Report of Independent Auditors

The Plan Administrator
Catholic Health Initiatives
Retirement Plan for For-Profit Entities

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Catholic Health Initiatives Retirement Plan for For-Profit Entities, which comprise the statements of net assets available for benefits in liquidation as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits in liquidation for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2018 and 2017, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Adoption of Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, the financial statements have been prepared under the liquidation basis of accounting. Our disclaimer of opinion is not modified with respect to this matter.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of reportable transactions for the year ended December 31, 2018, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2018 and 2017 (In Liquidation)

1. Description of Plan

The following description of the Catholic Health Initiatives Retirement Plan for For-Profit Entities (the Plan) is provided for general informational purposes only. Participants of the Plan should refer to the Summary Plan Description for more detailed and complete information regarding the vesting and benefit provisions.

General

The Plan is a noncontributory, defined benefit plan covering all eligible employees of certain for-profit subsidiary corporations of Catholic Health Initiatives (CHI or the Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the CHI's Retirement Plans Subcommittee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Finance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Effective December 31, 2001, the Plan was amended such that all benefit accruals under the Plan were frozen. Subsequent to this date, benefits under the Plan are determined based on service for periods prior to January 1, 2002. This amendment did not alter participants' vesting status, and participants continue to be credited for future employment. For the years ended December 31, 2018 and 2017, all participants were fully vested in the Plan. Since the plan freeze, other frozen plans have been merged into the Plan as a matter of administrative convenience.

Plan Termination

On November 18, 2016, the Committee adopted an amendment to terminate the Plan effective December 31, 2016. On that same date, the Plan submitted a request for a favorable determination letter on the termination to the Internal Revenue Service (IRS). The Sponsor and legal counsel exchanged communications with the IRS in connection with this request during 2017, and ultimately received the favorable determination letter approving the termination on January 12, 2018. The Pension Benefit Guaranty Corporation (PBGC) received the Plan's standard termination notice on June 27, 2017.

1. Description of Plan (continued)

To prepare for the distribution of benefits to participants due to the termination, during 2017 the Sponsor began liquidating the Plan's investment in the Catholic Health Initiatives Master Trust (CHI Master Trust) on a bimonthly basis (June, August, etc.), such that the majority of assets held by the Plan at December 31, 2017, was a liquid money market fund. During 2018, plan participants were given an option to receive their frozen accrued benefits in a single lump-sum or through an annuity purchase.

Based on the foregoing, the Sponsor determined that the termination was considered imminent; therefore, the 2018 and 2017 financial statements have been prepared in accordance with the liquidation basis of accounting.

During 2018, the Sponsor substantially completed the settlement of the plan benefits through a combination of lump-sum distributions and the purchase of nonparticipating annuity contracts. Lump-sum distributions occurred during April 2018. The Sponsor was granted a 120-day extension of the asset distribution deadline pursuant to PBGC Regulation Section 4041.30. The distribution deadline was extended from May 12, 2018 to September 9, 2018. During June 2018, the contract to purchase the annuities for the remaining participants was signed. Such contract was effective on August 1, 2018.

Funding Policy

The Sponsor has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits due to participants and to make contributions as necessary to ensure the Plan has met the ERISA minimum funding requirements. At December 31, 2018, the Plan has met the ERISA minimum funding requirements.

Administrative Expenses

Certain administrative services are provided to the Plan at no cost by employees of the Sponsor.

1. Description of Plan (continued)

Participant Accounts

The Plan has certain participants with a cash balance account whereby a participant's accrued benefit is defined as a notional cash balance account. Participant cash balance accounts are credited on an annual basis equal to an amount called an interest credit amount, as defined by the Plan. Additionally, interest is credited to participant cash balance accounts based on the beginning-of-year balances. The annual interest crediting rate is based on the average annual yield of the five-year U.S. Treasury Constant Maturity Yield during the 12 consecutive months ending with the second latest month preceding the month in which such plan year begins. The interest crediting rate applied to cash balance account under the Plan was updated effective January 1, 2017, the first plan year after the plan termination. The interest rate used to credit cash balance accounts is equal to the average of the interest crediting rates for each of the five plan years ending December 31, 2016. For former CHS participants, it is 4.72% and for former Heath Care Providers or Novare Services it is 1.33%.

2. Summary of Significant Accounting Policies

Basis of Accounting

As a result of liquidation being imminent, the December 31, 2018 and 2017, financial statements have been prepared under the liquidation basis of accounting. Under the liquidation basis of accounting, assets are stated at their estimated net realizable values and liabilities at their settlement amount.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Fair Value Measurements

The Plan's investments, including those investments held in the CHI Master Topic, are stated at estimated fair value in accordance with Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*. The guidance provides a consistent definition of fair value that focuses on an exit price, which is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 prioritizes, with respect to the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the nature of inputs used in the valuation of an asset or a liability as of the reporting date.

The three-level hierarchy for fair value measurements is as follows:

- Level 1 – Fair value is based on inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the CHI Master Trust has the ability to access at the measurement date. Investments whose values are based on quoted market prices in active markets, and are therefore classified by the Plan and CHI Master Trust within Level 1, generally include actively traded equities, government bonds, mutual funds, and exchange-traded funds. The CHI Master Trust does not adjust the quoted price for such investments, even in situations where the CHI Master Trust holds a large position and a sale could reasonably impact the quoted price.
- Level 2 – Fair value is based on inputs, other than Level 1, that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Investments that trade in less liquid public markets or derive market value through corroboration with observable market data (e.g., fixed-income securities) are classified by the CHI Master Trust in Level 2 of the fair value hierarchy. The fair value of Level 2 instruments was determined through evaluated bid prices based on recent trading activity and other relevant information, including market interest rate curves and referenced credit spreads. Estimated prepayment rates, where applicable, are used for valuation purposes and provided by third-party services where quoted market values are not available. Common collective trust funds that have a published price are considered to have a readily determinable fair value. Level 2 instruments include fixed-income funds, corporate bonds, and asset-backed securities.

Catholic Health Initiatives
Retirement Plan for For-Profit Entities

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

- Level 3 – Fair value is based on inputs to the valuation methodology that are unobservable and significant to the fair value measurement. The CHI Master Trust’s Level 3 investments consist of term loans. The valuation of these investments requires significant judgment due to the absence of quoted market values, inherent lack of liquidity, changes in market conditions, and the long-term nature of such investments. Because these investments are not publicly traded, market quotations are generally not available to be used for valuation purposes. Accordingly, the CHI Master Trust’s valuations of these investments are generally equal to or based upon the fair value of these investments as of the reporting date, as reported by fund managers.

In situations where inputs used to determine fair value fall into different levels of the fair value hierarchy, the level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement in its entirety.

The fair value of the CHI Master Trust’s alternative investments is not publicly traded and readily available market quotations are generally not available to be used for valuation purposes. Accordingly, the CHI Master Trust’s valuations of alternative investments are measured at the net asset value (NAV) practical expedient as of the reporting date, as reported by fund managers, and are excluded from the three-level hierarchy for fair value measurements in accordance with ASC Topic 820.

While CHI believes that its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to estimate the fair value of Level 3 investments could result in a different estimate of fair value at the reporting date. Those fair value estimates and alternative investments measured at NAV may differ significantly from the values that would have been determined had a readily available market for such investments existed, or had such investments been liquidated or sold to external investors, and these differences could be material to the financial statements.

For additional information on the fair value measurements of the investment securities within the CHI Master Trust fair value measurements, see Note 6.

2. Summary of Significant Accounting Policies (continued)

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrued basis. Dividends are recorded on the ex-dividend date.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update No. (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 eliminates the requirement for a health and welfare plan to provide investment disclosures for 401(h) account assets. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management has elected to adopt ASU 2017-06 early.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits are based on the cash balance accounts or the transition benefits for certain employees. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

3. Accumulated Plan Benefits

An actuary from Willis Towers Watson estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2017, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 5,409,588
Other participants	20,159,576
	<u>\$ 25,569,164</u>

The change in actuarial present value of accumulated plan benefits is attributable to the following:

Actuarial present value of accumulated plan benefits at

January 1, 2017	\$ 27,909,566
Increase (decrease) during the year attributable to:	
Actuarial loss	46,941

3. Accumulated Plan Benefits (continued)

The significant assumptions underlying the actuarial computations at December 31, 2017 and 2016, are as follows:

Assumed rate of return	Liability is calculated using the 1.5 year duration spot rate (1.57%) from Citigroup Pension Index as of 12/31/2016 for the payments made through the lump-sum offering and the annuity purchase premium and the 1 year duration spot rate (1.43%) from Citigroup Pension Index as of 12/31/2016 for the benefit payments paid from the plan outside of those two special events.
------------------------	---

Liability is calculated using the 0.5 year duration spot rate (1.80%) from Citigroup Pension Index as of 12/31/2017 for the payments made through the lump-sum offering and the annuity purchase premium and a 0% discount rate for the benefit payments paid from the plan outside of those two special events.

5. Investments

All investment information disclosed in the accompanying financial statements, footnotes, and supplemental schedule, including investments held at December 31, 2018 and 2017, net investment gain from plan interest in the CHI Master Trust, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by The Bank of New York Mellon, the trustee.

6. CHI Master Trust

Certain of the Plan's investments are held in the CHI Master Trust, which was established for the investment of assets of the Plan and several other CHI-sponsored retirement plans. Prior to March 1, 2018, each participating plan had an undivided interest in the CHI Master Trust. The CHI Master Trust assets were allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that could be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the CHI Master Trust, income and expenses resulting from the collective investment of the assets of the CHI Master Trust.

During fiscal year 2016–2017, an asset liability study was prepared for the CHI Master Trust. The first phase of the study validated the overall asset allocation of 45% equities, 35% fixed income, and 0% alternatives for the CHI Master Trust was appropriate for the obligations of the plans that participate in the CHI Master Trust. The second phase of the asset liability study focused on

Catholic Health Initiatives
Retirement Plan for For-Profit Entities

Notes to Financial Statements (continued)

6. CHI Master Trust (continued)

reviewing the obligations of each pension plan in the CHI Master Trust and developing an appropriate asset allocation and glidepath for each pension plan. A glidepath typically represents the de-risking of the asset allocation over time as a plan's funded status improves. As a result of the second phase of the study, the CHI Master Trust was restructured from a one investment pool structure to a three-pool structure (growth, inflation hedging, and long duration). Details of these three pools are as follows:

Growth pool – The growth pool seeks asset growth through capital appreciation and income reinvestment. Underlying investments of this pool consist of public and private equity, real assets, real estate, hedge funds and bank loans.

Inflation hedging pool – The inflation hedging pool seeks to meet or exceed the inflation portion of the interest crediting rate. Asset classes within this pool consist of core plus fixed income, TIPS, and other inflation hedging strategies.

Long duration pool – The long duration pool seeks to match duration of liabilities through use of long duration fixed income. Asset classes within this pool consist of long duration fixed-income investments and other liability hedging strategies.

Due to this restructuring, the participating plans in the CHI Master Trust have a divided interest. Ownership units of the three new pools are based on type of plan and funded status. The tables below present the investment allocation strategies under the new pool structure.

Alternative Investment Strategies

The goal of the alternative investments allocation is to enhance the diversification profile of the CHI Master Trust. Exposure to hedge funds is derived through investments in fund of funds and deploy strategies such as relative value, event driven, and long/short. Real estate exposure is primarily derived through open-end funds that invest in core commercial properties within the United States. Venture capital/private equity exposure is primarily derived through investments in fund of funds that pursue a variety of strategies.

Notes to Financial Statements (continued)

6. CHI Master Trust (continued)

Alternative Investment Redemptions

The CHI Master Trust's ability to sell certain alternative investments is limited, and redemptions may not be allowed. In these circumstances, the general partners of the alternative investments control the timing of underlying investment realizations and the timing of related distributions. Redemptions are generally permitted for certain alternative investments, primarily hedge fund investments, quarterly with at least 95 days' prior written notice.

Alternative Investment Commitments

The CHI Master Trust's allocation to alternative investments is based upon contractual commitment levels to various funds. These commitments are drawn by the fund managers as opportunities arise to invest the capital. As of December 31, 2018, the CHI Master Trust had committed to invest \$1,004 million in 45 funds, of which \$887 million had been invested. The remaining \$117 million will be invested when, and if, requested by the funds.

Derivatives

The CHI Master Trust invests in derivative financial instruments primarily to adjust portfolio risk and asset class exposures. The CHI Master Trust only utilizes derivative instruments that have well-understood risk/return patterns, documented market liquidity, and a recognized pricing mechanism. Investment in such instruments is limited to the extent that the instruments are fully collateralized to avoid any leverage from such positions. Individual investment manager guidelines may further restrict the use of derivatives within the portfolio.

Concentration of Market, Credit, and Industry Risk

The CHI Master Trust's investments in alternative investments are illiquid, non-publicly traded securities. The underlying investments of these alternative investments are subject to various risk factors, including market, credit, and industry risk. Market risk represents the potential loss in value of financial instruments caused by movements in market variables, such as interest rates. Other risks affecting these underlying investments include, but are not limited to, increasing competition, rapid changes in technology, and changes in economic conditions. These risk factors could have a material effect on the ultimate realizable value of the CHI Master Trust's alternative investments.

7. Income Tax Status

In addition to the determination letter received from the IRS dated January 12, 2018, on the plan termination, the Plan has also received a determination letter from the IRS dated July 7, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party and Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

9. Risks and Uncertainties

The Plan and CHI Master Trust invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

Management has evaluated subsequent events for the Plan through October 10, 2019, the date the accompanying financial statements were available to be issued.

In early 2019, CHI completed its merger with Dignity Health to form a new \$29 billion health system called CommonSpirit Health. Prior to February 1, 2019, the plan administrator was the Catholic Health Initiatives Retirement Plans Sub-committee. Effective February 1, 2019, the plan administrator became the Human Resources and Compensation Committee of the CommonSpirit Health Board of Stewardship Trustee. In June 2019, the Human Resources and Compensation Committee established and appointed as plan administrator the CommonSpirit Health Retirement Plans Sub-Committee. The CommonSpirit Health Investment Committee oversees the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.
