NOTE A PLAN DESCRIPTION

The following description of CNL Financial Group Subsidiaries and Affiliates Employee Retirement Plan (the Plan), adopted as of November 1, 1996, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of CNL Financial Group and its wholly-owned subsidiaries and certain affiliates (the Company). Employees of the Company who are United States permanent residents are eligible to participate in the Plan immediately upon date of hire with the entry date being the first day of each month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Plan Administration

The Plan's assets are held and managed by Fidelity Management Trust Company (the Trustee). Contributions are held by the Trustee, who invests cash received, interest and dividend income, as directed by participants, and makes distributions to participants.

Contributions

Participants may contribute up to 90% of pretax annual compensation, as defined in the Plan agreement, subject to certain limitations under the Internal Revenue Code (IRC). Participants may contribute up to 90% of annual compensation as a Roth (after-tax) contribution. The maximum allowable combined pre-tax and after-tax voluntary contribution is adjusted annually by the Internal Revenue Service (IRS). Employees of the Company are automatically enrolled into the Plan with a 4% deferral with 1% automatic annual increases, up to 8%, unless the employee elects otherwise. The Company makes discretionary matching contributions in an amount equal to 50% of each participant's contribution to a maximum of 7% of compensation after six months of service. The Company's matching contribution for the year ended December 31, 2018 amounted to $853,290. The Company may also make additional discretionary contributions, which are determined annually. There were no authorized additional discretionary contributions for the year ended December 31, 2018.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and discretionary contributions, if applicable. Each participant's account shall be allocated earnings, gains, expenses and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

Vesting

Participants are immediately vested in their voluntary contributions plus or minus actual earnings or losses thereon. Vesting in the remainder of their accounts is based on years of credited service. A participant is 100 percent vested after four years of credited service according to the following schedule:

Years of Credited Service	Percent Vested
Less than 1	0%
1	25%
2	50%
3	75%
4 and greater	100%

NOTE A PLAN DESCRIPTION (CONTINUED)

Investment Options
Upon enrollment in the Plan, participants may elect to invest both participant and Company contributions in various investment options, including self-directed brokerage accounts. Participants can change their contribution percentages, investment options or make fund transfers at any time.

Participant Loans
Participants may take a loan up to 50% of their vested balance, with a minimum of $1,000 and a maximum of $50,000. Only one loan per participant may be outstanding at a time. Loans are secured by the participant's vested interest, bear interest at the prime rate and are repaid over 60 months for a personal loan or 120 months for a principal home purchase loan. Loans are treated as an investment of the borrowing participant's account and only the borrowing participant's account shares in the interest paid on the participant loan.

Distribution of Participant Accounts
The normal form of a retirement benefit under the Plan is a qualified joint and survivor annuity. Optional forms of benefit payment include various annuity forms of payment, as specified in the Plan, or a lump-sum payment.

On termination of service for any reason, a participant may elect to receive either a lump-sum amount distribution or an annuity, as specified in the Plan agreement, equal to the value of the participant's vested interest in his or her account. A participant may also elect to defer distribution of his or her vested interest through the establishment of a personal retirement account under certain conditions as specified in the Plan. However, if the participant's vested interest is less than $1,000, the Plan may require that payment be made in the form of a lump-sum distribution.

Additionally, a participant may elect to receive a voluntary withdrawal from his or her account equal to the value of the vested interest in his or her account, without terminating employment with the Company, under the following conditions: (1) the participant has reached the age of 59 ½ or older, or (2) the participant has a financial hardship, as specified in the Plan, in which case a penalty or charge may apply.

Forfeited Accounts
Nonvested amounts remaining after the distribution of a participant's account balance are forfeited. Forfeitures of terminated participants' nonvested accounts are available to pay certain Plan fees and/or to reduce the Company's matching contributions. During the year ended December 31, 2018, the Plan utilized approximately $42,000 of forfeited nonvested accounts to pay certain Plan fees and $12,000 of the forfeited nonvested accounts to reduce the Company's matching contributions. At December 31, 2018 and 2017, the amount of forfeited nonvested accounts to be utilized totaled approximately $35,000 and $47,000, respectively.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investments and unrealized appreciation or depreciation is recognized at period end when the carrying values of the related investments are adjusted to their estimated fair market value. Purchases and sales of investments are recorded on the trade date.

Payment of Benefits
Benefits paid to participants are recorded when paid.

Participant Loans
Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. Interest income is recorded on the accrual basis. Related fees are recoded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recoded as of December 31, 2018 or 2017.

At December 31,2018, the loans bore interest ranging from 3.25% to 5.25% and had maturities through December 2025.

Deemed Distributions
Deemed loan distributions are recorded when the participant defaults on the loan. There was approximately $50,000 of deemed distributions during the year ended December 31, 2018.

Administrative Expenses
The Company may elect to pay certain administrative expenses, primarily investment management fees, on behalf of the Plan. For the year ended December 31, 2018, the Company paid no administrative expenses on behalf of the Plan.

Concentration of Credit Risk
Financial instruments which potentially subject the Plan to concentrations of credit risk consist of the Plan's investments.

Subsequent Events
Management has evaluated subsequent events for potential disclosure in or adjustment to the financial statements through the date of the independent auditor's report, the date that the accompanying financial statements were available to be issued. Based on such evaluation, no events have occurred that in the opinion of management warrant disclosures in or adjustment to the financial statements.

NOTE C INVESTMENT RISK AND UNCERTAINTIES

The Plan provides for various investment options in registered investment companies, common collective trusts and through self-directed brokerage accounts, which include common and preferred stocks. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE D INVESTMENTS AND INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and the supplemental schedule. The plan administrator has obtained a certification from the Trustee that the information provided to the plan administrator by the Trustee as of December 31, 2018 and 2017, and for the year ended December 31, 2018, is complete and accurate. Such information includes all investments, investment income and loss and the information in the supplemental schedule of assets (held at end of year).

NOTE E FAIR VALUE MEASUREMENTS

The Plan categorizes its financial assets and liabilities that are recorded at fair value into a hierarchy based on whether inputs to valuation techniques are observable. Financial assets and liabilities carried at fair value are classified and disclosed in one of the following categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value:

Registered investment companies and interest-bearing cash - Valued at quoted market prices in active markets of shares held by the Plan at year-end.

Common and preferred stocks - Valued at quoted market prices in active markets of shares held by the Plan at year-end.

Common collective trust - Valued at the net asset value per share practical expedient, provided by the Trustee, based on the underlying investments held less any liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

NOTE E FAIR VALUE MEASUREMENTS (CONTINUED)

NOTE F PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

NOTE G INCOME TAX STATUS

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC and that it is therefore exempt from federal income taxes. The Plan has not received a determination letter specific to the Plan itself. The Plan has subsequently been amended to conform with, among other things, various tax acts. In the opinion of the Plan Administrator and the Plan's tax counsel, the Plan, as amended, continues to meet the IRC requirements and is currently operating such that its exempt status has been maintained. The Plan can be subject to unrelated business income tax related to certain investments. During the year ended December 31, 2018, the Plan had no unrelated business income tax due relating to these investments. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of the years ended December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require the recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2015.

NOTE H PARTY-IN-INTEREST

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain plan investments are managed by the Trustee. Transactions related to these investments qualify as party-in-interest transactions. Fees paid to the Trustee by the Plan for investment services amounted to approximately $19,000 during the year ended December 31, 2018.
