1. Description of the Plan

The following description of Q-Centrix LLC 401(k) Profit Sharing Plan and Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan of Q-Centrix, LLC (the Company) and was established effective January 1, 2011. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan is a defined contribution plan qualified under Section 401(a) and 401(k) of the Internal Revenue Code (IRC) covering eligible employees of the Company. Two executives of the Company serve as Trustees of the Plan.

Eligibility and Participation

An employee of the Company is eligible for participation in the Plan on the first day following the calendar quarter in which the employee is at least 21 years old and has completed 250 hours of service.

Contributions

Participants may elect to contribute pre-tax or Roth dollars, or both, up to 92% of their eligible compensation to the Plan, up to the Internal Revenue Service (IRS) limitation. Participants may elect to rollover distributions from other qualified retirement plans.

On behalf of each participant who contributes to the Plan, the Company may elect to make discretionary matching contributions to the Plan. The Company contributed an amount equal to 25% of the participants' elective contributions that are not in excess of 6% of the participants' eligible Plan compensation for 2018 and 2017. The Company may also make discretionary profit-sharing contributions which are allocated in a manner determined by the Company as provided for in the Plan document. The Company did not make any profit sharing contributions during the year ended December 31, 2018 and 2017.

The Plan was amended after year-end on January 1, 2019 to modify the employer matching contribution to be equal to 50% of the first 6% of eligible Plan compensation in 2019.

Participants can direct the allocation of their accounts to any of the stipulated investment fund alternatives offered by the Plan and may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (Continued)

Rollover Accounts

Employees may rollover into the Plan assets distributed as vested interest upon their termination from a qualified defined benefit plan or a qualified defined contribution plan in which they were formerly participants on or before the sixtieth day after the day that they received the distribution.

Vesting

Participants are immediately vested in their voluntary pre-tax contributions, Roth contributions and rollover contributions. Vesting in the Company's matching contribution portion of their accounts is based on continuous service. A participant is 100 percent vested after four years of service. Participants also become fully vested upon normal retirement age (65), disability or death.

The Company's matching and discretionary profit sharing contributions plus earnings thereon vest according to the following schedule:

Years of Service	Vesting Percentage of Company Contributions
Less than one year	0%
One year	25
Two years	50
Three years	75
Four years	100

Forfeitures of employee contributions may be used to offset future employer contributions or reduce Plan expenses that would otherwise be paid by the Company. During 2018, forfeitures in the amount of $6,031 were used to reduce employer contributions. There were no unallocated forfeitures at December 31, 2018. There were $287 of unallocated forfeitures at December 31, 2017.

Plan Termination

Although it has not expressed any intent to terminate the Plan, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Participant Withdrawals

The Plan provides for participants to withdraw their funds at any time after reaching normal retirement age. The Plan provides for in-service withdrawals of a participant's elective deferral after reaching 59 ½ years of age. Such withdrawals are based on the amount in the participant's account as of the valuation date coinciding with or immediately after the participant's retirement date. The Plan also provides for withdrawals in the event of death, disability or termination. The Plan provides for involuntary withdrawal of a retired or terminated participant account balance less than $5,000.

1. Description of the Plan (Continued)

Participant Notes Receivable

Participants may borrow up to the lesser of $50,000 (reduced by the highest outstanding note balance in the previous 12 months) or 50% of their vested account balances subject to Internal Revenue Service (IRS) limitations. Loans are repaid with interest through payroll deductions, normally within five years. Participant loans bear interest at the rate set by the Plan Administrator with consideration of interest rates currently charged on similar commercial loans in effect on the date the loan is granted. Interest rates ranged from 5.50% to 7.25% at December 31, 2018 with various maturities through May 2032. During the repayment period of the loan, repayment amounts are reallocated among the investment funds in the same proportion as current investment allocations.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Contributions

Contributions are recorded in the period in which payroll deductions are made; employer matching and discretionary contributions are recorded in the year to which the contributions relate.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued and unpaid interest. No allowance for credit losses has been recorded as of December 31, 2018. Delinquent notes receivable are reclassified as a distribution based upon the terms of the Plan document.

2. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan provides for various investment options which in turn invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates

Preparation of the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Administrative Expenses

The Company pays certain administrative expenses of the Plan, except for certain investment and audit services which are paid by the Plan. Certain fees incurred by the Plan for investment management services are included in investment income (loss) in the statement of changes in net assets available for benefits.

Subsequent Events

Events occurring after the date of the statement of net assets available for benefits are evaluated by management to determine whether such events should be recognized or disclosed in the financial statements. The Plan Administrator has evaluated subsequent events through October 3, 2019, which is the date the financial statements were available to be issued.

3. Plan Amendments and Tax Status

Effective January 1, 2015, the Plan adopted a volume submitter form of a Plan sponsored by Shore Tompkins Actuarial Resources, LLC. The volume submitter plan has received an opinion letter from the IRS dated March 31, 2014 as to the volume submitter's qualified status, stating that the Plan was designed in accordance with applicable IRS requirements. The Plan has been amended since the most recent ruling. The volume submitter plan opinion letter has been relied upon by the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements at December 31, 2018 or 2017. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Information Certified by Ascensus, Inc.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information, as of December 31, 2018 and 2017 and for the year ended December 31, 2018, certified by Ascensus, Inc. acting as agent for Ascensus Trust Company, the custodian, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedules. The Plan Administrator has obtained certification from the custodian stating that the information provided to the Plan Administrator by the custodian is complete and accurate. Such information includes investments, dividend and interest income, net appreciation (depreciation) in fair value of investments, investment transactions, notes receivable from participants and interest income on notes receivable and notes receivable transactions.

5. Investments and Fair Value Measurements

The Plan offers various investment options to participants. Participants have the options of investing in Vanguard mutual funds and a money market account. Each participant selects the investments to which their account will be allocated. Investment options may be changed at any time during the year.

The Plan has adopted the framework for measuring fair value under generally accepted accounting principles.

Fair value is defined as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The fair value hierarchy for valuation inputs prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

5. Investments and Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable for the asset and liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money Market and Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end which are traded in an active market and are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the valuation hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of input that is significant to the fair value measurement.
