The Plan Administrator
Retirement Plan for Employees of
Memorial Health System of East Texas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Memorial Health System of East Texas, which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2018 and 2017, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedules

The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2018, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Plan for Employees of Memorial Health System of East Texas

Notes to Financial Statements

December 31, 2018

1. Description of the Plan

The following description of the Retirement Plan for Employees of Memorial Health System of East Texas (the Plan) is provided for general informational purposes only. Participants of the Plan should refer to the Summary Plan Description for more detailed and complete information regarding the vesting and benefit provisions.

General

The Plan is a noncontributory, defined benefit plan covering all eligible employees of Memorial Health System of East Texas (the Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the Catholic Health Initiatives (CHI) Retirement Plans Subcommittee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Finance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

In May 2014, Memorial Health System of East Texas and CHI signed a definitive agreement for the transfer of Memorial Health System of East Texas to Catholic Health Initiatives. The transaction was completed on May 31, 2014.

In October 2015, the Plan began investing primarily in the Catholic Health Initiatives Master Trust (CHI Master Trust). In connection with this transfer, The Bank of New York Mellon (BNYM), which also serves as trustee of the CHI Master Trust, became the trustee of the Plan.

Effective December 31, 2003, the Plan was amended such that all benefit accruals under the Plan were frozen.

Funding Policy

The Sponsor has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits due to participants. The Sponsor's present intention is to make contributions as necessary to ensure the Plan has met the ERISA minimum funding requirements. At December 31, 2018, the Plan has met the ERISA minimum funding requirements.

Memorial Health System of East Texas

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Administrative Expenses

Certain administrative services are provided to the Plan at no cost by employees of the Sponsor.

Pension Benefits

On termination of service, a participant under the normal form of benefits will receive monthly income for life, a qualified joint and contingent benefit for married employees, or a lump-sum distribution if the lump-sum value of the benefit is less than \$5,000. Employees are eligible for early retirement if the participant has attained age 55 and completed 15 years of credited service.

Upon the death of a participant, his or her beneficiary will receive a monthly retirement income, payable for life thereafter beginning on the first day of the month coincident with or next following the date of death. Upon total and permanent disability of a participant, he or she will be entitled to a monthly income, payable for life.

Vesting

Vesting service is equal to the total period of elapsed time, computed in years and days, from the first date of employment until the normal retirement date or the date of termination of employment, if earlier, less that portion of any absence that is in excess of 12 months. A participant's initial vesting date at 100% is the earlier of (a) the date the participant has completed five years of vesting service or (b) the date the participant attains age 65.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Fair Value Measurements

The Plan's investments, including those investments held in the CHI Master Trust, are stated at estimated fair value in accordance with Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*. The guidance provides a consistent definition of fair value that focuses on an exit price, which is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 prioritizes, with respect to the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the nature of inputs used in the valuation of an asset or a liability as of the reporting date.

Retirement Plan for Employees of
Memorial Health System of East Texas

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The three-level hierarchy for fair value measurements is as follows:

- Level 1 – Fair value is based on inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the CHI Master Trust has the ability to access at the measurement date. Investments whose values are based on quoted market prices in active markets, and are therefore classified by the Plan and CHI Master Trust within Level 1, generally include actively traded equities, government bonds, mutual funds, and exchange-traded funds. The CHI Master Trust does not adjust the quoted price for such investments, even in situations where the CHI Master Trust holds a large position and a sale could reasonably impact the quoted price.
- Level 2 – Fair value is based on inputs, other than Level 1, that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Investments that trade in less liquid public markets or derive market value through corroboration with observable market data (e.g., fixed-income securities) are classified by the CHI Master Trust in Level 2 of the fair value hierarchy. The fair value of Level 2 instruments was determined through evaluated bid prices based on recent trading activity and other relevant information, including market interest rate curves and referenced credit spreads. Estimated prepayment rates, where applicable, are used for valuation purposes and provided by third-party services where quoted market values are not available. Common collective trust funds that have a published price are considered to have a readily determinable fair value. Level 2 instruments include fixed-income funds, corporate bonds, and asset-backed securities.
- Level 3 – Fair value is based on inputs to the valuation methodology that are unobservable and significant to the fair value measurement. The CHI Master Trust's Level 3 investments consist of term loans. The valuation of these investments requires significant judgment due to the absence of quoted market values, inherent lack of liquidity, changes in market conditions, and the long-term nature of such investments. Because these investments are not publicly traded, market quotations are generally not available to be used for valuation purposes. Accordingly, the CHI Master Trust's valuations of these investments are generally equal to or based upon the fair value of these investments as of the reporting date, as reported by fund managers.

Retirement Plan for Employees of Memorial Health System of East Texas

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In situations where inputs used to determine fair value fall into different levels of the fair value hierarchy, the level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement in its entirety.

The fair value of the CHI Master Trust's alternative investments is not publicly traded and readily available market quotations are generally not available to be used for valuation purposes. Accordingly, the CHI Master Trust's valuations of alternative investments are measured at the net asset value (NAV) practical expedient as of the reporting date, as reported by fund managers, and are excluded from the three-level hierarchy for fair value measurements in accordance with ASC Topic 820.

While CHI believes that its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to estimate the fair value of Level 3 investments could result in a different estimate of fair value at the reporting date. Those fair value estimates and alternative investments measured at NAV may differ significantly from the values that would have been determined had a readily available market for such investments existed, or had such investments been liquidated or sold to external investors, and these differences could be material to the financial statements.

For additional information on the fair value measurements of the investment securities within the CHI Master Trust fair value measurements, see Note 6.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update No. (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets

Retirement Plan for Employees of Memorial Health System of East Texas

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 eliminates the requirement for a health and welfare plan to provide investment disclosures for 401(h) account assets. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management has elected to adopt ASU 2017-06 early.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The accumulated plan benefits are based on the employees' average monthly rate of basic compensation for the five successive calendar years out of the fifteen calendar years next preceding normal retirement that gave the highest monthly average rate. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

3. Accumulated Plan Benefits

An actuary from Willis Towers Watson estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

These actuarial assumptions are based on the presumption the Plan will continue as a frozen plan. Were the Plan to terminate, different assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits.

4. Fair Value Measurements

The following tables set forth by level, within the fair value hierarchy as described in Note 2, the Plan's assets carried at fair value:

5. Investments

All investment information disclosed in the accompanying financial statements, footnotes, and supplemental schedules, including investments held at December 31, 2018, net investment loss (gain) from plan interest in the CHI Master Trust, and interest and dividend income for the year then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by The Bank of New York Mellon, the trustee.

Notes to Financial Statements (continued)

6. CHI Master Trust

Certain of the Plan's investments are held in the CHI Master Trust, which was established for the investment of assets of the Plan and several other CHI-sponsored retirement plans. Prior to March 1, 2018, each participating plan had an undivided interest in the CHI Master Trust. The CHI Master Trust assets were allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that could be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the CHI Master Trust, income and expenses resulting from the collective investment of the assets of the CHI Master Trust.

During fiscal year 2016–2107, an asset liability study was prepared for the CHI Master Trust. The first phase of the study validated the overall asset allocation of 45% equities, 35% fixed income, and 0% alternatives for the CHI Master Trust was appropriate for the obligations of the plans that participate in the CHI Master Trust. The second phase of the asset liability study focused on reviewing the obligations of each pension plan in the CHI Master Trust and developing an appropriate asset allocation and glidepath for each pension plan. A glidepath typically represents the de-risking of the asset allocation over time as a plan's funded status improves. As a result of the second phase of the study, the CHI Master Trust was restructured from a one investment pool structure to a three-pool structure (growth, inflation hedging, and long duration). Details of these three pools are as follows:

Growth pool – The growth pool seeks asset growth through capital appreciation and income reinvestment. Underlying investments of this pool consist of public and private equity, real assets, real estate, hedge funds and bank loans.

Inflation hedging pool – The inflation hedging pool seeks to meet or exceed the inflation portion of the interest crediting rate. Asset classes within this pool consist of core plus fixed income, TIPS, and other inflation hedging strategies.

Long duration pool – The long duration Pool seeks to match duration of liabilities through use of long duration fixed income. Asset classes within this pool consist of long duration fixed-income investments and other liability hedging strategies.

6. CHI Master Trust (continued)

Due to this restructuring, the participating plans in the CHI Master Trust have a divided interest. Ownership units of the three new pools are based on type of plan and funded status. The tables below present the investment allocation strategies under the new pool structure.

Alternative Investment Strategies

The goal of the alternative investments allocation is to enhance the diversification profile of the CHI Master Trust. Exposure to hedge funds is derived through investments in fund of funds and deploy strategies such as relative value, event driven, and long/short. Real estate exposure is primarily derived through open-end funds that invest in core commercial properties within the United States. Venture capital/private equity exposure is primarily derived through investments in fund of funds that pursue a variety of strategies.

6. CHI Master Trust (continued)

Alternative Investment Redemptions

The CHI Master Trust's ability to sell certain alternative investments is limited, and redemptions may not be allowed. In these circumstances, the general partners of the alternative investments control the timing of underlying investment realizations and the timing of related distributions. Redemptions are generally permitted for certain alternative investments, primarily hedge fund investments, quarterly with at least 95 days' prior written notice.

Alternative Investment Commitments

The CHI Master Trust's allocation to alternative investments is based upon contractual commitment levels to various funds. These commitments are drawn by the fund managers as opportunities arise to invest the capital. As of December 31, 2018, the CHI Master Trust had committed to invest \$1,004 million in 45 funds, of which \$887 million had been invested. The remaining \$117 million will be invested when, and if, requested by the funds.

Derivatives

The CHI Master Trust invests in derivative financial instruments primarily to adjust portfolio risk and asset class exposures. The CHI Master Trust only utilizes derivative instruments that have well-understood risk/return patterns, documented market liquidity, and a recognized pricing mechanism. Investment in such instruments is limited to the extent that the instruments are fully collateralized to avoid any leverage from such positions. Individual investment manager guidelines may further restrict the use of derivatives within the portfolio.

Concentration of Market, Credit, and Industry Risk

The CHI Master Trust's investments in alternative investments are illiquid, non-publicly traded securities. The underlying investments of these alternative investments are subject to various risk factors, including market, credit, and industry risk. Market risk represents the potential loss in value of financial instruments caused by movements in market variables, such as interest rates. Other risks affecting these underlying investments include, but are not limited to, increasing competition, rapid changes in technology and changes in economic conditions. These risk factors could have a material effect on the ultimate realizable value of the CHI Master Trust's alternative investments.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 2, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Retirement Plan for Employees of Memorial Health System of East Texas

Notes to Financial Statements (continued)

7. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party and Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

9. Risks and Uncertainties

The Plan and the CHI Master Trust invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Memorial Health System of East Texas

Notes to Financial Statements (continued)

10. Plan Termination

In the event of termination of the Plan, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- Other vested benefits insured by the PBGC, a U.S. government agency, up to the applicable limitations (discussed below).
- All other vested benefits.
- All nonvested benefits.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of CHI and the level of benefits guaranteed by the PBGC. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

The Plan provides that following a plan termination (as defined), the assets of the Plan shall be applied in accordance with the provisions of the plan agreement to satisfy all liabilities to participants and beneficiaries, and the Sponsor shall be entitled to any balance of plan assets remaining.

11. Subsequent Events

Management has evaluated subsequent events for the Plan through October 10, 2019, the date the accompanying financial statements were available to be issued.

In early 2019, CHI completed its merger with Dignity Health to form a new \$29 billion health system called CommonSpirit Health. Effective February 1, 2019, the plan administrator became the Human Resources and Compensation Committee of the CommonSpirit Health Board of Stewardship Trustee. In June 2019, the Human Resources and Compensation Committee established and appointed as plan administrator the CommonSpirit Health Retirement Plans Sub-Committee. The CommonSpirit Health Investment Committee oversees the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees. There have been no other significant changes to the Plan as a result of the merger.

SCHEDULE SB ATTACHMENTS

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets for determining minimum required contributions The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2017 plan year, discounted using the effective interest rate for the 2017 plan year.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Catholic Health Initiatives and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in assumptions and methods since prior valuation The funding interest rate base used to calculate the funding target and target normal cost was updated pursuant to the requirements of the Pension Protection Act of 2006, including application of the HATFA interest rate corridors.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of mortality improvement projected with scale AA, as permitted by IRC §430.

The assumed plan-related expenses added to the target normal cost were changed to better reflect anticipated experience.

Decrement timing was changed from beginning of year to rounded middle of year.

Data Sources

CHI, through its third party administrator, furnished participant data as of January 1, 2018. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

Missing date of birth	Participants who are missing their date of birth were assigned an average age based on the participant's status. Beneficiaries who are missing their date of birth were assigned the participant's date of birth plus 3 years for male participants and minus 3 years for female participants.
Missing sex code	A female sex code is assigned to a participant and a male sex code is assigned to a beneficiary when their sex code is unavailable. For those participants missing their beneficiary's sex code and have a joint and survivor form of payment, the beneficiary is assigned a sex code opposite to the participant's sex code.
Missing hire date	Active and deferred vested participants who are missing their hire date are assigned a date equal to their participation date.
Missing benefit amount	Participants with missing benefits are assigned a \$100 monthly benefit amount

Assumptions Rationale – Significant Economic Assumptions (Funding)

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan Related Expenses	Administrative expenses are estimated by determining the expected expense for the coming year.

Assumptions Rationale – Significant Demographic Assumptions (Funding)

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on a published table for pension participants believed to have similar characteristics to the plan population.
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits	Deferred vested participants' assumed commencement age is a single age intended to capture the expected average age at commencement.

Source of Prescribed Methods (Funding)

Funding methods	The methods used for funding purposes, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Effective Date and Most Recent Amendment	The plan was originally effective May 1, 1976. The plan was amended and restated effective December 30, 2016.
Plan Year	The twelve-month period ending December 31.
Coverage and Participation	<p>Participation is limited to participants in the plan as of December 31, 2003. All employees prior to December 31, 2003 were eligible to participate under the plan after one year of service. "Employee" means any person on the payroll whose wages are subject to withholding for the purposes of federal income tax.</p> <p>Note: If an employee meets the age requirement, but fails to complete 1,000 hours during the first year, participation will begin on the January 1 following the plan year in which 1,000 hours are completed.</p>
Benefit Accrual Preservation Date	December 31, 2003. The plan was frozen to participation and benefit accruals after December 31, 2003.

Definitions

Credited Service	The number of years and completed months of service from date of hire to the earlier of date of termination or Benefit Accrual Preservation Date, adjusted for certain periods of unpaid absence.
Vesting Service	Total service from date of hire to date of termination, less any absence in excess of 12 months.
Final Average Monthly Compensation	<p>The monthly average of the 5 consecutive years' compensation out of the last 15 years at the earlier of the date of termination or the Benefit Accrual Preservation Date that gives the highest average.</p> <p>Compensation includes W-2 compensation plus any compensation deferred under a Section 125 or Section 401(k) plan. Compensation is limited to the pay limit as described in IRC Section 401(a)(17). The limit at Benefit Accrual Preservation Date is \$200,000.</p>

SCHEDULE SB ATTACHMENTS

Covered Compensation A 35-year average of the Maximum Taxable Wages (MTW) under social security. The MTW is the annual limit on wages subject to the FICA tax for social security. The 35-year period ends with the year the employee reaches eligibility for an unreduced social security benefit (age 65, 66, or 67 depending on the year the employee was born). For years after the Benefit Accrual Preservation Date (2003) and prior to the end of the 35-year period, the MTW from the Benefit Accrual Preservation Date (2003) is used.

Accrued Benefits The participant's Accrued Benefit at any given date is the Normal Retirement Benefit, based on the formulas below, the product of (a) the Final Average Monthly Compensation and monthly Covered Compensation determined as of the earlier of date of termination or the Benefit Accrual Preservation Date times (b) the ratio of Credited Service at the earlier of date of termination or Benefit Accrual Preservation Date to Credited Service at Normal Retirement Date.

The Accrued Benefit was frozen for all participants as of December 31, 2003.

Eligibility for Benefits

Normal Retirement First day of month coincident with or next following 65th birthday.

Early Retirement Age 55 and 15 years of vested service.

Disability Benefit Total and permanent disability of participant prior to Normal Retirement Date and 2 years of Vesting Service.

Vested Benefits Upon Termination of Service A participant is 100% vested upon completion of 5 years of vesting service. However, all participants become 100% vested upon reaching age 65.

Preretirement Death Two years of Vesting Service or after initial vesting date.

Late Retirement

For employees who accrue less than 40 hours of service in any calendar month and whose retirement occurs after the Normal Retirement Date, the late retirement income will be based on the greater of 1 and 2:

1. The Normal Retirement Benefit calculated using Credited Service and Final Average Monthly Compensation as of the Benefit Accrual Preservation Date, if earlier than the Late Retirement Date.
2. The income provided on an actuarially equivalent basis by the single-sum value of the retirement income payable as of Normal Retirement Date if earlier than the Benefit Accrued Preservation Date and if employment had then terminated, accumulated with interest to the later of the Benefit Accrual Preservation Date or the Annuity Starting Date.

All other employees who retire after the Normal Retirement Date will receive a Late Retirement Income equal to the Normal Retirement Benefit calculated using Credited Service and Final Average Monthly Compensation as of the Benefit Accrual Preservation Date if earlier than the Late Retirement Date.

Disability Benefit

The monthly income that can be provided by the greater of A and B, but not less than C if eligible for Early Retirement Benefit as of the date of termination of service due to disability:

- A. The present value of the Accrued Benefit as of the Benefit Accrual Preservation Date.
- B. A multiple of the Final Average Monthly Compensation as of the Benefit Accrual Preservation Date. If the employee is at least age 45 and has completed 15 years of service, the multiple is 30; otherwise, the multiple is 12.
- C. The monthly Early Retirement Benefit payable at the Disability Retirement Date.

This income is payable for life only.

The monthly benefit may not be greater than the retirement income the participant would receive if he remained in active employment at his rate of pay at the Benefit Accrual Preservation Date and retired.

Waiting Period: Benefits will not commence until the employee has been disabled for six months and has filed a request for disability benefits with the employer.

Vested Benefits Upon Termination of Service

The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at Normal Retirement Date. Optionally, the participant may elect to receive an actuarially reduced benefit commencing prior to Normal Retirement Date. The participant may also elect to receive an actuarially reduced benefit in order to provide a death benefit for the period between termination and the date retirement payments commence. Such death benefit is equal to the actuarial present value of the deferred accrued benefit, determined as of the Benefit Accrual Preservation Date.

Preretirement death

The participant's beneficiary will receive an income payable for 10 years certain and life (other optional forms are available) that can be provided by the greater of A or B below:

- A. The present value of the accrued benefit as of the Benefit Accrual Preservation Date.
- B. The smaller of (1) or (2) below:
 - (1) A multiple of the Final Average Monthly Compensation. If the employee is at least age 45 and has completed 15 years of vesting service, the multiple is 30. Otherwise, the multiple is 12.
 - (2) 100 times the monthly retirement income the participant accrued as of the Benefit Accrual Preservation Date.

If death occurs after normal retirement but prior to actual retirement, the participant's beneficiary will receive a benefit equal in value to the Late Retirement Benefit described above that the participant would have received had he retired as of his date of death.

Schedule SB, Line 25 Change in Method

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.
