ASSOCIATED UROLOGICAL 401(k) PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of Associated Urological 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan was established in 2005 to allow Associated Urological Specialists, LLC (the Company) to share a portion of its profits with its employees, to promote within them the strongest interest in the successful operation of the business, to increase efficiency in their work, to assure them that they will share in the prosperity of the business, and to provide them with an opportunity for accumulation of funds for retirement. The Plan is a defined-contribution plan covering all eligible employees of the Company who have at least six months of eligibility service, and are age 21 or older. Eligibility service is 1,000 hours for elective deferrals and safe harbor contributions, and one year for employer profit-sharing plan. Effective January 1, 2018, employees who are eligible are auto-enrolled into the Plan on the date they meet the eligibility requirements. Employees may opt out of the auto-enrollment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute pre-tax compensation up to the lesser of the Federal Statutory limit, including the catch-up contribution, if applicable or 90% of the participant's annual compensation, subject to certain limitations, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Plan does not permit nondeductible contributions by participants.

The Company is required to make safe harbor contributions of 3% of all eligible employees' compensation on an annual basis.

Each year, the Company may contribute a discretionary profit-sharing contribution to participants. These contributions are subject to legal and compensation limitations. Generally, a participant must be employed on the last day of the year to receive a contribution.

During the year ended December 31, 2018, the Company made a $694,352 safe harbor and discretionary contribution to the Plan for the 2017 Plan year.

1. Description of the Plan (continued)

Vesting:

Participants are immediately 100% vested in their elective deferrals and earnings thereon. Vesting for employer contributions and earnings thereon is based on years of continuous service in accordance with the following table:

Completed years of service	Percentage of account balance vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Upon death or disability participants become fully vested.

Forfeited accounts:

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $1,946 and $51,371, respectively. Forfeitures from participant's nonvested accounts may be used to reduce employer contributions. The amount of forfeited nonvested accounts used in 2018 was $59,090.

Notes receivable from participants:

Active participants may borrow from their accounts an amount equal to the lesser of $50,000 or 50% of their vested account balance. Active participants can only have one outstanding loan at a time. The minimum amount a participant can borrow is $1,000. Loans are secured by the balance in the participant's account and bear interest at a rate equal to the Prime rate as published in the Wall Street Journal on the 14th day of each month plus one percent. The interest rate as of December 31, 2018 and 2017 was 6.25% and 5.25%, respectively. The note interest rate will be determined on the date of the loan request and will not change for the duration of the loan repayment period. Principal and interest is paid ratably through bi-weekly payroll deductions. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

1. Description of the Plan (continued)

Payment of benefits:

Upon termination of service due to death, disability or retirement at age 59 1/2, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a period of not more than a participant's assumed life expectancy (or the assumed life expectancy of the beneficiary).

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses) and charged with an allocation of administrative expenses, if any. Allocations are based on participant's share of employer contributions or account balances, as prescribed by the Plan. The benefit to which a participant is entitled is limited to the benefit that can be provided from the participant's vested account balance. The Plan allows participants to direct their and the Company's contributions to any of the provided investment alternatives.

2. Summary of significant accounting policies

Basis of accounting:

The accompanying financial statements are prepared under the modified cash basis of accounting, modified to record assets or liabilities with respect to cash transactions and events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. The modifications result in recording securities investments at fair value and notes receivable from participants on the statements of net assets available for benefits. This method of accounting represents a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). This basis of accounting differs from GAAP primarily because contributions to the Plan and dividends and interest are recognized when received rather than when earned and certain deductions from net assets are recognized when cash is disbursed rather than when the obligation is incurred.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Shares of mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

2. Summary of significant accounting policies (continued)

Investment valuation and income recognition: (continued)

Units of the common collective trust fund are valued based on the NAV per share as a practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Dividend and interest income are recognized when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are valued at their unpaid principal balance. Interest is recognized when paid. The Plan is required to review the collectibility of the outstanding loan balances and record an allowance for loans considered to be uncollectible. As of December 31, 2018 and 2017, no allowance for uncollectible loans was necessary.

Contributions:

Participant and employer contributions are recognized when received by the Trustee.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Certain expenses of administering the Plan are paid by the Company.

Use of estimates:

The preparation of financial statements in conformity with the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits as of the end of the Plan year and the reported amounts of changes in net assets available for benefits during the year. Accordingly, actual results could differ from those estimates.

2. Summary of significant accounting policies (continued)

Subsequent events:

The Plan Administrator has reviewed and evaluated subsequent events from December 31, 2018, the financial statement date, through October 10, 2019, the date the financial statements were available to be issued.

3. Investments (information prepared and certified by Reliance Trust Company and Ascensus Trust Company (the Trustees))

The following information included in these financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by Ascensus Trust Company (the former Trustee) as of December 31, 2017 and for the period from January 1, 2018 through January 31, 2018 and Reliance Trust Company (the Trustee) for the period from February 1, 2018 through December 31, 2018 and as of December 31, 2018.

Fair value of investments of $16,109,636 and $16,513,051 at December 31, 2018 and 2017, respectively.

Notes receivable from participants of $79,845 and $71,917 are also certified by the Trustees at December 31, 2018 and 2017, respectively. The interest rate on these receivables ranged from 4.25% to 6.25% in 2018 and 4.25% to 5.25% in 2017.

During the year ended December 31, 2018, dividend and interest income totaled $871,648. The Plan's investments (including investments bought, sold and held during the year) depreciated in value by $(1,755,041) during the year ended December 31, 2018. Interest income on notes receivable from participants was $3,238 for the year ended December 31, 2018.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustees have certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017 and schedule of assets (held at end of year) as of December 31, 2018.

- Investment income (loss) and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

3. Investments (information prepared and certified by Reliance Trust Company and Ascensus Trust Company (the Trustees)) (continued)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4. Fair value measurements

There are three levels of inputs used to measure fair value. The definition of each input is described below:

Level 1	Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair value measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common collective trust fund: Valued at the NAV of the units held by the Plan. The Fund invests in fully benefit-responsive investment contracts that are held at contract value. NAV is determined to be contract value, the value at which participants ordinarily transact. This practical expedient would not be used if it is determined to be probable that the Fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Investments at fair value as of December 31, 2018:

December 31, 2018	Level 1	Total
Mutual funds	**$ 16,109,636**	**$ 16,109,636**
Total assets at fair value		**$ 16,109,636**

4. Fair value measurements (continued)

Investments at fair value as of December 31, 2017:

December 31, 2017	Level 1	Total
Mutual funds	$ 16,395,495	$ 16,395,495
		16,395,495
Common collective trust fund measured at NAV*		117,556
Total assets at fair value		$ 16,513,051

*Certain investments that were measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017.

Investment	2017	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund	$ 117,556	N/A	Daily	None

5. Plan termination

It is the intent of the Trustees to continue the Plan in full force and effect. However, in the event of termination and in order to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved by the Trustees. In the event of termination, the Trustees shall first satisfy or make provisions to satisfy the obligations of the Plan. Any remaining assets will be distributed in such manner as will, in the opinion of the Trustees, bring about the purpose of the Plan. In the event of Plan termination, participants would become 100% vested in their employer contributions.

6. Tax status

The Plan adopted a Volume Submitter Profit Sharing Plan with CODA (Cash or Deferred Arrangement) which received a favorable opinion letter from the Internal Revenue Service as of March 31, 2008, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the Code) and that any employer adopting this form of the Plan will be considered to have a qualified plan under Section 401(a) of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its tax qualification. Although the Plan has been amended and restated since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

7. Risks and uncertainties

The Plan provides for various investment options in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the various risk factors, in the near term, could materially affect the participant's account balances and the amounts reported in the financial statements.

8. Party-in-interest transactions

As of December 31, 2017 and through January 31, 2018, certain Plan investments were shares of mutual funds managed by the former Trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the Trustees for the investment management services amounted to $5,709 for the year ended December 31, 2018.
