NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Server Technology, Inc. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Plan Termination – Effective December 31, 2018, the Board of Directors of Server Technology, Inc., the Plan’s sponsor, (the “Company”) passed a resolution to terminate the Plan. As a result, all participants became 100% vested in their account balances and all participant accounts and Plan assets were legally transferred to the Legrand Savings Plan as of December 31, 2018. The sponsor of the Legrand Savings Plan is Legrand, North and Central America, the Company’s immediate parent company. Participants became eligible to participate in the Legrand Savings Plan in January 2019. Administration of the transfer of participant accounts was completed by May 31, 2019.

General – The Plan was established on October 1, 1998, to provide retirement benefits for employees of Server Technology, Inc. and employees of its former wholly owned subsidiary, PDU’s Direct, LLC. The Plan was a defined contribution plan covering all eligible employees meeting certain eligibility criteria who had completed three months of service and who had attained twenty-one years of age. Employees were eligible to participate if they were not nonresident aliens, part-time employees or union employees. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and certain provisions of the Internal Revenue Code (“IRC”).

The Plan provided for a plan administrator who was responsible for keeping accurate and complete records with regard to the Plan’s operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conformed to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Participants were permitted to voluntarily contribute an amount up to 90% of pretax annual compensation as defined by the Plan agreement, up to a maximum permitted contribution in a calendar year. For the 2018 calendar year, the maximum permitted contribution was \$18,500. Participants were also permitted to make after-tax contributions subject to certain limitations. Participants who had attained at least 50 years of age were eligible to make an additional catch-up contribution up to \$6,000 annually. A participant could increase or decrease the amount of contributions at the beginning of each payroll period.

The Plan included an automatic enrollment feature whereby eligible participants subject to the automatic enrollment would have 5% of eligible compensation deducted on a pretax basis as a salary deferral contribution to the Plan.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Contributions (Continued) – The deferral contribution rate automatically increased 1% per year until it reached a maximum of 10% unless the participant elected otherwise. Participants could stop or change this automatic contribution at any time. If the participant had not selected an investment option, the participant's contributions would be invested in a target retirement date fund which corresponded to the expected retirement age of the participant.

Employer Contributions – The Company matched participant contributions by contributing 100% of participant's elective deferrals that did not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceeded 3% of the participant's compensation but did not exceed 5% of the participant's compensation. The Company could, at its discretion, make a profit sharing contribution or an additional matching contribution.

Participant Accounts – The Plan maintained an account for each participant which was credited with the participant's contributions and the Company's matching contributions, and allocations of (a) the Company's profit sharing contributions and (b) Plan investment earnings or losses, and was charged with an allocation of investment expenses. Allocations were based on participant compensation or account balances, as defined by the Plan agreement. The benefit to which a participant was entitled was the benefit that may be provided from the participant's vested account.

Vesting – Participants were immediately 100% vested in their voluntary contributions as well as 100% of basic matching "safe harbor" employer contributions, plus actual earnings thereon. Vesting in the Company's discretionary contributions, if any, and related earnings thereon was in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
0 - 1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

As of December 31, 2018, all participants became 100% vested in the Company's discretionary contributions due to the Plan termination.

Investment Options – Prior to Plan termination, upon enrollment in the Plan, a participant could direct the investment of his or her account balance into the various investment funds offered by the trustee of the Plan.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants – Prior to the Plan termination, participants were permitted to borrow from their vested account balances provided they met the Plan's eligibility requirements. The minimum loan amount was \$500 and the maximum loan amount was the lesser of one-half of the participant's vested account balance or \$50,000. The duration of the loan was not to exceed five years, except for loans used to finance the purchase of a primary residence. The loans were secured by the balance in the participant's account and interest rates were based on the prevailing interest rates charged under similar circumstances, and remained fixed throughout the life of the loan. Principal and interest were paid ratably through payroll deductions and loans are due immediately upon termination of employment.

Payment of Benefits – Prior to the Plan termination, upon termination of service due to death, disability or retirement, a participant was eligible to receive a lump-sum distribution, a direct rollover distribution, or a combination of cash and direct rollover distribution equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant were allowed to receive the value of the vested interest in his or her account as a lump-sum cash distribution. If a terminated participant's vested interest in his/her account was between \$1,000 and \$5,000 and no instructions had been received from such participant, the amount could be rolled over to an individual retirement account plan as designated by the plan administrator. A balance less than \$1,000 could be distributed directly to the participant as a lump-sum payment and a balance greater than \$5,000 could be left in the Plan.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance was forfeited upon termination of employment. As of September 30, 2018, forfeited non-vested accounts amounted to \$763. The forfeiture account was transferred to the Legrand Savings Plan as a result of the Plan termination.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan’s financial statements are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year. In addition, certain investment related expenses are included in the net appreciation or depreciation in fair value of investments.

As discussed in Note 1, all Plan investments were transferred to the Legrand Savings Plan during the period ended May 31, 2019.

Notes Receivable from Participants – Notes receivable from participants represent loans to participants and were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable were reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits – Benefits were recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Certain administrative expenses were charged directly to participants’ accounts; those expenses included costs associated with certain participant directed transactions, such as participant withdrawal fees.

Subsequent Events - The Plan’s management has evaluated subsequent events through October 10, 2019, the date the Plan’s financial statements were available for issuance.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC defines fair value and establishes a framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under this guideline are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used are required to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the Plan's valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used through May 31, 2019 or September 30, 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Period Ending May 31, 2019
(December 31, 2018 Plan Termination)

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Collective Trust Funds: Valued at the daily NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Investments valued using the practical expedient are reported outside of the fair value hierarchy. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trusts, the issuer reserves the right to require up to 90 business days if the investments are being transferred to a competing fund.

The preceding methods described may produce a fair value determination that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2018:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets in the Fair Value Hierarchy:				
Mutual Funds	<u>\$ 13,646,480</u>	<u>\$ -</u>	<u>\$ -</u>	\$ 13,646,480
Investments Measured at Net Asset Value:				
Collective Trust Funds				<u>3,123,045</u>
Investments at Fair Value				<u>\$ 16,769,525</u>

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes investments for which fair value was measured using the net asset value per share practical expedient as of September 30, 2018. There were no participant redemption restrictions for these investments; the redemption notice period was applicable only to the Plan. None of these investments presented in the following table had unfunded commitments.

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications as of May 31, 2019 and September 30, 2018 and for the period from October 1, 2018 through May 31, 2019 and the year ended September 30, 2018 from Wells Fargo Bank N.A. ("Wells Fargo") the Plan's trustee, that investments and notes receivable from participants information provided by the trustee is complete and accurate. Information included in the accompanying financial statements as to investments at fair value, notes receivable from participants, dividends, interest, net appreciation/depreciation in the fair value of investments, interest income on notes receivable from participants is presented in reliance solely upon those certifications.

NOTE 5 – TAX STATUS

The Company adopted a prototype plan which received a favorable opinion letter from the Internal Revenue Service on April 2, 2012, stating that the Plan and related trust were designed in accordance with the applicable sections of the IRC. The Plan did not file for a separate determination letter; however, the plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes is reflected in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RELATED PARTY TRANSACTIONS

The Plan included in its investment options certain funds managed by Wells Fargo Bank, N.A. and affiliates. Wells Fargo Bank, N.A. was the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees incurred by the Plan for the investment management services were netted against the net appreciation or depreciation in fair value of investments, as they were paid through revenue sharing, rather than a direct payment.

The Plan or the Company paid directly any other fees related to the Plan's operations, except for fees related to loans and distributions, which were paid by participants. Fees paid directly by the Plan to Wells Fargo Bank, N.A. for administrative services amounted to \$17,120 for the period ended May 31, 2019 and are reported as administrative expenses in the Statement of Changes in Net Assets Available for Benefits.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan provided for various investment options in any combination from among the funds offered through the trustee. Investment securities were exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the near term would materially affect participants' account balances and the amounts reported in the Statement of Changes in Net Assets Available for Benefits.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
