INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Rumsey Electric Company
Employee Stock Ownership Plan
Conshohocken, Pennsylvania

We have audited the accompanying financial statements of Rumsey Electric Company Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Rumsey Electric Company Employee Stock Ownership Plan as of December 31, 2018 and 2017, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

**RUMSEY ELECTRIC COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN**

Notes to Financial Statements
December 31, 2018 and 2017

NOTE 1 - Description of Plan

The following brief description of the Rumsey Electric Company's Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document, as amended, for a more complete description of the Plan's provisions.

- A. General - The Plan is a defined contribution plan covering all employees of the Rumsey Electric Company (the "Company") who meet the eligibility requirements of the Plan and are not a member of a collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").
- B. Eligibility Requirements - Each employee is eligible to participate in the Plan as of January 1st of the Plan year in which they attain the age of eighteen and complete at least one full year of service.
- C. Employer Contributions - The Company shall contribute such amounts as may be determined by its Board of Directors. However, employer contributions for each year shall not be less than the amount required to enable the Plan to discharge its current obligations related to any notes payable. Employer contributions are allocated to individual accounts based on the ratio of each participant's eligible annual compensation to the total plan participants' eligible compensation. The employer contributions for outside commissioned salesmen, however, are limited to eligible compensation for the years ending December 31, 2018 and 2017, of up to \$77,000 and \$73,000, respectively.
- D. Participants' Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Shares are allocated to participants' accounts as they are purchased by the Plan from certain retiring or terminated Company stockholders. Shares of the Company common stock and non-vested shares forfeited are allocated to individual accounts based on the ratio of each participant's eligible annual compensation to the total plan participants' eligible compensation. A participant is entitled to share in the allocation of the employer contribution and forfeitures for the Plan year of their retirement, disability, or death.

The plan administrator may, at its discretion, elect to segregate for investment purposes all or any designated portion of the accounts of participants who have terminated employment with the Company, in which case, the Trustee shall allocate non-company stock assets having a fair value equal to the fair value of the Company stock held in any such segregated amount.

- E. Vesting - Participants become fully (100%) vested in the employer contribution upon the occurrence of death, total or permanent disability, or normal or early retirement.

Contributions to the Plan vest for participants who are employed on or after January 1, 2007 based on the following:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2 years	0%
After 2 years but less than 3	20%
After 3 years but less than 4	40%
After 4 years but less than 5	60%
After 5 years but less than 6	80%
After 6 years	100%

NOTE 1 - Description of Plan (Continued)

- E. Vesting (Continued) - A participant's vested benefit is determined as of the date of termination of employment or retirement.
- F. Forfeitures - Any participant who terminates employment without being fully vested (100%) in their non-elective contribution account forfeits their nonvested portion. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible annual compensation to the total plan participant eligible compensation for the Plan Year. Shares forfeited from terminated nonvested account balances allocated to remaining participants at December 31, 2018 and 2017 were approximately 7 and 10, respectively, which had a value of \$132,368 and \$162,401, respectively.
- G. Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution that can be rolled over into a qualified retirement investment account.
- H. Payment of Benefits - Upon retirement, death, or total and permanent disability of a participant, or upon participant's termination of employment with the employer, the participant or their beneficiary is entitled to distribution of their account.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2018 and 2017, the Company repurchased approximately 405 and 562 shares, respectively, at prices determined from the independent appraisal.

- I. Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.
- J. Income Tax Status - The Plan has received a determination letter from the Internal Revenue Service dated February 18, 2014, stating that the Plan is qualified under the Internal Revenue Code (the "IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

NOTE 1 - Description of Plan (Continued)

- J. Income Tax Status (Continued) - Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 2 - Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are a representation of the Plan's management, who is responsible for their integrity and objectivity. The accounting policies described below conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Investment income from Stable Value Fund includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - Subsequent events were evaluated through October 10, 2019, which is the date the financial statements were available to be issued.

NOTE 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust - Stable Value Fund: Valued at the NAV of the units of a separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. This investment is not required to be included in the fair value hierarchy as fair value is measured using net asset value practical expedient (see Note 2).

Ending Balance	<u>\$ 100,009,250</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Company Common Stock:

The fair value of the common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and discounted cash flow valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable, and fair value of company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - Investment in Company Common Stock

The Plan's investments in the Company common stock at December 31, 2018 and 2017 are as follows:

	<u>2018</u>	<u>2017</u>
Shares Allocated to Participants	<u>4,994</u>	<u>5,399</u>
Cost	<u>\$ 3,261,082</u>	<u>\$ 3,525,547</u>
Market	<u>\$ 109,865,800</u>	<u>\$ 100,009,250</u>

In 2018 and 2017, a portion of benefits paid to participants represent shares of stock distributed by the Plan to terminated employees and purchased by the Company. In 2018 and 2017, the Company purchased approximately 405 and 562 shares, respectively, from terminated employees. In 2018 and 2017, 405 and 562 shares, respectively, were held as treasury stock. In 2018 and 2017, no shares were contributed to the Plan.

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2018 and 2017

NOTE 5 - Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Board of Trustees shall direct the Trustee to pay all liabilities and expenses of the trust fund.

NOTE 6 - Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
