Note 1. Plan Description

The following brief description of the M & R Printing Equipment, Inc. and Subsidiaries Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of M & R Printing Equipment, Inc. and Subsidiaries (the Company) over the age of 20-1/2 years, who have six months of continuous service. Bank of America, N.A., serves as trustee of the Plan. The Plan was most recently amended on April 21, 2017 and had an effective date of January 1, 2017. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Employees may elect to contribute a percentage (not to exceed 80 percent) of their compensation to the Plan on a tax-deferred basis. The Company may make discretionary matching contributions as determined by the board on a year-to-year basis. Discretionary matching contributions amounted to $256,868 for the year ended December 31, 2018. Profit sharing contributions are made at the discretion of the Company and are distributed to those participants actively employed by the Company on the last day of the Plan year based on their compensation, as defined. For the year ended December 31, 2018, there were no discretionary profit sharing contributions.

Rollovers: The Plan accepts rollovers from a qualified retirement plan of a prior employer with approval from the Plan Sponsor. Rollovers amounted to $958,271 for the year ended December 31, 2018.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and receives an allocation of the Company's discretionary contribution and Plan earnings, and is charged with an allocation of administrative expenses and Plan investment losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Employees vest in the Company's matching and profit sharing contributions 20 percent each year starting after two years of service, becoming fully vested after six years of service.

Investment options: Upon enrollment in the Plan, a participant may direct employee and Company contributions in a variety of investment choices. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. Loan terms range from 1 to 5 years or up to a longer reasonable period of time for the purchase of a primary residence. The loans are secured by the balance in the participant's account. All new loans bear interest at the prime rate plus 1.00 percent. At December 31, 2018 and 2017, the interest rates on outstanding loans ranged from 4.25 percent to 8.5 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: Upon retirement, death, disability, or termination of service, participants (or the participants' beneficiaries) may elect to receive either a lump-sum payment or payment in substantially equal installments over a period not to extend beyond the participant's or beneficiary's life expectancy.

Note 1. Plan Description (Continued)

Forfeitures: At December 31, 2018 and 2017, forfeited nonvested accounts approximately totaled $7,400 and $10,600, respectively. Forfeitures are first used to offset administrative expenses of the Plan. Any remaining forfeitures are then used to reduce employer contributions. For the year ended December 31, 2018, approximately $4,900 of non-vested accounts were forfeited and approximately $7,800 of forfeitures were used to reduce employer contributions. In 2018, the forfeiture account appreciated by approximately $100 and decreased due to fees of $400.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and in accordance with the Financial Accounting Standards Codification (ASC).

Investment valuation and income recognition: Investments are reported at fair value (except for shares of common/collective trusts, which are reported using net asset value (NAV) as a practical expedient). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrator determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Recent accounting pronouncements: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurement*, based on the concepts in the FASB Concepts Statement, including the consideration of costs and benefits.

Note 2. Significant Accounting Policies (Continued)

The following disclosure requirements were removed from Topic 820:

1. The amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy.

2. The policy for timing of transfers between levels.

The amendments in this update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The entity is permitted to early adopt any removed or modified disclosures upon issuance of this update and delay adoption of the additional disclosures until their effective date. The Plan adopted this update for the removal, modification, or addition of certain fair value measurements disclosures presented in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 9, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Bank of America, N.A. (Trustee)

The following is a summary of the Plan's asset and income information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2018	2017
Shares of common/collective trust	$ 6,156,840	$ 5,862,182
Shares of registered investment companies	$ 12,229,565	$ 15,713,422
Notes receivable from participants	$ 424,590	$ 374,015
Net depreciation in fair value of investments	$ (1,630,691)	
Dividends and interest	$ 907,313	
Interest income on notes receivable from participants	$ 22,800	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Note 4. Fair Value Measurements (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Shares of common/collective trust: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 12,229,565	$ -	$ -	$ 12,229,565
Total assets in the fair value hierarchy	$ 12,229,565	$ -	$ -	12,229,565
Investments measured at net asset value (a)				6,156,840
Investments at fair value				$ 18,386,405

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 15,713,422	$ -	$ -	$ 15,713,422
Total assets in the fair value hierarchy	$ 15,713,422	$ -	$ -	15,713,422
Investments measured at net asset value (a)				5,862,182
Investments at fair value				$ 21,575,604

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2018 and 2017:

	Fair Value		Unfunded Commitment		Redemption	Redemption
Investment	2018	2017	2018	2017	Frequency	Notice Period
Shares of common/collective trust	$ 6,156,840	$ 5,862,182	$ -	$ -	Daily	12 months

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in the employer contribution portion of their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Company may determine.

Note 6. Related-Party Transactions

Certain Plan investments are managed by Bank of America, N.A. and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to Bank of America, N.A. were $5,679 for the year ended December 31, 2018.

Certain employees of the Company provide administrative services to the Plan. These employees do not receive any compensation from the Plan for their services. Certain other administrative fees are paid by the Company.

Note 7. Tax Status

The Plan is operating under a nonstandardized adoption agreement for which the prototype was issued an opinion letter dated March 31, 2014, by the Internal Revenue Service, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended and restated since receiving the opinion letter and the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits at December 31, 2018.

Note 9. Reconciliation of Financial Statements to Form 5500
