INFRAMARK 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2018 and 2017

NOTE A - DESCRIPTION OF THE PLAN

The following description of Inframark 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

Effective January 1, 2018, the Plan Sponsor became known as Inframark, LLC (the "Company"), formerly known as Severn Trent Services, Inc., and the name of the Plan changed to Inframark 401(k) Savings Plan. The Plan is a defined contribution plan covering all nonunion employees and certain union employees, whose collective bargaining agreements specifically provide for participation, of the Inframark US Controlled Group. Employees, including temporary employees, are immediately eligible to enter the Plan upon their date of hire.

Effective October 1, 2018, the Plan changed trustees from Prudential Trust Company to Great-West Trust Company, LLC.

The Plan is subject to the provisions of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

[2] Contributions:

Participants may contribute up to 75% of pre-tax annual compensation, up to a maximum of \$18,500 in 2018, and may make catch-up contributions, as defined by the Plan. In addition, participants may contribute up to 15% of after-tax compensation, as defined by the Plan. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan provides for automatic enrollment and auto escalation features whereby participants are automatically enrolled in the Plan at a contribution rate of 6% which is increased annually on July 1 by 1%, up to a maximum of 10%. Effective March 31, 2019 the plan was amended to allow the Plan administrator to establish reasonable procedures to implement an automatic escalation provision, including adjustments to the maximum automatic escalation level, and to allow employees to opt-out of the annual automatic escalation features of the Plan. Participants may change their contribution percentages daily. Participants direct the investment of participant and employer contributions. The Company matches 50% of the participant's pre-tax contributions, up to 6% of base compensation. The Plan also allows for two types of discretionary profit sharing contributions as follows: (1) additional discretionary profit sharing contributions, and (2) supplemental union profit sharing contributions. Additional discretionary profit sharing contributions may be made at the discretion of the Company's Board of Directors. In general, to be eligible, a participant must work 1,000 hours in the given Plan year and be employed on the last day of the Plan year. There were no additional discretionary profit sharing contributions made in 2018. The Plan also allows for supplemental union profit sharing contributions for certain unions as defined in the Plan document and in accordance with the respective collective bargaining agreements. In general, to be eligible, a participant must be a member of the defined unions (and hired on or before the effective dates of the respective collective bargaining agreements which range from September 11, 2014 to October 19, 2014), complete 1,000 hours of service during the Plan year and be employed on the last day of the Plan year. A 9% supplemental union profit sharing contribution was made in 2018.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

INFRAMARK 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2018 and 2017

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[4] Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions portion of their accounts, plus actual earnings thereon, is as follows:

<u>Years of Service</u>	<u>Vesting</u>
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

[5] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Interest rates on outstanding loan balances ranged from 4.25% to 9.25% during the year. Delinquent notes receivable from participants are reclassified as distributions, based upon the terms of the Plan document.

[6] Payment of benefits:

Upon termination of service for any reason, excluding death, a participant may elect to receive a single lump sum cash payment or monthly, quarterly or annual installments paid over a period of time not to exceed 10 years, in an amount equal to the value of the participant's vested interest in his or her account.

If the value of the account of a participant who retired, terminated employment, became disabled, or died, is \$1,000 or less, the Plan administrator may distribute the participant's account without his/her consent in the form of a single lump sum cash payment.

[7] Forfeitures:

Forfeited non-vested accounts are used to reduce future Company contributions and pay Plan expenses. During the year ended December 31, 2018, forfeitures of approximately \$267,000 were used to reduce employer contributions. Forfeited non-vested accounts available to reduce future employer contributions and pay Plan expenses at December 31, 2018 and 2017 were approximately \$59,000 and \$98,000, respectively.

Notes to Financial Statements December 31, 2018 and 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared on the accrual method of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

[2] Subsequent events:

The Plan has evaluated subsequent events through October 9, 2019, the date the financial statements were available to be issued.

[3] Investment valuation and income recognition:

The Plan's investments are reported at fair value, except for fully-benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[4] Payment of benefits:

Benefits are recorded when paid.

[5] Plan expenses:

The Plan pays administrative expenses to the extent that they are not paid by the Company. Administrative expenses paid by the Plan for recordkeeping and investment advisory services were approximately \$127,000 during the year ended December 31, 2018.

[6] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes to Financial Statements December 31, 2018 and 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[7] Recent accounting pronouncement ASU 2018-13:

In August, 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2018-13 ("ASU 2018-13"), *Fair Value Measurement (Topic 820) Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement*. The amendments in this update apply to all entities that are required to make disclosures about recurring or nonrecurring fair value measurements. Certain of the disclosures that are required by the amendments are not required for nonpublic entities. ASU 2018-13, eliminates, adds and modifies certain disclosure requirements for fair value measurements as part of its disclosure framework project. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 and interim periods within those fiscal years. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent annual period presented in the year of adoption. All other amendments should be applied retrospectively to each period for which the financial statements are presented. Early adoption is permitted. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date.

The Plan elected to adopt ASU 2018-13 as of and for the year ended December 31, 2018. The amendment has been applied prospectively and retrospectively to applicable amendments as defined above for all periods presented.

NOTE C - INVESTMENT CERTIFICATION

The for benefits as of December 31, 2018 and 2017, the statement of changes in net assets available for benefits Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Great-West Trust Company, LLC ("Great-West") as of December 31, 2018 and for the period October 1, 2018 to December 31, 2018, and Prudential Trust Company and The Prudential Insurance Company of America (collectively "Prudential") as of December 31, 2017 and for the period January 1, 2018 to September 30, 2018, have certified to the completeness and accuracy of all investments and related investment activity and notes receivable and related activity in the accompanying statements of net assets available for the year ended December 31, 2018, and the supplemental schedule of assets (held at end of year) as of December 31, 2018.

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

INFRAMARK 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2018 and 2017

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts – Valued at the NAV of units of the trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay withdrawal from the trusts in order to ensure that securities' liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2018 and 2017:

Investment Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 9,297,274	\$ -	\$ -	\$ 9,297,274
Investments measured at net asset value (A)				66,507,773
Total investment assets at fair value				\$ 75,805,047

INFRAMARK 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2018 and 2017

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Investment Assets at Fair Value as of December 31, 2017			
Level 1	Level 2	Level 3	Total
Mutual funds	\$ 66,544,231	\$ -	\$ 66,544,231
Total investment assets at fair value			\$ 66,544,231

- (A) The Plan investments in Putnam Advantage Common Collective Trusts and the Putnam Stable value fund that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - GUARANTEED INCOME FUND

The Plan had an investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC"), a wholly owned subsidiary of The Prudential Insurance Company of America and terminated such contract effective September 30, 2018 in connection with the change in trustees to Great-West effective October 1, 2018. The guaranteed income fund is reported at contract value on the statement of net asset available for benefits as of December 31, 2017. The valuation is an amount equal to the sum of the deposits made, credited interest and transfers for other investment vehicles of the Plan, less expenses and transfers, distributions or termination disbursements made from the fund. The guaranteed income fund, a fully benefit-responsive investment, was a stable value product, and principal and interest were fully guaranteed by PRIAC. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could have been affected by future economic and regulatory developments. Generally, there were not any events that could limit the ability of the Plan to transact at the contract value within 90 days. At the time the contract was terminated, the fund was liquidated and participants received an amount equal to contract value.

NOTE F - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 20, 2013, that the Plan is qualified under the Internal Revenue Code ("IRC") and therefore the related trust is exempt from taxation. The Plan has been amended since receipt of the letter and the Plan administrator believes that the Plan continues to be designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

INFRAMARK 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2018 and 2017

NOTE F - TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of mutual funds and common collective trusts managed by Great-West, therefore, these transactions qualify as party-in-interest transactions. Total fees paid to trustees, investment advisors and other Plan service providers were approximately \$127,000 for the year ended December 31, 2018.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2018 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE I - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.
