SOUTH EAST PERSONNEL LEASING RETIREMENT SAVINGS PLAN

Notes to Financial Statements

A. Description of Plan

The following description of the South East Personnel Leasing Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

1. General. The Plan is a defined contribution plan covering all the employees of South East Personnel Leasing, Inc. and its wholly owned subsidiaries (hereafter, collectively referred to as the “Company”) and the employer organizations who have adopted the Plan (see “Participating Employer” described below), who have met the eligibility requirements established by their respective Participating Employer. The Plan was established on August 1, 1996 and is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

The Plan is a “multiple employer” plan as described in Section 413(c) of the Internal Revenue Code (the “Code”). The Company provides payroll processing and human resource services to its clients. Each client of the Company has the option of adopting this plan for the benefit of its employees. A client that adopts this plan is known as a “Participating Employer”. Each Participating Employer establishes its eligibility requirements relating to age and length of service for its employees in accordance with the provisions of the Plan and the Code.

A client that does not adopt this plan may adopt its own retirement plan. Any client adopting its own retirement plan is subject to its plan’s regulations and not those of this Plan. Therefore, their plan information is not included in these financial statements.

2. Contributions. Each year, participants may contribute pre-tax deferrals or Roth (after-tax) deferrals as a percent of annual compensation as defined in the Plan to the maximum allowed by the Code or as adopted by the Participating Employer. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan allows the Company and each participating employer to determine if its employees will be automatically enrolled upon eligibility or if eligible employees must enroll if they wish to participate in the Plan.

The Company and each participating employer may elect to make matching, safe harbor, profit sharing, or other discretionary contributions to the Plan. All Company contributions are invested as directed by the participant.

SOUTH EAST PERSONNEL LEASING RETIREMENT SAVINGS PLAN

Notes to Financial Statements

A. Description of Plan (continued...)

3. Participant accounts. Each participant's account is credited with the participant's contributions and the Company's or the participating employer's safe harbor, matching and discretionary contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting. Participants are vested immediately in their contributions and the Company's or the participating employer's safe harbor contributions plus actual earnings on the contributions. Vesting in the Company's matching and discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after meeting the service requirement established by the participating employer not to exceed the ERISA maximum of 6 years or attaining the retirement age of 65, or upon death or disability.
5. Notes receivable from participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate shall be the Prime Lending Rate plus 1% determined as of the date of the loan request or such other rate of interest as would be charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest are paid ratably through payroll deductions.
6. Payment of benefits. Participants may elect to receive a distribution up to an amount equal to the value of the participant's vested interest in his or her account due to termination of service, death, disability, or retirement. A participant may receive an in-service withdrawal after attaining age 59-1/2.

In the event of a participant's death, his or her designated beneficiary may request a distribution of his or her account.

Withdrawals may also be made in conjunction with IRS hardship distribution regulations.

7. Forfeited accounts. In the event that funds are forfeited. The Employer must direct the Administrator to use Forfeitures to reinstate previously forfeited Account balances of Participants, if any, or to satisfy any contribution that may be required pursuant, or to pay any Plan expenses. Forfeited account balances were \$19,594 and \$21,517 as of December 31, 2018 and 2017 respectively.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Notes to Financial Statements

B. Summary of Accounting Policies (continued...)

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding increase to corrective distributions.

Payment of Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2019, the date the financial statements were available to be issued.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
---------	--

Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: a. Quoted prices for similar assets or liabilities in active markets b. Quoted prices for identical or similar assets or liabilities in inactive markets c. Inputs other than quoted prices that are observable for the asset or liability d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

C. Fair Value Measurements (continued...)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds and pooled separate accounts. Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TD Bank Institutional Money Market Deposit Account (Institutional MMDA). The Institutional MMDA is valued at book value (principal plus accumulated earnings). Assets are protected by FDIC insurance up to the applicable limit per depositor. The account is provided by TD Bank USA N.A. ("the Bank"), a subsidiary of The Toronto-Dominion Bank. Because the Institutional MMDA is a bank account rather than an SEC-registered money market fund, it has no expense ratio or prospectus. The rate of return may vary with market conditions and is subject to adjustment periodically by TD Bank USA, N.A.

Morley Stable Value Account. The Fund is valued at contract or book value (principal plus accumulated earnings). See note D for more information.

C. Fair Value Measurements (continued...)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

<u>12/31/2018</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	18,852,706			18,852,706
Other	-			-

Investments measured at net asset value*				104,180
Investments at fair value	18,543,775	-	-	18,647,955

In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Transfers between Levels

For years ended December 31, 2018 and 2017, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3 and no changes in Fair Value of Level 3 Assets and Related Gains and Losses.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

D. Fully Benefit-Responsive Investment Contracts

The Morley Stable Value Fund is valued at contract or book value (principal plus accumulated earnings) which was \$1,133,601 and \$1,018,110 as of December 31, 2018 and 2017 respectively.

The Fund primarily consists of a diversified portfolio of Stable Value Investment Contracts (Investment Contracts) issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The principal value of these assets is designed to remain stable regardless of stock and bond market fluctuations. The Fund is typically appropriate for investors who desire low volatility, stable principal value, and returns commensurate with a capital preservation objective for a component of their retirement savings. The Fund is designed for long-term retirement investing.

The objective of the Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive plan or participant payments.

While stable value is generally considered a conservative investment option, stable value assets do carry potential risks. The Fund may lose value and may be worth more or less than the original cost when redeemed, and there is no assurance that the Fund's objective will be achieved. Risks include, but are not limited to, 1) Investment Contract risk which includes the risk of maintaining Book Value Accounting standards and the risk that Investment Contract issuers may default on their obligations under the contract; 2) interest rate risk which includes the potential that an increase in market interest rates may decrease the value of fixed income securities (bonds); 3) credit risk which reflects the potential that the issuer of fixed income securities will be unable to make the required payments of interest and/or principal when due. Morley Capital Management seeks to mitigate Investment Contract and credit risk by investing only in investment grade securities. Morley Capital Management's credit research team continually analyzes the credit standing and outlook of investments in the Fund seeking to identify investment options with the best risk/return characteristics consistent with the Fund's investment objective. Please review the Morley Stable Value Fund Disclosure document for additional information regarding Fund structure, investment objective and strategy, risks and expenses and carefully consider such factors before investing.

The Fund is not a deposit, obligation, guaranteed or insured by PGI Trust Co. or any affiliate, is not insured by the Federal Deposit Insurance Corporation (FDIC) or any other federal or state government agency. Neither the Fund nor the offering of the Units has been registered under the U.S. securities laws. Therefore, investors will not have the benefit of the protections for registered securities afforded by the Securities and Exchange Commission ("SEC").

Notes to Financial Statements

E. Rollover Contributions

The Plan may accept a "rollover," provided the "rollover" will not jeopardize the tax-exempt status of the Plan or create adverse tax consequences for the Employer. The amounts rolled over shall be separately accounted for in a "Participant's Rollover Account." A Participant's Rollover Account shall be fully Vested at all times and shall not be subject to Forfeiture for any reason. For purposes of this Section, the term Participant shall include any Eligible Employee who is not yet a Participant, if, pursuant to the Adoption Agreement, "rollovers" are permitted to be accepted from Eligible Employees.

F. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by various mutual fund companies. Fees incurred within these mutual funds are included in net appreciation in fair value of investments.

During 2018, fees were paid to TD Ameritrade Trust Company, the custodian as defined by the Plan, and to BlueStar Retirement Services, Fiduciary Partners Group, Fiduciary Partners Investment Consulting and Skibbie CPA Inc. for their advisory and administrative services to the Plan. These fees included investment fees, third party administrative fees, and other professional service fees, and are based on customary charges as agreed upon by the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

Certain administrative functions are performed by officers or employees of the Plan's sponsor, South East Personnel Leasing, Inc., which received \$49,087 and \$17,976 in 2018 and 2017 respectively for its administrative services. No officer or employee received direct compensation from the Plan.

G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the plan may be allocated to participant accounts or distributed in such a manner as the Company may determine.

SOUTH EAST PERSONNEL LEASING RETIREMENT SAVINGS PLAN

Notes to Financial Statements

H. Tax Status

The IRS has determined and informed the Company by a letter dated September 8, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan will continue to be amended as necessary and the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable provisions of the Internal Revenue Code and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS/DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
