NOTE A - DESCRIPTION OF THE PLAN

The following description of the Wargaming (USA), Inc. 401(k) Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Effective January 1, 2013, Wargaming (Austin), Inc. established the Plan for the benefit of all eligible employees, including employees of Wargaming America, Inc., Wargaming (Washington D.C.), Inc., Wargaming West Corporation and Wargaming (Seattle), Inc. (collectively, the Company). The Plan sponsor changed from Wargaming (Austin), Inc. to Wargaming (U.S.A.), Inc. in December 2015. WG Cells, Inc., which was previously called Dropforge Games, Inc., an affiliate under common ownership, was admitted to the Plan in April 2016.

The Plan is a defined contribution plan in which employees of the Company become eligible to participate upon employment and attainment of 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may make pretax salary deferral contributions of up to 90% of their annual compensation, subject to Internal Revenue Code (IRC) limitations. Effective June 1, 2018 the Plan was amended to include a Roth provision. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing transfers from other qualified defined contribution plans. The Company contributes 100% of the first 3% of salary deferrals plus 50% of the next 2% of salary deferrals, not to exceed 5% of eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, Company contribution, and an allocation of the Plan earnings and is charged with an allocation of administrative expenses, if applicable. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the value of his or her vested account.

Vesting

Participants are immediately vested in their own contributions, rollovers, Company matching contributions and Company discretionary qualified non-elective contributions plus actual earnings thereon are permitted, but none were approved or made for the year ended December 31, 2018.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to a maximum of $50,000, or 50% of the vested portion of their account balance, whichever is less. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans, based on the prime rate plus 1% at the date of the loan. Principal and interest are paid ratably through payroll deductions. Repayment occurs over a period not to exceed five years, unless the loan is to acquire any dwelling unit that is or will be the principal residence of the participant, in which case the repayment period may extend to 30 years. Participants can have no more than three loans outstanding at a time.

Benefit Payments

Participants may take withdrawals prior to termination of employment under a hardship withdrawal, rollover contributions or an age of 59 1/2 withdrawal whereby a participant may withdraw all or any portion of his or her account. Upon termination of service due to death, disability, retirement or other reasons, participants may receive the vested balance of their accounts. All amounts are distributed in lump-sum payment. Vested balances less than $5,000 can be distributed from the trust upon proper notification to the participant.

Administrative Expenses

The Plan's administrative expenses are paid by the Plan and expensed as incurred, unless paid by the Company.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in the orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent loans are reclassified as distributions based on the terms of the Plan agreement.

NOTE C - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Net depreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in financial statements and supplemental schedule.

NOTE D - FAIR VALUE MEASUREMENTS

Accounting guidance issued by the Financial Accounting Standards Board establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

However, the determination of what constitutes observable requires judgment by the Plan's management. Plan management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple, independent sources that are actively involved in the relevant market. The categorization of an investment within the fair value hierarchy is based on the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2018 and 2017.

Mutual funds - Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total

NOTE E - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE F - RELATED-PARTY TRANSACTIONS

Certain Plan investments are mutual funds managed by Fidelity, the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE H - TAX STATUS

The Company adopted a non-standardized prototype plan sponsored by Fidelity Management & Research Company. The prototype plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has not requested its own determination letter from the IRS. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC; therefore, the Plan administrator believes that the Plan was qualified and that the related trust was tax-exempt as of December 31, 2018.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

Plan management evaluated its December 31, 2018, financial statements for subsequent events through October 7, 2019, the date the financial statements were available to be issued. Plan management is not aware of any subsequent events that would require recognition or disclosure.
