Independent Auditor's Report

To the Plan Administrator
The Chart Pension Plan
Ball Ground, Georgia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Chart Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Massachusetts Mutual Life Insurance Company ("MassMutual"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that MassMutual holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from MassMutual as of and for the years ended December 31, 2018 and 2017, that the information provided to the plan administrator by MassMutual is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2018 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by MassMutual, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The Chart Pension Plan

Notes to Financial Statements

1. Description of the Plan

The following description of The Chart Pension Plan (the "Plan"), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan and is subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan provides for pension and postretirement death benefits for hourly employees of the former Chart Heat Exchangers Limited Partnership (formerly ALTEC International Limited Partnership) ("Heat Exchangers"), which is today, the LaCrosse, WI operation of Chart Energy & Chemicals, Inc., a wholly owned subsidiary of Chart Industries, Inc. (the "Company"). On March 31, 1998, the Plan was frozen and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date. The Plan is sponsored by the Company.

In addition, the Plan incorporates the provisions of the following merged plans: Greenville Tube Corporation Pension Plan for Salaried Employees ("GTC Pension Plan"); Chart, Inc. Retirement Income Plan ("RIP Pension Plan"); and Chart, Inc. Service Related Pension Plan ("SRPP Pension Plan").

Greenville Tube, LLC, a wholly-owned subsidiary of the Company, provided for retirement, death, and disability benefits for substantially all employees of the Greenville, Pennsylvania and Clarksville, Arkansas facilities. On July 31, 2003, the GTC Pension Plan was frozen and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date.

The RIP Pension Plan covered eligible executive, managerial, office, technical, administrative, professional, clerical, and sales employees at Chart Inc.'s former Burnsville, Minnesota and New Prague, Minnesota facilities who completed 1,000 hours of service during a twelve-month period. Chart Inc. is a wholly-owned subsidiary of the Company. Effective December 31, 2004, the RIP Pension Plan was frozen and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date.

The SRPP Pension Plan covered substantially all hourly employees at Chart Inc.'s former Burnsville, Minnesota and New Prague, Minnesota facilities, and provided for retirement, death, and disability benefits. Effective February 28, 2006, the SRPP Pension Plan was frozen and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company's contribution for 2018 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

The Chart Pension Plan

Notes to Financial Statements

Plan Benefits

Participants are entitled to a monthly benefit based on their participation in the merged plans prior to the respective plan merger:

The Chart Pension Plan (formerly Chart Heat Exchangers Pension Plan)

Participants are entitled to a monthly benefit based on years of past benefit service multiplied by the applicable benefit rate. Participants who retire with 15 or more years of benefit service are also entitled to a monthly retirement supplement. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement date.

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after the completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a participant, the surviving eligible spouse is entitled to 50 percent of the accrued benefit that would have been payable to the participant.

Greenville Tube Corporation Pension Plan for Salaried Employees

Salaried participants are entitled to a monthly benefit based on the sum of (1) 1.25 percent of the participant's average compensation multiplied by the participant's total years of credited service, and (2) 0.6 percent of the participant's average compensation in excess of one-twelfth of covered compensation multiplied by the participant's total years of credited service after January 1, 1999, up to a maximum of 35 years. Hourly participants are entitled to a monthly benefit based on the sum of (1) four dollars multiplied by years of credited service as of December 31, 1988, and (2) 1.25 percent of the participant's average compensation multiplied by the participant's total years of credited service after January 1, 1989, plus 0.6 percent of the participant's average compensation in excess of one-twelfth of covered compensation multiplied by the participant's total years of credited service after January 1, 1999, up to a maximum of 35 years. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement age.

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a participant, the surviving eligible spouse is entitled to 100 percent of the accrued benefit that would have been payable to the participant under the joint and full survivor annuity, unless the participant elected otherwise.

Chart, Inc. Retirement Income Plan

Participants are entitled to a monthly benefit based on the sum of (1) 1 percent of the participant's average compensation multiplied by the total years of credited service, and (2) the excess, if any, of (a) over (b), where (a) equals 0.5 percent of the participant's average compensation multiplied by credited service, and (b) equals 1.5 percent of the primary social security benefit multiplied by credited service, up to a maximum of 50 percent of the primary social security benefit. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement date.

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a

The Chart Pension Plan

Notes to Financial Statements

participant, the surviving eligible spouse is entitled to 50 percent of the accrued benefit that would have been payable to the participant under the joint and one-half survivor annuity, unless the participant elected otherwise.

Chart, Inc. Service Related Pension Plan

Participants are entitled to a monthly benefit based on years of past benefit service multiplied by the applicable benefit rate, up to a maximum of 40 years of credited service. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement date.

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a participant, the surviving eligible spouse is entitled to 50 percent of the accrued benefit that would have been payable to the participant under the joint and one-half survivor annuity, unless the participant elected otherwise.

In addition, for all merged plans, benefits are paid to participants without an eligible spouse in the form of a life-only pension, unless a different payment option has been elected. Participants have the option of electing to have benefits paid in the form of a life annuity with ten years certain or a joint and 100 percent, 66⅔ percent, or 50 percent survivor annuity.

Plan Termination

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note 5 for discussion of fair value measurements.

The Chart Pension Plan

Notes to Financial Statements

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net (depreciation)/appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded upon distribution.

Administrative Expenses

Substantially all Plan expenses were paid by the Plan. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation/depreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions for service rendered by the employees through the date the respective plan was frozen (see Notes 1 and 3). Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered through the date the respective plan was frozen.

3. Actuarial Present Value of Accumulated Plan Benefit Obligations

Consulting actuaries from MassMutual estimated the actuarial present value of accumulated plan benefits at December 31, 2017, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information at the beginning of the Plan year is as follows:

<i>December 31,</i>	<i>2017</i>
Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 21,118,874
Participants entitled to deferred benefits	9,264,394
Other participants	8,709,578
Total vested benefits	39,092,846
Non-vested benefits	40,678
Total accumulated plan benefits	\$ 39,133,524

The Chart Pension Plan

Notes to Financial Statements

The changes in accumulated plan benefits were as follows:

<i>Year Ended December 31,</i>	<i>2017</i>
Actuarial present value of accumulated plan benefits, beginning of year	\$ 38,729,227
Increase (decrease) during the year attributed to:	
Passage of time increase	2,727,228
Benefits paid	(2,224,587)
Other	(98,344)
Total increase	404,297
Actuarial present value of accumulated benefits, end of year	\$ 39,133,524

The more significant assumptions underlying the actuarial computations are as follows:

Factor	Assumption
Interest rate	2017 - 7.25%
Actuarial cost method	Unit Credit
Retirement age	80 percent of participants are assumed to retire at age 62, the remainder retire at normal retirement age or age on the valuation date, if greater, for former Heat Exchangers Pension Plan participants; age 65 for the former GTC Pension Plan participants; the earlier of normal retirement age or age plus service equal to 98 (not earlier than age 55) for former RIP participants; age 62 for the former SRPP Pension Plan participants.
Mortality basis	2017 - RP-2014 Blue Collar Table with MP-2017 scale except for RIP which uses No Collar. As required by the IRS, the mortality assumption has been changed for the prescribed 2017 tables to the prescribed tables for use in 2018.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2018. Had the valuation been performed as of December 31, there would be no material differences.

4. Plan Termination

The Employer reserves the right to discontinue contributions under the Plan and to terminate the Plan in whole or in part with respect to a specific group of Employees. In the event of full or partial termination, Employees affected thereby shall have a nonforfeitable right to their Accrued Benefits, to the extent funded. The Administrator, upon termination, shall cause the assets of the Plan to be allocated for the purposes set forth, and in the order of priorities established by Section 4044 of ERISA. Any residual assets remaining thereafter shall be returned to the Employer. The Employer shall not be liable to Participants for benefits other than those which can be provided by the Plan's assets.

The Chart Pension Plan

Notes to Financial Statements

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled Separate Accounts - Stated at fair value as determined by the issuer of the pooled separate accounts based on the net asset value ("NAV") of the underlying investments. The NAV, as provided by Mass Mutual, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the funds will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts, the investment adviser reserves the right to temporarily delay withdrawal from the funds in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no restrictions on redemptions from the pooled separate accounts, and there are no unfunded commitments as of December 31, 2018.

The Chart Pension Plan

Notes to Financial Statements

There have been no changes in the methodologies used at December 31, 2018 and 2017.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

Investment	Fair Value		Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

(k) World Bond	2,930,031	2,893,140	n/a	Daily	n/a
Investments measured at net asset value	\$ 42,610,271	\$ 45,605,822			

(a) The investment seeks capital appreciation.

(b) The investment seeks long-term capital appreciation. The fund invests primarily in a diversified portfolio of common stocks of non-U.S. companies.

(c) The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth.

(d) The investment seeks to maximize current income; and capital appreciation is a secondary objective.

(e) The investment seeks a high and stable rate of current income, consistent with long-term preservation of capital.

(f) The investment seeks to approximate as closely as practicable (before fees and expenses) the capitalization-weighted total rate of return of that portion of the U.S. market for publicly traded common stocks composed of larger-capitalized companies.

(g) The investment seeks long-term capital growth.

(h) The investment seeks current income, growth of capital and conservation of principal.

(i) The investment seeks total return before fees and expenses that corresponds to the total return of the Standard & Poor's (S&P) MidCap 400® Index.

(j) The investment seeks long-term appreciation consistent with reasonable risk to principal.

(k) The investment seeks current income with capital appreciation and growth of income.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

6. Information Certified by MassMutual

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MassMutual has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate for the years ended December 31, 2018 and 2017.

<i>December 31,</i>	2018	2017
Pooled separate accounts	\$ 42,610,271	\$ 45,605,822
Guaranteed interest account, at contract value	\$ 216,866	\$ 2,901,408

<i>Year ended December 31,</i>	2018	2017
Net appreciation (depreciation) in fair value of investments	\$ (2,998,710)	\$ 6,974,697
Interest income from guaranteed interest account	\$ 27,377	\$ 25,250

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

7. Investment Contract with MassMutual

The Plan has a guaranteed interest account ("GIA") contract with MassMutual, which is a fully benefit-responsive stable value investment with a guaranteed rate of return and principal that is backed by MassMutual. The account is credited with 100 percent of employer contributions to the Plan that are then allocated between the pooled separate accounts and the GIA. The account is charged for benefits paid to participants and administrative expenses. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The guaranteed interest rate is established on a semi-annual basis for deposits received during a specified period and an annual minimum interest rate was also established to remain in effect for each year of the agreement.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but may not be limited to, the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Notes to Financial Statements

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Income Tax Status

The Plan obtained its latest determination letter on August 12, 2011, in which the IRS states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Related Party and Party-in-Interest Transactions

Certain Plan investments were managed by MassMutual. MassMutual is the record keeper as defined by the Plan and, therefore, transactions therewith qualify as party-in-interest transactions. Fees paid by the Plan to MassMutual amounted to \$95,450 and \$119,200 for the years ended December 31, 2018 and 2017, respectively.

11. Subsequent Events

The Plan has evaluated subsequent events through October 10, 2019, the date which the financial statements were available to be issued, and there are no other events which would require recognition or disclosure in the financial statements.

Expenses:	Based on previous year's, adjusted to the current year's PBGC.

Schedule SB, Part V - Statement of Actuarial Assumptions & Methods

Actuarial Cost Method

The Target Normal Cost is equal to the present value as of the valuation date of the increase in the accrued benefit arising from the service increase in the current plan year plus administrative expenses expected to be paid out of plan assets. The Funding Target as of the valuation date is the present value of the accrued benefit as of the valuation date.

Asset Valuation Method

The Actuarial Value of Assets is determined using a 3-year averaging method described in IRS Notice 2009-22.

Schedule SB, Part V - Summary of Plan Provisions

Summary

Plan: Chart Pension Plan

Employer Identification Number/Plan Number: 34-1712937 / 005

Effective Date: January 3, 1986 (restated December 31, 2007)

Plan Year: January 1 – December 31

Employer: Chart Industries, Inc.

Employee: Any person who is a common law employee of the Employer.

Participant: Any Employee or former Employee who is eligible to participate in the Plan. Participants who were participants in the Chart Heat Exchangers Pension Plan shall be referred to as Heat Exchangers Participants; Participants who were participants in the Greenville Tube Coporation Pension Plan for Salaried Employees shall be referred to as Greenville Participants; Participants who were participants in the Chart Retirement Income Plan shall be referred to as Retirement Plan Participants; and Participants who were participants in the Chart, Inc. Service Related Pension Plan shall be referred to as Service Plan Participants.

Participation: Eligible Employees of Heat Exchangers, Greenville and Service Plan will enter the plan as of their date of hire. Eligible Employees of the Retirement Plan will enter the plan on the first day of the month following completion of 1,000 or more hours of service during a twelve-month period. There shall be no new entrants to the Plan as of March 31, 1998 for Heat Exchangers Participants, as of July 31, 2003 for Greenville Participants, as of December 31, 2004 for Retirement Plan Participants and as of March 1, 2006 for Service Plan Participants.

Credited Service:

For Heat Exchangers, 1/10th of a year of Credited Service for each 170 Hours of Service worked as and Hourly Employee, not to exceed one year of Credit Service in any Plan Year. Credit Service is frozen as of March 31, 1998.

For Greenville, is based on Participant's Period of Service and shall be expressed as full years and completed months. A Participant shall be credited with a full calendar month for each calendar month in which 160 Hours of Service are worked. Credited Service shall not include any Period of Service prior to January 1, 1974, and is frozen as of July 31, 2003.

For Retirement Plan, is based on Participant's Period of Service and shall be expressed as full years and completed months. A Participant shall be credited with a full calendar month if their employment commences during the first 15 days of such month, or if they terminate employment after the 15th day of the month. Credited Service shall not include any Period of Service prior to March 1, 1975, and is frozen as of December 31, 2004.

For Service Plan, is based on the number of Hours of Service credited to each Participant. A Participant shall be credited with 1 year of Credited Service if he is credited with 1,800 Hours of Service in a calendar year (up to a maximum of 40 years). Fractional years of Credited Service shall be credited to a Service Plan Participant who works at least 1,000 Hours of Service in such calendar year, but does not work 1,800 Hours of Service. Fractional years of Credited Service shall be calculated by dividing Hours of Service by 1,800. Credited Service shall not include any Period of Service prior to March 1, 1975, and is frozen as of February 28, 2006.

Schedule SB, Part V - Summary of Plan Provisions

Vesting Service:

For Heat Exchangers, Retirement Plan and Service Plan, is based on a Participant's Period of Service and shall be expressed as full years and completed months. A Participant shall be credited with a full calendar month of a Period of Service if their employment commences during the first 15 days of such month, or if they terminate employment after the 15th day of the month.

For Greenville, is based on the number of Hours of Service credited to a Participant. A participant shall be credited with 1 year of Vesting Service is they are credited with 1,000 Hours of Service in a Plan Year.

Average Compensation:

For Greenville, compensation averaged over the 60 highest paid consecutive months out of the last 120 months that produces the highest average as of the earlier of the participant's date of termination or July 31, 2003.

For Retirement Plan, compensation averaged over the 5 highest paid consecutive calendar years out of the last 15 calendar years that produces the highest average.

Normal Retirement Date:

For Heat Exchangers and Greenville, the first day of the month coincident with or next following a Participant's 65th birthday.

For Retirement Plan and Service Plan, the first day of the month coincident with or next following the later of a Participant's attainment of age 65 or 5 years of Vesting Service.

Early Retirement Date:

For Heat Exchangers, Retirement Plan and Service Plan, the first day of any month which is coincident with or next following the date the Participant has both attained age 55 and completed at least 5 years of Vesting Service.

For Greenville, the first day of any month which is coincident with or next following the date the Participant has both attained age 55 and completed at least 10 years of Credit Service.

Deferred Retirement Date: The date of retirement of a Participant after their Normal Retirement Date.

Normal Retirement Benefit: The monthly amount payable in Normal Form is equal to:

For Heat Exchangers, the Benefit Rate in accordance with the following chart, multiplied by such Participant's Credited Service. The Accrued Benefit of Heat Exchangers shall be frozen as of March 31, 1998.

On or after March 1, 2001	\$25.00 for all Credited Service

Termination Benefit: A Participant who has at least five years of Vesting Service has a nonforfeitable right to 100% of his Accrued Normal Retirement Benefit.

Schedule SB, Part V - Summary of Plan Provisions

Early Retirement Benefit: Accrued Benefit determined as of Early Retirement Date, reduced by:

For Heat Exchangers, 2/12 of 1% for each of the first 36 completed months and 5/12 of 1% for each of the next 84 completed months by which a Participant's benefit commencement date precedes their Normal Retirement Date.

For Greenville and Service Plan, 0.5% for each month that the Participant's benefit commencement date precedes their Normal Retirement Date.

For Retirement Plan, 2% for each year to age 62, 4% to each year thereafter to age 60 and 6% for each year thereafter to age 55. If the Participant's benefit commences after age 61 and age plus vesting service is greater than 90, no reduction will apply. If the Participant's benefit commences prior to age 62 and age plus vesting service is greater than 90, only part 2(b) of the Normal Retirement Benefit described above will be reduced for early commencement.

Normal Forms

Unmarried Members: Annuity payable for life.

Married Members: 50% Joint and Survivor Annuity.

Optional Forms:

For Heat Exchangers, Five Years Certain and Life Annuity and 100% Joint and Survivor Annuity.

For Greenville, Joint and Survivor Annuities ranging from 50% to 100%, Certain and Continuous Options and Lump Sum if the Present Value of the Vested Benefit is less than \$10,000.

For Retirement Plan, Five Year Certain Annuity, Ten Year Certain Annuity and Joint and Survivor Annuities.

For Service Plan, Ten Year Certain Annuity, 66 2/3% Joint and Survivor Annuity and 100% Joint and Survivor Annuity.

Death BenefitsHeat Exchangers:

Pre-retirement: In the event a married participant dies prior to commencement of vested benefits, their surviving spouse shall be eligible to receive a pension beginning as early as the date the participant would have attained age 45. The amount of the pension shall be equal to the Accrued Benefit, reduced as if the participant had elected a joint and 50% survivor annuity, and further reduced by 2/12 of 1% for each of the first 36 months, 5/12 of 1% for each of the next 84 months, and 4/12 of 1% for each of the next 120 months the benefit commencement precedes the Normal Retirement Date.

Post-Retirement: If a participant dies after retirement and commencement of benefits, the participant's beneficiary shall be entitled to a lump sum benefit of \$4,000 in addition to any survivorship benefit payable under the Plan. This death benefit shall accrue over 10 years of vesting service, from February 1, 1989, at a rate of 1/120 of the \$4,000 benefit for each completed month of service. Accrual is frozen as of March 31, 1998. The death benefit is \$5,000 for participants retiring between February 4, 2001 and June 30, 2001. The death benefit shall be reduced to zero for participants retiring after June 30, 2001.

Schedule SB, Part V - Summary of Plan Provisions

Greenville:

Pre-retirement: In the event of a married active participant's death after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to the death and elected a joint and 100% survivor benefit. In the event of a married vested participant's death, prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and 100% survivor benefit and died the next day.

Post-Retirement: None except as provided by the annuity form elected.

Retirement Plan:

Pre-retirement: In the event of a married vested participant's death, prior to having become eligible for normal retirement, the benefit payable to the spouse will be the 50% joint and survivor benefit. However, the minimum spouse benefit will be 40% of the amount of the accrued benefit that would have been payable had the participant survived to Normal Retirement. The Average Compensation used to determine the benefit shall be the greater of the participant's earnings in the calendar year prior to death and the Average Compensation at the time of death.

Post-Retirement: None except as provided by the annuity form elected.

Service Plan:

Pre-retirement: In the event a married participant dies prior to commencement of vested benefits, his surviving spouse shall be eligible to receive a pension beginning as early as the date the participant would have attained age 55. The amount of the pension shall be equal to the Accrued Benefit, reduced as if the participant had elected a joint and 50% survivor annuity.

Post-Retirement: None except as provided by the annuity form elected.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information (“SAI”).

For additional information on soft dollar compensation, refer to the section of the mutual fund’s SAI that discusses brokerage allocation and other practices.
