Contributions - Eligible employees may contribute up to a maximum annual contribution specified by the Internal Revenue Service. The maximum employee contribution was $18,500 ($24,500 for employees age 50 or older) for the year ended December 31, 2018 and $18,000 ($24,000 for employees age 50 or older) for the year ended 2017.

The Company matched 25% of employee deferrals, not to exceed 2% of total compensation for the years ended December 31, 2018 and 2017. Additional nonmatching profit sharing contributions may be made by the Company on a discretionary basis. There weren't any discretionary contributions made in 2018 or 2017. No forfeitures were used to pay employer matching contributions for the years ended December 31, 2018 or 2017.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's matching contribution, and Plan earnings.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the remainder of their account balance based on the number of years of service. A participant is fully vested after six years of credited service. The ratio is 0% the first year for matching then 20% per year thereafter until fully vested.

Forfeitures - Forfeitures of terminated participants' nonvested accounts are used to pay administrative expenses of the Plan or to offset future employer contributions. The total unallocated forfeiture balance as of December 31, 2018 was $920. For the year ended December 31, 2017, the total unallocated forfeitures were $18. The unallocated forfeiture balance is planned to be used to reduce the Plan's administrative expenses in 2019.

NOTE 1 DESCRIPTION OF PLAN (Continued):

Funding Policy - Employee contributions are remitted as soon as the contributions are withheld from employee paychecks and the assets can reasonably be segregated. The employer matching contribution is remitted annually by June 15th of the following year.

Investment Options - The Plan provides a variety of investment options through mutual funds offered by MassMutual Life Insurance Company (MassMutual). Participants may determine the allocation of contributions between any of the following fund options:

Guaranteed Interest Account	MassMutual Premier
Amer Funds Wash Mutl Invs Fund	MM S&P 500 Index Fd (Nrthrn Tr)
American Century Mid Cp Val Fd	Oppenheimer Internat Gr Fund

Participants may change their investment options on a daily basis.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2018, and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Distributions - In the event of retirement, disability or death, the participant’s account will be distributed in a single distribution or in an annuity not to exceed

NOTE 1 DESCRIPTION OF PLAN (Continued):

Distributions (Continued) - the participant's life expectancy. In addition, participants may request hardship withdrawals which are defined as medical, educational and certain other expenses for which the participants have no other available funds. All withdrawals are subject to limits specified in the Plan and by the Internal Revenue Code.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Allocation – The Plan's investments are stated at fair value or contract value as certified by the custodian as of December 31, 2018 and 2017. See Note 3 for additional fair value measurement information.

Net appreciation or depreciation of investments is determined from fair values as of the previous Plan year end or from cost if acquired during the current year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Net income from the Plan is allocated on each business day of the Plan year for which there is an established market value for the Plan assets and on which the Plan custodian conducts business (the daily valuation method.)

Administrative Expenses - Certain costs of administering the Plan are paid by the Plan and include investment advisory fees. The fees for accountants, custodian and third-party administrators are paid by the Plan through forfeitures, if available, or by the Plan sponsor.

Recording of Benefits - Benefits are recorded when paid.

Accounting Pronouncements that have been Implemented – No new accounting policies were adopted and the application of existing policies were not changed during 2018.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Newly Issued Accounting Pronouncements, Not Yet Effective - On August 28, 2018, the FASB issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820) Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement. The ASU was issued* to improve the effectiveness of disclosures about fair value measurements required under ASC 820. The ASU removed some disclosures, modified others, and added some new disclosure requirements. The amendments in ASU 2018-13 are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted. The impact of the implementation of this Update to the Plan's financial statements has not been evaluated at this time.

NOTE 3 FAIR VALUE MEASUREMENTS:

Assets and liabilities measured at fair value are recorded in accordance with ASC 820, *Fair Value Measurements and Disclosures*, which clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 Inputs	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.
Level 2 Inputs	Inputs other than quoted prices in active markets that are observable either directly or indirectly.
Level 3 Inputs	Unobservable inputs in which there is little or no market data, which requires us to develop our own assumptions.

NOTE 3 FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Level 1 Fair Value Measurements
Financial assets valued using level 1 inputs consist of mutual funds. These assets are valued based upon unadjusted quoted market prices within active markets. There were no changes in the valuation techniques used at December 31, 2018 and 2017.

Fair values of assets measured on a recurring basis at December 31, 2018 and 2017 are as follows:

		Fair Value Measurements Using:		
December 31, 2018	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 6,585,036	$ 6,585,036	$	$
Total recurring investments	$ 6,585,036	$ 6,585,036	$	$
Investment Contract measured at contract value	$ 615,470			
Total Investments	$ 7,200,506			

		Fair Value Measurements Using:		
December 31, 2017	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 6,646,499	$ 6,646,499	$	$
Total recurring investments	$ 6,646,499	$ 6,646,499	$	$
Investment Contract measured at contract value	$ 544,632			
Total Investments	$ 7,191,131			

NOTE 3 FAIR VALUE MEASUREMENTS (Continued):

ASC 2015-12 indicates that fully benefit-responsive investment contracts are now measured, presented, and disclosed at contract value and fair value information is no longer required. However, the investments measured at contract value are presented above to enable reconciliation with amounts presented on the statement of net assets available for benefits.

NOTE 4 INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has entered into a fully benefit-responsive group annuity contract with MassMutual Retirement Services. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Under the terms of the Contract, a crediting rate is established for amounts invested in the guaranteed interest account and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

The assumed interest rate is obtainable by MassMutual on new investments where a proxy is the Barclays Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration and the experience rate for the Contract, which is the weighted average of the investment year interest rates for pension account funds. The weighting reflects the distribution of Contract funds to the various investment years. The assumed interest rate was 4.53% and 3.52% as of December 31, 2018 and 2017, respectively.

The average yield earned is calculated by dividing the annual interest credited to the plan during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year). The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year). The average yield earned by the plan and the average interest rate credited to participants was the same at 1.90% and 1.92% as of December 31, 2018 and 2017, respectively; therefore, no adjustment is needed.

Certain events may limit the ability of the plan to transact at Contract Value. Such events include but may not be limited to a participant termination of employment due to: (1) removal of a group of participants from plan coverage as a result of temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the plan;

NOTE 4 INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued):

(3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business. Such events also include: (1) removal from the plan of one or more groups or classifications of participants; (2) partial or complete plan termination; or (3) plan disqualification.

NOTE 5 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

The Plan invests in shares of mutual funds, stocks and securities, offered and maintained by MassMutual Life Insurance. MassMutual is the custodian of the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 6 TAX STATUS:

The Plan is qualified under the provisions of the Internal Revenue Code and is not subject to federal and state income taxes. Participating employees are not subject to federal and state income taxes on employer and employee contributions, or on income accruing to their accounts, until they receive distributions from the Plan.

The Plan obtained its latest determination letter on December 28, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. As of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements.

The Plan administrator believes the Plan is no longer subject to U.S. federal and state income tax examinations by tax authorities for the years prior to 2015.

NOTE 7 PLAN TERMINATION:

Although the Company has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 SUBSEQUENT EVENTS:

Management has evaluated subsequent events through October 9, 2019, the date the financial statements were available to be issued.
