NOTE 1 — DESCRIPTION OF THE PLAN

The following description of the Lifetime Solutions, Inc. 401(K) P/S Plan (the "Plan") provides only general Information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering substantially all employees (the "Participants") of Lifetime Solutions, Inc. (the "Company" and "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The executive management of the Company controls and manages the operation and administration of the Plan. AXA Equitable Life Insurance Company ("AXA") serves as the custodian of the Plan's assets. AXA also provides recordkeeping, employee benefits administration, and investment accounting services.

All employees, except members of a collective bargaining unit and leased employees are eligible to participate in the Plan. To be eligible, an employee must have completed six months of service and be 18 years of age or older. The Plan permits monthly entry dates after an employee has met the eligibility requirements.

Employee Contributions – Each year, participants may contribute up to the maximum amount limited by the Internal Revenue Service ("IRS"). For the year ended December 31, 2018, employees can defer up to $18,500 (this amount will increase to $19,000 for the year ending December 31, 2019). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Employees may elect to make "after-tax" contributions to the plan. Such contributions totaled $0 during the year ended December 31, 2018.

Participants who are age 50 or older may make catch-up contributions to the Plan up to the maximum amount limited by the IRS. For the year ended December 31, 2018, this additional catch-up contribution is $6,000 (this amount will remain $6,000 for the year ending December 31, 2018).

The Plan features an automatic enrollment provision which automatically enrolls all eligible employees and allocates 3% of each employee's eligible compensation as a pre-tax contribution to the plan. These contributions are invested by the Plan into a qualified default investment alternative consisting of various target date retirement funds corresponding with the date of birth of each employee. Employees have the right to change their contribution percentage or change their investment allocation election at any time.

Employer Contributions – For the year ended December 31, 2018, the Plan Sponsors did not provide any matching contributions.

Participants Accounts – Each Participant's account is increased or decreased by the Participant's contributions and distributions and allocations of Plan earnings, losses and administrative expenses. Allocations are based on Participant earnings or account balances, as defined in the Plan agreement. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

NOTE 1 — DESCRIPTION OF THE PLAN — (CONTINUED)

Vesting – Participants are immediately vested in their elective contributions, safe harbor non-elective contributions and earnings thereon. In order to be eligible for employer matching and discretionary contributions, participants must have completed at least 1,000 hours of employment during the calendar year and be employed as of the last day of the year. Employees will vest ratably in employer matching and discretionary contributions ratably over a period of six (6) years. There were no forfeitures during the year-ended December 31, 2018.

Investment Options – Participants direct the investment of all contributions into the various investment options that are offered by the Plan. The Plan currently offers approximately eighteen (18) pooled separate accounts representing variable investment options in a subaccount held in the name of AXA. The shares of the subaccounts are invested in various mutual funds that are purchased at the direction of Participants through salary deferral and rollovers, Company matching contributions, and investment income reinvestments. Additionally, shares of the funds are sold whenever a participant withdraws from the Plan, transfers account balances among the funds, or borrows money from the Plan. The Plan also offers one guaranteed interest option account which represents funds held in the general account of AXA and pays a fixed rate of return. Account balances of principal do not fluctuate except for the participant transfers into or out of this account and the earnings of interest, net of fund expenses.

Participants' Loans – Participants may borrow from their fund accounts in an amount not to exceed the lesser of $50,000 or 50% of the vested amount. Loan terms are up to 5 years or a reasonable time would be determined if the loan is for the main purpose of the purchase of the principal residence of the participant. The loans are secured by the balance in the participants' accounts and bear interest at Prime rate plus one percent. A participant may only have up to two loans outstanding with the Plan. The current loans bear interest between 4.25% - 5.25% and mature at various dates through year 2046. Principal and interest are paid through payroll deduction. Additionally, participants who apply for loans are charged a one-time, $125 set-up fee. Total loan fees were $1,375 during the year ended December 31, 2018.

Loans are segregated investments and to the extent a participant borrows, their account will not share in the earnings and gains in value attributable to other investments. The interest that participants pay on their loans will be directly credited to their account. If any losses are realized or expense incurred in the event of default, such losses and expense shall be allocated only to the participant's accounts. Unpaid principal balances on loans will be deemed a distribution if the participant terminates employment. Participant loans are classified as notes receivable from participants in the Plan's financial statements.

Payment of Benefits – A Participant may withdraw funds from the Plan upon the occurrence of certain events including, but not limited to, retirement, death, disability or termination of employment. Upon termination of employment, if a participant's vested account balance is less than $1,000, a lump sum payment will be made within a reasonable time if the Participant has not already elected to receive a lump sum distribution or direct rollover. If the value exceeds $5,000, the funds will remain in the Plan until a written request for distribution is submitted by the Participant. For vested account balances between $1,000 and $5,000, unless a written request is submitted by the Participant, amounts will be automatically rolled over into an individual retirement account selected by the plan administrator for the benefit of the Participant.

Hardship distribution is permitted; however, the Participant is suspended from contributing to the Plan for the succeeding six months. Participants are charged a $25 fee for a terminating distribution. Total hardship distributions were $28,463 during the year ended December 31, 2018.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Contributions by participants are recognized in the period the participants' wages are earned, but withdrawals from the Plan for participant distributions are recognized when the amounts are paid to the participant, except for cases where refunds are due to the participants in order for the Plan to conform to Internal Revenue Code ("IRC") provisions. Plan expenses are recorded when incurred.

Use of Estimates – The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Participant loans included under investments are recorded at cost plus accrued interest.

Purchases and sales of the shares are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends from the mutual funds are recorded when reported by the registered investment companies. Security transactions are accounted for on the date securities are purchased or sold (trade date). Net realized and unrealized gains and losses are recorded in the accompanying financial statements as net appreciation / depreciation in fair value of investments. Contributions are invested on payroll dates and accrued if applicable.

Notes Receivable from Participants – Notes receivable from participants represent loans that are recorded at their unpaid principal balance plus accrued but unpaid interest. Related fees are recorded as administrative expense and are expensed when they are incurred. No allowance for credit losses have been recorded as of December 31, 2018 and 2017. Delinquent participant loans are classified as distributions based on the terms of the plan agreement.

Excess Contribution Payable – Amounts payable to participants totaled $10,793 and $0 at December 31, 2018 and 2017. Contributions in excess of amounts allowed by the IRS are recorded as liabilities, with a corresponding reduction to the respective year's contribution. The Plan distributed the 2018 excess contributions prior to March 15 of the succeeding year.

Plan Administrator Costs – The Plan Sponsor absorbs a portion of administration costs related to the Plan. Administrative expenses and fund fees incurred by the Plan for the year ended December 31, 2018 totaled $7,537.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Related Party Transactions – Certain Plan investments are held in shares of pooled separate accounts in which AXA Life Insurance Company is the asset holder. These transactions qualify as party-in-interest transactions.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsors have the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become fully vested in their accounts.

Subsequent Events – Subsequent events have been evaluated through October 8, 2019, the date the financial statements were available to be issued.

NOTE 3 — TAX STATUS

The Plan, as amended, has not requested a determination letter from the IRS stating that the Plan is in compliance with the applicable requirements of the IRC. However, the prototype non-standardized plan agreement on which the Plan is designed has obtained an opinion letter from the Internal Revenue Service stating that the prototype non-standardized plan is in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt as of the financial statement date. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 5 — FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

- Level 2: Inputs to the valuation methodology include (a) Quoted prices for similar assets or liabilities in active markets; (b) Quoted prices for identical or similar assets or liabilities in inactive markets; (c) Inputs other than quoted prices that are observable for the asset or liability; or (d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled Separate Accounts / Variable Investment Option accounts: All investment and receivable assets of each variable investment option of the account are classified as Level 1. The variable investment is a subaccount of an AXA Equitable Separate Account. A Separate Account may invest in open-ended mutual funds, available to contract holders of group or individual variable annuity or insurance policies. Contract holders may, without restriction, transact at the daily Net Unit Values ("NUV's") which represents the Net Asset Value(s) (''NAV'') of the underlying mutual fund less daily charges. The NAV represents the daily per share value of the portfolio of investments of the mutual funds, at which sufficient volumes of transactions occur.

NOTE 5 — FAIR VALUE MEASUREMENTS – (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Fair Value Measurements Using Level 1 Values	
	2018	2017
Pooled separate accounts	$ 996,421	$ 1,110,823

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the year ended December 31, 2018. The nature, risks and investment objectives of the level 2 and 3 investment categories described above, for which fair value is estimated at NAV, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. As of December 31, 2018, there were no unfunded commitments associated with any of these investments.

NOTE 6 — FULLY BENEFIT RESPONSIVE INVESTMENT CONTACT

The Plan allows participants to direct their contributions to the investment, Guaranteed Interest Option, which is a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The traditional investment contract held by the Plan is a group annuity contract with the AXA. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1.0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date. The current crediting rate is 1.75%.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also limit the ability of the Plan to transact at contract value with the participants.

At December 31, 2018, participants did not direct any of their account balances to this Guaranteed Interest Option account.

NOTE 7 — PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

The Plan invests in pooled separate accounts managed by AXA. AXA acts as custodian for only those investments as defined by the Plan. Transactions in such investments and notes receivable from participants qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.
