The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration

The Company administers the Plan. The trustee for the Plan's assets is Fidelity Management Trust Company (the "Trustee"). The recordkeeper for the Plan is Fidelity Workplace Services, L.L.C. (the "Recordkeeper").

Eligibility

Employees of the Company are eligible to participate in the Plan on the Plan entry date commencing on or immediately following completion of three months of service and attaining the age of twenty-one years, except (i) interns, (ii) employees covered by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining and (iii)) non-resident aliens who do not receive earned income from the Company which constitutes income from sources within the United States of America. Effective January 1, 2017, expats who participate in a pension plan in their home country are excluded from participation in the Plan. The Plan entry date is defined in the Plan document as the first day of January, April, July and October.

Automatic Enrollment

Prior to January 1, 2017, employees who are eligible to participate in the Plan are automatically enrolled in the Plan and deemed to have elected a deferral rate of 3% of their pre-tax annual compensation, increased by 1% as of the first of each subsequent Plan year until a deferral rate of 10% is reached, unless the employee affirmatively elects not to participate or elects a different deferral rate. Effective January 1, 2017, the automatic enrollment feature of the Plan was eliminated.

1. Plan Description, continued

Contributions

Participants may contribute up to 100% of their annual compensation as pre-tax deferral contributions, Roth contributions or a combination thereof, not to exceed the limitation ($18,500 in 2018 and $18,000 in 2017) set forth in Section 402(g) of the Internal Revenue Code ("IRC"). Participants may make catch-up contributions, pre-tax contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions during both 2018 and 2017 cannot exceed $6,000. Participants may also rollover amounts from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a safe harbor matching employer contribution to eligible participants, as defined in the Plan document. The Company matches 100% of the first 6% of the participant's eligible compensation. Additionally, the Company may make a discretionary non-elective employer/profit sharing contribution to eligible participants, which is determined by the Company. All Company discretionary non-elective employer/profit sharing contributions are allocated to participants in a ratio that each eligible participant's compensation bears to the total compensation paid to all eligible participants. Such contributions are allocated to participant accounts based on investment allocations selected by participants. During the years ended December 31, 2018 and 2017, the Company made safe harbor employer and discretionary non-elective employer/profit sharing contributions matching contributions totaling $5,650,414 and $5,275,029, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the employers' contributions and (b) Plan earnings. Additionally, each participant's account is charged with an allocation of administrative expenses and Plan losses. Earnings or losses are allocated by fund based on the ratio of a participant's account balance invested in a particular fund to all participants' account balances in that fund. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants vest in employer matching and discretionary contributions at the rate of 20% per year after two years of service and are 100% vested after six years of service. Participants become immediately 100% vested upon attaining the normal retirement age of 65, disability or death.

Participant Notes Receivable

Participants may borrow from their fund accounts any amount greater than $1,000 up to a maximum equal to the lesser of (a) $50,000 reduced by the participant's highest outstanding loan balance during the prior twelve months, or (b) 50% of the participant's vested account balance. Loans are collateralized by the vested balance in the participant's account and bear interest at a reasonable rate determined by the Plan administrator. Participant loans outstanding as of December 31, 2018 and 2017 totaled $2,097,362 and $1,695,197, respectively, and bore interest at rates ranging from 4.25% to 6.25% and 4.25% to 9.25% during 2018 and 2017, respectively.

Payment of Benefits

Upon termination of employment for any reason, a participant (or his or her designated beneficiary in the event of death) is entitled to receive a distribution of the total vested balance of his or her account in a single lump-sum payment or installment distributions over the participant's assumed life expectancy

Participants over the age of 59 ½ may make an in-service withdrawal of the vested interest in their account balance. Hardship withdrawals from a participant's elective deferral account before age 59 ½ are also permitted under certain circumstances, subject to a $500 minimum. Participants electing to take a hardship withdrawal are suspended from making contributions into the Plan for a six-month period.

1. Plan Description, continued

Forfeited Accounts

All employer contributions credited to a participant's account, but not vested, are forfeited by the participant upon distribution of the full vested value of his or her account. Forfeitures are used to fund employer contributions or to pay Plan expenses. As of December 31,2018 and 2017, forfeited nonvested accounts totaled $117,566 and $96,771, respectively.

During 2019, the Company utilized $118,784 in available forfeitures to reduce the 2018 employer contribution. The employer contribution and the employer contribution receivable included in the accompanying 2018 Statement of Net Assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits have been presented net of forfeitures applied.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risks that generally mean the risk of loss in the value of certain investment securities due to changes in interest rates, security and commodity prices and general market conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of registered investment companies are valued at quoted market prices in active markets which represent the net asset value of shares held by the Plan at year-end. The Plan's interest in the common collective trust is valued based on the fair value of the underlying investments held by the fund less its liabilities at year end.

Net (depreciation) appreciation in fair value of investments includes realized gains and losses on investments sold during the year and net unrealized (depreciation) appreciation of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

2. Summary of Significant Accounting Policies, continued

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded when paid.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which is part of the FASB disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. The amendments in the new guidance remove, modify and add certain disclosure requirements related to fair value measurements covered in FASB Accounting Standards Codification Topic 820 ("ASC 820") *Fair Value Measurements and Disclosures*. The new standard is effective for Plan years, beginning after December 15, 2019. Early adoption is permitted for either the entire standard or only the requirements that modify or eliminate the disclosure requirements, with certain requirements applied prospectively, and all other requirements applied retrospectively to all periods presented. Management does not expect the adoption of ASU No. 2018-13 to have a significant impact on the financial statements.

3. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan generally uses the market approach. The market approach uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

3. Fair Value Measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective trust: Valued at the NAV of units of a collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2018 and 2017:

	Assets at Fair Value at December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investments companies (mutual funds)	$ 48,471,782	$ -	$ -	$ 48,471,782
Investments measured at net asset value[(a)]				1,309,637
Total investments at fair value				$ 49,781,419

	Assets at Fair Value at December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investments companies (mutual funds)	$ 43,375,443	$ -	$ -	$ 43,375,443
Investments measured at net asset value[(a)]				1,628,480
Total investments at fair value				$ 45,003,923

[(a)] In accordance with ASU No. 2015-07, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The following table summarizes Plan's investments measured at fair value based on the NAV per share as a practical expedient as of December 31, 2018 and 2017:

Investment	Fair Value December 31, 2018	Fair Value December 31, 2017	Unfunded Commitment	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common Collective Trust – Stable Value Fund	$ 1,309,637	$ 1,628,480	N/A	Daily	None

4. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net (depreciation) appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. Federal Income Tax Status

The Plan adopted by the Company is a volume submitter ("VS") plan that is designed to comply with provisions of the IRC's Economic Growth and Tax Reconciliation Act of 2001 ("EGTRRA"). Such VS plans are preapproved by the Internal Revenue Service ("IRS") by reference to the Cumulative List of Changes in Plan Qualification Requirements (the "Cumulative List") provided under EGTRRA. Accordingly, the Plan was eligible for a six-year remedial amendment cycle. Because the Plan is a VS plan, the Company is not authorized to amend the Plan except to comply with changes in the Cumulative List. The Plan received a favorable determination letter from the IRS dated March 31, 2014. Management of the Company and the Plan administrator believe the Plan complies with and is being operated in accordance with the applicable requirements of the IRC.

U. S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balance.

7. Party-In-Interest Transactions

Certain Plan investments are in mutual funds managed by an affiliate of the Trustee. The Plan also includes participant notes receivable. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.
