Description of the Plan

The following description of the Ohio Bridge Manufacturing Employee Benefit Plan (the Plan), formerly known as the US Bridge Retirement Plan, provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is an employee profit sharing plan which also allows employee salary deferrals subject to section 401(k) of the Internal Revenue Code (IRC). The Plan covers all eligible employees of American Culvert and Fabricating Company, The Bridge Construction Company, Ohio Bridge Manufacturing, Ltd. d.b.a. US Bridge and C-Z Company, together "the Employer". The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute any percentage of compensation up to 75% provided that their salary deferral contributions do not exceed federal limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Effective in 2015, the Plan was amended to include an employer non-elective contribution. The Ohio Bridge Corporation d.b.a. US Bridge contributed non-elective safe harbor contributions equal to 3% of each eligible participant's compensation during 2018 and 2017.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contributions, (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and non-elective Employer contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to termination, death, retirement, or disability, the participant may elect to receive their vested account balance either in a lump-sum amount or installments. Participants who have reached 59 ½ may elect to take in service distribution. Participants become 100% vested in their account balances upon retirement, death or disability as defined by the plan agreement.

Description of the Plan (continued)

Forfeited Accounts

Forfeitures are used to reinstate previously forfeited participant accounts, if any. Remaining forfeitures may be used to satisfy employer profit sharing contributions, or used to pay administrative expenses of the Plan. Any remaining forfeitures are allocated to participant accounts on a pro-rata basis based on the allocation of employer profit sharing contributions.

Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the contract value of the investment, which approximates fair value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures.* Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For additional disclosure regarding fair value of investments, see the *Fair Value Measurements* footnote herein.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses incurred in connection with the general administration and investment management of the Plan are paid by the Plan and recorded in the accompanying statements of changes in net assets available for benefits as administrative fees. All other expenses of maintaining the Plan are paid by the Employer.

Information Prepared and Certified by the Trustee

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified as complete and accurate by the Plan's trustee.

	2018	2017
Mutual funds	**$ 2,794,587**	$ 2,922,940
Collective investment funds	**-**	100,101
Total	**$ 2,794,587**	$ 3,023,041

The trustee also certified the completeness and accuracy of the following related to the aforementioned assets for the years ended December 31:

	2018	2017
Net (depreciation) appreciation in fair value of investments	**$(188,486)**	$ 477,444
Interest and dividend income	**9,940**	51,101

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

Level 1 Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.

Fair Value Measurements (continued)

Level 2 Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 Inputs are significant unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds: Valued at the quoted NAV of shares held by the Plan at year-end.

Common Collective Trust: Valued at the NAV provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions and participants can transact daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, show the Plan's net assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,794,587	$ -	$ -	$ 2,794,587
Investments measured at net asset value*	-	-	-	-
Total assets at fair value	$ 2,794,587	$ -	$ -	$ 2,794,587

Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,922,940	$ -	$ -	$ 2,922,940
Investments measured at net asset value*	-	-	-	100,101
Total assets at fair value	$ 2,922,940	$ -	$ -	$ 3,023,041

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Party-in-Interest Transactions

The Plan holds certain investments managed by Mutual of America Investment Corporation. Mutual of America is the Custodian as defined by the plan agreement and, therefore, these transactions qualify as party-in-interest. In 2017, the Plan held an investment in a GIC with MetLife. MetLife managed and received certain fees for managing this investment and therefore this was considered a party-in-interest transaction. During 2018 these assets were transferred into mutual funds as part of the asset transfer from Ascensus Trust Company to Mutual of America. The Plan held no assets in a GIC as of December 31, 2018.

The Plan paid certain investment management and administration fees to the Custodians of the Plan. Fees paid by the Plan to the Custodians amounted to approximately $17,000 and $26,000 for the years ended December 31, 2018 and 2017, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants would become 100% vested in their employer contributions. The Company's wind-down of its state construction business segment triggered a partial Plan termination. In accordance with IRS guidance and pursuant to the Plan agreement, all active participants of the Plan that were terminated as a result of the wind-down were fully vested.

Tax Status

The Plan utilizes a Volume Submitter Profit Sharing Plan with CODA that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator and the Plan's tax counsel believed that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Tax Status (continued)

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the 2018 statement of net assets available for benefits.

Transfer of Assets

Effective May 10, 2018 the Plan switched service providers from Ascensus to Mutual of America. No significant plan provisions were changed with the switch in providers. Plan assets were transferred to the new trustee into funds comparable to those offered by the previous trustee.

Subsequent Events – Date of Management's Evaluation

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.
