1. PLAN DESCRIPTION

The following is a brief description of the Speed Motor Express of W.N.Y., Inc. 401(k) Profit Sharing Plan and Trust ("the Plan") provided for general informational purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code ("the Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is funded by employee and employer contributions and covers all employees who have attained 21 years of age and completed at least 1,000 hours of continuous service, as defined. The Plan was adopted on January 1, 1988.

Contributions - Each eligible employee may make pre-tax contributions to the Plan in the form of a 1% to 100% salary reduction, not to exceed certain limits imposed by the Code. The Plan Sponsors can elect to make matching contributions. Matching contributions to the Plan by the Plan Sponsors for the year ended December 31, 2018 were $135,071.

Vesting - Participants are fully vested in the employer safe harbor match at all times. Vesting in Plan Sponsor discretionary profit share, contributions is based on years of continuous service. Participants are fully vested after 6 years of continuous service. Subject to the provisions of the Plan, the Plan Trustees have the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants will be entitled to the amount of their account at the date of such termination.

Participant Accounts - Each participant's account is credited with his or her pre-tax contribution and an allocation of the Plan Sponsors' contributions (if any), Plan earnings and administrative expenses. Allocations of earnings are based on participant account balances.

Participant Loans - Participants may generally borrow up to 50% of their account balance ranging from a minimum of $1,000 to a maximum of $50,000. Loans bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Loans must be repaid in at least quarterly installments over a maximum term of 5 years, except for residential loans in which the term may be longer.

Payment of Benefits - Participants are eligible for retirement benefits at age 65. Benefits are determined by the final value of the participant's account at the time of termination, retirement, or death. Early retirement is permitted at age 60. Distributions from the Plan are made in lump-sum payments and may be deferred until participants attain the age of 70½.

Withdrawals and Distributions - Upon termination of service, including death, disability or retirement, a participant (or beneficiary) will receive a lump-sum distribution equal to the vested interest in his or her account.

Forfeited Accounts - Forfeited nonvested accounts are used to offset plan expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The accompanying financial statements have been presented on the accrual basis of accounting.

Investment Valuation and Income Recognition - Investments in pooled separate accounts are stated at fair value based on quoted market prices of underlying investments provided by the Voya Retirement Insurance and Annuity Company ("VOYA"), the Plan's custodian as of December 31, 2018 and 2017. The fixed annuity contracts are stated at fair value which approximates contract value. The Plan has a fixed annuity contract with VOYA that maintains participant contributions in a general account and pooled separate accounts. These accounts are credited with actual earnings on the underlying investments and are charged with certain administrative expenses of the Plan. Since the agreement or funding agency has the ability to restrict certain transfers and withdrawals, the contract is not considered fully benefit responsive. The investment is included in the financial statements at contract value, which approximates fair value. The average yield and crediting interest rate, was approximately 1% for 2018 and 2017. The crediting interest rate is based on a formula agreed upon with the issuer, and it may not be less than 1% for 2018 and 2017. Such interest rates are reviewed periodically during the year for resetting. Net appreciation in fair value of investments includes net realized gains and losses on investments sold. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Participant Loans Receivable - Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Interest rates on outstanding loans ranged from 4.25% to 6.25% at December 31, 2018.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Costs associated with investment, distribution and other transactions are paid by participants from their individual account balances. Substantially all costs of administering and managing the Plan are paid by the Plan Sponsors. During the year ended December 31, 2018, expenses paid by Speed Motor Express of W.N.Y., Inc. on behalf of the Plan totaled $4,399.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts of net assets at the date of the financial statements and the changes in net assets during the reporting period. Actual results may differ from these estimates.

Subsequent Events - The Plan has evaluated events and transactions that occurred between January 1, 2019 and August 6, 2019, which is the date these financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

3. INVESTMENTS

All of the Plan's assets are managed by The Voya Retirement Insurance and Annuity Company. Participant account allocations among the available investment funds are entirely self-directed. The following assets represent 5% or more of the total net assets of the Plan at December 31:

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Represents inputs to the valuation methodology which consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Represents inputs to the valuation methodology which consist of: 1) quoted market prices for similar assets or liabilities in active markets; 2) quoted market prices for identical or similar assets or liabilities in inactive markets; 3) inputs other than quoted prices that are observable for the asset or liability; and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Represents inputs to the valuation methodology that are unobservable and are significant to the overall fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018.

4. FAIR VALUE MEASUREMENTS *(Continued)*

Pooled Separate Accounts– Valued based on quoted market prices of underlying investments.

The Plan's investments in pooled separate accounts are invested in global and domestic equity and fixed income based investments. The net asset value of these investments is derived from the market value of the underlying investments. The net asset value of the funds are then calculated each day and posted by VOYA. The investment strategies of these accounts is to invest in global and domestic equity and fixed income investments with the goal of producing favorable long-term returns primarily through appreciation of assets, dividends, and interest. There are no restrictions on the number of transactions a participant can conduct. These accounts do not have any unfunded commitments. Fixed Annuity Contract: valued at contract value, which approximates fair value and equals accumulated cash contributions and interest credited to the Plan's contract, less withdrawals and approximates fair value. There are no withdrawal restrictions on the fixed annuity contracts and there are no unfunded commitments relating to these investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Plan's assets at fair value as of:

	Assets at Fair Value as of December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**

	$ -	$ 7,734,512	$ -	$ 7,734,512

5. INCOME TAX STATUS

The Plan obtained a determination letter from the Internal Revenue Service stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and therefore was exempt from taxation under Section 401(a) of the Code.

5. INCOME TAX STATUS *(Continued)*

The Plan has since been amended; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore believe that the plan is qualified and the related trust is tax-exempt. Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

6. RISKS AND UNCERTAINTIES

The Plan invests in multiple investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for plan benefits.

7. PARTY-IN-INTEREST TRANSACTIONS

VOYA is the record keeper and the custodian of the Plan's assets. As such, transactions between VOYA and the Plan qualify as party-in-interest transactions. Additionally, notes receivable from participants qualify as party-in-interest transactions.

8. SUMMARY OF CUSTODIAN INFORMATION
