NOTES TO FINANCIAL STATEMENTS

December 31, 2018 and 2017

1. Description of Plan

The following description of the Vets First Choice 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Vets First Choice (the Company) and was established effective December 1, 2014. All employees of the Company are eligible to participate in the Plan except employees who are 1) non-resident aliens or 2) covered by a collective bargaining agreement. Employees are eligible to participate in the Plan on the first day of the month coinciding with or next following the date in which the employee completes one month of service, as defined and reaches 21 years of age. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

The Plan was amended effective January 1, 2017 to include Veterinary Data Services (VDS), a subsidiary of the Company acquired through a stock purchase agreement in 2014, and Veterinary Pharmacies of America, a subsidiary of the Company acquired through an asset purchase agreement in 2015, as participating employers in the Plan. The Plan was further amended effective January 1, 2017 to exclude per diem and temporary employees from participating in the Plan.

Effective May 2017, the Plan elected to change recordkeeper and custodian from John Hancock Life Insurance Company to Empower Retirement, recordkeeper, and Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company, custodians.

In July 2017, the Company acquired Eaton Veterinary Pharmaceutical, Inc. (EVP) and Roadrunner Pharmacy, Inc. (RR) through a stock purchase agreement. The Plan was amended effective July 14, 2017 to include EVP and RR as participating employers in the Plan.

Contributions

Each year, participants may elect to contribute a portion of their eligible compensation, as defined in the Plan, on a pre-tax basis or a post-tax basis (Roth) up to the maximum allowable under federal tax limitations. Participants may also contribute amounts representing rollover distributions from other qualified benefit or contribution plans. Effective June 1, 2017, the Plan was amended to implement an automatic enrollment provision. All new participants after June 1, 2017 will be automatically enrolled at a deferral rate of 4% of eligible compensation, unless the participant specifically elects another amount or opts out of the Plan.

Each year, the Company may elect to make a discretionary matching employer contribution to the Plan. During 2018, the Company made a discretionary matching employer contribution in the amount of 50% of the first 4% of participants' elective deferrals.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018 and 2017

1. Description of Plan (Continued)

Rollover contributions are subject to conditions stated in the Plan and in the appropriate sections of the Internal Revenue Code (the Code).

Participants' Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings or losses thereon. The Plan was amended effective January 1, 2018 to change the vesting schedule for employer matching contributions. Participants will become fully vested after one year of service. Prior to January 1, 2018, the employer matching contributions were vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20
3	40
4	60
5	80
6	100

Participants are 100% vested upon normal retirement age, disability or death, as defined in the Plan.

Notes Receivable From Participants

Participants may borrow from their account a minimum of \$1,000 to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Generally, the term of the notes receivable is 5 years, except where proceeds are used to purchase a primary residence as these may have terms longer than 5 years. A participant may have a maximum of one note outstanding at one time. The notes receivable are secured by the balance in the participant's account and bear an interest rate equal to the Wall Street Journal prime interest rate plus 1%. Interest rates ranged from 4.50% to 6.25% at December 31, 2018 with various maturities through August 2032. Principal and interest are paid ratably through bi-weekly payroll deductions.

Investment Options

All contributions to the Plan are invested in the various investment options offered by the Plan at the election of the participants. Each participant selects the fund(s) to which contributions will be allocated.

1. Description of Plan (Continued)

Plan Expenses

Administrative expenses are generally paid by the Company. Certain expenses resulting from Plan payments, asset charges, loan set-up charges or fund transfers are deducted directly from participant accounts. Also, in accordance with the fee agreement certain fees incurred by the Plan for investment management services are included in investment income on the Statement of Changes in Net Assets Available for Benefits as they are paid through revenue sharing, rather than direct payment.

Payment of Benefits

The Plan provides for participants to withdraw their funds at any time upon attainment of the normal retirement age as stated in the Plan document. Such withdrawals are based on the vested amount in the participant's accounts as of the valuation date coinciding with or immediately after the participant's retirement date. The Plan allows for single lump-sum payments. The Plan also provides for withdrawals in the event of death, disability, hardship or termination as provided for in the Plan Agreement. The Plan also allows for in-service withdrawals once the participant reaches 59½. The Plan provides for the automatic direct rollover to an IRA account for terminated participants for balances of not more than \$5,000, unless directed otherwise by the participant.

Forfeiture Account

Forfeited balances of terminated participants' nonvested accounts are used to either pay Plan administrative expenses or to reduce employer contributions. There were no forfeitures used during the year ended December 31, 2018. The balance of the forfeiture account was \$15,193 and \$1,111 at December 31, 2018 and 2017, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Contributions

Participant contributions and matching contributions are recorded in the period in which payroll deductions are made. Company discretionary matching contributions are determined for each payroll period, and are recorded in the period in which the related payroll deductions are made.

Payment of Benefits

Benefit payments are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable From Participants

Notes receivable are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the loan is deemed defaulted in accordance with the Plan document, the participant loan balance is reduced and a benefit payment is recorded. The Form 5500 reports participant loans as investments. For financial statement purposes, participant loans are reported as notes receivable.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator or the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the guaranteed interest fund, which is stated at contract value. See note 7 for disclosure of fair value measurements. At December 31, 2018, the Plan invests in a guaranteed interest fund, which is a group annuity contract issued by Great-West Life & Annuity Insurance Company that is considered fully benefit-responsive. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Contract value represents contributions made under the contract plus interest earned, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by Plan management to determine whether such events should be recognized or disclosed in the financial statements. Plan management has evaluated subsequent events through October 9, 2019, which is the date these financial statements were available to be issued.

On February 7, 2019, the Company merged with Henry Schein Animal Health to form a new company, Covetrus, Inc. As a result, the Company froze the Plan effective February 28, 2019 such that no additional contributions could be made and all participants became 100% vested. Substantially all Plan assets were transferred to the Covetrus 401(k) Retirement Savings Plan effective May 1, 2019.

3. Income Tax Status

The Plan is subject to ERISA and certain provisions of the Internal Revenue Code (the Code). The Plan adopted a volume submitter form of a plan sponsored by Qualified Plan Consultants LLC. The volume submitter plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014, as to the volume submitter's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Management evaluated the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts (see note 2).

VETS FIRST CHOICE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

5. Investments

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the Plan's custodians, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedules. The Plan Administrator has obtained certifications from the custodians stating that the information provided to the Plan Administrator by the custodians is complete and accurate. Such information includes investments, net appreciation/depreciation in fair value of investments, interest and dividend income, investment transactions, notes receivable from participants, interest income on notes receivable and notes receivable transactions.

The Plan invests in a guaranteed interest fund, which is a group annuity contract issued by Great-West Life & Annuity Insurance Company. This is a general account product and is fully guaranteed by the general account assets of Great-West Life & Annuity Insurance Company. There is no guaranteed rate of return and the crediting rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Participant transactions (purchases and sales) may occur daily. A 30-day notice period is required if the Plan initiates a full redemption of the contract. This contract meets the fully-responsive investment criteria and, therefore, is reported at contract value. Certain events, such as the termination of the Plan, would limit the Plan's ability to transact at contract value. The Plan Administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with the Plan participants is not probable. The transfer of assets in 2019 discussed in note 2 did not impact contract value.

6. Party-In-Interest Transactions

The Plan paid administrative expenses totaling \$57,013 for the year ended December 31, 2018 to the third party administrator and the custodians. The Plan also invests in a guaranteed interest fund issued by a custodian as discussed in note 5. These transactions qualify as a party-in-interest transaction; however these are exempt from the prohibited transaction rules under ERISA. In addition, loans to participants qualify as party-in-interest transactions.

7. **Fair Value Measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy based on the lowest level of any input that is significant to the fair value measurement. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities. Valuations are obtained from readily available pricing sources for market transactions involving assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities. All assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the closing price of the fund as reported in the active market in which the security is traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets at fair value as of December 31, 2018 and 2017 were comprised of Level 1 mutual funds totaling \$7,547,852 and \$3,766,229, respectively.
