Premier Health Care Management, Inc. 401(K) Profit Sharing Plan
Notes to Financial Statements
December 31, 2018

1. Description of the Plan

Premier Healthcare Management, Inc. 401(K) Profit Sharing Plan (the "Plan") was established on August 1, 2002, was amended and restated most recently effective July 2017, to among other provisions, to include all eligible employees that are employed at Premier Health Care Management, Inc. ("Company"). The following description of the Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution retirement plan covering all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may elect to defer a portion of their compensation to the Plan subject to an annual maximum amount pursuant to the applicable code section of the Internal Revenue Code limited to the maximum amount allowed by the law, which is \$18,500 for 2018. During 2018, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to an additional \$6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a discretionary matching contribution equal to a uniform percentage of your salary deferral. During 2018 and 2017, the Company elected to contribute a discretionary matching contribution of 25% of the amount of salary deferrals up to 4% of compensation.

The Company may also elect to make a profit sharing contribution without regard to accumulated net profits of the employer. The contribution is allocated in the same ratio of compensation of each eligible participant to total eligible compensation. There were no profit sharing contributions in 2018.

The Company may also elect to make a Qualified Non-Elective Contribution (QNEC) for the benefit of such participants determined at the discretion of the Company.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, plus earnings and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Funding Policy: The Company's funding policy is to make the contributions to the Plan as soon as administratively feasible.

Vesting - Participant contributions and rollover contributions, and earnings or losses thereon are fully vested at all times. Employer contributions, profit sharing contributions and earnings and losses thereon are vested as follows:

Less than 1 year	0%
1	25%
2	50%

Notes Receivable from Participants – The Plan allows participants to borrow against their vested account balance in the Plan. Participants may borrow up to the lesser of (1) \$50,000, minus the difference between the highest outstanding balance of loans in the past 12 months and the outstanding balance of loans from the Plan on the date the loan is made or (2) one-half the present value of their vested account balance. The minimum loan amount is \$500. The loans are secured by the balance in the participant's account and bear a market rate of interest ranging from 4.25% to 6.25%, which is determined on the loan origination date. Principal and interest is paid through payroll deductions over a period of no greater than five years.

In-Service and Hardship Withdrawals – While a participant is employed with the Company, they may make withdrawals in cash of amounts applicable to participant and employer contributions and compensation or losses thereon, subject to certain restrictions. A participant can take hardship withdrawals for Immediate and Heavy Financial Need, as defined in the Plan document. A participant's hardship withdrawal will preclude the participant from making additional employee before-tax contributions to the Plan for a six-month period after the hardship withdrawal. Participant before-tax contributions and matching contributions can be withdrawn after attainment of age 59 ½.

Benefit Payments – Upon termination of employment, including disability, a participant (or the participant's beneficiary) with \$1,000 or more in vested benefits may elect to receive a lump-sum distribution equal to the participant's vested account balance. For distribution on account of death, an election can be made by the beneficiary to receive distributions over the life of the beneficiary. A participant with less than \$1,000 in vested benefits will have their account balance distributed directly in cash.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expense. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Forfeitures - Forfeitures of terminating participants are used to pay for Plan expenses or Company match. As of December 31, 2018 and 2017 there were \$1,179 and \$6,410, respectively, in allocated forfeitures available to pay Plan expenses and/or Company contributions. For the year ended December 31, 2018, \$1,204 was used to reduce the Company's contributions and \$565 was used to pay Plan expenses.

2. Summary of Accounting Policies

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America as applied to defined contribution plans and in accordance with the terms of the trust agreement.

Premier Health Care Management, Inc. 401(K) Profit Sharing Plan
Notes to Financial Statements
December 31, 2018

Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The financial statements include the fully benefit-responsive investment contracts and their related activity on a contract value basis (see Note 5).

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions during the reporting periods. Actual results could materially differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits - Benefits are recorded when paid.

3. Information Prepared and Certified by Custodian

Matrix Trust Company, LLC, Custodian of the Plan, held the Plan's investment assets and executed transactions therein as of and for the years ended December 31, 2018 and 2017. The following is a summary of the Plan's financial information certified by the Trustee as complete and accurate in accordance with section 2520.103-8 of the Department of Labor's rules and regulations for reporting and disclosure under ERISA. Also, the information included in the supplementary schedule, Schedule of Assets (Held at End of Year) was certified by Matrix Trust Company, LLC.

Changes in net assets for the year ended December 31, 2018, not audited, include the following:

Changes in net assets not audited include the following:

Net depreciation in fair value of investments	\$ (384,381)
Net appreciation in contract value of common/collective trust	16,396
Dividends	194,926
Interest on notes receivable from participants	4,445
	<u>\$ (168,614)</u>

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments and Fair Value Measurements

The Plan applies FASB ASC 820, *Fair Value Measurement* ("ASC 820"). FASB ASC 820 provides a framework for measuring fair value and the disclosures about fair value measurements of assets and liabilities. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:
ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

<i>Registered Investment Companies:</i>	Valued at the daily closing price as reported by the fund. Registered investment companies (mutual funds) held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded.
---	---

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

<i>Investment Assets at Fair Values as of December 31, 2018</i>				
	Level 1	Level 2	Level 3	Total
Registered Investment Companies	\$ 3,210,537	\$ -	\$ -	\$ 3,210,537
Investments at Fair Value	\$ 3,210,537	\$ -	\$ -	\$ 3,210,537

<i>Investment Assets at Fair Values as of December 31, 2017</i>				
	Level 1	Level 2	Level 3	Total
Registered Investment Companies	\$ 3,304,219	\$ -	\$ -	\$ 3,304,219
Investments at Fair Value	\$ 3,304,219	\$ -	\$ -	\$ 3,304,219

5. Fully Benefit-Responsive Investment Contract with Matrix Trust Company

The Plan has a traditional fully-benefit-responsive guaranteed investment contract with Matrix Trust Company ("Matrix Trust") totaling \$658,473 for 2018 and \$732,868 for 2017. Matrix Trust maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The interest rate is based on a formula established by the contract issuer but may not be less than 0%. The interest rate is reset every quarter as determined by Matrix Trust. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value under ASU 2015-12. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Matrix Trust, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Premier Health Care Management, Inc. 401(K) Profit Sharing Plan
Notes to Financial Statements
December 31, 2018

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

6. Party In Interest Transactions

Certain Plan investments are mutual funds or guaranteed accounts of Matrix Trust Company, LLC, which is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services and audit fee amounted to \$20,225 for the year ended December 31, 2018, included in administrative expenses. The Plan Sponsor pays directly any other fees related to the plan's operations.

7. Plan Termination

The Plan has no termination date and it is the Company's current intention to continue the Plan indefinitely. However, the Company may terminate, amend, modify or suspend the Plan at any time subject to the provisions of ERISA. In the event of a plan termination, participants would become fully vested in the balance of their accounts and the plan assets would be distributed in accordance with the terms of the Plan.

8. Tax Status of the Plan

The Internal Revenue Service (IRS) has issued an opinion letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. The Plan administrator and the Plan's tax counsel believe that the Plan is designed to comply with the applicable requirements of the IRC and ERISA, and is intended to be operated in compliance with such requirements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has

Premier Health Care Management, Inc. 401(K) Profit Sharing Plan
Notes to Financial Statements

taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
