of total compensation through periodic payroll deductions up to contribution limits specified by the Internal Revenue Code, ("IRC"): $18,500 in 2018. Participants who have attained the age of 50 before the last day of the Plan year are permitted to make catch-up contributions of $6,000 in accordance with IRC limitations.

The Plan is a "safe harbor 401(k) plan". The Company makes safe harbor matching contributions equal to 100% of the participants' salary deferrals that do not exceed 4% of the participant's eligible compensation. The safe harbor matching contributions are 100% vested.

The Plan also permits the Company to contribute discretionary contributions, qualified non-elective contributions and profit sharing contributions. Employees must be employed on the last day of the year to receive these contributions. There were none of these types of contributions in 2018.

The Plan allows participants to rollover amounts into the Plan from other qualified plans, subject to the provisions of the Plan.

Vesting

Each participant is 100% vested in their own contributions, Company contributions and the related investment earnings.

Distribution of Participants Accounts

Participants may elect to receive lump a sum distribution upon termination, retirement, disability, death or attainment of age 59 ½. The Plan also allows for hardship distributions based on proven financial need, as defined by the Code. The Plan automatically distributes participant accounts with balances less than $5,000 upon termination of employment. If the participant's account balance is between $1,000 and $5,000, the distribution may be taken in cash or rolled into an Individual Retirement Account ("IRA") account or other qualified plan.

Participant Accounts

Individual accounts are maintained for each participant's account to reflect participant's contribution, the related Company matching contributions, the Plan's earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account balance.

Notes Receivable from Participants

Participants may borrow from their Plan accounts subject to a minimum of $1,000 and a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan terms range from one (1) to five (5) years, or longer for the purchase of a primary residence. Only one (1) loan is allowable at any given time. The loan is secured by the balance in the participant's account, and charged a rate of interest based on the prime rate on the date the loan is approved. Principal and interest are repaid ratably through payroll deductions. Loans to participants are reported at their unpaid principal balances, plus any accrued but unpaid interest.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for investments in fully benefit-responsive investment contracts ("FBRICs"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FBRICs are reported at contract value because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a FBRIC through a Guaranteed Interest Contract ("GIC"). See Note 5 for discussion on the GIC. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's losses and gains on investments bought and sold, as well as investments held during the year.

Administrative Expenses

Transaction fees charged for certain distributions from the Plan are charged directly to participant accounts and are presented as administrative expenses in the accompanying financial statements. All other operating expenses of the Plan are paid by the Company and are therefore excluded from these financial statements.

Benefit Payments

Benefit payments to participants are recorded when paid.

Recent Accounting Pronouncements

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for net asset value per share practical

expedient in accordance with ASC 820, *Fair Value Measurement*. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. This amendment is effective for annual periods beginning after December 31, 2018 for public business entities. The adoption of this standard is not expected to significantly impact the Plan's financial statements.

Date of Management's Review

Subsequent events were evaluated through October 8, 2019, which is the date the financial statements were available to be issued.

Note 3 – Investments as Certified by the Custodians

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.105 – (C) (Certification) and 29 CFR 2520.103-8 (Limited Scope) of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the Joint Custodian's of the Plan have certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Plan Benefits and notes receivable from participants as of December 31, 2018 and 2017, and the Schedule of Assets (Held at End of Year) at December 31, 2018, as well as the related investment activity reported in the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2018.

Note 4 – Fair Value Measurements

The Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Market Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are defined as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities;

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted market prices in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities;

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Note 4 – Fair Value Measurements, continued

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Fair Value Measurements at December 31, 2018			
	Level 1	Level 2	Level 3	Fair Value
Mutual funds	$ 22,390,005	$ -	$ -	$ 22,390,005

	Fair Value Measurements at December 31, 2017			
	Level 1	Level 2	Level 3	Fair Value
Mutual funds	$ 25,170,114	$ -	$ -	$ 25,170,114

Note 5 – Guaranteed Interest Contract with Insurance Company

The Plan offers a market value separate account investment option with a GIC that provides for a stated rate of return and insulates participants' accounts from daily fluctuations in the market fund. Participants may withdraw or transfer all or portions of their balance in this investment option at contract value.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits. Contract value, as reported to the Plan by the GIC, represents contributions made under the contract, plus earnings (losses), less participant withdrawals and administrative expenses.

Note 5 – Guaranteed Interest Contract with Insurance Company, continued

Certain events may limit the ability of the Plan to transact at contract value. Such events include, but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, such as the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a division of the Company or as a result of group layoffs or early retirement programs.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Sponsor reserves the right to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. If the Plan were terminated, participants would remain 100% vested in their own contributions, the Company contributions, and their related earnings, and the net assets would be distributed to the participants.

Note 7 – Income Tax Status

The Plan is a volume submitter profit sharing plan, sponsored by MassMutual, designed in accordance with applicable sections of the IRC. MassMutual received an opinion letter from the IRS, dated March 31, 2014, which states that the Plan satisfies the applicable provisions of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is not subject to income tax examinations for years prior to 2014.

Note 8 – Parties-in-Interest Transactions

MassMutual, Reliance, Wells Fargo, and First Republic are considered parties-in-interest. Certain investments and investment activity as reported by the Joint Custodians and presented in the accompanying financial statements were considered transactions with a parties-in-interest, according to the Department of Labor guidelines. Fees paid by the Plan for investment management and advisory services amounted to $205,381 for the year ended December 31, 2018.

Note 8 – Parties-in-Interest Transactions, continued

Certain employees of the Plan had outstanding loans (notes receivable from participants) with the Plan at December 31, 2018 and 2017. These loans were considered party-in-interest transactions according to the Department of Labor guidelines. Total outstanding loans at December 31, 2018 and 2017, were $729,431 and $733,047, respectively.

Note 9 – Risks and Uncertainties

In general, the investments provided by the Plan are exposed to various risks, including, but not limited to, interest rate, credit default and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for Plan benefits.
