| To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan. |                                        |

| <b>Part I</b> | <b>Service Provider Information (see instructions)</b> |
|---------------|--------------------------------------------------------|

You must complete this Part, in accordance with the instructions, to report the information required for **each person** who received, directly or indirectly, \$5,000 or more in total compensation (i.e., money or anything else of monetary value) in connection with services rendered to the plan or the person's position with the plan during the plan year. If a person received **only** eligible indirect compensation for which the plan received the required disclosures, you are required to answer line 1 but are not required to include that person when completing the remainder of this Part.

**1 Information on Persons Receiving Only Eligible Indirect Compensation**

**a** Check "Yes" or "No" to indicate whether you are excluding a person from the remainder of this Part because they received only eligible indirect compensation for which the plan received the required disclosures (see instructions for definitions and conditions)..... ☒ Yes ☐ No

**b** If you answered line 1a "Yes," enter the name and EIN or address of each person providing the required disclosures for the service providers who received only eligible indirect compensation. Complete as many entries as needed (see instructions).

|---------------|--------------------------------------|

**1** Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

**Report on the financial statements**

We were engaged to audit the accompanying financial statements of **Kuhlman Electric Corporation Salaried Employees' Pension Plan** (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, the related statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017, the statements of accumulated plan benefits as of December 31, 2018 and 2017, the related statements of changes in accumulated plan benefits for the years ended December 31, 2018 and 2017, and the related notes to the financial statements.

**Management's responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's responsibility**

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

**Basis for disclaimer of opinion**

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of and for the years ended December 31, 2018 and 2017, stating that the certified information provided to the Plan administrator is complete and accurate.

**Disclaimer of opinion**

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Report on form and content in compliance with DOL rules and regulations**

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

# Notes to financial statements

## 1 Plan Description

The following brief description of the Kuhlman Electric Corporation Salaried Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

### General

The Plan was established effective January 1, 1974 to provide retirement benefits to eligible employees of Kuhlman Electric Corporation. Kuhlman Electric Corporation was acquired by ABB Inc. (the Company or Employer) in 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). No employees hired on May 1, 2006 and thereafter are eligible to participate in the Plan.

### Participation and Vesting

In accordance with the Pension Protection Act of 2006, participants are 100% vested after completing three years of eligibility service. The Plan was amended effective April 30, 2006, to freeze participation in the Plan. Therefore, all employees hired after this date will not be eligible to participate in the Plan. In addition, the Plan was amended effective December 31, 2009, to freeze future benefit accruals under the Plan.

### Pension Benefits

An account shall be established and maintained for each covered employee to which credits shall be made pursuant to the provisions of the Plan. Participants with three or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) in the form of an annuity indexed to the consumer price index for the life of the participants. The starting value of this annuity is 1/180 times the participant's account balance at benefit commencement date. As provided in the Plan, a benefit equal to a participant's final five-year average pay times 1.2% times credited service (to a maximum of 20 years) is payable if it provides a larger benefit.

An employee may elect to retire at any time after they have both attained age 55 and completed 10 years of service. Their monthly pension under the Plan is computed the same as if they were retiring at normal retirement date, based on their account balance at their early retirement date, and is then reduced by 5/9 of 1% for each month up to 60 months and 5/18 of 1% for each month in excess of 60 months that the benefit commencement date precedes the first day of the month following their 65th birthday.

Employees may elect to receive the value of their accumulated plan benefits (account balance) in one of the following forms as described in the Plan: 1) an increasing life annuity (with 60 months guaranteed), 2) a life annuity option (with 60 months guaranteed), 3) a surviving spouse option, 4) a life annuity (with 120 months guaranteed) or 5) a lump-sum option.

Covered employees who become disabled are entitled to receive pension benefits upon attainment of age 65, as specified in the Plan. Employees continue to receive pay-based credit during the period from the date of disability until the attainment of age 65.

The Plan offers multiple options for payment including, lump-sum and various annuity options for participants which have satisfied the vesting requirements under the Plan.

## **2 Summary of Significant Accounting Policies**

### **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with United States generally accepted accounting principles.

### **Recent Accounting Pronouncements**

In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update 2017-06, "*Plan Accounting: Employee Benefit Plan Master Trust Reporting*." The amendments in the ASU clarify presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the plan's interest in the master trust. The amendments also eliminate a redundancy relating to 401(h) account disclosures. The amendments in ASU 2017-06 are effective for plans for fiscal years beginning after December 15, 2018. Management does not expect the new accounting pronouncement to have a material impact on the financial statements.

### **Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### **Funding Policy**

The Company shall make contributions to the Plan as shall be necessary under accepted actuarial principles to meet the requirements of ERISA. Employer contributions are based on an actuarial determination which provides for funding (a) the annual normal cost for the current year and (b) an amount necessary to amortize the unfunded accrued liability.

It is the Company's intention to only make contributions that are tax deductible. For each of the years ended December 31, 2018 and 2017, the Plan has satisfied the minimum funding requirements of ERISA.

### **Valuation of Investments and Income Recognition**

The assets of the Plan are held in the ABB Inc. Master Trust (Master Trust), along with the assets of certain other plans of the Company. BNY Mellon (the Trustee) is the Trustee of the Master Trust.

Income, including realized and unrealized gains and losses, of the Master Trust is allocated monthly among participating plans based on the relationship of the fair value of the assets of each plan to the total fair value of the assets of the Master Trust as of the end of the preceding month. Employer contributions and benefit payments are applied on a specific basis to each plan.

Assets of the Master Trust are stated at fair value which, as used for financial statement purposes, represents market or current value as reported by the Master Trust's Trustee (see Note 6). The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes gains and losses on investments bought and sold as well as held during the year.

**Administrative Expenses**

The Plan's expenses are paid either by the Plan, Master Trust, or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset available for benefits. In addition, certain investment-related expenses are included in net investment gain or loss of the Master Trust presented in the accompanying statements of changes in net assets available for benefits.

**Securities Lending**

As of and for the years ended December 31, 2018 and 2017, the Master Trust participated in the BNY Mellon's securities lending program for securities held in custody at the trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in overnight cash deposits and US government securities managed by BNY Mellon. The value of loaned securities in the Master Trust amounted to approximately \$35,064,000 and \$19,886,000 at December 31, 2018 and 2017, respectively. The realized gain from securities lending activities of \$30,000 and \$21,000 for the years ended December 31, 2018 and 2017, respectively, is included as a component of the net appreciation (depreciation) in fair value of investments in Note 4.

**Derivatives**

The Plan (through the Master Trust) may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S. dollar denominated investment securities. When entering into a forward currency contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchanges rates at the dates of entry in the contracts and the forward rates at the reporting date is included in the Master Trust's net assets. Realized and unrealized gains and losses are included in the Master Trust's net investment gain (loss). These instruments involve market risk, credit risk or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates.

At December 31, 2018 and 2017, the Master Trust had the following foreign currency forward exchange contracts:

The fair value of the foreign currency forward exchange contracts, none of which are accounted for as hedge instruments under FASB ASC 815, *"Derivatives and Hedging,"* are included in the Master Trust's net assets under state and foreign bonds. The realized gain/(loss) from foreign currency forward exchange contracts of \$3,729,000 and \$285,000 for the years ended December 30, 2018 and 2017, respectively, are included as a component of the net appreciation (depreciation) in fair value of investments in Note 4.

The Master Trust may be required to post collateral on derivatives if the Master Trust is in a net liability position with the counterparty exceeding certain amounts. Additionally, counterparties may immediately terminate derivatives contracts if the Master Trust fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages.

### Master Netting Agreements

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the Company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

The following is a summary by counterparty of the Master Trust's net exposure to derivative assets and liabilities, available for offset and net of collateral under a netting agreement at December 31, 2018 and 2017.

### Investment Risk

The Master Trust provides for investments that are exposed to risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

### Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### Subsequent Events

Management evaluated subsequent events for the Plan through October 4, 2019, the date the financial statements were available to be issued, and has determined that there are no material subsequent events.

### 3 Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or other beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2018 and 2017, was determined by the Plan's actuary, Willis Towers Watson & Company (formerly known as Towers Watson & Company), using employee data supplied by the Company as of January 1, 2018 and 2017, and projected to the respective valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the unit credit method.

A summary of the significant actuarial assumptions underlying the actuarial valuations as of December 31, 2018 and 2017 are as follows:

**Mortality – 2018:** Based on the Retirement Plans – Collar specific RP2006 Mortality Table with Scale MP-2018 generational projection split between annuitants and non-annuitants and sex distinct.

**Mortality – 2017:** Based on the Retirement Plans – Collar specific RP2006 Mortality Table with Scale MP-2017 generational projection split between annuitants and non-annuitants and sex distinct.

**Interest:** The assumed interest rates utilized to calculate accumulated plan benefits at December 31, 2018 and 2017 were 4.09% and 3.20%, respectively.

**Interest Crediting Rate:** The assumed interest crediting rate for December 31, 2018 and 2017, was 5.0%.

**Retirement Age – 2018 and 2017:** Age 55 for terminated vested participants with account balances. Age 65 for other terminated vested participants and the following chart of rates applies for active employees:

| Age   | Percentage of Employees<br>Expected to Retire Within One<br>Year |
|-------|------------------------------------------------------------------|
| 55-58 | 5                                                                |
| 59    | 6                                                                |
| 60-61 | 15                                                               |
| 62    | 20                                                               |
| 63-64 | 25                                                               |
| 65    | 75                                                               |
| 66    | 65                                                               |
| 67-69 | 50                                                               |
| 70    | 100                                                              |

The (\$1,627,340) change in actuarial assumptions for the year ended December 31, 2018, was due to an increase in the interest rate to 4.09% and a change in the mortality table. The \$424,235 change in actuarial assumptions for the year ended December 31, 2017, was due to a decrease in the interest rate to 3.20% and a change in the mortality table.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

#### 4 ABB Inc. Master Trust

The Plan's investments are held in the Master Trust, which is a master trust established for the investment of the assets of the Plan and other Company-sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At December 31, 2018 and 2017, the Plan had a 1.9% and 1.8% interest in the net assets of the Master Trust held by BNY Mellon, respectively.

The following tables present the net assets for the Master Trust:

## 5 Investments Certified by Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Company has obtained a certification from the Trustee as to the completeness and accuracy of the investments and investment activity (except for investments classified as alternative investments and related investment activity) recorded by the Master Trust as of and for the years ended December 31, 2018 and 2017. Additionally, the Company has obtained a certification from the Trustee related to the Plan's interest in the Master Trust and Master Trust investment activity as of and for the years ended December 31, 2018 and 2017. Investment information certified by the Trustee at the Master Trust and Plan levels has not been audited by independent auditors.

At the Master Trust level, the alternative investments and related investment activity as of December 31, 2018 and 2017 and for the years then ended are detailed below:

| December 31                   | 2018       | 2017       |
|-------------------------------|------------|------------|
|                               | \$         | \$         |
| Private equity investments    | 11,491,567 | 19,831,802 |
| Distressed debt               | 637,579    | 1,314,616  |
| Fund of funds                 | 3,168,369  | 5,965,638  |
| Total alternative investments | 15,297,515 | 27,112,056 |

The private equity investments, distressed debt and fund of funds are included as a component of the balances for partnership/joint venture interests and 103-12 investment entities detailed in Note 4.

At the Master Trust level, net realized and unrealized appreciation (depreciation) for these alternative investments is as follows:

| For the years ended December 31                                          | 2018        | 2017      |
|--------------------------------------------------------------------------|-------------|-----------|
|                                                                          | \$          | \$        |
| Net appreciation (depreciation) in fair value of alternative investments | (2,678,568) | 6,709,215 |

At the Plan level, the Plan's "Interest in the ABB Inc. Master Trust" as reflected in the accompanying statements of net assets available for benefits and the Plan's "Interest in net investment gain of the ABB Inc. Master Trust" in the accompanying statements of changes in net assets available for benefits has also been certified by the Trustee. While the Plan holds an undivided interest in the Master Trust, the certified amounts for the Plans have been adjusted to reflect the Master Trust alternative investments' fair values and investment gain of alternative investments noted above. These amounts represent 1.2% and 4.5% of the Plan's "Interest in the ABB Inc. Master Trust" and "Interest in net investment gain (loss) of the ABB Inc. Master Trust" at December 31, 2018 and 1.9% and 4.1% of the Plan's "Interest in the ABB Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2017 and for the year then ended.

## 6 Fair Value Measurements

Investments held by the Master Trust are stated at fair value. ASC 820, *"Fair Value Measurements and Disclosures,"* requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust's investments, are described below:

- Level 1** Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2** Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.
- Level 3** Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. The Plan evaluates its hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

- Corporate bonds are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable section of issuers with similar credit ratings.
- State and foreign bonds valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- U.S. government securities valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- Corporate stocks valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using closing price reported on the inactive market.

- Registered investment companies are valued at the net asset value (NAV), based on quoted market prices in active markets, of shares held by the Plan at year-end.
- Collective trusts, partnership/joint venture interests, and 103-12 investment entities are valued at net asset value as reported by the respective fund managers based upon the fair value of the underlying investments less liabilities.
- Short investments primarily consists of interest rate swaps which are valued using the income approach which takes into account contract terms as well as multiple inputs which may be observed in the marketplace.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's financial instruments at fair value as of December 31, 2018:

In accordance with ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in Note 4.

There were no significant transfers among investment levels during the years ended December 31, 2018 and 2017.

The following table summarizes investments measured at fair value based on the NAV per share practical expedient as of December 31, 2018:

- a) The partnership/joint venture interests' investments are invested within alternative investments such as private equity and fund of funds. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity. Within the limited partnerships, there is also a limited partnership that has an investment objective of seeking to outperform the S&P 500. This fund does require monthly notice to provide liquidity.
- b) The collective trust investments include an international equity fund and emerging market fixed income bond fund. The investment objective of the international equity fund is to seek capital appreciation through investments in a portfolio of securities issued by companies predominantly in companies contained in the MSCI EAFE Index. The investment objective of the emerging market fixed income fund is to seek long-term total return through investment in a diversified portfolio of emerging markets debt securities and currency instruments.
- c) The 103-12 investment entities are invested in alternative investments with specific requirements under ERISA. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity.

## 7 Plan Termination

The Company expects to continue the Plan, but reserves the right to terminate the Plan or discontinue contributions subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the following order to the extent of the sufficiency of such assets, or portions thereof:

First, to that portion of a participant's accrued benefit which is derived from mandatory contributions to the Plan;

Second, equally among benefits of participants in the following two subcategories;

- In the case of benefits in any pay status three years prior to termination (at the lowest pay level in that period and at the lowest benefit level under the Plan during the five years prior to termination); and
- In the case of benefits which would have been in pay status three years prior to termination had the participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Third, among all other benefits (if any) of participants under the Plan; guaranteed under the termination insurance provisions of ERISA;

Fourth, among all other nonforfeitable (i.e., uninsured and vested) benefits under the Plan; and

Fifth, among all other benefits under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2018 and 2017, that ceiling, which is adjusted annually, was \$5,608 and \$5,420 per month, respectively. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty.

## **8 Income Tax Status**

The IRS has determined and informed the Company by a letter dated September 13, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles general accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. As of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## **9 Party-in-Interest Transactions**

Certain of the Plan's assets are invested in funds managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

## Demographic Assumptions

**Inclusion date** The valuation date coincident with or next following the date on which the employee becomes a participant.

**New or rehired employees** It was assumed there will be no new or rehired employees.

### Mortality

■ Healthy Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2033 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2025 using Scale AA).

■ Disabled Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

**Termination** Representative Termination rates not due to Disability, Retirement, and Mortality are as follows:

| Percentage leaving during the year |        |
|------------------------------------|--------|
| Attained Age                       | Rate   |
| 20                                 | 17.60% |

### Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

| Percentage retiring during the year |         |
|-------------------------------------|---------|
| Age                                 | Rate    |
| 55-58                               | 5.00%   |

| 70                                  | 100.00% |

Age 62 for terminated vested participants with account balances.

Age 65 for all other terminated vested participants.

### Benefit

#### commencement date:

- Preretirement death benefit The later of the date of death of the participant, or the date the participant would have attained age 55.
- Deferred vested benefit The later of age 62 or termination of employment.
- Disability benefit Upon disablement.
- Retirement benefit Upon termination of employment.

### Form of payment

Active participants and terminated vested participants with account balances are assumed to elect a lump sum. All other participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement.

Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation 1.430(d)-1(f)(5).

### Percent married

For purposes of valuing the pre-retirement surviving spouse benefit, 70% of eligible participants are assumed to be married.

**Spouse age** For purposes of valuing the pre-retirement surviving spouse benefit, wife three years younger than husband.

**Timing of benefit payments** Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

### Methods

**Valuation date** First day of plan year.

**Funding target** Present value of accrued benefits as required by regulations under IRC §430.

**Target normal cost** Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

**Actuarial value of assets** Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, plan-related expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

For purposes of calculating the actuarial value of assets, expected earnings assumptions of 6.20% for 2017 and 6.20% for 2016 were used

**Benefits not valued** All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with ABB Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

## Sources of Data and Other Information

The plan sponsor through its third party administrator (Alight), furnished participant data as of 1/1/2018. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

Please refer to the 1/1/2018 Pension Valuation Census Data Report for documentation of assumptions made for missing or apparently inconsistent data elements.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Interest rate</b>                      | The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Plan-related expenses</b>              | Plan related expenses are estimated by considering the plan's actual administrative expenses paid from the trust during the prior year.                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Inflation (CPI)</b>                    | This assumption was chosen based on duration weighted swap data provided by Bloomberg as of December 31, 2017.                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Interest crediting rate</b>            | The Kuhlman Salaried Plan credits interest to its cash balance accounts using the lesser of CPI and a 12-month average of the yields on One-Year Treasury Constant Maturities, but with a minimum interest crediting rate of 5% and a maximum interest crediting rate of 8%. The assumption selected by the plan sponsor is the actual interest crediting rate for 2018 and an assumed interest crediting rate thereafter. Based on future expectations, the assumed interest crediting rate for 2019 and beyond is equal to the plan's minimum rate of 5%. |
| <b>Annuity conversion rate</b>            | As required by IRC 430, annuity benefits were calculated from the cash balance accounts using the current required IRC 430 conversion rates.                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Assumed Return for Asset Smoothing</b> | The assumed return of 6.20% used for asset smoothing is the expected return on assets assumption chosen by the plan sponsor for the prior plan year and we concur with this assumption.                                                                                                                                                                                                                                                                                                                                                                     |

## Assumptions Rationale - Significant Demographic Assumptions

|                           |                                                                                                                                                                                     |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Healthy mortality</b>  | Assumptions used for funding purposes are as prescribed by IRC §430(h).                                                                                                             |
| <b>Disabled mortality</b> | Assumptions used for funding purposes are as prescribed by IRC §430(h).                                                                                                             |
| <b>Termination</b>        | Termination rates were selected based on a published table for pension participants believed to have similar characteristics to the plan population                                 |
| <b>Disability</b>         | Disability rates were selected based on a published table for pension participants believed to have similar characteristics to the plan population.                                 |
| <b>Retirement</b>         | Retirement rates were based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. |
| <b>Percent married</b>    | The assumed percentage married was selected based on general population statistics on the marital rates of individuals of retirement age.                                           |

## Source of Prescribed Methods

|                        |                                                                                                                                                                                                                                                                                                                                        |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Funding methods</b> | The methods used for funding purposes as described above, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430. |

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## Benefits Paid Upon the Following Events

### Normal retirement

Normal retirement income as an annuity indexed to CPI for the life of the participant (with 66  $\frac{2}{3}$ % continuation to the participant's spouse if applicable). The starting value of this annuity is 1/180 times the participant's Account Balance at Benefit Commencement Date.

The Account Balance is initially established on the present value of the benefit accrued under the plan at 12/31/86. Participants earn annual credits to Account Balances equal to 3% of eligible compensation in excess of 1/4th of the Social Security Maximum Taxable Wage Base for that year plus 6% of compensation in excess of 1/4th of the Social Security Maximum Taxable Wage Base. In addition, certain participants are eligible to receive special transitional credits equal to a specified percentage of annual pay. Account Balances are credited with an Interest Credit Percentage at the end of each quarter based on the Account Balance at the beginning of each quarter.

The Interest Credit Percentage is equal to the lesser of:

- (i) The Consumer Price Index as measured for the 12 month period ending 3 months prior to the start of the plan year, and
- (ii) The 12 month average of the yields of One-Year Treasury Constant Maturities for the 12 month period ending 3 months prior to the start of the plan year.

The Plan was amended effective January 1, 2001 to provide a minimum interest crediting percentage of 5% and a maximum interest crediting rate of 8%.

A minimum benefit applies to all active participants earning benefits under the plan after December 31, 1986 and is equal to five year average pay times 1.2% times credited service (to a maximum of 20 years) is payable if it provides a larger benefit.

In no event will the present value of benefits due to a participant commencing payment under the Plan be less than the value of his accrued benefit under the Plan as of December 31, 1986.

### Early retirement

The monthly pension benefit determined under the Plan is based on (a) Account Balance at his early retirement date, and (b) his minimum benefit payable as of his normal retirement date reduced 5/9% for each month that benefit commencement precedes age 65 and 5/18% for each month that benefit commencement precedes age 60.

|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Deferred vested termination</b> | A participant will be entitled to a deferred vested benefit payable in full at age 65. Participants may elect to receive a reduced benefit on or after age 55 and at least 10 years of Credited Service.                                                                                                                      |
| <b>Disablement</b>                 | Employees continue to receive pay-based credits during the period from the date of disablement until the attainment of age 65, calculated assuming that compensation for the period of disablement is deemed to be equal to the amount of benefits he receives (or would have received if enrolled) under the LTD Group Plan. |
| <b>Preretirement death</b>         | In the event of the death of a vested participant prior to retirement, his surviving spouse will be entitled to 50% of the reduced accrued benefit as of the date of death, payable upon the later of (1) the date of employee's death and (2) the attainment of the employee's earliest retirement age                       |
