Notes to Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description

The following description of The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The description of the Plan's provisions are prior to the merger.

General

The Plan is a defined benefit plan established on September 1, 1957, sponsored by DP Media Network LLC (the "Company"). The Plan is a noncontributory plan covering certain union employees of The Denver Post LLC who have completed one hour of service and who are included in the bargaining unit represented by The Denver Post - Denver Newspaper Guild Local #37074 and District Lodge #86 of the International Association of Machinists and Aerospace Workers. Effective June 30, 2010, the plan name changed from The Denver Post - Denver Newspaper Guild Pension Plan to The Denver Post - Denver Newspaper Guild Newsroom Employees' Pension Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential) serve as trustee, manage certain plan investments, and maintain the Plan's records.

During 2012, The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan ratified a contract with the Company that froze the Plan effective January 1, 2013, ceasing additional benefit accruals for credited service after that date.

During the plan year, the Plan merged into another plan sponsored by the Company. See Note 9 for additional information.

Administration

The Company is the sponsor of the Plan. The administrative committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Company contributions are held and managed by the trustee, who invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the plan years ended December 31, 2018 and 2017.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions made by the Company are in cash in amounts adequate to meet the minimum funding requirements of ERISA.

Vesting and Payment of Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants, as calculated under the provisions of the Plan. In general, a participant who has completed five years of vesting service or who has attained normal retirement age, as defined by the Plan, while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan.

The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Prudential or its affiliates. Prudential is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Other plan investments include hedge funds, two of which are managed by an owner of the Company. There are no fees charged to the Plan associated with these funds.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The hedge funds and pooled separate account are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no unfunded commitments or redemption restrictions on the pooled separate account. All other investments are valued based on quoted market prices reported in active markets. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2018 are summarized as follows:

Actuarial cost method	Standard unit credit cost method
Assumed rate of return	7.00 percent per annum
Mortality basis	RP-2014 Blue Collar Mortality Table adjusted to back out mortality improvements using scale MP-2014, projected forward from 2006 using the intermediate projection scale from the 2018 trustees' reports of Social Security
Average retirement age	62 years

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2019, which is the date the financial statements were available to be issued.

Note 3 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2018, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 18,854,954
Other vested participants	12,135,528

Total vested benefits	30,990,482
-----------------------	------------

Nonvested benefits	111,862
--------------------	---------

Total actuarial present value of accumulated plan benefits	\$ 31,102,344
--	---------------

A summary of significant changes in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits - January 1, 2017	\$ 31,553,389
--	---------------

Increase (decrease) during the year attributable to:

Interest accumulation	2,128,196
Benefits paid	(2,340,755)
Other changes (1)	(14,900)
Changes in actuarial assumptions (2)	(223,586)

Net decrease	(451,045)
--------------	-----------

Actuarial present value of accumulated plan benefits - January 1, 2018	\$ 31,102,344
--	---------------

(1) The other changes component represents the normal operation of the pension plan. It consists primarily of items of plan experience that are not associated with plan asset performance.

The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 3 - Accumulated Plan Benefits (Continued)

(2) The decrease in actuarial present value of accumulated plan benefits due to changes in actuarial assumptions relates to the change in mortality improvement scales.

Note 4 - Unaudited Information

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, the "Trustee") hold the Plan's investments, other than certain hedge fund investments, and execute certain related investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of reportable transactions, other than certain hedge fund investments, are based solely on information certified by the Trustee.

Certain of the Plan's investments in hedge funds held during 2018 and related investment loss of \$82,683 for the year ended December 31, 2018 were not certified by the Trustee. As of December 31, 2017 and for the year then ended, all hedge fund investments and related investment income were certified by the Trustee.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 5 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017. There were no assets in the Plan at December 31, 2018 as a result of the merger discussed in Note 9.

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2017	
	Investments (at Fair Value)	Level 1
Mutual funds	\$ 15,657,814	\$ 15,657,814
Investments measured at NAV:		
Pooled separate account	7,244,762	
Hedge funds (1)	8,749,859	
Total investments	<u>\$ 31,652,435</u>	

- (1) Hedge fund assets for which no external pricing sources are available are valued at fair value based upon an estimate made by the funds' managers using what management believes, at its discretion, to be appropriate techniques consistent with market practices for the relevant type of investments. Due to the nature of these investments, changes in market conditions and the economic environment may significantly impact the recorded NAV of the hedge funds and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using NAV per share of the Plan's ownership interest in separate accounts and hedge funds on an equivalent measure where it is not probable that the fund will sell a separate account or hedge fund at a price other than NAV. There were no unfunded commitments on the investments described above. The hedge funds require a notice period ranging from 60 to 90 days and are redeemable in frequencies ranging from monthly to quarterly.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 7 - Plan Administration and Operating Expenses

The Plan pays the costs of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended December 31, 2018 and 2017 were \$53,663 and \$55,948, respectively, which are included within administrative fees on the statement of changes in net assets available for benefits.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 9 - Plan Merger

During 2018, the Plan merged into the Denver Typographical Union Newspaper Employees' Pension Plan, which was renamed the MNG Merged Guild Plan upon the merger. Accordingly, all participants, assets, and related accumulated plan benefits of the Plan were transferred to the Denver Typographical Union Newspaper Employees' Pension Plan during the year. The effect of the merger is not reflected in the January 1, 2018 actuarial present value of accumulated plan benefits, as reported in Note 3.

Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$220,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets 2016 Plan Year	Lesser of 7.00%, and the third segment rate. Actual rate of 6.65%.
2017 Plan Year	Lesser of 7.00%, and the third segment rate. Actual rate of 6.48%.

During the plan year, the Plan merged into another plan sponsored by the Company. See Note 9 for additional information.

Administration

The Company is the sponsor of the Plan. The administrative committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Company contributions are held and managed by the trustee, who invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the plan years ended December 31, 2018 and 2017.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions made by the Company are in cash in amounts adequate to meet the minimum funding requirements of ERISA.

Vesting and Payment of Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants, as calculated under the provisions of the Plan. In general, a participant who has completed five years of vesting service or who has attained normal retirement age, as defined by the Plan, while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Prudential or its affiliates. Prudential is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Other plan investments include hedge funds, two of which are managed by an owner of the Company. There are no fees charged to the Plan associated with these funds.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The hedge funds and pooled separate account are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no unfunded commitments or redemption restrictions on the pooled separate account. All other investments are valued based on quoted market prices reported in active markets. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2018 are summarized as follows:

Actuarial cost method	Standard unit credit cost method
Assumed rate of return	7.00 percent per annum
Mortality basis	RP-2014 Blue Collar Mortality Table adjusted to back out mortality improvements using scale MP-2014, projected forward from 2006 using the intermediate projection scale from the 2018 trustees' reports of Social Security
Average retirement age	62 years

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2019, which is the date the financial statements were available to be issued.

Note 3 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2018, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 18,854,954
Other vested participants	12,135,528

Total vested benefits	30,990,482
-----------------------	------------

Nonvested benefits	111,862
--------------------	---------

Total actuarial present value of accumulated plan benefits	\$ 31,102,344
--	---------------

A summary of significant changes in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits - January 1, 2017	\$ 31,553,389
--	---------------

Increase (decrease) during the year attributable to:

Interest accumulation	2,128,196
Benefits paid	(2,340,755)
Other changes (1)	(14,900)
Changes in actuarial assumptions (2)	(223,586)

Net decrease	(451,045)
--------------	-----------

Actuarial present value of accumulated plan benefits - January 1, 2018	\$ 31,102,344

(1) The other changes component represents the normal operation of the pension plan. It consists primarily of items of plan experience that are not associated with plan asset performance.

Note 3 - Accumulated Plan Benefits (Continued)

(2) The decrease in actuarial present value of accumulated plan benefits due to changes in actuarial assumptions relates to the change in mortality improvement scales.

Note 4 - Unaudited Information

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, the "Trustee") hold the Plan's investments, other than certain hedge fund investments, and execute certain related investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of reportable transactions, other than certain hedge fund investments, are based solely on information certified by the Trustee.

Certain of the Plan's investments in hedge funds held during 2018 and related investment loss of \$82,683 for the year ended December 31, 2018 were not certified by the Trustee. As of December 31, 2017 and for the year then ended, all hedge fund investments and related investment income were certified by the Trustee.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements

December 31, 2018 and 2017

Note 5 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017. There were no assets in the Plan at December 31, 2018 as a result of the merger discussed in Note 9.

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2017	
	Investments (at Fair Value)	Level 1
Mutual funds	\$ 15,657,814	\$ 15,657,814
Investments measured at NAV:		
Pooled separate account	7,244,762	
Hedge funds (1)	8,749,859	
Total investments	<u>\$ 31,652,435</u>	

- (1) Hedge fund assets for which no external pricing sources are available are valued at fair value based upon an estimate made by the funds' managers using what management believes, at its discretion, to be appropriate techniques consistent with market practices for the relevant type of investments. Due to the nature of these investments, changes in market conditions and the economic environment may significantly impact the recorded NAV of the hedge funds and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using NAV per share of the Plan's ownership interest in separate accounts and hedge funds on an equivalent measure where it is not probable that the fund will sell a separate account or hedge fund at a price other than NAV. There were no unfunded commitments on the investments described above. The hedge funds require a notice period ranging from 60 to 90 days and are redeemable in frequencies ranging from monthly to quarterly.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 7 - Plan Administration and Operating Expenses

The Plan pays the costs of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended December 31, 2018 and 2017 were \$53,663 and \$55,948, respectively, which are included within administrative fees on the statement of changes in net assets available for benefits.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 9 - Plan Merger

During 2018, the Plan merged into the Denver Typographical Union Newspaper Employees' Pension Plan, which was renamed the MNG Merged Guild Plan upon the merger. Accordingly, all participants, assets, and related accumulated plan benefits of the Plan were transferred to the Denver Typographical Union Newspaper Employees' Pension Plan during the year. The effect of the merger is not reflected in the January 1, 2018 actuarial present value of accumulated plan benefits, as reported in Note 3.

Note 1 - Plan Description

The following description of The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The description of the Plan's provisions are prior to the merger.

General

The Plan is a defined benefit plan established on September 1, 1957, sponsored by DP Media Network LLC (the "Company"). The Plan is a noncontributory plan covering certain union employees of The Denver Post LLC who have completed one hour of service and who are included in the bargaining unit represented by The Denver Post - Denver Newspaper Guild Local #37074 and District Lodge #86 of the International Association of Machinists and Aerospace Workers. Effective June 30, 2010, the plan name changed from The Denver Post - Denver Newspaper Guild Pension Plan to The Denver Post - Denver Newspaper Guild Newsroom Employees' Pension Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential) serve as trustee, manage certain plan investments, and maintain the Plan's records.

During 2012, The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan ratified a contract with the Company that froze the Plan effective January 1, 2013, ceasing additional benefit accruals for credited service after that date.

During the plan year, the Plan merged into another plan sponsored by the Company. See Note 9 for additional information.

Administration

The Company is the sponsor of the Plan. The administrative committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Company contributions are held and managed by the trustee, who invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the plan years ended December 31, 2018 and 2017.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions made by the Company are in cash in amounts adequate to meet the minimum funding requirements of ERISA.

Vesting and Payment of Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants, as calculated under the provisions of the Plan. In general, a participant who has completed five years of vesting service or who has attained normal retirement age, as defined by the Plan, while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Prudential or its affiliates. Prudential is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Other plan investments include hedge funds, two of which are managed by an owner of the Company. There are no fees charged to the Plan associated with these funds.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The hedge funds and pooled separate account are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no unfunded commitments or redemption restrictions on the pooled separate account. All other investments are valued based on quoted market prices reported in active markets. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2018 are summarized as follows:

Actuarial cost method	Standard unit credit cost method
Assumed rate of return	7.00 percent per annum
Mortality basis	RP-2014 Blue Collar Mortality Table adjusted to back out mortality improvements using scale MP-2014, projected forward from 2006 using the intermediate projection scale from the 2018 trustees' reports of Social Security
Average retirement age	62 years

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2019, which is the date the financial statements were available to be issued.

Note 3 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2018, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 18,854,954
Other vested participants	12,135,528

Total vested benefits	30,990,482

Total actuarial present value of accumulated plan benefits	<u>\$ 31,102,344</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits - January 1, 2017	\$ 31,553,389

Increase (decrease) during the year attributable to:

Interest accumulation	2,128,196

(2) The decrease in actuarial present value of accumulated plan benefits due to changes in actuarial assumptions relates to the change in mortality improvement scales.

Note 4 - Unaudited Information

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, the "Trustee") hold the Plan's investments, other than certain hedge fund investments, and execute certain related investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of reportable transactions, other than certain hedge fund investments, are based solely on information certified by the Trustee.

Certain of the Plan's investments in hedge funds held during 2018 and related investment loss of \$82,683 for the year ended December 31, 2018 were not certified by the Trustee. As of December 31, 2017 and for the year then ended, all hedge fund investments and related investment income were certified by the Trustee.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Total investments	<u>\$ 31,652,435</u>	

- (1) Hedge fund assets for which no external pricing sources are available are valued at fair value based upon an estimate made by the funds' managers using what management believes, at its discretion, to be appropriate techniques consistent with market practices for the relevant type of investments. Due to the nature of these investments, changes in market conditions and the economic environment may significantly impact the recorded NAV of the hedge funds and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using NAV per share of the Plan's ownership interest in separate accounts and hedge funds on an equivalent measure where it is not probable that the fund will sell a separate account or hedge fund at a price other than NAV. There were no unfunded commitments on the investments described above. The hedge funds require a notice period ranging from 60 to 90 days and are redeemable in frequencies ranging from monthly to quarterly.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 7 - Plan Administration and Operating Expenses

The Plan pays the costs of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended December 31, 2018 and 2017 were \$53,663 and \$55,948, respectively, which are included within administrative fees on the statement of changes in net assets available for benefits.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 9 - Plan Merger

During 2018, the Plan merged into the Denver Typographical Union Newspaper Employees' Pension Plan, which was renamed the MNG Merged Guild Plan upon the merger. Accordingly, all participants, assets, and related accumulated plan benefits of the Plan were transferred to the Denver Typographical Union Newspaper Employees' Pension Plan during the year. The effect of the merger is not reflected in the January 1, 2018 actuarial present value of accumulated plan benefits, as reported in Note 3.

Notes to Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description

The following description of The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The description of the Plan's provisions are prior to the merger.

General

The Plan is a defined benefit plan established on September 1, 1957, sponsored by DP Media Network LLC (the "Company"). The Plan is a noncontributory plan covering certain union employees of The Denver Post LLC who have completed one hour of service and who are included in the bargaining unit represented by The Denver Post - Denver Newspaper Guild Local #37074 and District Lodge #86 of the International Association of Machinists and Aerospace Workers. Effective June 30, 2010, the plan name changed from The Denver Post - Denver Newspaper Guild Pension Plan to The Denver Post - Denver Newspaper Guild Newsroom Employees' Pension Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential) serve as trustee, manage certain plan investments, and maintain the Plan's records.

During 2012, The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan ratified a contract with the Company that froze the Plan effective January 1, 2013, ceasing additional benefit accruals for credited service after that date.

During the plan year, the Plan merged into another plan sponsored by the Company. See Note 9 for additional information.

Administration

The Company is the sponsor of the Plan. The administrative committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Company contributions are held and managed by the trustee, who invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the plan years ended December 31, 2018 and 2017.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions made by the Company are in cash in amounts adequate to meet the minimum funding requirements of ERISA.

Vesting and Payment of Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants, as calculated under the provisions of the Plan. In general, a participant who has completed five years of vesting service or who has attained normal retirement age, as defined by the Plan, while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan.

Notes to Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Prudential or its affiliates. Prudential is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Other plan investments include hedge funds, two of which are managed by an owner of the Company. There are no fees charged to the Plan associated with these funds.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The hedge funds and pooled separate account are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no unfunded commitments or redemption restrictions on the pooled separate account. All other investments are valued based on quoted market prices reported in active markets. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2018 are summarized as follows:

Actuarial cost method	Standard unit credit cost method
Assumed rate of return	7.00 percent per annum
Mortality basis	RP-2014 Blue Collar Mortality Table adjusted to back out mortality improvements using scale MP-2014, projected forward from 2006 using the intermediate projection scale from the 2018 trustees' reports of Social Security
Average retirement age	62 years

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2019, which is the date the financial statements were available to be issued.

Note 3 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2018, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 18,854,954
Other vested participants	12,135,528

Total vested benefits	30,990,482
-----------------------	------------

Nonvested benefits	111,862
--------------------	---------

Total actuarial present value of accumulated plan benefits	\$ 31,102,344
--	---------------

A summary of significant changes in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits - January 1, 2017	\$ 31,553,389
--	---------------

Increase (decrease) during the year attributable to:

Interest accumulation	2,128,196
Benefits paid	(2,340,755)
Other changes (1)	(14,900)
Changes in actuarial assumptions (2)	(223,586)

Net decrease	(451,045)
--------------	-----------

Actuarial present value of accumulated plan benefits - January 1, 2018	\$ 31,102,344
--	---------------

(1) The other changes component represents the normal operation of the pension plan. It consists primarily of items of plan experience that are not associated with plan asset performance.

Notes to Financial Statements

December 31, 2018 and 2017

Note 3 - Accumulated Plan Benefits (Continued)

(2) The decrease in actuarial present value of accumulated plan benefits due to changes in actuarial assumptions relates to the change in mortality improvement scales.

Note 4 - Unaudited Information

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, the "Trustee") hold the Plan's investments, other than certain hedge fund investments, and execute certain related investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of reportable transactions, other than certain hedge fund investments, are based solely on information certified by the Trustee.

Certain of the Plan's investments in hedge funds held during 2018 and related investment loss of \$82,683 for the year ended December 31, 2018 were not certified by the Trustee. As of December 31, 2017 and for the year then ended, all hedge fund investments and related investment income were certified by the Trustee.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 5 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017. There were no assets in the Plan at December 31, 2018 as a result of the merger discussed in Note 9.

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2017	
	Investments (at Fair Value)	Level 1
Mutual funds	\$ 15,657,814	\$ 15,657,814
Investments measured at NAV:		
Pooled separate account	7,244,762	
Hedge funds (1)	8,749,859	
Total investments	<u>\$ 31,652,435</u>	

- (1) Hedge fund assets for which no external pricing sources are available are valued at fair value based upon an estimate made by the funds' managers using what management believes, at its discretion, to be appropriate techniques consistent with market practices for the relevant type of investments. Due to the nature of these investments, changes in market conditions and the economic environment may significantly impact the recorded NAV of the hedge funds and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using NAV per share of the Plan's ownership interest in separate accounts and hedge funds on an equivalent measure where it is not probable that the fund will sell a separate account or hedge fund at a price other than NAV. There were no unfunded commitments on the investments described above. The hedge funds require a notice period ranging from 60 to 90 days and are redeemable in frequencies ranging from monthly to quarterly.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 7 - Plan Administration and Operating Expenses

The Plan pays the costs of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended December 31, 2018 and 2017 were \$53,663 and \$55,948, respectively, which are included within administrative fees on the statement of changes in net assets available for benefits.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

The DP Media Network - Denver Newspaper Guild Newsroom Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 9 - Plan Merger

During 2018, the Plan merged into the Denver Typographical Union Newspaper Employees' Pension Plan, which was renamed the MNG Merged Guild Plan upon the merger. Accordingly, all participants, assets, and related accumulated plan benefits of the Plan were transferred to the Denver Typographical Union Newspaper Employees' Pension Plan during the year. The effect of the merger is not reflected in the January 1, 2018 actuarial present value of accumulated plan benefits, as reported in Note 3.
