Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description

The following description of Fulton County Health Center Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Fulton County Health Center and FCHC Medical Care, LLC (collectively, the "Center"), excluding physicians. An employee becomes a participant upon attaining age 21 and completing two years of service with at least 750 hours of service per year, as defined in the plan document.

Contributions

The Center makes contributions for each participant in the amount of 5 percent of the participant's eligible compensation. Employees may invest amounts transferred from other qualified plans. The transferred amounts are held for the benefit of the participant and are accounted for separately in the individual participant's account. However, effective October 16, 2017, participants may no longer make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Vesting

Participants are 100 percent vested in their account balances at all times.

Benefit Payments

Upon termination of employment, retirement (generally at the normal retirement age of 65 or early retirement age of 55), permanent disability, or death, a participant is entitled to receive a distribution of the entire balance of his or her individual account, partial payments, or monthly payments upon retirement until death. Effective October 16, 2017, the Plan was restated to permit participants to elect in-service withdrawals upon reaching the age of 62.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by American United Life Insurance Company (AUL) and State Street Bank and Trust Company (State Street). AUL and State Street are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Center has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Participant Accounts

Contributions are maintained in an individual account for each participant, which may not be used for the benefit of any other account or participant. The account value includes the employer contributions earned by the participant and received by the Plan, employee rollovers, and a pro rata share of earnings, gains, and losses from investments, net of expenses.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value, except as noted below. The fully benefit-responsive investment contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies (Continued)

The mutual funds are valued based on quoted market prices reported in active markets. See Note 6 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Center.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 21, 2019, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In October 2017, the Plan changed its trustee from American United Life Insurance Company to State Street Bank and Trust Company (collectively, the "Trustees"). The Trustees of the Plan held the Plan's investments and executed all investment transactions during the periods under audit. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustees.

Note 4 - Tax Status

Effective October 2017, the Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Prior to October 2017, the Plan had received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, was qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

December 31, 2018 and 2017

Note 5 - Investment Contract

The Plan has a benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include (1) the complete or partial termination of the Plan or (2) the establishment or activation of, or material change in, any plan investment fund or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from plan coverage, as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default: a portion of the market value account is below \$1,000 or the book value account is zero; establishment, activation, or material change to any plan investment fund that does not allow the insurer to operate the agreement under current terms; or the Plan fails to make contributions to the SAGIC investment option required under the agreement. After termination, the insurer will not accept deposits or permit transfers or make distributions. Termination payments would be made under one of three options: book value installment payment option, annuity purchase payment option, or the lump-sum payment option.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan measures mutual funds at fair value on a recurring basis. The fair value of mutual funds is based primarily on Level 1 inputs, as described above. Total mutual fund investment balances were \$18,533,626 and \$20,195,025 at December 31, 2018 and 2017, respectively.
