1. Description of Plan

The following description of the AFSI Employee Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Advanced Filtration Systems, Inc. (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may elect to defer a portion of their compensation as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The maximum contribution to the Plan in any year is determined by provisions in the Plan and the Internal Revenue Code (IRC) and Income Tax Regulations. Participants direct the investment of these contributions into various investment options offered by the Plan. As of December 31, 2018, the Plan offered mutual funds and a common collective trust as investment options for participants.

The Company makes safe harbor matching contributions equal to 100 percent of the employee's salary deferral amounts, up to five percent of employee's compensation. The Company may also make an additional matching or profit-sharing contribution at the discretion of the Company's management. For the year ended December 31, 2018, the Company did not elect to make an additional matching or profit sharing contribution.

Participant Accounts – Each participant's account is credited with the participant's contribution, if any, and allocations of (a) the Company's contribution, (b) administrative expenses, and (c) Plan earnings, net of investment fees. Allocations are based on the participant earnings, account balances, or other participant events, as defined.

Vesting – Participants are vested immediately in all contributions plus actual earnings thereon.

Payment of Benefits – On termination of service, for any reason, an employee will receive a lump-sum amount equal to the value of the participant's account. The Plan provides for an automatic lump-sum distribution of account balances of $5,000 or less. The Plan also allows for financial hardship withdrawals of all or part of the participant's deferral contributions, if the participant can prove financial hardship and is unable to meet their financial needs another way. The Plan allows for in-service distributions from the participant's elective deferrals if the participant has attained age 59 ½ and allows for in-service distributions from Company contributions if the participant is age 65 or older.

Notes Receivable from Participants – The plan document includes provisions authorizing loans from the Plan to active eligible participants. The participant can only have one outstanding loan at a time. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance, restricted to the lesser of $50,000 or 50 percent of the participant's contributed account balance. All loans are secured by the balance in the participant's account and are

repayable over a period not to exceed five years (except for loans for the purchase of principal residence, which is a longer term determined by the plan administrator) through payroll withholdings unless the participant is paying the loan in full.

Forfeited Accounts – Forfeited amounts, if any, are used to pay plan expenses or reduce employer contributions.

2. Summary of Significant Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans that are fully collateralized, but deemed as distributions under Form 5500 reporting rules, are carried on the Plan's books until a distributable event occurs based upon the terms of the plan document at which time the loan is treated as a distribution.

Investment Fees – Certain fees are charged to the Plan for services provided to the Plan. When applicable, these fees and fees charged by mutual funds are netted with investment earnings.

Payment of Benefits – Benefits are recorded when paid for financial statement purposes.

Subsequent Events – The Plan has evaluated subsequent events through June 27, 2019, the date on which the financial statements were available to be issued.

3. Information Certified by the Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, no auditing procedures were performed on the following information certified by the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule:

	2018	2017
Investments, at Fair Value	$ 14,803,054	$ 15,303,958
Net Appreciation (Depreciation) in Value of Investments	$ (2,018,250)	
Interest and Dividends	$ 817,969	

4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 establishes a framework for measuring fair value under generally accepted accounting principles. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

FASB issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement* in August 2018 to remove and modify disclosure requirements on fair value measurements. The ASU has no impact on the Statements of Net Assets Available for Benefits or the Statement of Changes in Net Assets Available for Benefits. These amendments are effective for all entities for fiscal years beginning after December 15, 2019. Entities are permitted to early-adopt any removed or modified disclosures upon issuance of this ASU. As the ASU improves disclosure effectiveness, the Plan has elected to early-adopt ASU 2018-13.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2018.

The following is a description of the valuation methodologies used for assets measured at fair value.

- *Mutual Funds:* Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Several of the Plan's mutual funds have market timing and trading restrictions such as hold-out periods, blocks, roundtrip restrictions and other exchange provisions.

- *Common Collective Trust (CCT):* A collective investment trust that invests in a variety of investment contracts and security backed contracts. The fund is designed to enable participants to transact at contract value rather than the market value of the securities that back the contracts. Withdrawals resulting from an employer or plan sponsor-initiated event (e.g. a decision to terminate the Plan's participation in the trust) could result in a payment less than the guaranteed value if the contract's market value is less than the guaranteed value. An event limiting the ability of plan participants to transact at contract value is not considered probable of occurring.

  Management has determined the CCT qualifies for the net asset value practical expedient under FASB ASC 820, and, as such, the CCT is not categorized in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Assets Included in the Fair Value Hierarchy:				
Mutual Funds	$ 14,484,700	$ -	$ -	$ 14,484,700
Assets Measured at Net Asset Value per FASB ASC 820 Practical Expedient:				
Commen Collective Trust - Galliard/Wells Fargo Stable Return Fund				318,354
Investments at Fair Value				$ 14,803,054

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Assets Included in the Fair Value Hierarchy:				
Mutual Funds	$ 15,054,950	$ -	$ -	$ 15,054,950
Assets Measured at Net Asset Value per FASB ASC 820 Practical Expedient:				
Commen Collective Trust - Galliard/Wells Fargo Stable Return Fund				249,008
Investments at Fair Value				$ 15,303,958

There are no unfunded commitments, or significant redemptions or restrictions on the investment measured at net asset value per share using the practical expedient as of December 31, 2018 and 2017.

5. Administrative Expenses and Party-In-Interest Transactions

A transaction with a plan service provider or a participant of the Plan qualifies as a party-in-interest transaction. Fees, either directly or indirectly, are paid to the investment custodian, third party administrator, investment advisor, and record keeper, who are parties-in-interest to the Plan. Of these fees, $30,541 is included in administrative expenses on Exhibit B. Other investment fees are netted with investment earnings. Certain expenses incurred in the administration of the Plan were also paid by the plan sponsor.

Notes receivable from participants are considered to be both party-in-interest and related-party transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

On July 16, 2014, the Internal Revenue Service stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC. Although the Plan has been amended since receiving this opinion letter, the plan administrator and the prototype plan provider believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Schedule H of Form 5500:
