1. Description of the Plan

The following description of Hidden Eyes, LLC 401(k) Profit Sharing Plan & Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan of Hidden Eyes, LLC (the Company) whose purpose of is to enable eligible employees to save for retirement, as well as providing certain benefits in the event of death, disability or other termination of employment. The Plan was established effective January 1, 2010 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

The Plan covers all employees of Hidden Eyes, LLC (the Company) who have completed three months of service and have attained twenty-one years of age.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's discretionary profit sharing or discretionary matching contribution, employers matching contributions and an allocation of the Plan earnings. Allocations of the Plan earnings are based on participants' account balances.

Contributions

Salary deferral contributions are made to the Plan by participating employees through payroll deductions in amounts authorized by the employees. Participants may contribute up to the limits of the Internal Revenue Service (IRS) of $18,500 of pretax annual compensation for 2018. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. For 2018, the annual catch-up contribution limit was $6,000.

Vesting

Participants are immediately vested in their salary deferral contributions, rollover contributions, and earnings thereon. Participants are vested 100% in employer discretionary profit sharing contributions. Vesting for discretionary matching contributions and earnings thereon are based on years of service, as defined in the Plan, as follows:

Completed Years of Service	Vested Percentage
0-1	0%
2	100%

If, while an employee, the participant dies, becomes disabled, or reaches normal retirement age of 65 before the two year vesting period, the participant's account will be 100% vested.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions and allocate contributions to the investment options available under the Plan. Employer contributions are allocated according to the participant's allocations. The percentage of contributions allocated to each of the investment options is at the discretion of the participant.

Participants may change their investment options at any time online or via telephone, which allows a participant to access their account using a personal identification number.

1. Description of the Plan (Continued)

Administrative Expenses

Fees paid by the Plan for the year ended December 31, 2018 totaled $24,453.

Forfeited Accounts

The forfeitures for the non-vested portion of the Company matching contributions can be used to pay Plan administrative expenses or reduce the Company's matching contributions. For the 2018 Plan year, the Company intends to use the entire ending balance of forfeitures to pay Plan administrative expenses. For the 2017 Plan year, the Company used the entire ending balance of forfeitures to pay Plan administrative expenses. At December 31, 2018 and 2017, forfeited non-vested accounts totaled $1,790 and $4,222, respectively.

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason, other than death or total and permanent disability, prior to satisfying the age and service requirements for normal retirement, the terminated participant may elect, with the consent of his or her spouse, to receive in a lump-sum payment any vested amounts plus the earnings thereon. Employees must work at least 1,000 hours in order to be credited with one year of service for vesting purposes. If the participant's vested account balance is $5,000 or less, the Plan Administrator will direct the Trustee to distribute as a lump-sum payment upon termination.

Hardship Distributions

Hardship distributions are permitted by the Plan at the discretion of the Company for allowable expenditures from participants' pre-tax deferrals. Their deferrals are suspended for six months after receipt of a hardship distribution.

Notes Receivable from Participants

The Plan does allow for loans to be taken out by participants if certain criteria are met. A participant may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Creditworthiness is considered and all loans must be adequately secured, generally by the vested interest in the Plan. A promissory note must be signed along with a loan pledge. Interest rates on outstanding loans from participants as of December 31, 2018 and 2017 range from 4.5% to 6.25% and 4.25% to 5.25%, respectively. Principal and interest are paid through payroll deductions. Loans that are outstanding at the occurrence of a distributable event will become due in their entirety. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. No allowance has been established for uncollectable loans from participants as of December 31, 2018 and 2017. The Plan uses the direct write-off method and declares a deemed distribution in the year in which the participant is in default.

Plan Termination

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan. In the event of Plan termination, the participants will become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

2. Summary of Accounting Policies

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurement

The Company adopted the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices as reported on the last business day of the year. Purchases and sales of investments are recorded on the trade date. Income from investments in units of participation is recorded as earned and reinvested in the accounts. Income earned from investments and gains or losses on disposal of investments are recorded using the accrual method. Dividend income is recognized when earned.

Net Depreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for benefits, the net depreciation in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Financial Instruments Not Measured at Fair Value

The Plan's financial instruments that are not measured at fair value on the recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature include interest bearing cash, participant and employer contributions receivable, and notes receivable from participants.

Benefits Paid to Participants

Benefits are recorded when paid.

3. Financial Information Certified by Mid Atlantic Trust Company

The Plan Administrator has obtained certification from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments.

The following is a summary of the asset information as of December 31, 2018, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator.

		2018
Interest-bearing cash	$	65,456
Mutual funds	$	1,646,013
Notes receivable from participants	$	92,031

The custodian also certified to the completeness and accuracy of net depreciation in fair value of mutual funds of $264,938, dividend income from mutual funds of $158,802, and interest income related to the notes receivable from participants of $3,834 for the year ended December 31, 2018.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair Value Measurements (Continued)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the years ended December 31, 2018 and 2017.

Self-directed brokerage fund and mutual funds: Shares are generally valued at Net Asset Value Per Share (NAVPS) based upon net asset value of underlying portfolio securities and are published on a national exchange valued at the end of each day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets are set forth within the fair value hierarchy at December 31, 2018 as follows:

Description	12/31/2018	Level 1	Level 2	Level 3
Mutual funds	$ 1,646,013	$ 1,646,013	$ -	$ -
Total investments, at fair value	$ 1,646,013	$ 1,646,013	$ -	$ -

5. Tax Status

Effective January 1, 2010, the Plan has adopted a standardized form of a prototype plan. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator and Trustee will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

6. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Subsequent Events

1. Description of the Plan (Continued)

Administrative Expenses

Fees paid by the Plan for the year ended December 31, 2018 totaled $24,453.

Forfeited Accounts

The forfeitures for the non-vested portion of the Company matching contributions can be used to pay Plan administrative expenses or reduce the Company's matching contributions. For the 2018 Plan year, the Company intends to use the entire ending balance of forfeitures to pay Plan administrative expenses. For the 2017 Plan year, the Company used the entire ending balance of forfeitures to pay Plan administrative expenses. At December 31, 2018 and 2017, forfeited non-vested accounts totaled $1,790 and $4,222, respectively.

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason, other than death or total and permanent disability, prior to satisfying the age and service requirements for normal retirement, the terminated participant may elect, with the consent of his or her spouse, to receive in a lump-sum payment any vested amounts plus the earnings thereon. Employees must work at least 1,000 hours in order to be credited with one year of service for vesting purposes. If the participant's vested account balance is $5,000 or less, the Plan Administrator will direct the Trustee to distribute as a lump-sum payment upon termination.

Hardship Distributions

Hardship distributions are permitted by the Plan at the discretion of the Company for allowable expenditures from participants' pre-tax deferrals. Their deferrals are suspended for six months after receipt of a hardship distribution.

Notes Receivable from Participants

The Plan does allow for loans to be taken out by participants if certain criteria are met. A participant may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Creditworthiness is considered and all loans must be adequately secured, generally by the vested interest in the Plan. A promissory note must be signed along with a loan pledge. Interest rates on outstanding loans from participants as of December 31, 2018 and 2017 range from 4.5% to 6.25% and 4.25% to 5.25%, respectively. Principal and interest are paid through payroll deductions. Loans that are outstanding at the occurrence of a distributable event will become due in their entirety. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. No allowance has been established for uncollectable loans from participants as of December 31, 2018 and 2017. The Plan uses the direct write-off method and declares a deemed distribution in the year in which the participant is in default.

Plan Termination

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan. In the event of Plan termination, the participants will become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

2. Summary of Accounting Policies

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurement

The Company adopted the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices as reported on the last business day of the year. Purchases and sales of investments are recorded on the trade date. Income from investments in units of participation is recorded as earned and reinvested in the accounts. Income earned from investments and gains or losses on disposal of investments are recorded using the accrual method. Dividend income is recognized when earned.

Net Depreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for benefits, the net depreciation in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Financial Instruments Not Measured at Fair Value

The Plan's financial instruments that are not measured at fair value on the recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature include interest bearing cash, participant and employer contributions receivable, and notes receivable from participants.

Benefits Paid to Participants

Benefits are recorded when paid.

3. Financial Information Certified by Mid Atlantic Trust Company

The Plan Administrator has obtained certification from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments.

The following is a summary of the asset information as of December 31, 2018, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator.

		2018
Interest-bearing cash	$	65,456
Mutual funds	$	1,646,013
Notes receivable from participants	$	92,031

The custodian also certified to the completeness and accuracy of net depreciation in fair value of mutual funds of $264,938, dividend income from mutual funds of $158,802, and interest income related to the notes receivable from participants of $3,834 for the year ended December 31, 2018.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair Value Measurements (Continued)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the years ended December 31, 2018 and 2017.

Self-directed brokerage fund and mutual funds: Shares are generally valued at Net Asset Value Per Share (NAVPS) based upon net asset value of underlying portfolio securities and are published on a national exchange valued at the end of each day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets are set forth within the fair value hierarchy at December 31, 2018 as follows:

Description	12/31/2018	Level 1	Level 2	Level 3
Mutual funds	$ 1,646,013	$ 1,646,013	$ -	$ -
Total investments, at fair value	$ 1,646,013	$ 1,646,013	$ -	$ -

The Plan's assets are set forth within the fair value hierarchy at December 31, 2017 as follows:

Description	12/31/2017	Level 1	Level 2	Level 3
Mutual funds	$ 1,225,123	$ 1,225,123	$ -	$ -
Total investments, at fair value	$ 1,225,123	$ 1,225,123	$ -	$ -

5. Tax Status

Effective January 1, 2010, the Plan has adopted a standardized form of a prototype plan. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator and Trustee will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

6. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reclassifications

To facilitate comparison of financial data, certain amounts in the 2017 financial statements have been reclassified to conform to the 2018 reporting presentation. Such reclassifications had no effect on the change in net assets previously reported.

9. Subsequent Events

The Plan has evaluated all events subsequent to the statements of net assets available for benefits as of December 31, 2018 through the date that these financial statements were available for issuance, October 7, 2019 and have determined that there are no subsequent events that require disclosure.
