Note 1 - DESCRIPTION OF PLAN

The following brief description of the Magellan Aerospace, Middletown Pension Plan & Trust (the Plan) is provided for general information purposes. Prior to a name change amendment effective January 1, 2013, the Plan was formerly known as the Aeronca, Inc. Pension Plan. Participants should refer to the *Summary Plan Description*, which is available from the Company, for more complete information.

General

The plan is a noncontributory defined benefit pension plan, which provides retirement, disability and death benefits to eligible employees of Magellan Aerospace, Middletown, Inc. (Company) and of the Engineered Magnetics, Inc. Retirement Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to fund the benefits to be paid to plan participants. The Company's present intention is to make annual contributions in amounts sufficient to fund the Plan's accrued liability. The Plan has met the ERISA minimum funding requirements.

Frozen Plan

Effective January 1, 1994, the Board of Directors of the Company amended the Plan to fully vest all employees in their benefits and freeze those benefits. Additional benefits will not accrue for future service rendered by employees participating in the Plan. The amendment did not terminate the Plan, nor is it intended that the Plan will be liquidated. Rather, it is anticipated that benefit payments will be made out of Plan assets in the normal time frame indicated in the Plan's provisions when employees meet certain eligibility requirements.

Payment of Benefits

Benefit payments are typically a single-life annuity commencing on the normal retirement date at age 65 (early retirement may be elected after age 55 with reduced benefits) which is payable for the life of the participant. Optional forms of payment are also available. Benefits are based upon the length of service and earnings patterns prior to retirement.

Plan Merger

Effective September 30, 2002, the Engineered Magnetics, Inc. Retirement Plan merged into, and became a part of, the Plan, with all accrued benefits, assets and liabilities of the Engineered Magnetics, Inc. Retirement Plan becoming accrued benefits, assets and liabilities of the Plan. The total assets transferred amounted to \$767,940 and the actuarial present value of accumulated plan benefits as of October 1, 2001 calculated using the same assumptions as the Plan amounted to \$1,062,667. The Engineered Magnetics, Inc. Retirement Plan was a frozen plan sponsored by the Company that had a September 30 fiscal year end.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires that the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the plan at year end. Participant loans are valued at amortized cost, which represent fair value. The stock is valued at its quoted market price. Dividend income is accrued on the ex-dividend rate. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

Note 3 - TAX STATUS OF PLAN

The Internal Revenue Service has determined and informed the Company by a letter dated November 29, 1995 that the Plan is qualified and the related trust established under the Plan is tax-exempt, under the appropriate sections of the Code. An advisory letter was issued on December 2, 2002 through the Volume Submitter program. On June 29, 2012, the Plan received an updated, favorable determination letter from the IRS.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not, wouldn't be sustained upon examination by the applicable authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosures in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan Administrator believes it is no longer subject to income examination for years prior to 2015.

Note 4 - ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered up until the date the Plan was frozen. The actuarial present value of accumulated plan benefits is determined by the Company's consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected payment date.

The significant actuarial assumptions used to determine the actuarial present value of accumulated plan benefits include a retirement age of 65, and segment interest rates of 2.05%, 3.61%, and 4.27%; with life expectancy of participants based on the 2018 Applicable Mortality Table.

Note 4 – ACCUMULATED PLAN BENEFITS (continued)

The actuarial present value of accumulated plan benefits as of the most recent actuarial valuation date is summarized as follows:

	January 1, 2018
Vested benefits:	
Participants currently receiving payments	\$ 6,621,026
Deferred vested termines	852,461
Active employees	<u>77,216</u>
	7,550,703
Non-Vested Benefits	-0-
Other Vested Benefits	<u>-0-</u>
	<u>\$ 7,550,703</u>

For 2018, the amount of accumulated plan benefits decreased by approximately \$372,000 from 2017.

NOTE 5 – FAIR VALUE MEASUREMENT

The Financial Accounting Standards Board's Accounting Standards Codification ("FASB ASC") defines fair value as the price that would be received upon sale of an asset or paid upon transfer of liability in orderly transaction between market participants at the measurement date and in the principal or most advantageous market for the asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The FASB ASC specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). In accordance with the codification under GAAP, the following summarizes the fair value hierarchy:

Level 1 Inputs - Unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Inputs - Inputs, other than the quoted prices in active markets that are observable either directly or indirectly.

Level 3 Inputs - Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

MAGELLAN AEROSPACE, MIDDLETOWN PENSION PLAN & TRUST

Notes to Financial Statements
December 31, 2018 and 2017

NOTE 5 - FAIR VALUE MEASUREMENT (continued)

Mutual Funds - are valued at the quote net asset value ("NAV") of shares held by the Plan at year end, which is based on the fair market value of the underlying securities or investments in the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust - is valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchase and sales) may occur daily. There are no redemption notice period for the individual participant level; however there is up to a 12 month redemption notice period or the Plan level. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers of investment between different levels of the fair value hierarchy are recorded as of the end of the reporting period. The following table sets forth, by level within the fair value hierarchy, a summary of the Plan's investments that were measured at fair value on a recurring basis as of December 31, 2018 and 2017.

The fair value disclosures include this change.

Note 6 - INVESTMENTS AND INFORMATION CERTIFIED BY THE CUSTODIAN

Some of the Plan's investments are held by Nationwide Trust Company.

The Plan administrator has elected the method of compliance as permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2018 and 2017. According to Nationwide, the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Schedule of Net Assets Available for Benefits as of December 31, 2018 and 2017, and the supplemental Schedule H Line 4(i) Schedule of Asset (Held at End of Year) as of December 31, 2018 and the related investment activity reported in the Statement of Change in Net Assets Available for the year ended December 31, 2018.

Note 7 - ADMINISTRATION OF PLAN ASSETS

Certain administrative functions are performed by officers or employees of the Company or its affiliates. No such officer or employee receives compensation from the Plan. Administrative expenses for the Custodian's fees are paid directly by the Plan.

Note 8 - RISKS AND UNCERTANTIES

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk with certain investment securities, it is at least reasonably possible that changes in the valuation of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Nationwide. Nationwide is the custodian as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to \$6,500 and \$23,701 for the plan year ended December 31, 2018, and December 31, 2017 respectfully.

Note 10 - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. To that portion of each individual's accrued benefit derived from the participants voluntary contributions, if any.
- b. To benefits which commenced prior to the third anniversary preceding the date of termination of the Plan to the extent the benefits are based on the provisions of the Plan as in effect during the five year period preceding the date of termination of the Plan under which the benefit would be the least.
- c. To benefits which would have commenced prior to the third anniversary preceding the date of termination of the Plan had the participant retired on the day before said anniversary to the extent the benefits are based on the provisions of the Plan as in effect during the five year period preceding the date of termination of the Plan under which the benefit would be the least.
- d. To benefits which are guaranteed by the Pension Benefit Guaranty Corporation (PBGC).
- e. To benefits which would have been guaranteed by the Pension Benefit Guaranty Corporation (PBGC) had the participant not been a substantial owner as defined under ERISA.
- f. To all other non-forfeitable benefits.
- g. To all other benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2018 that ceiling is \$5,420 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

During 2018, the Plan engaged Dietrich Associates to consult on a potential Terminal Funding for 2019. Please refer to Note 13 for further information in regards to this.

Note 11 - MAJOR INVESTMENTS

The Plan has had investments whose current value individually represent 10% or more of the Plan's total net assets. For the year-ended December 31, 2018 and 2017, no one fund accounted for 10% or more of net assets.

Note 12- RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

There are no material differences between the financial statements and the Form 5500.

Note 13 - SUBSEQUENT EVENTS

Management has evaluated the need for disclosures and/or agreements resulting from subsequent events through October 4, 2019. Based on this evaluation, no adjustments were required to the Financial Statements as of December 31, 2018.

During 2019, amendments were proposed for a plan termination as of December 31, 2019. On July 1, 2019, 226 retirees who were receiving a benefit were annuitized out of the plan with Mutual of Omaha. The Plan will also be restated in 2019. As of October 4, 2019, termination has not yet completed.

Despite the proposed amendments made in 2019, these events have no direct impact on the figures for the years ended, December 31, 2018 and 2017.
