(1) Description of Plan

The following description of the Mid-Jefferson Extended Care Hospital 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established effective January 1, 2012 by Mid-Jefferson Extended Care Hospital. All employees, excluding union members, nonresident aliens, and leased employees, who have completed one year of service and reached the age of 21 are eligible to make elective deferrals to the Plan. Eligible employees participating in the Plan are also eligible for matching contributions by the employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Amendments – The Plan had two amendments during the plan year. The first amendment dated September 12, 2018 and effective October 1, 2018 provided for an employer match of 50% of the eligible employees' contributions up to 4% of the employees' compensation. The second amendment dated October 18, 2018 and effective January 1, 2018 amended the definition of compensation to exclude employee bonuses.

Contributions - Participants may elect to contribute a percentage of their pre-tax annual compensation as defined in the Plan. Participants' annual contributions are limited to 100% of their compensation up to the maximum allowed by law. Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company is required to match 50% of the eligible employees' contributions up to 4% of the employees' compensation. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts - Each plan participant's account is credited with an allocation of (a) the employee's salary reduction, (b) plan earnings and losses, and (c) charged with an allocation of administrative expenses. Allocations are based on the participant earnings, account balances, or specific participants transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures – The Plan defines the conditions under which a forfeiture will occur as the earlier of (1) the last day of the Plan Year in which the former participant incurs five consecutive one year breaks in service or (2) the distribution of the entire vested portion of the participant's account.

See independent auditor's report.

(1) **Description of Plan (continued)**

Vesting - Participants are fully vested in their employee contributions plus actual earnings thereon. Vesting in the Company contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Full vesting occurs after six years of credited service, at retirement (normal retirement age is sixty-five years), disability, or death. In the event of plan termination, participants will become 100% vested in their accounts.

Correction of Excess Contributions – The Plan administrator identified excess participant contributions through ADP/ACP testing for Plan Years 2018 and 2017. The excess contributions of $10,259 for 2018 and $7,126 for 2017 were accrued and subsequently refunded to participants accordingly.

(2) **Summary of Accounting Policies**

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Participant Loans – Participants can borrow from their account a minimum of $1,000; up to 50% of their vested balance. Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Interest owed on these loans is charged at 2% above the prime rate. Interest income on these loans is recognized based on the terms of the loan agreement.

Investment Valuation and Income Recognition - Investments are presented at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

(2) Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant will receive a lump sum or installment amount equal to the vested value of his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in the account as a lump-sum distribution. Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the Plan are paid by the Plan to the extent they are not paid by the company. Expenses that are paid by the Plan sponsor are not included in these financial statements. Fees related to participant loans are charged directly to the applicable participant's account.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Date of Management's Review – Subsequent events were evaluated through October 4, 2019, which is the date the financial statements were available to be issued.

(3) Fair Value Measurements

The Plan's investments are reported at fair value, according to quoted market prices in an active market, in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(3) Fair Value Measurements (continued)

Fair value measurement accounting establishes a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 consist of inputs which are observable for the asset or liability, either directly or indirectly, from other than quoted market prices included in Level 1. Level 3 inputs are unobservable and the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Assets at Fair Value at December 31, 2018			
	Level 1	Level 2	Level 3	Total
Investments:				
Mutual funds	276,224	0	0	276,224
Total mutual funds	276,224	0	0	276,224
Total investments at fair value	$276,224	0	0	$276,224

See independent auditor's report.

The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA.

See independent auditor's report.

(5) Tax Status

The Internal Revenue Service has determined and informed the Trustee, by a letter dated March 31, 2014, that the Billings and Company, Inc. prototype plan document and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter to incorporate recent pension law changes. However, the Plan administrator, trustee and tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

(6) Party in interest transactions

Certain Plan assets are mutual funds managed by Nationwide Financial Services, Inc. Nationwide Financial Services, Inc. is the Trustee of the Plan and, therefore, activity related to these funds qualify as party in interest transactions.

(7) Plan Termination

Although they have not expressed any intentions to do so, the employers have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(1) Description of Plan

The following description of the Mid-Jefferson Extended Care Hospital 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established effective January 1, 2012 by Mid-Jefferson Extended Care Hospital. All employees, excluding union members, nonresident aliens, and leased employees, who have completed one year of service and reached the age of 21 are eligible to make elective deferrals to the Plan. Eligible employees participating in the Plan are also eligible for matching contributions by the employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Amendments – The Plan had two amendments during the plan year. The first amendment dated September 12, 2018 and effective October 1, 2018 provided for an employer match of 50% of the eligible employees' contributions up to 4% of the employees' compensation. The second amendment dated October 18, 2018 and effective January 1, 2018 amended the definition of compensation to exclude employee bonuses.

Contributions - Participants may elect to contribute a percentage of their pre-tax annual compensation as defined in the Plan. Participants' annual contributions are limited to 100% of their compensation up to the maximum allowed by law. Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company is required to match 50% of the eligible employees' contributions up to 4% of the employees' compensation. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts - Each plan participant's account is credited with an allocation of (a) the employee's salary reduction, (b) plan earnings and losses, and (c) charged with an allocation of administrative expenses. Allocations are based on the participant earnings, account balances, or specific participants transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures – The Plan defines the conditions under which a forfeiture will occur as the earlier of (1) the last day of the Plan Year in which the former participant incurs five consecutive one year breaks in service or (2) the distribution of the entire vested portion of the participant's account.

See independent auditor's report.

(1) **Description of Plan (continued)**

Vesting - Participants are fully vested in their employee contributions plus actual earnings thereon. Vesting in the Company contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Full vesting occurs after six years of credited service, at retirement (normal retirement age is sixty-five years), disability, or death. In the event of plan termination, participants will become 100% vested in their accounts.

Correction of Excess Contributions – The Plan administrator identified excess participant contributions through ADP/ACP testing for Plan Years 2018 and 2017. The excess contributions of $10,259 for 2018 and $7,126 for 2017 were accrued and subsequently refunded to participants accordingly.

(2) **Summary of Accounting Policies**

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Participant Loans – Participants can borrow from their account a minimum of $1,000; up to 50% of their vested balance. Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Interest owed on these loans is charged at 2% above the prime rate. Interest income on these loans is recognized based on the terms of the loan agreement.

Investment Valuation and Income Recognition - Investments are presented at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

(2) Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant will receive a lump sum or installment amount equal to the vested value of his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in the account as a lump-sum distribution. Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the Plan are paid by the Plan to the extent they are not paid by the company. Expenses that are paid by the Plan sponsor are not included in these financial statements. Fees related to participant loans are charged directly to the applicable participant's account.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Date of Management's Review – Subsequent events were evaluated through October 4, 2019, which is the date the financial statements were available to be issued.

(3) Fair Value Measurements

The Plan's investments are reported at fair value, according to quoted market prices in an active market, in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(3) Fair Value Measurements (continued)

Fair value measurement accounting establishes a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 consist of inputs which are observable for the asset or liability, either directly or indirectly, from other than quoted market prices included in Level 1. Level 3 inputs are unobservable and the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Assets at Fair Value at December 31, 2018			
	Level 1	Level 2	Level 3	Total
Investments:				
Mutual funds	276,224	0	0	276,224
Total mutual funds	276,224	0	0	276,224
Total investments at fair value	$276,224	0	0	$276,224

See independent auditor's report.
