Adena Tax Deferred Annuity/Match Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description

The following description of Adena Tax Deferred Annuity/Match Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a contributory defined contribution plan established on January 1, 1998 and restated as of March 1, 2010 covering all eligible employees of the Plan's sponsor, Adena Health System (the "Hospital"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee salary contributions subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Contributions to the Plan are invested as directed by participants in any one or more investment alternatives.

Participant Accounts

The Variable Annuity Life Insurance Company (VALIC) and AIG Federal Savings Bank (AIG) (collectively, the "Trustees") maintain individual accounts for each participant for the deposit of contributions and earnings thereon. Earnings and plan expenses on plan assets are distributed based upon the participant's pro rata share of the total account balances.

Participant Notes Receivable

Participants may borrow a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their account balance, whichever is less, as prescribed in the Plan and the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Plan Loans

Participants may borrow a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their account balance, whichever is less, from The Variable Annuity Life Insurance Company (VALIC), a trustee of the Plan, using invested funds as collateral for the loan. VALIC transfers an amount equal to the original principal of the loan into a loan collateral account and amounts equal to the first quarter of interest due and potential surrender charges into a loan escrow account. The loan collateral account and the loan escrow account are invested in the VALIC Fixed Account Plus investment option. The participant's account is not reduced; collateral is released to the participant-controlled investments as loan payments are made. Loans bear interest at market rates. The amount of these outstanding loans was \$862,024 and \$997,724 at December 31, 2018 and 2017, respectively. At December 31, 2018 and 2017, \$704,954 and \$861,071, respectively, of these loan balances were in default.

Vesting

An employee eligible to participate in the Plan is immediately vested in his or her contributions.

Benefit Payments

Upon termination of employment, a participant, or in case of death, the beneficiary or surviving spouse, may elect to receive the participant's account balance in a single lump sum or in various installment annuities.

Termination

While it has not expressed any intent to do so, the Hospital has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

December 31, 2018 and 2017

Note 1 - Plan Description (Continued)

Administration

The Hospital is the sponsor of the Plan. The pension committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. VALIC and AIG function as the trustees and investment managers. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Party-in-interest Transactions

Certain plan assets are investment funds managed by VALIC, AIG, or their affiliates. VALIC and AIG are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value, except the fully benefit-responsive unallocated contracts valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. See Note 5 for additional information.

Variable separate accounts are valued at net asset value per share or its equivalent, based on the fair value of the funds' underlying assets. All other investments are valued based on quoted market prices reported in active markets. See Note 6 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses, including audit fees, are paid by the Hospital.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 12, 2019, which is the date the financial statements were available to be issued.

December 31, 2018 and 2017

Note 3 - Unaudited Information

The Variable Annuity Life Insurance Company and AIG Federal Savings Bank (collectively, the "Trustees") hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustees.

Note 4 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 - Unallocated Insurance Contracts

The Plan has benefit-responsive insurance contracts with VALIC, a subsidiary of AIG. VALIC maintains these contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuers or otherwise.

The crediting interest rate for the VALIC Fixed Interest and VALIC Fixed Account Plus contracts is based on a formula agreed upon with the contract issuers, but may not be less than 3 percent for participant accounts set up before December 1, 2003 and 2 percent for participant accounts set up on or after December 1, 2003. The minimum crediting rate for the VALIC Short Term Fixed Account is 1 percent. Crediting interest rates are reviewed on a periodic basis for resetting. When establishing interest crediting rates for this product, VALIC considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is not probable. There are no events that allow the issuer to terminate the contracts and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because the contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the insurance contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

December 31, 2018 and 2017

Note 6 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2018 and 2017.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
