Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Ohio Transmission Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Ohio Transmission Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

All active employees of the Company are eligible to participate in the Plan on the first day of the next month following attainment of age 21 and completion of one month of service. To participate in the employer annual matching contribution, participants must be an active employee on the last day of the plan year.

Contributions: Each eligible employee may elect to contribute, through payroll deduction, 1% to 60% of their annual compensation, subject to Internal Revenue Code (IRC) limitations. Eligible employees are automatically enrolled in the Plan with an elective pre-tax deferral rate of 6% of compensation, unless the participant affirmatively elects out of the automatic deferral feature or elects a different deferral rate. Participants may change their contribution amount at any time and may also make Roth deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Non-discretionary employer matching contributions are subject to a maximum of the lesser of 50% of 6% of the participant's eligible compensation contributed to the Plan or \$3,000.

The Company may also make additional matching and discretionary profit sharing contributions. No additional matching or discretionary profit sharing contributions were made during 2018.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) Company matching and profit sharing contributions and (b) plan earnings and losses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures: Participants are immediately vested in their contributions plus actual earnings thereon. Employees become vested in the Company matching contributions at 20% per year of service and are fully vested at the end of 5 years. Participants who have attained normal retirement age or have terminated as a result of death or disability are immediately fully vested in Company matching contributions and additional discretionary amounts contributed by the Company, plus actual earnings thereon. Forfeitures are used to reduce Company matching contributions. The balance of forfeited non-vested accounts totaled approximately \$109,000 and \$36,000 at December 31, 2018 and 2017, respectively. During the year ending December 31, 2018 approximately \$36,000 of forfeitures were used to reduce employer contributions.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant notes receivable: Participants may borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. A loan is secured by the balance in the participant's account and bears interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Participants are limited to one outstanding note at any given time. Principal and interest is paid ratably through payroll deductions.

Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Payment of benefits: Upon normal retirement at age 65, early retirement at age 60 and completion of 15 years of service, attainment of age 59½, total disability or termination of service, participants may elect to receive a lump-sum payment or installment payments. Upon the death of a participant, the beneficiary shall be entitled to the full value of the accounts. Hardship withdrawals, as defined in the Plan, are also available to participants.

Plan termination: Although the plan sponsor has not indicated any intent to do so, it has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared using the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions are recognized when withheld from the participant's earnings. Employer contributions are recognized when declared.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative expenses are paid by the Company and are excluded from these financial statements. Certain fees related to administration, transactions or notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Risk and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued.

Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the plan's asset information as of December 31, 2018 and 2017 and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2018	2017
Investments, at fair value:		
Money market fund	\$ 1,925,448	\$ 1,013,097
Mutual funds	51,861,437	53,316,873
Common/collective trust	2,118,980	2,037,517
Notes receivable from participants	843,193	905,445
	<u>\$ 56,749,058</u>	<u>\$ 57,272,932</u>

Fidelity Management Trust Company (Fidelity) also certified to the completeness and accuracy of \$7,859,614 of net depreciation in the fair value of investments, \$3,831,989 of interest and dividend income related to investments, and \$40,578 of interest income on notes receivable from participants for the year ended December 31, 2018.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Money market fund: Valued at the closing price reported on the active market on which the individual security is traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Shares of common/collective trust: The common/collective trust is composed of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 1,925,448	\$ -	\$ -	\$ 1,925,448
Mutual funds	51,861,437	-	-	51,861,437
Total assets in fair value hierarchy	<u>\$ 53,786,885</u>	<u>\$ -</u>	<u>\$ -</u>	<u>53,786,885</u>
Investments measured at net asset value ^(a)				<u>2,118,980</u>
Investments at fair value				<u><u>\$ 55,905,865</u></u>

	2017			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 1,013,097	\$ -	\$ -	\$ 1,013,097
Mutual funds	53,316,873	-	-	53,316,873
Total assets in fair value hierarchy	<u>\$ 54,329,970</u>	<u>\$ -</u>	<u>\$ -</u>	<u>54,329,970</u>
Investments measured at net asset value ^(a)				<u>2,037,517</u>
Investments at fair value				<u><u>\$ 56,367,487</u></u>

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net assets value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no significant transfers in or out of Level 1, 2, or 3.

Investments Measured Using Net Asset Value per Share as a Practical Expedient

The following tables set forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31:

	2018			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	\$ 2,118,980	\$ -	Daily	None

	2017			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	\$ 2,037,517	\$ -	Daily	None

Note 5. Tax Status

Effective July 20, 2015, the Plan elected to adopt a form of a volume submitter plan sponsored by the Company. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Party-in-Interest Transactions

Certain plan investments are managed by Fidelity. Fidelity is the trustee and, therefore, these transactions qualify as party-in-interest transactions. During 2018, the Plan paid administrative fees of approximately \$45,000 to Fidelity and their affiliates.

Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 7. Subsequent Events/Plan Mergers

In September 2018, the plan sponsor made the decision to merge the Tape Industrial Sales, Inc. 401(k) Plan into the Ohio Transmission Corporation 401(k) Plan effective January 1, 2019. All plan assets of the Tape Industrial Sales, Inc. 401(k) Plan of approximately \$1,240,000 were transferred to the Ohio Transmission Corporation 401(k) Plan in January 2019.

In March 2019, the plan sponsor made the decision to merge the Filter and Coating Technology, Inc. Employees' Plan into the Ohio Transmission Corporation 401(k) Plan effective July 1, 2019. All plan assets of the Filter and Coating Technology, Inc. Employees' Plan of approximately \$6,760,000 were transferred to the Ohio Transmission Corporation 401(k) Plan in July 2019.

Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Ohio Transmission Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Ohio Transmission Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

All active employees of the Company are eligible to participate in the Plan on the first day of the next month following attainment of age 21 and completion of one month of service. To participate in the employer annual matching contribution, participants must be an active employee on the last day of the plan year.

Contributions: Each eligible employee may elect to contribute, through payroll deduction, 1% to 60% of their annual compensation, subject to Internal Revenue Code (IRC) limitations. Eligible employees are automatically enrolled in the Plan with an elective pre-tax deferral rate of 6% of compensation, unless the participant affirmatively elects out of the automatic deferral feature or elects a different deferral rate. Participants may change their contribution amount at any time and may also make Roth deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Non-discretionary employer matching contributions are subject to a maximum of the lesser of 50% of 6% of the participant's eligible compensation contributed to the Plan or \$3,000.

The Company may also make additional matching and discretionary profit sharing contributions. No additional matching or discretionary profit sharing contributions were made during 2018.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) Company matching and profit sharing contributions and (b) plan earnings and losses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures: Participants are immediately vested in their contributions plus actual earnings thereon. Employees become vested in the Company matching contributions at 20% per year of service and are fully vested at the end of 5 years. Participants who have attained normal retirement age or have terminated as a result of death or disability are immediately fully vested in Company matching contributions and additional discretionary amounts contributed by the Company, plus actual earnings thereon. Forfeitures are used to reduce Company matching contributions. The balance of forfeited non-vested accounts totaled approximately \$109,000 and \$36,000 at December 31, 2018 and 2017, respectively. During the year ending December 31, 2018 approximately \$36,000 of forfeitures were used to reduce employer contributions.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant notes receivable: Participants may borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. A loan is secured by the balance in the participant's account and bears interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Participants are limited to one outstanding note at any given time. Principal and interest is paid ratably through payroll deductions.

Note 1. Description of the Plan (Continued)

Payment of benefits: Upon normal retirement at age 65, early retirement at age 60 and completion of 15 years of service, attainment of age 59½, total disability or termination of service, participants may elect to receive a lump-sum payment or installment payments. Upon the death of a participant, the beneficiary shall be entitled to the full value of the accounts. Hardship withdrawals, as defined in the Plan, are also available to participants.

Plan termination: Although the plan sponsor has not indicated any intent to do so, it has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared using the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions are recognized when withheld from the participant's earnings. Employer contributions are recognized when declared.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative expenses are paid by the Company and are excluded from these financial statements. Certain fees related to administration, transactions or notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Risk and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the plan's asset information as of December 31, 2018 and 2017 and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2018	2017
Investments, at fair value:		
Money market fund	\$ 1,925,448	\$ 1,013,097
Mutual funds	51,861,437	53,316,873
Common/collective trust	2,118,980	2,037,517
Notes receivable from participants	843,193	905,445
	<u>\$ 56,749,058</u>	<u>\$ 57,272,932</u>

Fidelity Management Trust Company (Fidelity) also certified to the completeness and accuracy of \$7,859,614 of net depreciation in the fair value of investments, \$3,831,989 of interest and dividend income related to investments, and \$40,578 of interest income on notes receivable from participants for the year ended December 31, 2018.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Ohio Transmission Corporation 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Money market fund: Valued at the closing price reported on the active market on which the individual security is traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Shares of common/collective trust: The common/collective trust is composed of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 1,925,448	\$ -	\$ -	\$ 1,925,448
Mutual funds	51,861,437	-	-	51,861,437
Total assets in fair value hierarchy	<u>\$ 53,786,885</u>	<u>\$ -</u>	<u>\$ -</u>	<u>53,786,885</u>
Investments measured at net asset value ^(a)				<u>2,118,980</u>
Investments at fair value				<u>\$ 55,905,865</u>

	2017			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 1,013,097	\$ -	\$ -	\$ 1,013,097
Mutual funds	53,316,873	-	-	53,316,873
Total assets in fair value hierarchy	<u>\$ 54,329,970</u>	<u>\$ -</u>	<u>\$ -</u>	<u>54,329,970</u>
Investments measured at net asset value ^(a)				<u>2,037,517</u>
Investments at fair value				<u>\$ 56,367,487</u>

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net assets value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no significant transfers in or out of Level 1, 2, or 3.

Investments Measured Using Net Asset Value per Share as a Practical Expedient

The following tables set forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31:

	2018			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	\$ 2,118,980	\$ -	Daily	None

	2017			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	\$ 2,037,517	\$ -	Daily	None

Note 5. Tax Status

Effective July 20, 2015, the Plan elected to adopt a form of a volume submitter plan sponsored by the Company. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Party-in-Interest Transactions

Certain plan investments are managed by Fidelity. Fidelity is the trustee and, therefore, these transactions qualify as party-in-interest transactions. During 2018, the Plan paid administrative fees of approximately \$45,000 to Fidelity and their affiliates.

All plan assets of the Tape Industrial Sales, Inc. 401(k) Plan of approximately \$1,240,000 were transferred to the Ohio Transmission Corporation 401(k) Plan in January 2019.
