The Plan is a defined contribution plan, which includes a qualified deferred arrangement as described in Section 401(k) of the Internal Revenue Code (the IRC). The Plan is available to most associates of Gardner Denver, Inc. or any affiliate adopting the Plan (collectively, the Company) upon the date of employment. Effective June 16, 2017, the Plan was amended to permit an employee represented by the International Association of Machinists and Aerospace Workers, AFL-CIO, Lodge No, 822 to become an eligible employee under the Plan, provided that the participant irrevocably elects to opt out of participation in the Gardner Denver, Inc. Individual Account Retirement Plan for Bargaining Unit Employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible employees in the Plan may contribute an amount up to limits prescribed by the Internal Revenue Service (the IRS), but not less than 1%, of their annual compensation. Participants may also elect to designate a portion of their contributions as pre-tax and/or a portion as Roth contributions. Additionally, participants age 50 and over may make "catch-up contributions."

The Plan provides for an automatic enrollment provision where eligible participants, upon meeting the eligibility requirements, are automatically enrolled in the Plan at a default salary contribution rate of 3%. The contribution rate shall be automatically increased as soon as administratively feasible in each subsequent year by 1% until a maximum contribution rate of 6% is reached. The participant may affirmatively elect a different percentage or elect not to make salary deferral contributions.

Notes To Financial Statements (*Continued*)

The Company provides a safe-harbor matching contribution equal to 100% of the first 3% of each participant's contribution and 50% of the next 3% of each participant's deferral contribution. Effective January 1, 2016, the Plan was amended to allow all members, with the exception of specific locations which continued under the old matching provisions, to receive a matching contribution of 100% of the first 6% of each participant's contribution.

Vesting

Participants in the Plan are fully vested in their contributions, Company matching contributions and the earnings thereon.

Notwithstanding the foregoing, participants become fully vested upon reaching retirement age, death, or permanent and total disability.

Forfeitures

Forfeitures of terminated participants' nonvested accounts are used to reduce future Company contributions or administrative expenses. Forfeitures of \$472,031 were used to reduce Company contributions for the year ended December 31, 2017. No forfeitures were used to reduce company contributions for the year ended December 31, 2018. At December 31, 2018 and 2017, there were \$609,367 and \$279,547, respectively, in forfeitures available for use.

Benefits

Upon termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in their account. The form of payment is a lump-sum distribution. If the benefit is \$1,000 or less at the time it becomes payable, the participant does not have the option of leaving their balance in the Plan. Participants eligible for retirement may elect a lump-sum distribution or, under certain conditions, a transfer of the value of their account to the Gardner Denver, Inc. Pension Plan to receive monthly pension payments.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and an allocation of the Plan's earnings (losses) and administrative expenses. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's account balance, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants in the Plan direct their contributions into various investment options in 1% increments. Participants may change their investment elections daily. Certain funds may incur additional fees should participants make multiple changes in their investment options that would be considered short-term investments, as defined by the fund.

Notes Receivable From Participants

The Plan allows participants to borrow money from their accounts. The participant requesting a loan must have no other outstanding loans. A loan can range in value from a minimum of \$1,000 to a maximum of the lesser of:

- 50% of the participant's total vested balance, or
- \$50,000

The interest rate for loans is set each month at the prime rate. The interest rate on loans outstanding as of December 31, 2018 range from 3.25% to 5.50%. Repayment terms range from one to five years. The loans are due on various dates through January 2024.

In-Service Withdrawals

Active participants who reach age 59-1/2 or experience a qualifying financial hardship may withdraw all or part of their participant deferred accounts. Hardship withdrawals will be approved only if they conform to the Plan provisions and established IRS safe harbors.

Administrative Expenses

Salaries and related benefits of employees who administer the Plan are provided by the Company. All other administrative expenses are paid by the Plan. These expenses include investment management and Trustee fees.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting, except benefits which are recorded when paid.

Notes To Financial Statements *(Continued)*

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Risks And Uncertainties

The Plan, through the Gardner Denver Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income on investments is recorded as earned on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are recorded as a distribution based upon the terms of the Plan Document.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Investments

Information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2018 and 2017, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company and Great-West Trust Company, LLC.

4. Investment In Master Trust

The Plan's investments at December 31, 2018 and 2017 include an interest in the net assets of the Gardner Denver Master Trust (Master Trust), which was established for the investment of assets of the Plan and other plans sponsored by the Company. As of December 31, 2018 and 2017, the Master Trust included assets of the Plan and assets of the Gardner Denver, Inc. Individual Account Retirement Plan for Bargaining Unit Employees.

Each participating retirement plan has an interest in the Master Trust. The Plan may invest in any or all of the investments in the Master Trust. Financial information relating to the investments in the Master Trust is included in the financial statements and is based on information provided by the Directed Trustee. At December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was approximately 98%. The following table presents the net assets of the Master Trust as of December 31, 2018 and 2017.

5. Fair Value Measurements

The Master Trust utilizes an established framework for measuring fair value of investments. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets; |

GARDNER DENVER, INC. RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies

Valued at the daily closing price as reported by the fund. Registered investment companies held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Master Trust are deemed to be actively traded.

GARDNER DENVER, INC. RETIREMENT SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Common Collective Trusts

Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. For the Plan years ended December 31, 2018 and 2017, there were no unfunded capital commitments.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust and the Plan believe the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2018 and 2017:

	December 31, 2018			Total
	Level 1	Level 2	Level 3	
Registered investment companies	\$ 113,073,729	\$ —	\$ —	\$ 113,073,729

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 100,735,254	\$ —	\$ —	\$ 100,735,254
Total assets in the fair value hierarchy	\$ 100,735,254	\$ —	\$ —	100,735,254
Investments measured at net asset value per share (a)				<u>194,173,466</u>
Total assets at fair value				<u>\$ 294,908,720</u>

- (a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits of the Master Trust.

There have been no changes in the methodologies used at December 31, 2018 or 2017.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. If terminated, no interest or portion of the Plan may revert to the Company and termination payments to participants would be limited to the net assets of the Plan as of the date of termination. Also, the balance of the account of each participant would become fully vested and nonforfeitable upon termination.

7. Related Party Transactions And Party In Interest Transactions

Certain Master Trust investments are shares of registered investment companies managed by affiliates of the Trustees. From October 15, 2018 through December 31, 2018, Fidelity Management Trust Company was the Trustee of the Plan as defined by the Plan and, from January 1, 2017 through October 14, 2018, Great-West Trust Company, LLC was the Trustee of the Plan, as defined by the Plan; therefore, these transactions qualify as party in interest transactions allowable under ERISA regulations. Fees to the Trustee and affiliates are based on customary and reasonable fees and are paid by the Plan.

8. Transfers

On January 2, 2018, the assets of the Rotary Compression Technologies 401(k) Plan (Rotary Plan), totaling \$1,254,384, were transferred into the Plan. Any person who was employed with LeRoi International, who is the plan sponsor of the Rotary Plan, on or before January 1, 2018 and then became employed by the Company as an eligible employee became a participant in the Plan as of January 1, 2018. Any other person who becomes employed by LeRoi International after January 1, 2018 is eligible to participate in the Plan in accordance with the provisions in the Plan Document.

Effective June 16, 2017, the Plan was amended to permit an employee represented by the International Association of Machinists and Aerospace Workers, AFL-CIO, Lodge No. 822 to become an eligible employee under the Plan, provided that the participant irrevocably elects to opt out of participation in the Gardner Denver, Inc. Individual Account Retirement Plan for Bargaining Unit Employees. During the year ended December 31, 2018, assets totaling \$21,249 were transferred into the Plan from the Gardner Denver, Inc. Individual Account Retirement Plan for Employees in the Machinists Bargaining Unit.

9. Income Tax Status

The Plan has received a favorable determination letter from the IRS, dated November 10, 2015, indicating that the Plan, as then designed, is in compliance with the requirements of Section 401(a) of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
