OPTERRA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

1. PLAN DESCRIPTION

The following description of the OpTerra 401(k) Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering eligible employees who have been employed by OpTerra Energy (the "Plan Sponsor") and participating employers (collectively the "Company") for 30 days. To be eligible for discretionary Company profit sharing contributions, participants must complete at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may make pretax and Roth deferrals up to 100 percent of their annual compensation, as defined by the Plan and subject to certain limitations under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides for safe harbor matching contributions equal to 100 percent of the first four percent of compensation deferred. The Company made safe harbor matching contributions of \$1,336,607 for the year ended December 31, 2018. The Plan also provides for discretionary Company matching and profit sharing contributions of which none were made for the year ended December 31, 2018.

Participant Accounts - Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's discretionary profit sharing contribution, if any, and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses, and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions and Company safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions portion of their accounts is based on years of service. Participants are vested in discretionary Company contributions over a four-year period, as defined in the Plan.

Forfeitures - Forfeitures of discretionary Company contributions may be used to pay Plan administrative expenses or to reduce future Company contributions. During the year ended December 31, 2018, forfeitures of \$1 were utilized to pay Plan administrative expenses. As of December 31, 2018 forfeitures of \$1,595 are available for future use.

Payment of Benefits - On termination of service for any reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or partial withdrawals as permitted under the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, primarily from data provided by Transamerica Life Insurance Company (the "Custodian" or "Transamerica").

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments are valued daily. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses - Certain administrative expenses incidental to the administration of the Plan, including fees of the Custodian and independent public accountants may be paid by the Plan. Administrative expenses not paid by the Company are paid by the Plan.

Most investment options have fees which reduce the overall return on assets. The net depreciation of investments is inclusive of these fees.

Benefits Payable to Participants - Benefits are recorded when paid.

Fair Value - The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

OPTERRA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2018

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled Separate Accounts – Valued at the net asset value ("NAV") of units of a pooled separate account ("PSA") maintained by an insurance company held by the Plan at year-end. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the PSA less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The PSAs do not have any unfunded commitments relating to their investments, or any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

All of the Plan's investments at fair value are measured at NAV as a practical expedient and the following table sets forth the Plan's investments at fair value:

As of December 31,	2018	2017
Investments measured at NAV practical expedient	\$ 18,018,321	\$ 15,953,294
Total investments at fair value	\$ 18,018,321	\$ 15,953,294

3. FINANCIAL DATA CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Custodian and was not subjected to any auditing procedures performed by the independent public accountants:

- a. Investments, at fair value and contract value, and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017.
- b. Net depreciation of investments, interest income on investments, and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2018.

- c. Pooled separate accounts, fully benefit-responsive investment contract, and participant loans as of December 31, 2018 as listed in the accompanying Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Transamerica totaling \$1,021,455 for 2018 and \$882,951 for 2017. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Transamerica is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. Such interest rates are reset on a semi-annual basis.

The Transamerica Stable Value Core Option meets the fully benefit-responsive criteria and therefore is reported at contract value. Contract value is the relevant measure for fully-benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on Transamerica's ability to meet its financial obligations. Transamerica's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with Transamerica, such as a significant decline in the credit worthiness of Transamerica. The plan administrator believes that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with Transamerica and that would also limit the Plan's ability to transact at contract value with participants.

5. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their vested account balance. The loan interest rate is determined by the plan administrator based on prevailing rates, as defined by the Plan. The loans are stated at the unpaid principal amount and are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions.

6. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their Company contributions.

7. TAX STATUS

The Plan is a prototype plan that is the subject of a favorable tax opinion letter from the IRS dated March 31, 2014. The Company routinely self-reviews the administration of the Plan and has identified certain operational errors related to the Plan's operation and submitted a Voluntary Correction Program to the IRS, which was approved by the IRS on February 1, 2019. The total amount of the errors and lost earnings are reflected as a Plan receivable of \$149,052 and \$165,492 at December 31, 2018 and 2017, respectively, in the accompanying financial statements. The plan administrator believes the Plan is currently being operated in accordance with the applicable provisions of the IRC and, accordingly, the plan administrator believes that the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

As of December 31,	2018	2017
Net assets available for benefits per the financial statements	\$ 19,330,912	\$ 17,034,151
Company corrective contributions receivable	(149,052)	(165,492)
Net assets available for benefits per the Form 5500	\$ 19,181,860	\$ 16,868,659

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500:

For the year ended December 31,	2018
Net increase in net assets available for benefits per the financial statements	\$ 2,296,761
Change in Company corrective contributions receivable	16,440
Net increase in net assets available for benefits per the Form 5500	\$ 2,313,201

9. PARTY-IN-INTEREST TRANSACTIONS

Plan investments are held and managed by the Custodian. Transactions with the Custodian qualify as party-in-interest transactions for which exemptions exist. The Custodian received \$12,870 for administration fees that was paid by participants through the Plan, and received indirect compensation from investments based on a formula. In addition, the Plan utilizes an investment advisor that received \$74,246 of indirect fees and commissions.

10. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through October 10, 2019, which is the date that the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements, except as disclosed below.

Effective January 1, 2019, the Plan was amended as follows:

- The Plan Sponsor's name was changed from OpTerra Energy Group to ENGIE Services U.S. Inc.
- The Plan name was changed to ENGIE Services U.S. 401(k) Plan.
- The service requirements of 30 days to participate in the Plan and six months to be eligible for discretionary Company profit sharing contributions were removed.
- Participants are now immediately vested in discretionary Company contributions.
