INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Oncology/Hematology Care, Inc. Defined Benefit Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Oncology/Hematology Care, Inc. Defined Benefit Plan, which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial statements of the Plan as of December 31, 2018 and 2017, and the changes in its financial status for the year then ended December 31, 2018, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2018 and the supplemental schedule of reportable transactions for the year ended December 31, 2018 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. PLAN DESCRIPTION:

The following is a brief description of the Oncology/Hematology Care, Inc. Defined Benefit Plan (the Plan) which was established on January 1, 2017. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a cash balance defined benefit plan providing retirement, disability, and death benefits to all eligible partners and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan sponsor is Oncology/Hematology Care, Inc. (the Company). The Plan includes all employees who were actively employed by the Company on January 1, 2017. Thereafter, employees are eligible to participate in the Plan on January 1 or July 1 after completing one year of service and are 21 years of age.

Floor offset provision

The Company instituted a floor offset provision in the Plan, whereby benefits payable to Plan participants are offset by benefits provided by The US Oncology Clinical 401(k) Plan.

Participant's accounts

Under the Plan provisions, annual employer contributions, as determined each year by an actuary, are credited by the Company to the participants Cash Balance Account based on their group classification as follows:

Group 1: $210,000 plus 3% of compensation
Group 2: $190,000 plus 3% of compensation
Group 3: $150,000 plus 3% of compensation
Group 4: $140,000 plus 3% of compensation
Group 5: $120,000 plus 3% of compensation
Group 6: $100,000 plus 3% of compensation
Group 7: $50,000 plus 3% of compensation
Group 8: $25,000 plus 3% of compensation
Group 9: 3% of compensation

Each participant's accrued benefit shall be reduced by the Company contribution made on behalf of each participant to The US Oncology Clinical 401(k) Plan. However, the reduction shall not be greater than the benefit created by the contribution credits of 3% of compensation for such Plan year. The maximum monthly benefit is the lesser of $17,917 or 100% of the highest thirty-six consecutive months of monthly compensation, subject to service requirements. Salary based contributions credits are applied to current compensation.

Vesting

The vested percentage of your benefit is based on total years of service from date of initial employment. Participants with less than 3 years of service are not vested; participants are 100% vested in their Cash Balance Account after they have completed 3 years of service or have reached the normal retirement age of 65.

Funding policy
The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. Contributions of $1,475,000 were made for the 2018 plan year.

The Company's contributions for 2018 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension benefits
Benefits are determined based on the participant's Cash Balance Account. Plan participants are eligible for their plan benefit after attainment of normal retirement age, total and permanent disability, completion of 10 years of participation or upon termination of employment. A spouse or other named beneficiary of an active or terminated participant is eligible for a benefit upon the participant's death prior to benefit commencement. Benefit payments are made in the form of a lump sum payment equity to the participant's Cash Balance Account, or its actuarial equivalent if payment is made in a form other than a lump sum payment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following is a brief description of the significant accounting policies of the Plan.

Basis of accounting
The financial statements of the Plan have been prepared on the accrual basis.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of benefits
Benefit payments are recorded when paid to participants.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Subsequent events
The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant assumptions underlying the actuarial computations are as follows:

(a) life expectancy of participants – IRS 2018 and 2017 Static Mortality Table with separate tables for annuitants and non-annuitants, as prescribed by Treasury regulation section 1.430(h)(3)-1(b),
(b) retirement age – normal retirement on the first of the month next following the month a participant attains age 65 and accumulates 5 years of participation for the 2018 and 2017 Plan years and
(c) interest crediting rate of 4% in 2018 and 2017.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2019. Had the valuations been performed as of December 31, 2018, there would be no material differences.

A summary of the information relative to the actuarial present value of accumulated plan benefits as of January 1, 2019 and 2018 is presented as follows:

	January 1, 2019	January 1, 2018
Accumulated plan benefits:		
Vested benefits – active participants	$ 3,145,885	1,811,713
Non-vested benefits	25,106	22,208
Total actuarial present value of accumulated plan benefits	$ 3,170,991	1,833,921

The changes in the accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits, beginning of year, January 1, 2018	$ 1,833,921
Increase attributable to:	
Benefits accumulated	1,501,937
Interest	68,194
Plan changes	25,106
Benefits paid	(258,167)
Actuarial present value of accumulated plan benefits as of end of year	$ 3,170,991

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the quoted daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: The carrying value approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018.

	Investments at fair value as of December 31, 2018			
	Fair Value	Level 1	Level 2	Level 3
Money market funds	$ 19,665	19,665	-	-
Mutual funds	2,745,229	2,745,229	-	-
Total investments at fair value	$ 2,764,894	2,764,894	-	-

5. PLAN TERMINATION:

While the Company has not expressed any intent to discontinue its contributions, it is free to do so at any time, subject to penalties set forth by ERISA. In the event such discontinuance results in the termination of the Plan, the Plan provides that the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in order provided for by ERISA, and any amounts remaining after said allocation will be returned to the Company. To the extent unfunded vested benefits exists, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (PBGC) to participants, up to specified limitations, as described in ERISA.

The Company intends to continue the Plan indefinitely for the benefit of the participants but reserves the right to terminate the Plan at any time by resolution of its Board of Directors. In the event the Plan is terminated, Plan assets are distributed to participants in accordance with the Plan agreement.

6. RISKS AND UNCERTAINTIES:

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported

based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. RELATED PARTY TRANSACTIONS:

Certain Plan investments are money market funds managed by Fidelity Investment Company. Fidelity Investment Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party in interest transactions.

8. TAX STATUS OF THE PLAN:

The Plan obtained its latest determination letter dated March 14, 2019, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.
