Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Stanley Black & Decker Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 and Note 9, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2018 and 2017, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Stanley Black & Decker Pension Plan

Notes to Financial Statements

Years Ended December 31, 2018 and 2017

1. Description of the Plan

The Stanley Black & Decker Pension Plan (the Plan) is a defined benefit plan which, prior to the plan mergers effective December 31, 2012 (see below), covered substantially all U.S. employees of The Black & Decker Corporation, Black & Decker (U.S.) Inc., Black & Decker Inc. and certain affiliated companies, other than those employees who were covered by other pension plans or by collectively bargained agreements that do not provide for their participation in the Plan. Black & Decker (U.S.) Inc. (the Company) is the Plan sponsor and Plan administrator. The Plan was previously amended whereby after December 31, 2006, with certain exceptions, no new employees would become covered under the Plan.

Effective December 31, 2010, the Plan was amended whereby benefit accruals for all participants under the Plan were frozen as of December 31, 2010. The accrued benefit of any participant shall not exceed the amount of his or her accrued benefit under the Plan as of December 31, 2010, and no participants shall receive benefit service and no additional benefits shall accrue for any period after December 31, 2010. Also, effective December 31, 2010, participation under the Plan was frozen, so that after December 31, 2010, coverage under the Plan is limited to participants who are already covered under the Plan on December 31, 2010.

Effective December 31, 2012, all of the assets and liabilities of the following defined benefit pension plans transferred to and merged into the Plan: Retirement Plan for Hourly-Rated Employees of Porter-Cable Corporation (Porter-Cable Plan); Retirement Plan for Hourly Employees of Price Pfister, Inc. (Price Pfister Plan); Pension Plan for Hourly Employees of the True Temper Sports Division Represented by the United Steelworkers of America (True Temper Plan); Best Lock Corporation Employees' Pension Plan (Best Lock Plan); Pension Plan for Employees of Sargent & Greenleaf, Inc. (S&G Plan); National Manufacturing Co. Pension Plan (National Manufacturing Plan); and Pension Plan for Employees of Lista International Corporation (Lista Plan) (collectively "the Merged Plans"). As a result of these mergers, participants covered under the Merged Plans became participants in the Plan. Separate benefit formulas and other provisions pertaining to benefit determinations are set forth in the Plan that continue to apply after December 31, 2012, to the participants who were previously covered under the Merged Plans.

In connection with the mergers, effective December 31, 2012, The Black & Decker Pension Plan was renamed the Stanley Black & Decker Pension Plan. All benefits under the Merged Plans were frozen prior to the effective date of the merger.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Effective December 31, 2013, all assets and liabilities of the HSM Electronic Protection Services, Inc. Pension Plan (HSM Plan) were transferred to and merged with the Plan. As a result of this merger, participants covered under the HSM Plan became participants in the Plan. Notwithstanding the foregoing, a separate benefit formula continues to apply to HSM Plan participants, as do certain other provisions pertaining to benefit determinations.

Effective December 31, 2018, all assets and liabilities of The Ferry Cap & Set Screw Company Pension Plan for Salaried Employees (Ferry Cap Plan) were transferred to and merged with the Plan. All benefits under the Ferry Cap Plan were frozen prior to the effective date of the merger. The amount transferred in was \$5,908,467. As a result of this merger, participants covered under the Ferry Cap Plan became participants in the Plan. A separate benefit formula continues to apply to Ferry Cap Plan participants, as do certain other provisions pertaining to benefit determinations.

The Company's funding policy is to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. For 2018 and 2017, there were minimum required contributions to the Plan of \$10,974,795 and \$11,356,841, respectively, prior to the application of funding balances which exceed the required minimum contributions. The Company made contributions to the Plan of \$0 and \$5,000,000 pertaining to 2018 and 2017, respectively. The Plan has met the Employee Retirement Income Security Act (ERISA) minimum funding requirements.

Information about the Plan, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in a Summary Plan Description. Copies are available from the Plan administrator.

2. Significant Accounting Policies

Basis of Accounting and Estimates

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP). US GAAP requires management to make estimates and assumptions that can affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. While management believes that the estimates and assumptions used in the preparation of the financial statements are appropriate, actual results could differ from these estimates.

2. Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investment consists of an interest in the Stanley Black & Decker, Inc. Pension Master Trust (Master Trust) (Notes 4 and 9). The fair value of the Plan's interest in the Master Trust is based on the fair value of the underlying assets held in the Master Trust as adjusted for contributions, investment earnings and losses and actual benefit distributions.

Marketable securities within the Master Trust are stated at fair value. Securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. The Plan, through its investment in the Master Trust, may utilize derivative financial instruments to manage market risk, including futures contracts for trading or hedging purposes. Derivative financial instruments are marked to market and reflected in the net appreciation or (depreciation) amount at fair value in the Statements of Changes in Net Assets Available for Benefits.

The change in the difference between fair value and the cost of investments is reflected as unrealized appreciation or (depreciation) in the aggregate fair value of investments. The realized gain or (loss) on investments is the difference between the proceeds received and the average cost of investments sold. The total unrealized appreciation or (depreciation) and the realized gain or (loss) is reflected as net appreciation or (depreciation) of Plan assets within the operating results of the Master Trust.

Fair Value of Investments

The Plan follows Financial Accounting Standards Board (FASB) Accounting Standards Codification 820, *Fair Value Measurement and Disclosures* (ASC 820), for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the Master Trust financial statements on a recurring basis. ASC 820 defines fair value, establishes a fair value hierarchy, and expands disclosures about fair value measurements.

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability.

The fair value is calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities includes consideration of non-performance risk including the Plan's own credit risk.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

In addition to defining fair value, ASC 820 expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels which is determined by the lowest level input that is significant to the fair value measurement.

These levels are:

Level 1 – Inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 - Inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

Following is a description of the valuation methodologies used for assets measured at fair value within the Master Trust. There have been no changes in the methodologies used to determine fair value at December 31, 2018 and 2017.

Short-Term Investments – Level 1 short-term investments are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 short-term investments are valued based on quoted prices for identical or similar assets or liabilities in non-active markets or pricing models for which inputs are observable.

Equity Investments – Level 1 securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 securities are valued using the net asset value or unit value as reported by the investment managers. Level 3 securities consist mainly of limited partnership funds valued based on third party valuations for which significant unobservable inputs are not reasonably available.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

Government Securities – Level 1 government securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 government securities are valued at the closing price of similar assets in active markets.

Corporate Securities – Level 2 securities are valued at the closing price of similar assets that have recently traded.

Benefits

Benefit claims are recorded as deductions when they have been approved for payment and paid by the Plan.

Administrative Expenses/Related Party Transactions

To the extent permitted by ERISA, certain Plan actuarial and investment advisory fees, PBGC premiums, and some other direct expenses are paid by the Plan from Master Trust assets. Certain other expenses are paid by the Company.

Annuity Contract

Pursuant to the regulatory guidelines pertaining to the transfer of assets and liabilities from the Plan, a \$30,058,606 group annuity insurance contract was purchased in October 2017 based on the identification and valuation of obligations relating to certain Plan participants as of October 18, 2017. Each participant, alternate payee or beneficiary, who was receiving or entitled to receive monthly annuity payments under the Plan on or before July 1, 2017, that did not exceed a stipulated amount under the Plan, and was receiving such annuity payments on the date of purchase of the contract, became entitled to an annuity benefit under the annuity contract commencing January 1, 2018. As a result of the purchase of the annuity insurance contract, the insurer has a legal obligation to make all benefit payments for which it has received the premiums or requested consideration. Thus, the annuity insurance contract, and the related benefit obligation is not reflected in the Plan's net assets available for benefits. The initial quote of \$30,058,606 was paid in 2017 while the final revised certified census quote totaled \$29,002,281. The Plan recorded a receivable of \$1,067,977 from New York Life Insurance Company as of December 31, 2017, which included accrued interest of \$11,652, and was received by the Plan during 2018.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Recently Adopted Accounting Pronouncements

In February 2017, the FASB issued ASU 2017-06, Employee Benefit Plan Master Trust Reporting, which updates certain presentation and disclosure requirements relating to master trusts. The amendment changes certain disclosure requirements for plans with divided interests, and also requires all plans to disclose their master trust's other asset and liability balances and the dollar amount of the plan's interest in each of those balances. The amendments are effective for all plan years beginning after December 15, 2018 and are applied retrospectively. The Plan elected to early adopt ASU 2017-06 starting with the plan year ended December 31, 2016, and the disclosures in Note 9 are presented accordingly. The adoption of ASU 2017-06 added the dollar amount of the Plan's interest in the Master Trust's other asset and liability balances.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable under a plan's provisions to services rendered by employees. These include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e. retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plans' third party actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

3. Accumulated Plan Benefits (continued)

Accumulated plan benefit information at the beginning of the Plan year, is as follows:

	January 1,	
	2018	2017
Vested benefits:		
Participants currently receiving payments	\$ 603,715,106	\$ 639,787,030
Participants with deferred benefits	153,596,094	153,006,018
Active employees	96,537,557	101,478,082
Total vested benefits	853,848,757	894,271,130
Non-vested benefits	4,529,470	4,875,471
Total present value of accumulated benefits as of January 1, 2018	\$ 858,378,227	\$ 899,146,601

The following is a reconciliation of the actuarial present value of accumulated benefits (PVAB) as of January 1, 2018:

Present value of accumulated benefits as of January 1, 2017	\$ 899,146,601
Changes during the year due to:	
Benefits paid	(100,556,480)
Decrease in the discount period	53,054,273
Actuarial losses	6,733,833
Net decrease	(40,768,374)
Present value of accumulated benefits as of January 1, 2018	\$ 858,378,227

The actuarial present value of accumulated plan benefits for the Ferry Cap Plan (Note 1) as of the beginning of the year, January 1, 2018, was \$6,475,167.

3. Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the valuation of the Plan are:

	2018	2017
Discount rate	6.25%	6.25%
Mortality basis	<u>Healthy Mortality</u> Separate rates for non-annuitants (based on RP-2014 Employees table) and annuitants (based on RP-2014 Healthy annuitants table) with a 5.4% multiplier, adjusted back to 2012 with Scale MP-2014 and then Scale BB-2D for future mortality improvements from 2012 on with separate rates for males and females. <u>Disabled Mortality</u> - Separate rates for males and females based on RP-2014 Disabled Retirees table with a 5.4 % multiplier without collar and Scale BB-2D for future mortality improvements from 2014 on.	<u>Healthy Mortality</u> Separate rates for non-annuitants (based on RP-2014 Employees table) and annuitants (based on RP-2014 Healthy annuitants table) with a 5.4% multiplier, adjusted back to 2012 with Scale MP-2014 and then Scale BB-2D for future mortality improvements from 2012 on with separate rates for males and females. <u>Disabled Mortality</u> - Separate rates for males and females based on RP-2014 Disabled Retirees table with a 5.4 % multiplier without collar and Scale BB-2D for future mortality improvements from 2014 on.

3. Accumulated Plan Benefits (continued)

The rates at which participants are assumed to retire by age are:

	2018	2017
Age 55-58	5%	1-15%
Age 59:	7.5%	1-15%
Age 60:	10%	5-25%
Age 61:	10%	10-35%
Age 62:	20%	15-30%
Age 63:	15%	10-50%
Age 64:	15%	10-35%
Age 65:	40%	40-100%
Age 66:	40%	20-100%
Age 67:	20%	20-100%
Age 68:	20%	20-100%
Age 69:	25%	30-100%
Age 70+:	100%	100%

For certain Merged Plans the retirement age which participants are assumed to retire by is age 65.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable to determine the actuarial present value of accumulated plan benefits.

4. Information Prepared and Certified by Trustee

The Bank of New York Mellon is Trustee under the Master Trust. All investment information related to the Master Trust that is disclosed in the accompanying financial statements, including investments held at December 31, 2018 and 2017, and net investment income (loss) of Master Trust, for the years then ended, was obtained or derived from information supplied to the administrator of the Plan, and certified as complete and accurate by the Trustee.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated August 9, 2017, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, is not subject to tax under the present income tax law. Since the form of the Plan is qualified, the Plan is required to operate in accordance with its terms in order to maintain its qualification. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. The Plan has been amended since receiving the determination letter in 2017.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

5. Income Tax Status (continued)

The Plan administrator, which consults regularly with legal counsel regarding Plan matters, believes that the Plan is currently being operated in accordance with its terms. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no tax audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2015.

6. Risks and Uncertainties

The Plan, through its participation in the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- a. That portion of a participant's benefit derived from his or her own contributions.
- b. Benefits that former employees or their beneficiaries have been receiving for at least three years as of the date of the Plan termination, or that employees who were eligible to retire at least three years prior to the date of the Plan termination would have been receiving if they had retired and received benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest amount that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the PBGC up to applicable limitations (discussed below).

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

7. Plan Termination (continued)

- d. All other vested benefits not insured by the PBGC.
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. There is also a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2018 and 2017, the monthly ceiling was \$5,420 and \$5,369, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted downward.

The PBGC guarantee described above does not apply to the Plan benefits that are provided pursuant to Group Annuity Contract No. GA-34451 issued by New York Life Insurance Company. This contract is held by the Company to provide Plan benefits for certain participants who were receiving or entitled to receive benefit payments under the Plan immediately prior to October 17, 2017.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, the financial condition of the Company and the level of benefits guaranteed by the PBGC.

If participants receive all of their benefits pursuant to the termination of the Plan, any assets remaining after the benefits are provided will be returned to the Company.

8. Party-in-Interest/Related Party Transactions

Plan assets include investments in funds held by The Bank of New York Mellon which serves as the Plan's Trustee, and performs certain administrative services for the Plan and as such, these transactions qualify as party-in-interest transactions under ERISA. These party-in-interest transactions are deemed not to be prohibited because they are covered by statutory and administrative exemptions pursuant to the IRC and the rules under ERISA regarding prohibited transactions.

9. Investment in Master Trust

The Plan's investments consist of an interest in the Master Trust. The Master Trust was created and maintained for certain employee pension benefit plans sponsored by the Company, including the Plan. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses. At December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was 89.34% and 91.18%, respectively. Investment income and administrative expenses related to the Master Trust are allocated to the individual pension benefit plans for which assets are held under the Master Trust, based upon average monthly balances invested for each plan.

The following is a summary of the financial information and data for the Master Trust certified by the Trustee as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

At December 31, 2018 and 2017, the Master Trust held approximately 61% and 59%, respectively, of its assets in government and corporate debt securities with the remainder allocated among various equity investments as well as a small allocation to alternative investments. The short-term investments were split between levels 1 and 2 based on the type of investment, with government securities being assigned to Level 1 and money market instruments being assigned to Level 2. The debt securities were split between levels 1 and 2 based on their liquidity, with U.S. Treasury securities being assigned to Level 1 and corporate debt securities assigned to Level 2. The Master Trust's equity holdings were split between levels 1 and 2 based on the type of investment, with publicly quoted equities held in a separately managed account placed in Level 1 and investments held in commingled funds and similar vehicles, which are recorded at the net asset value based on the market prices of the underlying securities, placed in Level 2.

10. Fair Value Measurement (continued)

The following table sets forth a summary of changes in the fair value of the Level 3 assets of the Master Trust assets for the years ended December 31, 2018 and 2017, respectively:

	Years Ended December 31,	
	2018	2017
Balance, beginning of year	\$ 28,663,602	\$ 32,204,117
Purchases	1,340,000	1,455,000
Sales	(7,400,948)	(8,436,973)
Net realized and unrealized appreciation	4,514,803	3,441,458
Balance, end of year	<u>\$ 27,117,457</u>	<u>\$ 28,663,602</u>

The Master Trust's investments include limited partnership interests, which had an aggregate fair value of \$27,117,457 and \$28,663,602 at December 31, 2018 and 2017, respectively. The fair value of these limited partnership interests is determined by the general partners based upon the Master Trust's pro rata ownership in the investments held by the partnerships. Investments in limited partnerships are recorded at market value using external pricing sources or, when such sources are not readily available or deemed inappropriate, at fair values determined by the general partners. The determination by the general partners of estimated fair values of certain illiquid investments includes, among other methods such as the use of external pricing models, obtaining valuation-related information from third-party investment firms and pricing services, and performing other research activities. Such determinations involve subjective judgment as the value of these limited partnership investments is generally ultimately determined by negotiation between parties in a sales transaction. The carrying value recorded in the financial statements of the Master Trust's investments in these limited partnership interests may differ materially from the amounts ultimately realized from these limited partnership interests and from the values that would have been reported in the financial statements had a ready market for these partnership interests existed.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

10. Fair Value Measurement (continued)

The following tables set forth a summary of Master Trust equity investments which are recorded at net asset value as of December 31, 2018 and 2017, respectively.

December 31, 2018				
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	\$ 73,692,938	n/a	Daily / Semi- Monthly	none
Private equity *	27,117,457	\$ 4,580,000	n/a	n/a
December 31, 2017				
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust	\$184,805,444	n/a	Daily / Semi- Monthly	none
Private equity *	28,663,602	\$ 5,620,000	n/a	n/a

* This category includes several private equity partnerships that have equity ownership in underlying portfolio companies. These partnerships invest for terms of 7 years on average and are generally illiquid. The fair value of these funds has been determined using the net asset value of the ownership interest in the funds, which are determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

At December 31, 2018 and 2017, the Master Trust held no derivative financial instruments.

11. Subsequent Events

The Plan has evaluated events occurring between December 31, 2018 and October 10, 2019, the date the financial statements were available to be issued. There were no subsequent events identified.

Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2017 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Stanley Black & Decker, Inc. regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Stanley Black & Decker, Inc. and based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Stanley Black & Decker, Inc., through its third party administrator Wells Fargo, furnished participant data as of January 1, 2018. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, for approximately 200 deceased participants whose beneficiary status is unknown, we assumed the beneficiary's benefit is equal to 50% of the original participant's benefit.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year, adjusted to reflect changes in the PBGC premiums.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.

Termination

Termination rates are based on an experience study conducted in 2017 based on actual participant experience from 2013 to 2016.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

SCHEDULE SB ATTACHMENTS

■ Deferred vested benefit	Deferred vested benefit commencement ages are based on an experience study conducted in 2017 based on actual participant experience from 2013 to 2016.
Form of payment	The assumed form of payment is based on an experience study conducted in 2017 based on actual participant experience from 2013 to 2016.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	---

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	■ The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2016 to September 2017 and reflect the interest rate corridors of HATFA. ■ The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements as required by IRC 430. ■ The expected administrative expenses assumption amount decreased from \$5,000,000 for the 2017 plan year to \$3,500,000 for the 2018 plan year. ■ Termination rates, retirement rates for actives and terminated vested participants, and form of payment assumptions were updated to reflect the 2017 experience study.

Schedule SB, Part V Summary of Plan Provisions

Black & Decker Pension Plan

Plan Provisions

The plan was amended and restated January 1, 2007. Most recently amended effective October 11, 2017.

Covered employees	One year of eligible service is required for participation. All participants under a prior plan before January 1, 1992 are automatically included. Participation closed to new employees hired on or after January 1, 2007.
--------------------------	---

Definitions

Vesting service	Vesting service is determined on an elapsed time basis with rounding of partial months.
Credited service	Credited service is frozen.
Pensionable pay	Section 415 compensation plus elective deferrals prior to January 1, 1998 but excluding expense allowances, non-fringe benefits, moving expenses, non-qualified deferred compensation, welfare benefits or payments under Incentive or Equity Plan.
Average earnings	Average earnings are frozen.
Normal retirement date (NRD)	First day of the month coinciding with or next following the attainment of age 65.
Monthly pension benefit	1.0% of Final Average Pay (base percentage) plus 0.425% of Final Average Pay in excess of Covered Compensation (excess percentage), times Benefit Service Credit after December 31, 1991. Service for the excess formula is limited to 35 years, including service under the Prior Plan. plus The benefit calculated under the Prior Plan, as of December 31, 1991 multiplied by Final Average Pay at date of termination divided by Final Average Pay at December 31, 1991, not less than one.

Monthly preretirement death benefit	Return of Prior Plan accumulated contributions (if applicable) with credited interest. The spouse will receive a monthly annuity based on the Joint and 50% Survivor Annuity Option
--	---

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD and on or after both attaining age 55 and five years of vesting service credit. Attaining age 55, for employees covered under a prior plan whose early retirement eligibility was age 55 without regard to service.
Postponed retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after becoming 100% vested with five or more years of vesting service credit, or at age 65, regardless of service.
Disability	Disability while in employment and before age 65.
Preretirement death benefit	Death of an active, married participant who has completed at least five years of service or a vested terminated married participant.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Normal retirement benefit decreased by 1/4% per month for the first 60 months and by 1/3% per month for the next 60 months that commencement precedes age 65. For employees meeting the Rule of 90 requirement (age plus vesting service credit equal or exceed 90), no reduction for retirement between ages 62 and 65. Accrued pension decreased by 1/4% per month for the first 24 months and by 1/3% per month for the next 60 months that commencement precedes age 62.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Vested termination	Accrued pension based on benefit service credit to termination date. Benefit is payable starting at age 65. Benefits may commence as early as age 55 decreased by 3/4% per month for the first 48 months and 5/12% per month in excess of 48 months prior to age 65. An employee's vested benefit in the Plan cannot be less than his vested benefit under a Prior Plan.

SCHEDULE SB ATTACHMENTS

Disablement	Any termination or early retirement benefit for which the participant qualifies. Payments commence as soon as practicable following the approval of the application for benefits.
Preretirement death	If the participant has not reached early retirement eligibility at death, on the date he would have reached early retirement had he lived, or if the participant is eligible for early retirement, immediately. The spouse may defer commencement up to the participant's NRD.

Other Plan Provisions

Forms of payment	For a single participant the normal form of payment is a monthly pension ceasing at the retired participant's death. For a married participant the normal form of payment is a reduced monthly pension which allows for a continuation of payments equal to one half of the reduced pension to the surviving spouse after the participant's death. Any participant may elect, by written application, to receive the normal benefit or other optional forms of benefit payment. Optional forms of payment include: life annuity, 50%, 66 2/3%, 75% and 100% joint and survivor annuities, 5-year or 10-year certain and continuous annuity, and Level Income Annuity (with Social Security). If the present value of Accrued Pension is less than or equal to \$1,000, a cash-out payment will be made.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Willis Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

The Stanley Black & Decker Pension Plan enacted a small benefit retiree annuity purchase in October 2017, resulting in \$30,058,606 of annuity purchases.

Summary of principle plan provisions different from main plan

Best Lock

Plan Provisions

The original plan was effective September 1, 1989. The plan was amended and restated effective January 1, 2011. Most recently amended effective December 31, 2012. The Best Lock plan merged into the Stanley Black & Decker Pension Plan effective on the close of business December 31, 2012. Eligibility and benefits are frozen.

Covered employees

Employees include persons actively employed by the Company on September 1, 1989 who completed at least one hour of service before September 1, 1989 or persons on an authorized leave of absence on September 1, 1989 or totally disabled on September 1, 1989. Employees are eligible to participate in the plan at the later of the attainment of age twenty-one, completion of one year of service, or September 1, 1989.

Definitions

Monthly pension benefit

The product of:

- (i) 1% of participant's base pay
- (ii) The greater of:
 - (a) 2
 - (b) Elapsed time from date of hire to August 31, 1989, measured in years and complete months.

Monthly preretirement death benefit

For vested participants. A benefit equal to half of the monthly pension benefit reduced for early retirement is payable to the surviving spouse. For active participants, the monthly pension benefit is deferred to the date the participant would have become eligible for early retirement.

Eligibility for Benefits

Postponed retirement

Payment of normal retirement benefits may be deferred beyond NRD, provided that the participant completes 40 hours of service per month.

Benefits Paid Upon the Following Events

Early retirement	The early retirement benefit is equal to the monthly pension benefit, reduced by 5/12 of 1% for each full calendar month by which benefit commencement precedes the normal retirement date.
Vested termination	The participant's accrued monthly pension benefit is provided. Payments commence on the first day of the month coinciding with, or following the participant's normal retirement date. Vested benefits are payable as early as age 55, if the participant had five years of service at termination. Benefits payable prior to NRD are reduced as for early retirement.
Disablement	Not applicable

Other Plan Provisions

Forms of payment	Single employees – Life annuity Married employees – Unreduced 50% joint and survivor annuity and 75% joint and survivor. Optional forms of payment are determined using UP-84 mortality table and 8% interest. Joint and 75% survivor option is available, determined using the mortality table in Revenue Ruling 2001-82 and 5% interest and is actuarially equivalent to the Life Annuity.

Monthly preretirement death benefit For a vested active employee or former employee who dies after attaining age 55, the benefit is calculated as if the employee had retired on the first of the month in which he died with the automatic form of benefit in effect. For such employee who dies prior to attaining age 55, the benefit commences when the deceased employee would have attained age 55 and is calculated as if the employee had terminated employment on his date of death and commenced receiving a reduced deferred vested benefit at age 55 with the automatic form of benefit in effect. For employees who terminated prior to January 1, 1992, Benefits of employees and their surviving spouses are reduced to reflect the cost of the coverage during the period it is in effect, except that there is no charge while the employee is in active service after age 55 or during the deferral period after an employee retires early and defers commencement of his benefit. During the period where a reduction in benefit change is assumed for such coverage, employee can reject coverage but requires spouse's consent.

Eligibility for Benefits

Early retirement	Retirement before NRD and after both attaining age 55 and completing ten years of continuous service *Active employees, between June 16, 1999 and December 31, 1999, were eligible for early retirement if they were age 54 with ten or more years of continuous service as of December 31, 1999.
Vested termination	Five years of continuous service
Disability	Disability prior to NRD after completing ten years of continuous employment

Benefits Paid Upon the Following Events

Early retirement	Accrued normal retirement pension as of early retirement date commencing at age 62 or reduced if commencing before age 62 by 1/3 of 1% for each month that the benefit commences before age 62. *Active employees, between June 16, 1999 and December 31, 1999, were eligible for early retirement if they were age 54 with ten or more years of continuous service as of December 31, 1999. Benefits were unreduced for employees age 59 with ten or more years of continuous service.

Disability	Fifteen years of continuous service and permanently disabled for at least six months
Preretirement death benefit	Death in active service after 15 years of continuous service or eligible for an immediate pension
Preretirement spouse's benefit	Employee can elect pre-pension coverage if he is age 55 or older with 15 years of continuous service or age 60 with 10 years of continuous service, or age 65 or older.
Vested spouse's benefit	Death after permanent incapacity prior to age 62 or after 5 years of continuous service and not eligible for pre-pension spouse's benefit.
Special payment	Eligible for normal or early retirement

Benefits Paid Upon the Following Events

Early retirement	Monthly pension benefit payable at age 62 or reduced by 1/2 of 1% for each month that commencement precedes age 62. Reductions apply only to participants who are eligible with 15 years of Continuous Service and age 60.
Disablement	Monthly pension benefit plus \$230 supplement payable until social security benefits commence or age 62, if earlier; the monthly pension benefit is payable thereafter.
Preretirement spouse's benefit	The spouse's pension is calculated as if the employee had terminated employment on his date of death with the automatic form of pension in effect. For participants with a break in continuous service prior to January 1, 1992, pensions of the employees and their surviving spouses are reduced 7/10% per year the coverage is in effect, to reflect the cost of the pre-pension coverage.
Vested spouse's benefit	50% of the accrued monthly pension at earlier of death or termination assuming participant lived to date benefits were payable and elected 50% Joint and Survivor Annuity.
Special payment	Thirteen weeks' vacation pay (14 weeks if participant currently receives more than 4 weeks of vacation per year) reduced by any vacation taken in the year of retirement. If participant receives special payment, monthly pension is deferred three months.
